Canada	2.25	Big Muddy	1.50

Prominent Members of War Service Board in Tulsa.

T. H. Gregory, chief of the bureau of natural gas of the oil division and H. E. Green with the legal department of the oil division, were in Tulsa last week and are now looking over the situation in Texas and are gathering data that will enable them to make a report with reference to the use of natural gas for domestic consumption and the conservation of gas whenever the time comes that the oil division goes out of business.

W. L. Beall, who was assistant counsel for the oil division, was in Tulsa yesterday and says that the above mentioned were among the very best that were devoted to government service during the war. Mr. Beall is back on his job as an attorney at Muskogee, where he enjoys a large business among the oil fraternity.

New Officers at Country Club

The new board of directors of the Country club rendered a complimentary dinner at the clubhouse last evening to Capt. H. Y. Arnold, the retiring president of the club.

About 25 guests were present, including all former directors who had served during Captain Arnold's 10 years of office.

In appreciation of the splendid service and abilities that Captain Arnold has shown in making the Tulsa Country club one of the most successful organizations of its kind in the southwest, he was presented with a life membership in the club, the membership card being handsomely engraved on a gold plate encased in leather.

Announcement was made during the dinner that Dr. S. G. Kennedy had again shown his generosity towards the club by donating money for the erection of a caddy house to be built in the same style of architecture as the club building.

At the annual meeting of the Country club held a few days ago the following officers were elected for the ensuing year:

Dana H. Kelsey, president; L. J. Martin, vice president; John A. Arnold, secretary and treasurer; Jay C. Painter, chairman greens committee; John King, chairman house committee; Burt C. Collins, chairman finance committee; D. C. Bothwell, chairman tournament committee; E. W. Sinclair, director; J. H. McKwen, director; Dr. J. W. Beyer, director.

Captain Baker Is Back.

Capt. W. G. Baker, who left Tulsa at the very beginning of the war in May, 1917, for the officers training camp, is back from France, and is receiving a warm welcome from his numerous friends in Tulsa. He wears the insignia of the "Acorn division" made up of Oklahoma officers and New York troopers. He landed on the 9th at New York and with him came Capt. John Rogers, who won his promotion to regimental adjutant in France. He says that Ralph Berry is on the staff of a general over there. Robert Galbreath, jr., is still in France. Capt. Harry Frantz, a nephew of Governor Frantz, is back, and of course Lieut. Homer Gray, who has been mentioned in this column. Captain Baker is looking mighty well and will be at home in Sapulpa from now on. He was accompanied to Tulsa yesterday by Mrs. Baker. It will be remembered that they were married a year ago and it certainly is a mighty happy reunion.

New From Dallas.

By PRENTISS T. MOORE

DALLAS, Texas, March 19.—The Tex-Penn Oil company has drilled its No. 1 Knowles in the Duke-Knowles pool deeper and the well is flowing 160 barrels an hour today. Yesterday for an hour or two after being deepened it flowed at the rate of 400 barrels an hour.

The Skelly & Sankey well in the same pool, which has been producing for several weeks, still increases its output and some experts think if the well were rilled in it might make the best producer in the pool.

The Gladstone Oil & Refining Co. well on the Oscar Stephenson farm Carter survey about half way between the northern end of the Ranger pool and the Veale well, is rated at 200 barrels in top of the sand. Some reports have been much exaggerated. Interest now centers on western edge of Ranger pool where other gushers are soon to be deepened.

Will Shoot Important Well.

The Gypsy Oil company will shoot its very important well in 6-19-5 west of Yale today if everything goes all right.

B. L. Carpenter and Mark Finston are drilling at 500 feet in the southeast of 3-26-8, one mile west of the Minnehoma well mentioned above.

Another Sand West of Beggs.

The Livingston Oil corporation drilling on the Lucinda Marshall No. 1 for the least, in 25-15-11 have a showing of very high grade oil at 2,793 feet and are shut down on top of the sand reducing the hole, and will drill deeper within a day or two. It shows the remarkable productiveness of range 11 which has sand at all the different depths. It is 42 gravity oil which is about as good as Pennsylvania crude or any other high grade oil.

Cowley County, Kansas.

The Legonda Oil company No. 1 Daniels in the center of lot 4 in 7-30-5 is underreaming at 1,700 feet.

The Mineola Oil company No. 1 Russels in the center of the northeast quarter of 27-31-3 is a rig.

The Empire has material on the ground for No. 1 Krow in the southeast of the southeast of 33-31-5.

The Stark Petroleum company No. 1 Elliott in the southwest of the southeast of the southeast of 24-31-5 is drilling at 2,600 feet.

The Plymouth Petroleum company No. 1 Hiatt in lot 9 of 6-31-5 is underreaming at 1,900 feet.

The Empire Gas & Fuel Co. is fishing for tools at 1,440 feet No. 1 McFall in the center of the southwest of the southwest of 25-32-4.

The same firm No. 1 Lowe in the southeast of the southeast of 2-32-5 is drilling at 2,515 feet.

The Grouse Valley Oil & Gas Co. Dobson No. 1 in the southwest of the northeast of the northeast of 24-32-8 is shut down at 1,085 feet.

Thinks Y. M. C. A. Abused.

E. H. Sabin, with the Tidal Oil company, who has been in France for the American Red Cross, is back and says that the criticism now being directed against the Y. M. C. A. is not justified, although it has been rough on many who came for over charging, but that the soldiers are apt to criticise anything that comes under their notice and that this is simply the nature of the average doughboy. He is of the opinion that the Y. M. C. A. has done wonderful work and that many of the workers have shown indomitable courage under fire. All the oilmen in Tulsa agree that Mr. Sabin has shown his nerve, and has done his bit in the war.

Here from Spain.

Henry C. Wolffenstein, who has a manufacturing plant in Spain that has necessarily limited operations during the war, is in Tulsa and is learning the oil game under the tutelage of Leo Kauffman. His home is in New York, but he may move to Tulsa shortly. The story of his activities in Spain is very interesting.

The Cement Pool.

Rigs are up for 14 new wells in the Cement Pool and certainly some of them ought to get some oil if there is any in that neck of the woods. It is one of the hottest spots on the map. It is said that the Texas company is figuring on building in a line and the refinery at Lawton is said to be building a loading rack at Cement with a pipe line to the field. One of the scouts who is back from there says that it is beginning to look like the real thing, although it has been held back by the boll weevil out from Oklahoma City.

East Looks Good and Conditions Are Improving

W. M. Rossiter, of the Rossiter Supply company, is back from New York and Pittsburgh and reports business picking up and a good tone in each. He was good surprised to find things going so good in both places. "Many petroleum and government experts are urging increased activity, but for my part it seems that business has already started at a lively clip and certainly money is easy. We are doing a big business and look for a larger business this spring than ever," said Mr. Rossiter.

Marion County, Kansas.

The Salt City Oil & Gas Co. is fishing a cavefin at 2,400 feet in No. 1 Gulsch in the northeast of the northwest of 12-18-5.

Steinhour and others No. 1 Winser in the southeast of the southeast of 8-22-4 has a light showing of oil in the sand from 2,405 to 2,425 feet.

Pottawatomie County, Kansas

Crawford & Jennings are cementing off the water at 2,100 feet in the Doyle No. 1 in the southwest of the northwest of 4-10-12.

Sumner County, Kansas

The Shyrock Oil & Gas Co. has about 4,000,000 gas in the sand from 1,513 to 1,517 feet in the Perkins No. 1 in the southwest of the northeast of 16-35-2.

CONTINUED ON NEXT PAGE

Personals

S. H. Barr, of Caney, Kan., prominent banker and oil man, was in town yesterday.

W. G. Sawyer, of the firm of Silk & Sawyer, whose home is in Kansas City, is in Tulsa and is contented to let his partner do the hustling down in the wilds of Texas.

H. L. Wood, who has been connected with the Fort Worth Record, has resigned and a lot of money paid for subscriptions is wasted. Mr. Wood fell out with Pat Boyle once upon a time over the spelling of Bill Hoffman's name. The chances are the old boy wanted to take a crack at the hot air people who advertise in the Record, and it was too much for him to have to keep off them. He made the promoters in Wyoming feed their stock certificates to the sheep, and would have doubtless done the same thing in Texas if he could have escaped hanging by the natives.

E. G. Braden, who with his partner, Joe Ardizzone, has been in Texas is back and says that he left Mr. Ardizzone on the job as the climate seems to agree with the latter.

Hurt Lyon, who is producing much oil northeast of Dawson, is in town and is going to join the crowd that goes to Chicago for the big convention. Mr. Lyon was 11 years president of the Country club at Joplin, which has about the best grounds in the southwest.

E. G. Jennings, prominent oil producer of Pittsburgh, has decided to open an office in the new Kennedy building, and he will be a strong addition to the business interests of the city.

George Hoagland has arranged to go with the crowd to Chicago and will leave Sunday. Mrs. Hoagland will accompany him. They were the leaders of the cotillion at the ball last year.

DEPENDABLE news—news on which you can base your sound business decisions can't be gathered by telepathy.

NATIONAL PETROLEUM NEWS is the only oil paper with a branch office at Tulsa. The NEWS has a news man right on-the-job.

Branch editorial and business office in the Cosden Bldg.

Pipe and Casing For Sale at Reduced Prices
