CORRECTION—I advertised that it would be Wednesday morning before the optician would be ready for business and now he says he will be ready for business Monday morning, March 24. Come and bring your children. The testing of eyes will be absolutely free. I have been advertising the toric lenses for over three months, but I was only selling spectacles. I had no experience in fitting or testing the eyes and my business increased so rapidly that I was compelled to get a graduate optician. Guess-work doesn't give satisfaction when you have your eyes tested and lenses ground; you get a perfect, clear vision and that is what we absolutely guarantee. Any man ought to be willing to pay from $4 to $7 for a pair of ground lenses, guaranteed to give satisfaction. Yes, we are headquarters for the Khyptok lenses at $15, a saving of from $5 to $7; far and near sighted lenses, $6 to $12; bifocals, at $4.50 to $6. Remember the above prices are for testing and glass complete, as the testing is absolutely free. We can make any shape or size lense desired. The above prices should appeal to every man that knows how he came by his dollars. Quick sales and small profits and turn the good quick has always been my policy. John the Ring Man, 119 S.
