Late News From Texas

(By FRANTISS MOORE.)

DALLAS, Texas, March 25.—Completions in the deep sands in the Ranger pool including the following: John H. Markham Jr. and others, No. 1 Copeland, 1,486 barrels, first production company; No. 1-96, first production company; No. 1 Taylor, offsetting the Terrell lease, 1,000 barrels, same company; No. 2 Taylor, 25,000,000 feet of gas; Jake Hanson and others, No. 1 McCleskey, 1,200 barrels; Texas Pacific Coal & Oil company No. 6 Floyd Hoover, 500 barrels.

All of the above wells are inside completions. The Magnolia Petroleum company has tools rigged up to deepen its No. 1 T. W. Connellee, southwest edge of the pool. The Connellee has been producing 2,000 to 2,500 barrels daily from the top of the sand for several weeks. General expectation is that when deepened it will make a gusher like the Norwood.

The Only Easterner Who Ever Disliked Tulsa Ways

The following letter, relating one day's experience of a New Yorker in Tulsa, was found on the oil desk today. Although the writer was evidently very much "peeved" at the time he was seen "smiling" later in the day.

"Got up this morning to find that the negro maid had stolen about half of a $10 a bottle perfume of Mrs. G's and ruined the other half by filling the bottle with water.

"At breakfast the waiter forget he had an order for us and when he finally remembered it and brought it it was cold."

"Went out to meet a man I had come all the way from New York to see, only to find that we had passed on the road, as he was en his way to New York to see me.

"Was entertaining an oil man who chews tobacco and talking business with him in my room. The maid had forgotten to put a cuspidor there, which made absolutely no difference to said oil man.

"Called a bellboy and asked him to bring a cuspidor. Said bellboy returned an hour later with a pitcher of ice water.

"Now—I paid extra rate for special location for an ad in your paper. Here it is, next to "Snake Cures" and "Stomach Bitters" in the lower left hand corner of off page, completely buried. Can you beat it for one day's run?"—G. F. H.

The writer says he will return to New York tomorrow night, where he can get that "perfume" bottle filled again.

In the Osage.

The Marland Oil & Refining Co. has a rig up for a test on their tract in the southwest of the northeast of 16-21-10, and has made a location for No. 2. This lease was bought by the Marland interests for $45,000 at the last Osage sale, and looks like a sure bet from every angle.

John H. Markham is drilling at 1,400 feet on his test, located at the center of the southwest quarter of 1-21-10.

E. N. Gillespie's well No. 1, located at the southwest of the southeast of 18-24-10, is on top of the Bartlesville at 1,984 feet, and they are setting the 8⅝ casing to that depth. They expect to drill in the latter part of the week.

The Twin States oil company is down 700 feet on their test in the southeast of the southwest of 18-24-10.

Dave Travis is drilling in what looks like a 500 barrel well in the Bartlesville encountered from 2,088 to 2,131 feet, in his No. 2 well, located 810 feet south and 300 feet west of No. 1, in section 18-24-10. The well was given a 180 quart shot and the hole is standing full of oil but there is not enough gas to flow it.

The Hypt Oil company's Big Horse test in 5-24-10 is cleaning out at 2,080 feet. They are mudding off the gas in No. 2 at a total depth of 2,050 feet.

The Winona Oil & Gas Co.'s well No. 2, located in the southwest of the northwest of 22-29-11, is good for about 5 barrels.

The Helen oil company has a 5 barrel well in their test on the tribal lands in the northeast of the northwest of 12-28-10.

Cotton County.

The Dark Queen oil Co. has a rig up and is ready to move in tools on their test on the Indian lands located in the northeast corner of the southeast of 22-5s-15w.

The Red Witch Oil Co. is drilling at 1,100 feet on their No. 1 well on the tribal lands located 1,120 feet from the west line and 230 feet from the north line of the southwest quarter of 21-5s-13.

The Lucas Eleven Oil Co. test in the northwest corner of the northeast of the southeast of the southwest of 11-5s-12w is a rig.

The Dark Indian oil Co. is down about 100 feet on their test on the C. E. Dillon tract, located in the southwest corner of the southeast of the northeast of 2-5s-12w.

Nolton & Hawkins are putting up the rig on the Nolte farm in the northwest corner of the northeast of the southwest of the northeast of 2-5s-12w.

The Cotton County Oil Co. test on the Postewait farm, located at the center of the north part of the southwest of the southeast of the southwest of 2-5s-12w is a rig.

The Kelsey Oil Co. has a rig up for a test on the E. Arnold farm, located in the northeast corner of the southwest of the southeast of the northeast of 2-5s-12w.

Le Mar and others and G. D. Kuehn have a rig up for a test on their tract located in the southwest corner of the northeast of the northwest of 17-5s-12w.

The Le Mar Oil Co. test is the southwest corner of the northeast of the southwest of 29-5s-12w, is a rig.

The Hawkeye Oil Co. is fishing at 2,310 feet on their C. James farm test, located in the northwest corner of the southwest of the northwest of the northeast of 32-5s-12w.

In the Osage.

The Texas Co. brought in three good wells this week in the northeast Hominy field. No. 2 well located in the northeast corner of the southeast of 11-22-10, is producing 100 barrels after the shot in the 1,900 foot stuff and No. 3, located in the southwest corner of the northeast of 26-22-10 being good for about 125 barrels after the shot at 2,140 feet. The same company's No. 1 Cavil on the tribal lands in the southwest of the southwest of 1-22-9,16 making 20 barrels in the 1,710 foot sand.

The Tidal Oil Co.'s well No. 5, in the northeast of the northeast of 18-23-11, was shot in the 1,610 foot sand and is good for 15 or 20 barrels daily.

The Centre Petroleum Co. has a 1,000,000 gasser in the 1,800 foot pay in their No. 1 test located in the southeast corner of 16-23-11.

Wilson's No. 64 well, located in the southwest corner of the southeast of 21-22-12, is good for 5 barrels at 885 feet.

H. S. Foster's well No. 7, located in the southwest of the northeast of 14-22-11, is making 25 barrels after the shot at 2,810 feet.

The Ohio Cities Gas Co. has a 25 barrel well in their No. 12, located at the center of the south line of the southwest of 24-22-11.

The Atlantic Production Co.'s No. 7 well on the tribal lands located in the northeast of the southwest of 1-22-9, is estimated at 1,200 barrels daily.

Wildcats in Southwestern Oklahoma.

The Empire Gas & Fuel company are drilling at 3,125 feet on their No. 1 Wade, located in the southwest corner of 35-6s-5w.

C. H. Taylor is putting up a rig for a test on the Frank McAfee farm, located in the center of the east line of the northeast of the northeast of 2-3s-7w.

The Magnolia Petroleum company test on the Wilson farm, located in the northwest corner of the southwest of 17-2s-7w is drilling at 1,000 feet.

The Comanche Petroleum company is down 2,000 feet on their No. 1 test on the E. Perry farm, located in the northwest corner of the northeast of the southeast of 18-2s-7w. The same company's test on the John Wilson acreage, located in the southwest corner of the northwest of the northeast of 19-2s-7w, is down about 500 feet.

The Chandler Creek Oil company is shut down at 2,400 feet on their test on the Bowman property located in the northwest corner of 7-4-11w.

The Washita Gas & Fuel company on the House farm, located in the center of the northwest of the northwest of 29-2n-8w, is dry and abandoned at 3,120 feet.

News From Cotton County, Okla.

The Red Lands Oil company's test on the Indian land located in the southwest corner of the southeast of the southeast of the southwest of 13-5s-12w, is a rig.

The Jackson Queen Oil company's test on the F. E. Servier farm, located in the northwest corner of the northeast of the southwest of the northeast of 14-5s-13w, is a rig up.

The Burk Annex Oil company has a rig up for a test on the Davidson land located in the southeast corner of the northeast of the northeast of 15-5s-13w.

The Burk De Ford Oil company is ready to rig up on their test on the Davidson farm, in the southeast corner of the northeast of the southeast of the northeast of 15-5s-13w.

The Carter Robertson Oil company is drilling at 120 feet on their test on the Indian land located in the northeast corner of the southeast of the northwest of the southeast of 23-5s-13w.

The Burk Bridges oil company (Abernathy and others) test on the Indian land located in the northwest corner of the southeast of 27-5s-13w is shut down at 1,612 feet.

Wetumka, Okla., Getting Oil Fever

Special to The World.

WETUMKA, Okla., March 26.—The Gladys Bell oil company has struck a gas sand while drilling near here last Friday, bringing in one of the best gas wells in eastern Oklahoma. It is estimated that from 20,000,000 to 25,000,000 feet of gas is escaping.

In making this test for oil this company has passed through three good sands, but has cased them off and gone on down for the purpose of testing for oil. This time they have been unable to drill farther and the well will be used for commercial purposes.

The well is six miles southeast of Wetumka and 14 miles northeast of Holdenville and is on a direct line of producing fields both north and south. It is the general opinion that in the near future Wetumka will be in the midst of one of the best oil and gas fields in the state.

Quite a little excitement prevails here over the splendid showing for both oil and gas. In view of the fact that there is plenty of gas to supply the town, the city council has been asked to call an election at once to grant a franchise for running gas into the town for domestic and commercial purposes.

South of Nowata.

Ase Cohn & Co. have a 35 barrel well in their test on the Charles Bailey farm located in the southwest of the northeast of 20-24-17.

The Cabin Valley Mineral company's No. 22 well, located on the A. E. Pauiger estate, in the west half of the northwest of 23-24-16, is good for 25 barrels.

The Wellsville Oil company has an 8 barrel well in No. 9 on the J. E. Thomas farm in the northeast of the northeast of 20-24-17.

The Tidal Oil company's No. 4 well on their fee, located in the northeast of the northeast of 30-24-17, is a 10 barrel well.

C. S. Himnel et al test on the Bertha Douglass farm located in the west half of the northeast of 12-24-16, is making 8 barrels daily.

Ada District.

At Ada the Day oil company is drilling at 300 feet on their wildcat test located in the northwest corner of the northeast of the northwest of 16-3n-6e.

J. McGrath farm.

To the southeast of the city the Nowanne Oil & Gas company have a rig up for a wildcat test on the W. Reed farm in the southeast corner of the northwest quarter of 12-3-5.

Northwest of Ada the Yellow Hill oil company's No. 1 Russell, located in the northeast corner of the southwest of the southwest of 7-5s-4e, is shut down at 900 feet on their 2,000 foot test.

North of Blackwell.

Brendon & Trees have a fishing job at 2,620 feet on their Tickles farm test located in the southeast corner of the northeast of 26-29-1w.

The Kay & Kiowa oil company is fishing at 2,630 on their Bradley No. 1 Perrin located in the southeast corner of the northwest of 16-26-1w.

South of Tonkawa the Tonkawa Oil company is putting the 8 inch casing at 2,235 feet on their test on the Mary Williams farm, located in the northeast corner of the northwest of the northeast of 2-27-1w.

Tonkawa.

The Bartlesville Zinc company is drilling at 2,400 feet on their No. 1, located in the southeast corner of the northeast of the southeast of the northwest of 26-29-1w.

The Blackwell Oil & Gas company test on the C. R. Brown property, located in the center of the south line of the southeast of 25-28-1w, is underreaming at 1910.

Good Well West of Ranger.

The Mid-Kansas Petroleum company brought in a 1,400 barrel well yesterday in their No. 2 well located in the northeast corner of their Laine farm, two miles west of Ranger in Eastland county. The sand was topped at 2,406 feet, and at 10 feet in the above estimate was made.

Northwestern Oklahoma Wild Cats.

The Enid Standard oil Co. test on the Holloway farm located in the northeast corner of the northwest of 34-25-19w, is shut down at 1,885 feet to run the 8-inch.

The Deer Creek oil Co. test on the Thomas estate, located in the southwest corner of the southeast of the southeast of 6-23-5w, is drilling at 1,725 feet.
