Will Settle Long Fight

The secretary of the interior has set for hearing on May 5 the long drawn out controversy between the gas companies and the oil men in the Osage as to the rights of the oil men under the regulations and restrictions as promulgated by the secretary and a hot time is expected.

As the case stands now, if an oil man drills a gas well that is only good for 2,000,000 or 3,000,000 feet the gas lessee is not obliged to take over the well and pay for same but can force the oil producer to shut in his well and not allow him to even use the gas for his own drilling which on the face of it looks pretty rotten.

At the hearing on May 5 a large number of oil producers and gas men will assemble in Washington and will make it an occasion that is likely to be remembered long in the annals of the oil game.

It has always seemed absolutely unjust that two separate leases are made, one for oil and one for gas, and this system has served no good purpose so far except perhaps when the gas company drilled the deep well in the lime at Pearsonia and thereby brought the Osages a lot of money at the sale which followed much to the sorrow of the oil producers who kicked in for acreage at unheard of prices.

Judge Edward Chandler, of the Sinclair Oil company, and Judge Diggs for the Gypsy will head the delegation from Tulsa.

Late Completions in the Osage

The past week saw the completion of fewer wells than usual in the Osage but two 1,000 barrel wells initial production made the average good.

A late report has the Longfellow well in the northeast of the northeast of 18-22-10 good for 32,000,000 feet of gas in 2,000 foot sand.

Foster and Norwood's No. 32 in the northeast corner of the southeast of the northeast of the southeast of 14-24-9 came in estimated at 3,000,000 feet of gas in the sand from 2,060 to 2,095 feet.

Foster and others No. 5 in the southwest corner of the northwest of 24-24-9 came in making 1,000 barrels of oil. The sand depth was 2,133 to 2,172 feet.

The Winona Oil company No. 7 located in the southeast corner of the northeast of the southeast of the southeast of 25-24-9 is making 50 to 60 barrels of oil in the sand from 2,055 to 2,150 feet.

Carter's No. 14 in the center of the west line of the east half of the west half of the southeast of 6-24-10 is producing 150 barrels in the sand from 1,965 to 2,045 feet.

The Plover Drilling company No. 5 in the southwest corner of the southeast of the southeast of the southwest of 4-24-10 is making 1,200 barrels of oil in the sand from 2,011 to 2,107 feet. The total depth of the well is 2,112 feet. The top of the sand was got at 1,982 feet.

The Barnsdale Oil company No. 2 located in the southwest corner of the northeast of the southwest of the northwest of 5-24-10 is making 200 barrels of oil from 2,044 to 2,076 feet.

Prominent Producers in Town

E. M. Root and D. B. Duff, who operate as the firm of Root & Duff, are in the city and register from Eastland, Texas. Both are well known and very popular with the old timers in the game and the only mistakes they ever made was when they moved to Texas instead of locating in Tulsa.

Constantine Takes Over Pipe Line

E. Constantine has take over the Conduit pipe line which connects the Burkburnett pool with Devol, Oklahoma, just this side of the Red River. The line is about seven miles in length and is well calculated strategically to supply not only the Constantine plant at Devol, but many other refineries in Oklahoma and Kansas.

Granite Well Shut Down

Considerable trouble is being had in shutting off the water in the Granite well. It is thought now that in the end the well may be abandoned and another be drilled offsetting it. The Granite people have been having considerable excitement about the well having first estimated it at somewhere in the vicinity of 500 barrels production.

Duncan and Vicinity

Parker and others are drilling at 160 feet in the No. 2 Neal in the southwest of 31-1s-10w.

The Magnolia Petroleum company No. 1 Ta-Se-Soan in the southwest corner of the southwest of 5-1s-9w is drilling at 2,720 feet.

The same company is down 300 feet in the No. 1 Vin Chap in the southwest corner of 13-1s-9w. It is being drilled with a rotary.

The Pennsylvania Oil company's rig is down on the school land in the southwest of the southeast of the northwest of 16-1s-9w.

The following rigs are down in the field: The Lone Star Gas company No. 1 Dorrance in the southwest of the southwest of 19-1s-10w at 900 feet. Jake Hamon No. 1 Tah-Cu-Fine in the southeast of the southwest of 20-1s-9w at 2,030 feet, Magnolia No. 2 in the northeast of the southeast of 22-1s-9w, the Prairie Oil & Gas Co. No. 1 Harlin in the northeast of the northeast of 29-1s-9w at 2,125 feet, John C. Keyes No. 1 Kelly in the northeast of the northwest of 31-1s-9w at 2,315 feet, Jake Hamon No. 1 Hiner in the southeast of 20-1s-10w at 2,120 feet, J. C. Keyes No. 2 Moyer in the center of the south line of the southeast of 21-1s-10w at 2,369 feet, J. C. Keyes No. 1 Roberts in the southwest of 22-1s-10w at 2,285 feet, Lone Star Gas company No. 1 in the southeast of 25-1s-10w, Jake Hamon No. 1 Ellis in the southeast of the northeast of 27 at 2,179 feet, Jake Hamon No. 1 Lindsay in the southwest of 27 at 2,140 feet, Chapman & McFarlin No. 1 Lindsay in the southwest of the section. Hamon Nos. 2 and 4 in the southeast of 29 and No. 1 in the northeast of 32 at 2,050 feet.

The Ideal Oil company is rigging up the No. 2 Harris in the southeast of 21-1s-9w with standard tools.

Magnolia No. 1 Feitz in the southeast of the southwest of 12-1s-10w is fishing at 2,600 feet.

John C. Keyes in the southwest of the northeast of 17-1s-10w is drilling at 2,490 feet.

Hamon is underreaming the 6⅝-inch in 2,510 feet in the No. 2 Hiner in the southwest of 20-1s-10w.

The Marjorie Oil & Gas Co. is drilling at 1,000 feet in the No. 1 McCullough in the southwest of 21-1s-10w.

The Gladstone Oil company No. 1 Simons in the southwest corner of the southwest of 31-1s-10w has a showing of oil in the sand at 2,368 feet. It has been drilled into salt water and is shut down at that depth.

Skelton and others No. 1 Havilon is shut down with the rig down at 2,367 feet. The hole is standing with 1,200 feet of oil. The sand depth is 2,360 to 2,370 feet. It is located in the southeast corner of the southwest of the northwest of 31-1s-10w.

Southern Cotton County Near Devol.

C. H. Taylor has a rig up for the No. 1 McAfee in the northeast of the northeast of 2-3s-7w.

The Natural Oklahoma Oil & Gas Co. is drilling at 1,000 feet in the No. 1 Edwards in the northwest of the northwest of 14-3s-11w.

The Oakland Oil company No. 1 Garver in the southeast of the southeast of 15-4s-10w is having trouble with the casing at 2,420 feet.

The Riverdale Oil company No. 2 Wright in the northeast of the northeast of 32-1s-12w is drilling now at 825 feet. A dry sand was passed through at 1,325 feet.

Newkirk and others No. 1 Wright in the southeast corner of 32-4s-13w is rigging up to commence drilling with a rotary.

The Buck Indian Oil company is shut down at 925 feet in the No. 1 Fulton in the northwest of the northeast of the southeast of 2-5s-12w.

The Kelso Oil company No. 1 Eastman in the southeast of the northeast of 16-5s-12w is drilling at 425 feet.

The LeHarr Oil company No. 1 Fee in the southwest of the northeast of the southwest of 29-5s-12w is setting the 6 5-8-inch casing at 1,600 feet. The well is being drilled with a rotary and is shut down to install cable tools.

The Red Lands Oil company is rigging up to repair boiler in the No. 1 on Indian land in the southeast of the southwest of 13-5s-13w.

The Buck Annex Oil company No. 1 Davis in the southeast of the northeast of the northeast of 15-5s-12w is down 400 feet. The rig was blown down during the storm a week ago.

Abernethy and others No. 1 on Indian land in the northwest of the southeast of 23-5s-13w is fishing for underreamer logs at 1,735 feet. Nothing more has been reported of the showing got at 1,750 feet.

The Buck Queen Oil company No. 1 on Indian land in the northeast of the northeast of the southeast of 29-5s-13w is shut down on account of the rigs having blown down in the storm.

The Lucky Eleven No. 1 rig on Indian land in the southeast of the southwest of 24-5s-13w is also down.

The Carter Robinson Oil company No. 1 on Indian land in the northeast of the northwest of the southeast of 23-5s-13w is drilling at 1,450 feet.

The Red Wich Oil company No. 1 in the northeast of the northwest of the southwest of 24-5s-13w is drilling at 1,565 feet.

South of Duncan.

The Walker Valley Oil company No. 1 Patterson in the southeast of the southeast of the northeast of 4-2s-10w is reported cleaning out at 2,160 feet with the hole full of oil.

The Grub Stake Oil company No. 1 Coogan in the center of the northwest of 26-2s-9w is being cleaned out at 2,016 feet.

The Walker Valley Oil company No. 2 Patterson in the southwest of the southeast of the northeast of 4-2s-10w is drilling at 700 feet.

The Empire Oil company is setting the 6 5-8 to 2,115 feet in the No. 1 Wilkerson in the southeast of 4-2s-10w.

The Humble Oil company No. 1 Patterson in the northeast of the northeast of 4-2s-10w is drilling at 500 feet.

The Gladstone Oil company No. 2 Frieman in the northwest of the southeast of 5-2s-10w is drilling at 500 feet.

The Walter Field Oil company is drilling at 1,915 feet in the No. 1 Pilkuron in the northeast of the southeast of 7-2s-10w.

Hamon No. 1 Godfrey in the northeast of the northeast of 8-2s-10w has a showing of some oil at 2,165 feet. The well is fishing at that depth.

The Mistletoe Oil & Gas company is drilling at 300 feet in the No. 2 Lands in the southeast of the northeast of 3-2s-11w.

Central Western Wildcats.

The Monroe Prospecting company has moved the tools out to abandon the No. 1 Connor in the southwest of the southwest of the northeast of 14-1n-9w and probably will abandon the test.

The Chandler Creek Oil company is underreaming to 2,640 feet in the No. 1 Bowman in the northwest of the northwest of the northwest of 7-4n-11w. The test is being drilled with a standard rig.

The LaBaronica Oil company is drilling at 825 feet in the No. 1 Janagee in the northeast of the northwest of the northwest of 30-3n-2w.

The Panhandle Refining company is having trouble with the boiler at 2,950 feet in the No. 1 Coker in the southeast of the northwest of the northwest of 23-2n-22w. The test is being drilled with standard tools.

J. P. Evans No. 1 Stearns in the southwest corner of 21-8n-11w is running the 6⅝-inch with perforating joint and canvas packer to test the oil sand. The top of the sand was found at 1,648 feet in this test. It probably will be drilled in Friday.

The St. Louis Oklahoma Oil company is drilling at 2,655 feet in its No. 1 Fee in the northwest of the northwest of the southwest of 16-7n-20w. The well is being drilled with standard tools.

West of Sapulpa.

The Texas company No. 1 Maslonex in the southeast of 7-13-9 is shut down at 2,608 feet, with a hole full of water.

The Penn Home Oil company is spudding in No. 1 in the southwest of the northeast of 22-18-9.

The Vaughn and others No. 5 Allen in the northeast of the southwest quarter of 27-18-10 is a rig.

The Mullen and others No. 1 Tate in the southeast of the northwest of the southwest of 34-18-10 is drilling at 500 feet.

The Texas company No. 3 Tate in the northeast of the southeast of the southeast of 35-18-10 is drilling at 700 feet.

The Donnelly and others No. 2 Wa-To-Che in the southeast of the northeast of the southeast of 35-18-10 is drilling at 750 feet.

South of Haskell.

The W. H. Fine No. 5 Manuel in the southwest of the southeast of 35-15-15 is drilling at 700 feet.

West of Skiatook.

E. J. Lambert and S. S. Owen are rigging up No. 2 William Downing in 12-22-12. No. 1 is a 90-barrel well.
