[illegible]th the Oil Men.

The gas men's convention at [illegible]kland this year not only sur[illegible] all records for attendance [illegible] for displays of oil well supplies [illegible] everything that goes with the [illegible]. but business marked a record. [illegible] it will give the American Pe[illegible]leum Institute a good start. The [illegible] that it has developed that there [illegible] be no interference with the Re[illegible]ers association or with the Job[illegible]ers association, but on the con[illegible], will collaborate with both [illegible] more to do with bringing about [illegible] feeling than anything else. [illegible] Mr. Welch, the new secretary, [illegible] Tom O'Donnell, president, made [illegible] good impression when it got down [illegible] brass tacks, and the newspaper [illegible] had an opportunity to put lead[illegible] questions, and show the whole [illegible] in its true light.

Mr. O'Donnell apologized in his [illegible] speech at the big banquet for having [illegible] laundry and divers times "spilled [illegible] beans," but said they were [illegible] easily picked up again, and he [illegible] thought that no one who knew him [illegible] doubted his sincerity, but that he [illegible] had made many mistakes, for which [illegible] was very sorry, and apologized [illegible] the writer personally for having [illegible] mulled in his estimate of the [illegible] and good intentions of the [illegible] reporter on The World when he [illegible] in Tulsa last summer.

Mr. Welch at the conference with [illegible] newspaper men gave out a lot of [illegible] and inside dope, but impressed on [illegible] minds that there must be no [illegible], as none of the subjects [illegible] related to his work in the last [illegible] weeks had been printed up to [illegible], and he did not care for pub[illegible].

The newspaper men represented [illegible] much everything in oil and [illegible] publications and there were [illegible] genuine showdowns which, [illegible], will work for for a better [illegible] all around.

The Boody House bar, that has [illegible] patronized by oil men every [illegible] the discovery of oil in north[illegible] Ohio, is dealing in non-[illegible] drinks entirely after [illegible]day. There have been many [illegible] and much business [illegible] around the little tables, [illegible] the chances are it will take a [illegible] time for the bunch to get over [illegible] habit. Sherman Bond, the [illegible], is interested in oil in Okla[illegible] and says that he will rebuild [illegible] famous old hotel as soon as ma[illegible] and labor are more reason[illegible]. It has been in existence more [illegible] half a century, and occupies [illegible] most desirable site in town.

At Walters.

The J. L. Hamon No. 1 Westen[illegible] in the southeast of the south[illegible] of the southwest of 20-1s-9w is [illegible].

The Ideal Oil company No. 2 Har[illegible] in the northeast of the southeast [illegible] the southeast of 21-1s-9w is drill[illegible] at 2,140 feet.

At Pond Creek.

The Van Dell oil company No. 1 Haskins farm, is drilling at 2,620 feet in No. 1 Haskins farm, in 36-25-4w.

Northwest of Enid.

The Pingrey and Price No. 1, Montgomery farm, in 22-25-8w is spudding. It is in the northeast corner of the southwest of the northwest of section.

New Work at Newkirk.

Marland has a rig up for a test on the school land in 16-29-3e, and is underreaming to 450 feet in the test on the Cook farm, in 20-28-3e.

Marland is drilling at 3,575 feet in his deep test on the Malone farm, in 28-27-3e, and is rigging up at 3,880 feet in the test on the Herbig farm, in 28-27-2e.

The Oklavania Oil company test on the W. S. Brown farm, in 2-27-2e, which was completed during the week, is having trouble with the packer, but the well is making 500 barrels as it stands.

Production at Youngstown Pool.

The production of the Youngstown pool for the week just ending was 4,500 barrels daily.

VOTERS OF TEXAS GIVE SUFFRAGE HARD FIGHT

DALLAS, Texas, May 25.—Few additional returns have been compiled from Yesterday's general election in Texas. Latest figures early today left the prohibition and woman suffrage issues in doubt, but with both measures leading by slight margins. A proposition to increase the governor's salary has been defeated on the face of incomplete returns.

Returns from 283 towns in the state give:

For prohibition, 52,594, against, 43,908.

For woman suffrage, 51,751, against, 48,313.

LAUGHS.

Two members of a certain society met the other day. Said one:

"I heard today that your son was on undertaker. I thought you told me he was a physician."

"Not at all.

"I don't like to contradict, but I'm positive you did say so."

"You misunderstand me. I said he followed the medical profession."

TEACHERS' COURSES AT OKLAHOMA U.

Federal Aid Furnishes Opportunity for Students to Obtain Degrees in Vocational Work.

By The Associated Press.

NORMAN, Okla., May 24.—Men and women of Oklahoma who wish to qualify as teachers of vocational subjects under the Smith-Hughes act will have the opportunity at the summer session of the University of Oklahoma which opens June 11 for an eight weeks' term.

Eight courses will be offered this summer for prospective vocational teachers. The subjects will be foods, nutrition, home management, home administration, a teachers' course in home economics, household chemistry and two courses in clothing.

These courses are open to students for credit counting toward a degree as well as to teachers who wish to qualify under the Smith-Hughes act.

The University of Oklahoma qualified for aid under the Smith-Hughes act last summer and has been offering courses approved by the federal vocational training board this year. The federal allowance for this year has been about $3,000 which was applied on the salaries of the instructors in the approved courses.

One of the requirements in offering various courses in home economics is a residence in which the students cook and do the housework, thus making the courses absolutely practical. The university has rented a house near the campus for this purpose.

Most of the home economic courses this summer will be taught by Miss Ada Quinn, formerly with the vocational board at Oklahoma City, now head of that department in the university.

WHEN THE BOYS COME HOME

Remember to care for their feet. The government supplied six pairs with 1,000,000 pounds of powder for the feet because it made the men more efficient. They could walk farther, far and be comfortable if they had some Allen's Foot-Ease in each shoe. Try it yourself and see what comfort you get from this standard remedy. Ask for Allen's Foot-Ease for tired, aching, swollen feet, blisters and sore spots. Sold everywhere. Adv.

Investors and Oil Men ATTENTION

Ranger made leaseholders millionaires. Callahan Co. joins and is due for the next big play among oil men. Buy 40-acre leases BEFORE the big advance in Callahan county leases. Write, wire or phone.
