Rockwell Oil Company Operations

The Rockwell Oil company well on the Manda Harrison farm in the north half of the southwest quarter of 19-15-11 was drilled in yesterday and is good for from 75 to 100 barrels a day in the Glenn sand from a depth of 1,900 feet. This well proves that the trend of the pool north and east continues as a great deal was thought to be the case. Operations have been made to the west and east and timbers are being hauled in.

The same company will use the Pompey Phillips farm in the north east corner of the southeast quarter of 8-15-11 as a gas well. It is now making 50 barrels a day in the Glenn sand found at 1,[illegible] feet.

A rig is being built on the Peter Coleman farm in the southeast corner of the northeast quarter of 16-15-11 and a rig is being hauled in on the Ella Grayson farm in the north east of the southeast of 2-15-11.

The same company has spudded in No. 2 on the Pompey Phillips farm in the southeast of the southeast of 8-15-11.

Wilcox Operations in Texas

H. F. Wilcox has a rig up for his No. 1 test on the Robinson farm in section 5, H. & T. survey, block 4, Baylor county, Texas.
