WOMEN ALLOWED VOTE IN WATER ELECTION

Opinion Received by Mayor Hubbard From Attorney General's Office, Yesterday, Settles Question.

SAME AS MUSKOGEE CASE

Woman Voter Holds Same Right as Men in All City Balloting Previous Decision Shows.

Women will be allowed to vote in the proposed election when the city of Tulsa will decide for or against the $1,600,000 bond issue through which a new water supply system is to be built to Spavinaw creek, according to an opinion received Thursday by Mayor T. H. Hubbard from Attorney General Freeling.

The attorney general bases his opinion upon the outcome of the same question which arose recently in Muskogee over a similar bond election. To decide the question in Muskogee officials asked for an opinion from the attorney general and were informed that women had the same rights as men in city elections.

The attorney general refers to section three of article five of the constitution of Oklahoma for his authority, and also to the corresponding amendment cited as section 1a of chapter 24 of the session laws of 1915. In substance the attorney general states that to become qualified voter persons must register in their respective precincts not more than 50 nor less than 10 days before the election is to be held. This in the opinion of the attorney general settles the question as to the woman vote.

According to city officials it is probable that registration will be reopened in the near future that the women and all other lately registrants will have opportunity of appearing at the polls and registering an opinion upon what is termed the most momentous question in the history of Tulsa.

ALBERT PIKE HIGHWAY MAPS FOR TRAVELERS

According to information received from John C. Mulford, chief cartographer of the National highways association, Washington, D. C., members of the Albert Pike highway association and tourists over the Albert Pike are soon to be furnished with a complete strip map in four colors showing the entire route from Hot Springs, Ark., to Colorado Springs, Colo., with the correct name and location of every city, town, village and hamlet touched by the highway. The map will be 14 by 22 inches and in addition to showing the Albert Pike as a special feature it will also show in lesser detail all other highways proposed by the National highway association to touch the territory covered.

The maps will be sent direct from Washington to E. Bee Guthrey secretary of the Albert Pike highway association and the supply will be ample to furnish one copy to each member of the association throughout the four states through which the road runs and also leave a number at the chamber of commerce and other convenient points for the accomodation of tourist travel.

ACQUITTED OF CHARGES BY BUSINESS PARTNER

Jesse Rubb, charged with issuing a false claim against the assets of the Commercial Clearings Refunding company was acquitted at 1:5 yesterday hearing Thursday before U. S. Williams United states commissioner, the court finding that such claims as were made for the defendant were merely of law for consideration of the special referee in bankruptcy.

J. W. Rock, at the head of the refunding company, complained the embezzlement of the company's funds to Mr. and Mrs. Ruby, the latter Mrs. Ruby being formerly Mrs. Rock, divorced from Rock some time last spring, the first charges against the defendant accusing the latter of taking from company funds had been deposited in Mrs. Ruby's name, subsequent to the divorce at his hearing before commissioner Williams in March.

The Mull girl, of the office herself, had visited a bank a few minutes before the alleged robbery and the authorities in Tulsa among other things specified that he should be arrested if he appeared in that city. Sheriff James Woodley was notified Thursday morning that Allread had been arrested and had waived extradition rights.

FUTURE OF FINANCE RESTS WITH PEOPLE

Liberty Loan Experience Has Taught That Purse of Common People Is Powerful.

The question whether or not taxation is to be primary and scope is being made evidence in certain industries of issues endangering thereby revenue development will for the future, health and growth of the country.

In its larger aspect it calls for the further inquiry as to whether present taxation may not tend to reduce so drastically the investment power of the heretofore well-to-do classes that the spirit of enterprise might thereby be seriously affected. There is hardly any question before the country deserving a more careful and earnest study and deliberation than these.

If, owing to drastic taxation, the large business may be more be relied upon to furnish the bulk of the investment funds necessary to finance our economic growth, we must look to those possessed of smaller income and subjected to only moderate taxation to produce the bulk portion of the saving available for investment. This can be done only if we succeed in letting the gospel thrift penetrate deeply into the minds of the masses. The Liberty and Victory loan and war savings stamp campaigns were also to render invaluable services in this respect as long as the government was the main employer and borrower. Will it be possible to convince the workingman, the farmer and the storekeeper that it will be necessary for him to continue to finance his employer when private enterprise resumes the place occupied by government during the last few years? [illegible] accomplished, [illegible] is in serious danger [illegible] Nation's Business.

OLD DAD TRADER

If you bought your home on the installment plan, pay for it as fast as you can and get your deed. The Wilson slogan of build a home now for your loved ones is being coined into gold by the great lumber trust and they say that the golden harvest of the home builder will be ripe June 15th to skin 'em alive. All the big trusts of the U. S. A. seem to be tied up in one bundle with a gold band around them driven down tight, so that the one can not move or make a price on any of the necessaries of life without the consent of all the combine. The great stocks of the necessaries of life which are now being held in storage by the big trusts are only waiting for the treaty of peace to open up the markets of the war-stricken countries where millions of poor people are starving and naked and living outdoors like wild animals.

Our Uncle Sam must first establish a credit for those poor unfortunate nations, and then he must loan them the money to buy of our own big trusts.

(THE SKY WILL BE THE ONLY LIMIT OF HIGH PRICES.)

Some call it war profiteering.

Some say that "Trusts have no souls."

Some say "Uncle Samuel is watching them."

Some say "When the CAT is AWAY that the MICE WILL PLAY."

(WHERE, OH, WHERE, IS HOOVER?)

OLD DAD TRADER is tired and wants to rest. He is offering to sell MOTHER TRADERS All Leather Star Brand Shoe and Dry Goods Store, including a 3-year lease on the store room, and 75 feet front on East First street, $5,000. This is the best bargain in Tulsa and price will be $6,000 next week.
