# SQUIRES WILL TAKE OVER LABOR OFFICE

Tulsa Newspaper Man to Succeed Carl Lee as Federal-State Director.

## BUREAU'S WORK EXPANDING

Juvenile Department to Be Added; Local Woman Will Assist Dave Easterly.

William J. Squires, Tulsa newspaper man and well known in military circles in Tulsa, has been named director of the state bureau of labor, succeeding Carl Lee, who resigned to take a position with the department of commerce. Announcement of the appointment was made Thursday by Governor Robertson.

Mr. Squires, who is 41 years of age, is a native of Tulsa. He has been connected with the Tulsa World for the past three years, and was formerly with the Tulsa Democrat. He is a member of the Knights of Pythias, Elks, Eagles, Woodmen of the World, Knights of Labor and other fraternal organizations, and is well known among the industrial workers of the state.

**To Enforce Federal Law.**

The federal child labor law, which imposes a ten per cent tax on all products manufactured by use of child labor, is to be strictly enforced in this state, and the employment of young children, authorized by local employment offices, in violation of the provisions of the child labor law, will be discontinued. Children between the ages of 14 years and 16 years will be employed at a minimum salary of $6 a week. The hours of work and conditions will be prescribed by Mrs. Johnson, director of welfare and conditions. Mr. Squires is granted a period of 90 days in which to study the child labor law, Mr. Squires said.

Miss Lucy Elliott, who has been assisting with the local employment bureau, has been appointed assistant state factory inspector and will work in conjunction with Dave Easterly, who is also assistant state factory inspector. The assistant state labor inspector is ex-officio state factory inspector, but works from the headquarters of Oklahoma City, and the field work will be performed by Mr. Easterly and Miss Elliott.

Both Miss Elliott and Mrs. Johnson have been engaged in welfare work in Tulsa for some time and are well known here in that connection.

**Will Co-Ordinate Agencies.**

Much of the work of the Tulsa employment branch office will be related to organizing the efforts of the various employment aid organizations in the city and making their work cooperative with the state office as a clearing house for labor information. Mr. Squires declared the Y. M. C. A., the Knights of Labor and the various private agencies could be much more effective and the general effect quite advantageous if the work were organized and cooperative rather than independent.

Oklahoma will not suffer for want of harvest hands when the wheat crop in the state is reaped, Mr. Squires said. More than 200 fieldworkers and farm labor representatives have been working for some time to organize the wheat labor in the state for the harvest, and enough hands will be brought in from other districts to harvest the state grain crops, he said. It is estimated that about 15,000 men will be needed in Oklahoma alone during the harvest. This number will depend upon the crop conditions and the size of the yield, but barring unforeseen circumstances that may affect the yield 15,000 hands will be needed to put away the 1919 wheat crop.

Mr. Squires will take charge of the local office about June 9. Mrs. Johnson and Miss Elliott will assume their new offices June 1.

# After Almanac Convinces Judge There Was a Bright Moon Defendants Are Held

Walter Gonzales and Eugene Miles, whose preliminary hearing has extended over about sessions for the past three days, were held under bonds of $3,000 each at the close of the hearing Thursday afternoon before Justice S. C. Maxey, for trial by the district court on the charge of conspiracy to rob. The defendants are accused of holding up and robbing E. C. Glenn, 602 South Elgin avenue, early last Sunday morning within a block of the victim's home.

Glenn was positive of his identification of the defendants when on the stand Wednesday. The court, however, was uncertain as to whether under the conditions of a moonlight and electric light the complainant could adequately identify the men. The court also in rendering the decision Wednesday night, and announcing an adjournment, stated that he believed it possible that Glenn could tell the features of the men whom he claims to have met among the bright moonlight night. The defendants were committed to jail in default of bond for trial.

# BRADFIELD PRAISED BY JACK SLAUGHTER

Captain of Ambulancers Stand "Are High" With Every Man of Company—Thankful for Tulsa Aid.

While the men of Texas's ambulance company suffered for lack of clothing and food during their service overseas and while they endured the numerous hardships of war, Captain S. J. Bradfield commanding officer, suffered upon the same plane, endured like hardships and in addition endeared his men in their hours of need, according to Jack Slaughter, who rode with the company from Texas to Texas following the home coming here.

Captain Bradfield was the guest of honor at the luncheon and again expressed on behalf of his organization his deep appreciation for the support rendered from the folks back home during service in France.

Charles E. Arnold was the principal speaker with the topic "The Spirit of America." His address was the third of a series of four on Americanism which have been arranged by the program committee of the Lions club.

Lee Daniel, chairman of the committee on reception, of the Joe Carson post of the American legion, for Company "D," 111th Engineers, asked the co-operation of both clubs in the movement toward arranging an elaborate reception for the engineers. W. C. Stieger, president of the Lions club and L. E. Abbott, president of the Advertising club, presided over the meeting.

# TAGGERS WILL BE ON THE ALERT SATURDAY

Pretty Girls Will Sell Tags to Help Homeless Girls Being Cared for at Francis Willard Home.

For the purpose of replenishing the Francis Willard home for homeless girls a tag day will be held in this home Saturday to raise the necessary funds.

At the present time every bed in the home is occupied and the institution has received calls from a large number of cases for admission but has been unable to take care of them on account of the lack of space. The plan of the officers is to build a sleeping porch addition to the present building.

A large number of the women who will act in the campaign yesterday indicated that they were a little timid about appearing upon the streets and on the occasion of Armistice day, people in some cases were not with the home, and were compelled to return money. The institution and the officers decided to hold the tag day.

To make the day a success the home will need a large number of volunteer workers to aid in the selling of the tags. Every one wishing to aid in this work is asked to meet at 9 o'clock Saturday morning in Hotel Tulsa.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made startling strides with results that are of incalculable blessing to humanity. The almost application of its outlining results is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we rise, suffering headache, stuffy from a coated tongue, nasty breath and sluggish, can, instead, be as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone whether ailing, sick or well, should take, each morning before breakfast, half or a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the accumulated waste, the poisonous toxins, thus cleansing, sweetening and purifying the entire alimentary canal before adding more food into the stomach. The millions of people who are troubled with constipation, biliousness, stomach troubles, rheumatic pains, those who have sallow complexions, pimples, and sickly appearances are urged to get a quarter pound of limestone phosphate from the drug store. This is enough for a month and is sufficient to make a prominent crank on the subject of internal sanitation.

# The Beauty of Coffee

Any rose is beautiful, but the American Beauty rose, with its superb bud, on a straight stem three feet long, is the Queen of them all.

G. Washington's Coffee is the American Beauty rose of the Coffee world.

It is the Queen of all Coffees.

It is served on the table of the most fastidious hostess, who wants to be sure that the very crown jewel of her dinner will not fail, that no careless cook can spoil it, and that her guests shall finish their dinner with the tang of excellence.

G. Washington's Coffee, that during the war could not be had by the public, because the Government took the entire output for the boys in the trenches, is again on sale.
