Big Crowd at Pawhuska.

There is a large number of oil men in Pawhuska who have come for the sale now going and who will be here again on the ground and a month longer summer will find them on the ground. If you think nothing of the Allitard Valley and all will get rich enough to live on the big sale in the three or four days, whatever else they may get for their money.

It is the one time in the year that the oil men have an opportunity to get ahead of the rest of the bunch and without fear of fraud or the shock exactly how wise they are and how much they are willing to pay for a gamble in the Osage.

It is always evil to the unknown that the oil business needs a period like when it comes to competitive bidding, but on the other hand the man who is posted and plays the game as it should be played with due regard to all chances for getting oil and has had enough experience to look up the done from a practical point of view and consider with records to friends which offer all are the main thing to his success, has a chance for a big winning.

There is one thing that detracts greatly from the enthusiasm. This is that there are a lot of dry holes being constructed on acreage purchased at the last sale. If anything has a tendency to cool the desire to put on a show at Pawhuska it is getting a duster on high-priced acreage.

The quarterly Indian payment is on now and oil men can see the Osage fashioned in all his glory, with a pocketful of coin and a brand new automobile purchased with the money paid in by the oil men at the last session.

The Indian council is ready and will be on hand to witness the sale today and will approve or disapprove the leases that are bought today, just as the advice given them by their friends happens to predominate. The town, in fact, is all "lit up."

Prominent among the advance guard who are already on the ground are M. M. Dean and Henry McGraw of the Gypsy Oil company, H. A. Foster and Burdette Blue of the Indian Territory Illuminating Oil company and C. N. Robinson, who represents the Kansas Natural. They are all exceptionally good traders and know when to play the game to the limit and equally well when to quit.

Northern Oklahoma.

The Cosden Oil company No. 2 Bates, in the southwest of the northwest of 9-18-15, is dry and abandoned at 1,235 feet.

The Okmulgee Oil Operators company No. 2 Marshall, in the northwest of the northwest of 26-17-11, has the sand from 1,728 to 1,742 feet and is making 20 barrels.

The O. M. Ireland No. 1 Tiger, in the northwest of the southeast of 34-17-11, is dry and abandoned at 2,650 feet.

The Kickadoo and others No. 1 Folsom, in the northeast of the north-west of 29-16-11, is shut down at 2,223 feet.

The H. P. Wilcox No. 1 Stephney, in the northeast of the southwest of 26-15-10, is fishing for tools at 2,240 feet.

The Empire Gas and Fuel company No. 4 Swenson, in the northwest of the southeast of 32-29-1, has the sand from 1,940 to 1,942, with a small showing of oil. They are shut down at 2,019 feet.

The same company No. 5 Sheriz, in the northwest of the northwest of 32-29-1, is an old 1,300-foot gas well being drilled deeper. The total depth is now 2,510 feet, and they are cleaning out.

The Smith & Hill No. 1 Miller, in the northeast of the southeast of the northeast of 7-27-5, is a gas.

The Empire No. 9 Fowler, in the northwest of the northwest of the southwest of 1-26-4, is dry and abandoned at 2,613 feet.

The Carter Oil company No. 20 Porter, an old well drilling deeper, in the northeast of the northwest of the northeast of 1-26-4, is drilling at 1,450 feet.

The Empire No. 41 Enyhart, in the center of the northwest of the northwest of 12-26-4, is shut down at 1,600 feet.

The Empire No. 65 Enyhart, in the center of the northwest of the northwest of 12-26-4, is a gas.

The Columbus Oil company No. 1 Ralston, in the southeast of the southwest of the southeast of 1-26-4, is dry and abandoned at 2,635 feet.

The Empire No. 19 Finley, in the northwest of the southwest of the southeast of 4-28-5, has the sand from 2,531 to 2,560 feet and is making 5 barrels a day.

The Empire No. 15 Jarnhill, in the northwest of the southwest of the southeast of the southeast of 4-28-5, has the sand from 2,531 to 2,560 feet and is making 5 barrels a day.

The Empire No. 75 Jarnhill, in the northwest of the southwest of the southeast of 8-28-5, has the sand from 2,429 to 2,471 feet and is making 125 barrels a day.

The Empire No. 8 Priory, in the northeast of the northwest of the northeast of 9-28-5, is dry and abandoned at 2,551 feet.

The Empire Gas & Fuel Co. No. 13 Hudson, in the southeast of the southwest of the southwest of 36-28-5, is dry and abandoned at 1,930 feet.

The Gulf Oil company No. 1 Horton, in the southwest of the northwest of the northwest of 14-29-5, is dry and abandoned at 1,926 feet.

The Empire Gas & Fuel Co. No. 1 Sonn, in the southeast of the southwest of the southeast of 21-29-5, is dry and abandoned at 2,311 feet.

The Magnolia Petroleum company No. 1 Tice, in the southeast of the southeast of 21-29-5, is dry and abandoned at 2,360 feet.

The Magnolia Petroleum company No. 1 Tice south, in the southwest corner of 21-29-5, is dry and abandoned at 2,344 feet.

The W. A. Scott No. 1 Pierce, in the southeast of the southwest of the southeast of 34-1-2, is shut down at 1,498 feet.

Southern Oklahoma.

The Independent Oil company No. 1 Williams, in the southeast of the southeast of the southeast of 26-1-2w, is shut down at 200 feet.

The Commercial Development company No. 1 Richardson, in the southwest of the southeast of the southeast of 19-1-2w, is shut down at 1,000 feet.

The Cotton County Oil company No. 1 Pinkerton, in the southeast of the southeast of the southeast of 1-2-1w, is a gas.

The Lone Hill Oil company No. 1 Mellinger, in the southeast of the southeast of the southeast of 3-2-1w, is drilling at 1,002 feet.

The Lone Hill Oil company No. 1 McKinney, in the southeast of the southeast of the southeast of 8-2-1w, is fishing for tools at 1,250 feet.

The Kelley Hill oil company No. 1 Kennedy, in the southeast of the southeast of the southeast of 1-3-1w, is shut down at 1,325 feet.

The Texas company No. 1 Williams, in the center of the southeast of 23-4-3w, is cleaned up.

The Sinclair-Gulf No. 16 Mallon & Thomas, Pool, in No. 2, in the northwest of the southwest of the southeast of 4-2-2w, had the sand from 2,531 to 2,560 feet and is making 15 barrels a day.

The Dunlap & Ellis No. 1 Ewing, in the southeast of the southwest of the southwest of 8-1-3w, is dry and abandoned at 1,125 feet.

The Westbrooke & Davis No. 1, in the southeast of the southwest of 19-4-2w, is standing.

The Texarkana Oil company No. 1 Orme, located 430 feet north and 330 feet west of the southeast corner of 34-3-3w, is dry and abandoned at 1,800 feet.

The Eagle Falls Petroleum company No. 2 Harper, 1,120 feet north and 510 feet west of the center of 24-2-5w, is dry and abandoned at 920 feet.

The Magnolia Petroleum company No. 1 Leonard, 330 feet north and 1,320 feet west of the east quarter corner of 6-2-6w, is dry and abandoned at 1,530 feet.

The Hayna Oil company No. 2 Pierce, in the southeast of the northeast of the southwest of the northeast of 14-2-6w, has the sand from 2,152-4w, has the sand from 2,152 to 632 feet, and is making 20 barrels a day.

The Lone Star Oil company No. 1 Nixon, in the southeast corner of 5-1-6w, is dry and abandoned at 2,500 feet.

The Magnolia Petroleum company No. 1 Tice south, in the southwest corner of 21-2-6w, is dry and abandoned at 2,344 feet.

The W. A. Scott No. 1 Pierce, in the southeast of the southwest of the southeast of 34-1-2, is shut down at 1,498 feet.

Prominent Garber People Here.

C. A. Garber, who is the president of the people who are to make Garber, came a month ago from Jay, Okla., to add a good town to operate from. He is in town yesterday accompanied by George Fallon, who is at the head of the Eureka Pipe company of Garber, and both are optimistic as to the outlook for their home town and for a wide field and much development work in the near future.

That caution has the right idea is shown from the fact that recently some forty dollars of the oil men were invited to come to attend a big feed which was served in the new Commercial Supply company's store, and at which gathering of the people of the town and the oil men the proposition of the Garber people. There was a free feed and much good fellowship and then all accounts the oil men informed the assembled people. It certainly is the way to build up a town in the oil country.

Mr. Garber reports that the new Garber Refining company plant is now in operation, is in good hands and is turning out an excellent quality of refined products. H. Morris is president of the company and C. I. Fair is vice president and W. D. Wilson, secretary, treasurer and manager.

Last but not least there is now building a modern auto room here with a bath in nearly every room, which is up to the second floor, and is sure to make life worth living for the boys that work in the oil fields when the weather is hot. This is only one of 14 brick buildings that are under construction and if there is any other town in Oklahoma adjacent to the oil fields that has a better record it is about time that the fact was made known. We are laying a little small bet on Garber.

Hayes Oil Corporation Reorganized.

The Hayes Oil corporation, which has distinguished itself by drilling a couple of good wells in the heart of the old shallow stuff at Jenks, had a meeting yesterday in Tulsa and reorganized with the following results: J. R. Challacombe president, L. V. Hill, vice president, J. L. England and George A. Caldwell directors and N. Baker, secretary-treasurer and actuary manager.

The officers of the company give Mr. Baker credit for bringing the company to the front and are loud in their praise of the manner in which he has handled the business and has put the concern on a paying basis. They have two wells which are making 50 barrels between them of high gravity oil on the Lessley-Watson farm in section 31-19-12, where they set for Tuscina sand of 1,124 and 1,130, respectively, and the deep pay on top of the dome at 1,845 and 1,855 feet. The No. 3 has a good showing of oil at 901 feet, and, south of No. 1, it will be drilled to the deep pay. These deep sands ought to lead the way to a good deep drilling.

Texas News.

It is reported that the M. L. Lewis has a good well on the Bell-Cobb farm near Wills Point, in Van Zandt county.

The Motherpool Producing company No. 1 Miller, two miles east of Eastland, is producing a good flow of oil at about 1,100 feet.

The Rand Production company, No. 1 on the Dunn farm in Hamilton county was shot with 140 quarts of the sand found from 2,220 to 2,384 feet to increase the gas. The hole has been fished.

At Bristow.

The Percoco oil company has a big gusher well after the shot in 15-1-3 at 2,300 feet. It is an offset to the H. & M. Oil company well which has been hooking 15 barrels naturally for more than a year. It adds wealth to the lease of things in that vicinity.

West of Henryetta.

The H. & M. oil company has a gas that is estimated good for 20 barrels natural at 1,600 feet in 19-11-12. It is just west of Henryetta five miles and is considered very important. There was also a show for a 30-barrel well at 1,700 feet and both of the wells will now be given a chance of gasoline.

Near Ponca City.

The Marland people are amazed about the new field north No. 2 on the Marlbank farm in 25-27-1 at a depth of 1,342 feet.

BUSQUE COUNTY BETWEEN OIL FIELDS

Did you know that Bosque county has received approval of the big geologists, that it lies between the great Desdemona (Duke) pool, 35 miles to the northwest, and the South Bosque pool 15 miles to the southeast, and midway between the Corsicana pool and the Brownwood pool?

SINCLAIR-GULF DRILLING

Did you know that the Sinclair-Gulf Co., Consumers Refining Co., Burt & Griffith, Ludlow & Thomas, Coleman & Wasson, Orr & Miracle, Benedum & Trees, Ex-Gov. Jas. E. Ferguson and many others are drilling deep tests covering every part of the county?

GULF, HUMBLE, TEXAS COMPANIES GETTING LEASES

Did you know that more than a million dollars is being spent or contracted to be spent drilling wells in Bosque county, and that the Gulf Production Co., Humble Co., Texas Co., Empire, and all of the big companies are scouting the county, buying leases for their companies?

5 ACRES MAKES YOU RICH

Did you know that if you had bought five acre tracts widely distributed over other Eastland or Stephens counties, Texas, at the beginning of tests in those counties, that you would now be a very rich man?

FIVE 5-ACRE TRACTS IN BOSQUE COUNTY FOR $250

We are subdividing five 100-acre tracts into five-acre tracts. We have approved the titles to the same, and will give you general warranty oil lease covering five of said five-acre tracts, one out of each of the 100-acre tracts, covering widely distributed territory over the county. We will sell the lease on said 5 tracts, 25 acres in all, for $250. They are out of the Jno. L. Parks, Jonathan A. Doak, A. M. Hallmark, Wm. H. Austin and Hiram Lee surveys in Bosque county. A county map showing locations, wells and surveys will be mailed to you on request. You can then see for yourself as to locations. You will own lease and not be mixed up with anybody or any company.

We were born in and have lived all of our lives in this county. We refer to any bank in the county as to our standing and responsibility. We warrant the titles. Send $250 to the First National Bank of Meridian, Texas, with instructions to deliver same to us when we deliver leases in your name covering said 5 different tracts of land.
