SALVATION ARMY IS IN NEED OF $20,000

Work of This Highly Important an Benefit of Organization Must Be Financially Aided.

TO START DRIVE TOMORROW

Hotel and Club Room to be Built—Campaign Under Auspices of American Legion.

The salvation army furnishes the machinery, the funds to carry on its work in Tulsa. At least $20,000 is needed by this organization to carry out its programme for the year, and an which contemplates a hotel and club room for men. The campaign for this money will begin Thursday morning, June 19, under the auspices of the American Legion and the civic clubs of the city. Major Ada J. Niles has been secured to manage for the fund and every cent will be spent as economically as possible.

The salvation army came to Tulsa 12 years ago and since that time has taken an active part in the welfare work of the city. Just 10 years ago the present building was erected and at this time is too small for the demands which are made upon the organization. If the $20,000 is raised this week a third story will be added to the present building and the second floor will be remodeled into club rooms. In this way the salvation army will be able to assist the soldiers and sailors who come to them as well as many others.

Hotel is Needed Here.

There is not in Tulsa a working men's hotel where a man may find a clean bed in the best surroundings at a normal price. The remodeled salvation army citadel would furnish Tulsa just such a hotel. The men who have been in the service will receive first consideration when the building is completed. If there is sufficient room others will be accommodated.

The salvation army citadel was built when the demands upon the institution were those of a town now they are those of a city. The facilities which other cities furnish the salvation army with which to work should not be denied the Tulsa organization. The committee in charge of the campaign is very optimistic about the results. They feel sure that Tulsans will respond to the call as they have done heretofore.

As it is able to do so the program of work will be enlarged and the institutions which are a part of its system will be added to the Tulsa organization. It conducts in many cities rescue homes, day nurseries, lodging houses, homes for the helpless aged, fresh air farms and free clinics. For more than a half a century it has fought a winning fight for the poor and the lonely. It has proven itself worthy and efficient.

That is why it asks you to contribute something to the $20,000 fund which it will raise this week. It has been tried in the balance and not found wanting.

Will Never Forget.

Bishop Peter J. Muldoon, chairman of the administrative committee of the national war work council, says: "The beauty and sweetness of the Salvation Army can never be forgotten and cannot be emphasized too strongly. However this therefore recommendations, in spite of all and this work and its work."

The army officials are at present in the problems of welfare work. The work in the southwest is conducted on the same scale of army activities as in other parts of the country where it has been at work for a long period of years. It is a source of great pride that these activities in the latter section of the west are so great. It is interesting the Area into the same parts of the country.
