$3,000 GIVEN IN DAY FOR SALVATION ARMY

Shortage of Campaigners Results in Poor Showing for Opening of $30,000 Drive.

ANY AMOUNT ACCEPTABLE

Chaplain Jones, "Fighting Navy Preacher," Will Address Workers At Noonday Luncheon.

With the launching of the Salvation Army drive yesterday morning in Tulsa the workers, under the direction of Horace Hagan, commander of the Joe Carson post of the American Legion, reported at a late hour last night that more than $3,000 had been subscribed during the day.

The executive committee, under the direction of Myron I. Niles, was disappointed in the small number of workers who gathered at the Hotel Tulsa yesterday morning, offering their services for the drive. There were only 18 who took part in the campaign during the day according to Niles, and the committee has sent out a call for more workers.

One of the special features of the drive is the cooperation of the women in the city with the members of the executive committee. The Tulsa Town club, composed of women under the direction of Miss E. Alex, have offered their services and were active during the entire day. Miss Esther Fox and a corps of women workers are also aiding in the drive, representing the women workers of the Joe Carson post.

Chaplain Jones of the battleship Texas, who is on a tour through the state in the interest of the Salvation Army, will address the workers at the noon day luncheon, which will be held in the Hotel Tulsa today. Chaplain Jones, although not a member of the Salvation Army, became interested in the movement through his son, who was helped by the Salvationists while in the service overseas.

"One of the most difficult problems we are facing is the failure of men and women to volunteer their services for the drive," said Mr. Hagan last night. "Although we are pleased with the results of the first day, we could have brought the total to a much larger figure had we the number of workers," he said.

"Another problem we are facing is the large number of men on which we have been relying to make large donations to the army are out of the city. This means we have to raise the money either by through small contributions or canvassing a larger number of workers," Hagan said.

"At the short meeting of the executive committee which was held yesterday morning before the drive was launched we set the goal at $30,000, which is Tulsa's share of the quota. We are doing and we know of no reason that the money could be raised before the end of the week. We have a large number of people out of the city, but every possible effort will be made to reach them. We can go over the top before the end of the week if we get a large number of workers and work morning, afternoon and night by the workers. I see no reason why the quota will not be reached before Friday," he said.

IF YOUR BLOOD IS YOUR LIFE

How Necessary Is Pure Blood to Your Good Health.

Pure blood is as necessary to your good health as the air you breathe, the food you eat and the water you drink.

When the blood becomes clogged with impurities, you suffer from constipation, your nerves are weakened, your head aches and you feel generally run-down and exhausted.

The best and quickest way to cleanse the blood of the impurities which cause the trouble is to take the treatment prescribed by a successful physician for his patients.

This liquid treatment ready prepared, is known as Prescription C-2223. It is taken in small doses because it is concentrated, and being readily absorbed, cleanses the blood of the impurities which cause your ill health. After using Prescription C-2223 for a short time, your skin will have that glow of health, indicating that your body is being nourished by pure red blood.

Prescription C-2223 contains no mercury, iodide, morphine, chloral or strychnine. It is for sale by most good drug stores at $1.50 a bottle, or the C-2223 Laboratory, Memphis, Tenn., will mail it you on receipt of price. Clip and mail this advertisement for literature.

Why Actresses Never Grow Old

Nothing concerning the profession seems more puzzling to the dear old public than the perpetual youth of our feminine members. How often we hear remarks like, "Why, I saw her as Juliet forty years ago and she doesn't look a year older now!" Of course allowance is made for makeup, but when they are up off the stage at close range they need another explanation.

How strange women generally haven't learned the secret of keeping the face young. How simple a matter to get an ounce of mercolized wax at the drug store, apply it like cold cream, and in the morning wash it off. We know how this great cosmetic imperceptibly absorbs old, sallow skin, gradually removing the complexion now and fresh, free from fine lines, callousness or even wrinkles. We know, too, that this mercolized wax is the reason actresses don't wear freckles, moth patches, liver spots, pimples and the like. Why don't our sisters on the other side profit by this? When it is suggested that Tulsa depend on a private individual for water remember the winter months when the gas pressure was down to nothing.

How much money has Tulsa spent in the last 25 years for water? What has she got to show for it? Nothing. The Spavinaw project offers a permanent solution to the problem and the cost is spread over a period of 25 years.
