DAILY DOPE
By LARRY DAILEY

Today is the day! Boxing fans of Tulsa and throughout the United States await with impatience the starting hour at Toledo when Jess Willard and Jack Dempsey clash for the world's heavyweight title, the first bold effort, 1915, and the final in the United States since 1919.

Revival of sport throughout the country, including the great comeback of boxing which is now on a firmer foundation than for a decade, and the unusual interest over the chances of both men to win, combine to make the Toledo scrap a great occasion, though it does go for only 15 frames.

Many desire to see Willard whipped. This has resulted in much betting despite the comparative un-known quantities of both men. Re-garding the winner, Dempsey has won many fights, numerous of them via the K. O. route, it is true. But we'll string along with the veteran at that. The champion looks good enough to win.

Here in Tulsa John J. Reisler, pro-moter of the Tulsa Sporting Club, has arranged a card that is at least equal to the heavy mill. Harry Greb and Bill Brennan undoubtedly the best heavies in the game next to the late lighters, slash 15 rounds, at almost as much interest and liquidity now is the other $1,000 go of the day, between Carl Pelkar and Bobby Hughes, winner to meet Pete Herman for the world's bantam title.

At Kansas City Joe Jennigan has arranged a classy match. Mike Gib-bons meets Jeff Smith. Gibbons and Smith are easily the foremost claim-ants to the world's middleweight crown worn by Mike O'Dowd and the K. C. boy promises to be a thriller.

Champion Pete Herman meets a tough boy in Dick Griffin at Fort Worth, though there isn't much dan-ger of the title changing hands as it is to be a moderation affair and the chances of any 118 pound boy stop-ping the little champion are exceed-ingly dim.

In addition to the above named scraps, which are the classiest of the day, numerous other title parades ad-ded in by opinion boys, but in which a title is not involved as in the To-ledo, Tulsa, Kansas City and Fort Worth tilts, will be held.

Not to forget that at Sapulpa, Kid Spark and Van Pitts, bantamweights, step 12 rounds.

One reason why we like Jess in today's go is that Bat Masterson brings along with the champion. There isn't a wiser judge of a boxer than the New York scribe, who pre-dicts the challenger will not stay the limit.

Tommy Dixon, former feather-weight, and who managed Otto Wal-lace three years ago, is the same Tommy Dixon, who is now backing as a lightweight. The Kansas City scrapper meets Joe Mcclowan, a promising protege of Harry Brewer, in the semi-final to the Gibbons-Smith tussle today.

"Dear Dopey Daily: Which is correct, Southern association or Southern league? J. R. D."

Don't understand the salutation. However, there's no hard feelings. Southern association is correct; there is no Southern league. The name "Southern association" is official.

Minor Magnates to Take Action on the Break With Majors

CHICAGO, July 3.—A call for a meeting of the committee repre-senting the National Association of Minor Leagues, to be held in Chicago July 19, was sent out to-day by A. H. Tearney, chairman of the committee.

Mr. Tearney said it was the purpose of this gathering to take some action in regard to the break in January between the National Association of Minor Leagues and the national commission, repre-senting the major leagues.

A verbal agreement had been entered into by the minor leagues association and the majors whereby the National Association of Professional Baseball Leagues were to operate independent of the national agreement, the National and American leagues having agreed to respect the territory, players, contracts and reservations of each club up to 21 men of all club members of the National Association of Professional Baseball Leagues.

Mr. Tearney said that since this agreement it has been impossible to get the members together to sign it.

FIND NEW CLOTHING ON TOP OF TURKEY MOUNTAIN

Suitcases and a hand grip filled with men's and women's clothing, found hidden on the top of Turkey moun-tain by residents of that neighbor-hood, were turned over to Sheriff James Woolley Thursday for identi-fication by the owner. Among the clothing, for the most part new, were found a number of display cards from which jewelry had been taken.

Soda Fountain Makers Swamped.

CHICAGO, July 3.—Soda fountain manufacturers have been swamped with orders for fountains, one of the largest firms announced today in connection with a 12 1-2 per cent in-crease effective July 1. Enforce-ment of liquor laws was given as the reason. Dispensers of soda water stated that in the two days of pro-hibition their business had increased 50 per cent.

MAKE EXAMPLE OF HUNS TO END WAR

CONTINUED FROM PAGE ONE

such an example of Germany as to discourage others from ever again attempting to repeat this infamy.

There was a unanimous "Ayes" when the premier first mentioned the idea of making Germany pay for the damage, dressed, but seemingly nearly all Japan number burst into laughter.

"I say to you in truth," said he, "I say to you to use it seriously, this proposal proposed.

Proceeding, he declared: "It is stated that this scheme is from the horrors of war it would be a great achievement.

"The number should, Clemenceau wants it.

The premier had spoken at length of the work of the fourteen expert sec-tions, which he said, had been the object of the adjudication of Germa-nons as the Conference and called with an Ahasuerus for the Writers and wise one of the Japanese Teachers "don't demobilize the spirit of the peoples."

Territory Restored

Speaking of the territorial terms of the treaty, Mr. Lloyd George said the territory taken from Germany was a matter of restoration. It was a restoration of Alsace Lorraine, be-ing taken forcibly from the land to which the population was deeply attached. It was a restoration of Schleswig-Holstein, the taking of which he described as the "Bearer of Bohemian-Moravian frauds." A restora-tion of "a Poland born to life by Russian, American and Teutonic gallantry, and now recast under the flag of Poland," and, he added, "they are all territories which ought not to belong to Germany."

The British delegation, the pre-mier said, has taken a stand resol-utely against any attempt to put a predominantly German population under Polish rule as it would be foolish to have another Alsace-Lorraine in Europe.

No Injustice Done.

"I do not think anyone can claim the terms imposed constitute injus-tice to Germany," the premier said, in discussing the separation clauses, "unless they believe justice in the war on the side of Germany. Having regard to the uses Germany made of her army there is no injustice in scattering and disarming it. If the allies had restored the colonies to Germany after the evidence of ill-treatment of the natives, and the part the natives have taken in their own liberation, it would have been a base betrayal.

"Then take the trial of those re-sponsible for the war. If wars of this kind are to be prevented, those responsible for them, who have taken part in plotting and planning them, should be held personally responsi-ble. Therefore, the enemy decided that the man who undoubtedly had the primary responsibility, in the judgment at any rate, of the allies, should be tried for the offense he committed in breaking treaties he was bound to honor and by that means bringing on the war.

"It was an exceptional course and it's a pity it was, because if it had been done before there would have been fewer wars. The allied coun-tries unanimously decided that a tri-bunal—an inter-allied one—should sit at London for the trial of the person chiefly responsible for the war.

"Those guilty of submarine out-rages ought to be punished, for the officers should have known that they would be held personally re-sponsible for offenses against the laws of war."

Premier Lloyd George argued that it was not vengeance "to take every possible precaution against a recur-rence of the war and to make such an example of Germany as will dis-courage ambitious rulers and peo-ples from ever again attempting to repeat this infamy. The German peo-ple approved the war and therefore it was essential in the terms to show if nations enter into unpro-voked wars of aggression against their neighbors, what lies in store for them."

After referring to guarantees in the treaty, such as disarmament, which he declared should not be a "scrap of paper," the premier spoke on the bill dealing with the Ameri-can and British guarantee in the event of an unprovoked attack on France, saying that he did not sup-pose any portion of the house would oppose that.

Twice Invaded.

"It is entered into with the ap-proval of the league of nations," the premier asserted. "Within living memory France twice has been in-vaded by Germany. With her popu-lation of 40,000,000 facing a hostile population of 60,000,000 or 70,000,000, France had legitimate reason for feeling nervous apprehension when the British and American armies left. I do not agree that the treaties showed lack of faith in the league of nations. After all, the league would have no value unless it had behind it strong nations pre-pared at a moment's notice to stop aggression."

France was prepared, said the pre-mier, to reconsider at the proper time the question of the occupation of the Rhine. But the moment Ger-many carried out her undertaking regarding disarmament, the cost of the army of occupation should not exceed 240,000,000 marks a year.

Lastly, there was the guarantee of the league of nations, a great and

CITIES ON GUARD FOR REDS TODAY

CONTINUED FROM PAGE ONE

create a reign of terror by bomb ex-plosions.

Officials of the department of justice have said that they knew of no concerted plot set for Inde-pendence day, but no chances are being taken. The bureau of investi-gation has enlisted the police of all large cities in its purpose to put an end to criminal agitation. The plans have not been divulged, but it is known that many suspected persons have been under surveillance and that they will be arrested on the least suspicious move.

Adequate precautions have been taken for the protection of public officials, but the nature of the safe-guards necessarily have been kept secret.

OKMULGEE TO GET A FINE, NEW THEATER

OKMULGEE, July 3.—Surpassing in elegance of appointments, mod-ern equipment and design and gen-eral completeness it is said, any theater in Oklahoma, a new theater to be known as the Cook theater, is to be built just west of the Hotel Parkinson. Announcement of the plan to erect the new play house was made today by the owner and builder, H. D. Cook, well known Ok-mulgee business man. The plans and specifications for the building have been completed. They were drawn from suggestions made by Mr. Cook who recently completed a trip through the east on which he visited 24 of the leading new theaters of the country.

The new theater will be of brick with stone and terra cotta trim-mings. The contract will be let within a short time and Mr. Cook said today that work would be be-gun before August 1 and that it was his desire to have the theater open not later than New Year's day, 1920.

Large Seating Capacity.

The theater will be used for the showing of moving pictures princi-pally, but the stage will be 32 by 50 feet in size so that road shows or any other theatrical performances may be given there. The seating ca-pacity will be between 1,150 and 1,200 with the seats placed in the main floor, a balcony and several boxes.

PROTECTION COST GAMBLERS DEARLY

CHICKASHA, Okla., July 3.—Leonard Larsons, lookout for the self-confessed combination of eight gamblers operating two houses here under the Sewar Simpson adminis-tration, testified at the disbarment hearing here today that he made an agreement with Simpson for immuni-ty, the price to be $250 monthly and that he paid that amount each month to the prosecutor for several months.

Emanuel Steed alleged negro bootlegger, said he paid Simpson $25 a month for immunity that he was forced by the prosecutor to pay an additional $250 to dismiss two suits filed by the attorney for smuggling to make that case on."

The hearing is continuing.

Iceman Hurt.

A. P. Mercer 1105 South Main street, who is employed by the Peo-ples Ice company, was painfully in-jured at 10 o'clock night while un-loading a carload of ice. The rear wheel of Mercer's truck gave way allowing the weight of the ice to fall on Mercer's one phalanx bro-ken. Although badly bruised as Mercer was at the Oklahoma hos-pital showed that no bones were broken.

Mullins in Hospital.

J. B. Mullins, one of the muscle men in vaudeville, who was injured in a motor accident near Tulsa, is in the U. S. A. hospital suffering from injuries sus-tained in a collision with a Ford on Fourth street Wednesday morning. Six bones were broken but the doctors say he will recover. The total damage done to his car was estimated at $500 or more.

DEMOBILIZE FORCES BY SEPTEMBER 30

United States Army Will Be Reduced to Peace-Time Basis on or Before That Date.

CONFRONT DIFFICULT TASK

All Expeditionary Soldiers to Come Back Home—Difficult Task Is Confronted by Officers.

WASHINGTON, July 3.—Orders for the demobilization of the army by September 30 to the peace time strength of approximately 180,000 officers and men authorized by the national defense act were issued to-day by the war department.

Announcement that the army would be reduced to less than 240,000 officers and men by September 30 was accepted here to mean that defined plans had been made to withdraw practically the entire American expeditionary force before many weeks.

The number of men necessary to garrison domestic ports and the de-fense of the insular possessions would be almost the total of the au-thorized peace time total.

The national defense act author-ized a total of 189,491 officers and men for the line and 27,415 officers and men for the staff corps and de-partments. A reduction of the mili-tary establishment to those figures would be 108,000 men below the strength authorized in the 1920 army bill, but officials explained this re-duction would be necessary to com-pensate for the heavy excess now ex-isting over the authorized total.

The official announcement was made by the war department:

"The following night letter has been prepared and will be sent tonight to all military commands in the United States: 'Appropriations for the sup-port of the army make it necessary that immediate and energetic steps be taken by you to expedite reduction of commissioned personnel. By Sep-tember 30, 1919, it will be necess-sary that a peace-time strength of commissioned officers of permanent establishment be returned to their regular grade. All officers holding only commissions for the emergency, including applicants for permanent appointment, will be discharged on or before that date. The command-ing officers of all departments, ports of embarkation, chiefs of all staff corps and the commanding officers of all camps and military stations not under jurisdiction of any of the above will take immediate steps to readjust the duties of commissioned personnel under their jurisdiction and to cause discharge of officers holding only emergency commissions as rapidly as possible and in such manner that all will be discharged on or before September 30, 1919.'"

Latest figures on the strength of the army show that there are about 900,000 men and 65,000 officers un-der arms. To reduce this to 12,268 officers and 221,045 men in two months will require almost super-human efforts, military experts say.

DIRIGIBLE ANDS TODAY, IS REPORLT

British naval officers said the craft would not pass over this city to-morrow morning unless she alters considerably her present course, which would carry her well north of here. It was said if she followed her present course she probably would pass over Bonavista bay, and diagonally over Newfoundland to Fortune bay on the south coast. In this case, the officers said, she would probably proceed across maritime Canada and New England to New York.

PRESIDENT DUE TO ARRIVE IN NEW YORK ON TUESDAY

ON BOARD U. S. S. GEORGE WASHINGTON, July 3.—The George Washington, with President Wilson on board, probably will not reach New York before noon Tuesday next. The presidential fleet slackened its speed during the night and now is runing at about 15 knots an hour.

The weather continues good, al-though the sea was rather lumpy today and a slight mist was gather-ing during the morning.

The president is devoting most of his time to his message to congress. His address to the soldiers and blue-jackets on board on the Fourth of July will be delivered at 3 p. m. from the crossdeck with the army and navy men massed on the main deck below.

A novel feature on the occasion of the Independence day exercises will be the first use at sea of the wireless telephone for transmitting a presidential speech. A transmitter will be placed alongside the presi-dent, so that as he addresses the soldiers and sailors on board the ship his words will be heard on board all transports within a radius of 300 miles.

Miske and Levinsky Fight 12-Round Draw

TOLEDO, Ohio, July 3.—Billy Miske of St. Paul and Battling Le-vinsky of New York fought a slow 12 round draw in an open-air arena here tonight.

Girl Operators Return.

ST. LOUIS, July 3.—Girl operators of the Kinloch Telephone company on strike since last Wednesday for-lowing a conference of company and union officials tonight, voted to re-turn to work tomorrow morning. This will not affect the strike of the men employees, managers here said. Both sides stuck and union officials refused to discuss the terms agreed to, but the girls said they had modified their demand for the closed shop.

Negotiate Commercial Treaty.

BRUSSELS, July 3.—Negotiations between France and Belgium regarding a new commercial treaty have been in progress here for several days. These negotiations are ex-pected soon to have a bearing on the economic union between Belgium and the grand duchy of Luxemburg.

Rumania Not Satisfied.

PARIS, July 3.—M. Bratiano, premier minister of Rumania left last night for Bucharest to submit to his government the text of the treaty regarding that country. "It is no secret," says the Petit Parisien, "that Rumania claims concerning Transylvania, Dobrudscha and Banat are not satisfied by the treaty."
