The Henry Steinberger Funeral

The funeral services for Henry Steinberger, held yesterday at the home at 448 North Cheyenne, were most impressive and seldom ever has there been held like services in Tulsa where more real grief was in evidence.

The Knights Templar and the oil men friends of the family were all there and were much impressed with the services as conducted by Rev. Lloyd Mr. Kerr, pastor of the Presbyterian church, of which Henry Steinberger was a most efficient officer.

Henry Steinberger's loyalty to the country and to his family and to the church was very strong," said Mr. Kerr in his remarks, and he related how, at the outbreak of the war Mr. Steinberger offered his services in any capacity and how he had later on made a strong effort to get into the Y. M. C. A. service and doubtless would have succeeded had it not been for his age, which of course was against him.

And now that the last sad rites are over, the oil men are saying of Henry Steinberger that he was a man of unimpeachable honor and integrity and, as one man put it: "Mr. Steinberger and his son, Clyde, have drilled, I suppose, as many — 25 wells for me during the last 10 years and there has never been a scratch of a pen or any sort of a written contract between us, neither has there been a single word of controversy or a dispute of any kind whatever."

And so one of the old landhys and landmarks of the oil business will be missing hereafter, and his passing will leave a void that cannot be filled. He was the soul of honor and the oil business has always prided itself on having been built upon the word of honorable men—men who would rather sacrifice their last dollar than defraud their fellowmen.

At Stone Bluff.

Minot and Minot No. 11, Barnett, in the northeast of 11-1-16, is dry and abandoned at 1,900 feet.

Corey and Anders No. 1, Asbury, in the northwest of 22-16-16, is dry and abandoned at 1,430 feet.

Clinton and Jackson No. 1, Barnett in the southeast corner of the southwest of the northeast of 24-16-15, is dry and abandoned at 1,000 feet.

Minot and Minot No. 1, Barnett, in 11-16-15, got the sand at 1,020 to 1,030 feet and is showing a 1,000,000-foot gasser, drilling at 1,100 feet.

Hartman and others No. 1, Murphy, in 5-16-16, got the sand at 1,470 to 1,496 feet, and the well is good for 5 barrels after a shot.

Southeast of Bristow.

The Selby Oil & Gas Co. No. 3, Sowell, in 10-15-9, got the sand at 2,560 to 2,600 feet and is making 100 barrels natural.

W. G. Skelley No. 1, Hittle, in 11-15-18, is on top of the sand at 2,595 feet and running big pipe to drill in. It is estimated, as it now stands, good for 40 barrels.

Beggs District.

The Prairie Oil & Gas Co. No. 2, King, in 1-18-11, got the sand at 1,710 to 1,761 feet and is good for 40 barrels after a shot.

The Consumers' Oil & Gas Co. No. 5, Coleman, in 15-15-11, got the sand at 1,830 to 1,864 feet and is good for 80 barrels after a shot.

The Home Oil & Gas Co. No. 1, Hill, in 23-15-11, got the sand at 1,749 to 1,761 feet and is good for 40 barrels after a shot.

Knox and others No. 1, Adams, in 26-15-11, got the sand at 2,230 to 2,324 feet and the well is good for 15 barrels.

The Livingston Oil corporation No. Simms & Black No. 2, one location east of No. 1, in 12-14-11, is drilling up.

Wade Phillips No. 1 in the northwest of the southeast of 12-14-11 is drilling at 1,500 feet. No. 2 is a rig building.

Wade Phillips in the northwest corner of the northeast of the southeast of 12-14-11, is a rig.

J. Marshall in 22-15-11, got the sand at 2,241 to 2,291 feet and is good for 25 barrels after a shot.

The Twin State Oil company No. 2, Coleman, in 3-15-11, which got the sand at 2,710 to 2,730 feet, has now been shot and is good for 50 barrels.

The Shepard Oil company No. 1, Coleman, in 36-15-11, is drilling at 1,726 feet. No. 2 is drilling at 2,630 feet.

The Rankin Oil & Gas Co. No. 1, Hensel, in 36-15-11, which got the sand at 1,766 to 1,774 feet, is dry and is being drilled deeper.

Morris District.

Moses and others No. 12, Charles, in 1-14-15, got the sand at 1,300 to 1,332 feet and is good for 15 barrels.

McMan and others No. 1, Carter, in 16-15-14, is dry at 1,510 feet and shut down.

W. H. Pine No. 2, Bird, in the northwest corner of the southeast of 27-14-13, is good for 15 barrels after a shot at 1,920 feet.

The Sequoyah Oil company No. 8, Drews, in the southwest corner of the northwest of the southwest of 31-15-15, is dry and abandoned at 1,650 feet.

At Taft.

The Aldrich-Blake Oil company No. 3 Island in the northwest corner of the northeast of 26-15-17, is dry and abandoned at 1,520 feet.

The Gladys-Belle oil company No. 1 Stephens in 14-15-16, got the sand at 1,600 feet to 1,678 feet, and is good for 15 barrels.

At Muskogee.

The O. P. A. No. 5 Dean in 34-15-18, got the sand at 898 to 910 feet and from 1,033 to 1,045 feet and is good for 40 barrels.

J. H. McDonald No. 5 Barnett in the southeast of 9-14-15, is dry and abandoned at 1,895 feet.

Near Catoosa.

Stein and others No. 1 in the southeast corner of the northeast of the northeast of 36-19-15, is dry and abandoned at 1,200 feet.

At Tulsa.

Sterling and other No. 1 Safer in the southeast of 10-19-13, is dry and abandoned at 1,530 feet.

At Lost City.

Billingsley and others No. 2 Grayson in the northwest of 28-19-11, is dry and abandoned at 2,300 feet.

Allen District.

The Oil State Oil company No. 2 Scroggins in the southwest of the northwest of the northeast of the northeast of 25-5-7, is good for 15 barrels at 1,120 feet.

The Marjorie Oil company No. 5 Gilmore in the southeast of the southwest of the northeast of the northwest of 28-5-8, is completed and good for a 5,000,000 gasser at 1,180 feet.

Cotton County, Oklahoma.

The Mo-Man Oil company No. 3 Patterson in the northeast of the southeast of the northeast of 4-2s-10w, is good for 40 barrels at 2,175 feet.

The Carter Oil company No. 1 Eastman in the northeast corner of 26-4s-12w is dry at 2,690 feet.

The Carter Oil company and others No. 1 in the northwest of the southeast of 23-5s-13w, is dry at 1,650 feet.

Allen County, Kansas.

The Eastern Oil and Gas company No. 7 Hendricks in the northwest of the southwest of 25-26-18, is making 10 barrels.

W. E. Laughner and others No. 11 on the Lewis Morris farm in the southwest of the northwest of 17-26-18, is good for 15 barrels.

Eakin & Lamberton No. 7 on the Tebay and Eakin in the northeast of the northeast of 24-26-17, is making 60 barrels.

C. A. McCay No. 5 Liberty Oil company, Chanute, in the northwest of the southwest of 17-26-18, is good for 10 barrels.

Chautauqua County, Kansas.

Denman Iron No. 3 Morris Pyle in the southwest of 26-34-10, is making 1,000,000 gas.

W. F. Lemon No. 5 in the southwest of 26-34-10, is making 140 barrels.

The Mary Ann Oil company No. 8 G. G. Johnson in the southeast of 27-34-10, is good for 65 barrels.

At Leonard.

Laughlin and others No. 2 Crouch is drilling at 1,458 feet in 11-17-12.

The Congress Oil company No. 2 Porter in 21-17-14, got the sand at 1,940 feet to 1,962 feet, and the well is good for 40 barrels.

The Sapulpa Refining company No. 2 Grayson in 24-17-14, got the sand at 1,860 feet to 1,872 feet, but is only showing for two barrels and may be abandoned.

B. B. Globe No. 1 Porter in 23-17-15, got the sand at 1,100 feet to 1,120 feet and is making 10 barrels.

Near Shamrock.

The Margay Oil company No. 1 Yankee in 9-16-8, got the sand at 2,360 feet to 2,395 feet, with a showing for 10 barrels, and is now drilling at 2,480 feet and going on down.

At Mounds.

Kiskaddon and others No. 1 Fulton in 29-16-11, got the sand at 2,300 feet to 2,326 feet, and is making 12 barrels, natural.

Wilcox and others No. 1 Grayson in 32-16-12, got the sand at 1,670 to 1,690 feet and is good for 25 barrels.

Bixby District.

Shuler & George No. 1 Fox in 27-16-13, is dry and abandoned at 1,690 feet.

The Tuxedo Oil company No. 3 Harry in 28-16-13 got the sand at 1,740 to 1,757 feet and is good for 180 barrels, natural.

Crosbie and others No. 1 Grayson in the southwest of 15-16-14, is completed and good for 40 barrels at 1,775 feet.

J. F. Kess No. 8 fee in 2-16-14, is dry and abandoned at 1,600 feet.

National oil company No. 2 Mordesan in the southwest corner of the southeast of the northeast of 34-16-14, is dry and abandoned at 1,975 feet.

At Henryetta.

Kimbrey & Moffett have a dry hole at 2,650 feet in the east half of the northeast of 8-11-12, and it is undecided whether to drill deeper.

At Foyil.

Kingsbury & Wilson are due Saturday with an offset to the Mid-West Oil No. 1, which is located in 6-22-17, and are directly south of that good producer. The chances are mighty good that there will be another very creditable oil from the Texas as soon as this well is completed. Mr. Wilson has been in a lot of likely looking propositions in the last five years, but this time he appears to be in on a sure winner. Mr. Wilson says that the Mid-West well is making between 80 and 100 barrels at the present time.

Marland Gets Big One at Ponca City

Special to The World.

The Marland Refining Company No. 6, M. G. Brady, in 8-26-2, has been drilled in for Bopper sand to 3,550 feet and well made 600 barrels the last 24 hours. This makes the fourth deep well in this district and the indications are that this will be a regular sand throughout the entire field and will be the cause of increased operations in that district. The Marland people own practically all the acreage in the entire field and Mr. Marland is playing Kay county to the limit with a lot of nice looking acreage.

Succumbs to Operation

It will be sad news to friends that the wife of J. H. Jacobs of the Carter Oil company died Thursday morning following an operation for appendicitis at a local hospital. The oil fraternity and this paper extend the deepest sympathy to Mr. Jacobs in his bereavement.

Preparing to Drill In

The Canfield Refining company is laying a 2-inch flowline to its lime well in 18-19-6, which is now flowing at the rate of 50 barrels daily. As soon as the flowline is completed this well will be drilled deeper, and it is expected to be good as the well of the New England Oil company in 13-19-5, which is now making approximately 800 barrels at three weeks old.

With the Oil Men

C. D. Ruff, chief clerk of the Texas Pipe Line company, left several days ago to spend his vacation in Indiana, Ohio and various points farther east. Mr. Ruff started to make the trip by automobile, but encountered such bad roads and unpropitious weather that he turned back and made a new start by train.

M. Y. Rushmore of the Sapulpa Refining company is in the city and states that the company is doing a lot of new work on the refinery.

E. Dellart is back from Comanche county, Texas, and when he returns will operate in the Ranger district, and says that the drilling down there is fairly easy and the he has been making a lot of money contracting. "I do not believe there is any danger of the Texas field breaking the market for crude," said Mr. Dellart, "unless it be at Burkburnett. There is no telling what those fellows will do if they get a little oil ahead and need the money to operate with. They are a new factor in the oil game and are a menace, in a way, for the reason that they are mostly stock promoters and need money for expenses as they go along. Otherwise, I believe the development will be slow and, inasmuch as the wells are not holding up very well, I can foresee no difficulty as to the price."

M. C. French, who is in town on business, says that he expects to spend his vacation at home as the opportunity for making money was never better than now and especially in the territory surrounding Okmulgee.

Tom Argile, who is here looking after development work and will soon start drilling in the Osage, is back from Pawhuska, where he was accompanied by his wife, and both were greatly interested and especially the latter, who had never seen the Osages before.

H. F. Wilcox has decided to make a trip to Michigan overland and will drive through with his wife and two youngsters, and will find the trip a pleasant one, as his car is large and commodious and has lots of room. They are going direct to Beulah, Mich., which is located on a beautiful lake in the pine woods, and no one is more entitled to a rest than Mr. Wilcox.

E. L. Willis, formerly with the Vacuum Oil company, is now district sales manager for the Fidelity Petroleum company. He will receive a warm welcome in Tulsa.

Joe A. Gerity, who is the district governor of the Kiwanis club, which is a wonderful social and humanitarian institution, is in the city and is looking for good water and finds Tulsa as only Oklahoma can. He knows how to boost. He says it is really a rare institution, psychological study, and one in which I am deeply interested to see that there should be good men who are from prosperous and who live in this wonderful town, who have the broad distinction of calling this home, should ever for one moment think of coming against this water problem and against drinking the very poisonous and sweetest water in the world so flowing by pipe line and be squelched and by thirsts.

and any man who has stood on the banks of the great irrigating streams in Colorado and merely that the water could be power of money or home speaking from this water from the Sparklets that will come across those concrete ladies' throats. These people, and I, in these great places from Tulsa, I hope there will be 50 men born in oil and state of engineering ability will fall in place the wonderful problem of drilling and using to the best this sparkling water to supply the thirst of a sugar Yam by the Pecos and south Texas great, I tell you, and the air of your wonderful city.

Never Was Strike—Burleson.

WASHINGTON, July 3.—Postmaster General Burleson today denied the statement in connection with the crisis of the telegraph company, that telegraphers "Company men telegraphers."

"The truth is there has been no strike. It failed from the moment it was called. Some 20,000 men remaining the legal orders of the war and postal telegraphs to go places and to remaining the strikers were by permission, during the period of governmental control, refused to respect the order to strike."
