EDSEL FORD BECOMES PARTNER WITH FATHER

Reorganization of Company Is Being Effected—Employes Get Higher Wages and Dividend Share

DETROIT, Mich., July 11.—Reorganization of the Ford Motor Company is being completed whereby Edsel B. Ford, 25 years old president of the company, becomes with the exception of one other stockholder, the sole partner with his father, Henry Ford. This announcement was made here today by Frank L. Klingensmith, vice president and general manager of the company.

Mr. Klingensmith announced that purchase had been arranged of all the minority stock excepting a block held by James Couzens, millionaire mayor of Detroit and former vice president of the company.

Recapitalization of the company also is contemplated, Mr. Klingensmith said, but added that announcement of the details at this time would be premature. Officials of the company refused to divulge the amount involved in the purchase. It was estimated in financial circles, however, that it would total close to $100,000,000.

Up to the present Henry Ford has held 58½ per cent of the Ford motor stock. Today's announcement comes as a complete surprise in motor and financial circles, as it had been rumored for some weeks that another automobile corporation was seeking the minority holdings.

The Detroit Journal today says it is prepared through the courtesy of the Ford Motor company to make it possible for employes to share in the dividends. The Journal quotes Henry Ford as saying:

"By making it a competitive company we propose to make it possible for the people to distribute the money that have in the past been put with the minority stockholders."

MOUNT CLEMENS, Mich., July 11.—Edsel Ford, president of the Ford Motor company, stated that the new stock purchase means that there will be no new automobile company formed, as had been rumored by the Ford family, and motion will in California last March.

Wages, he said, would be increased from time to time, but he declined to confirm the report current among certain Ford employes that a 12 per hour wound be put in effect soon.

He also declined to state the price paid for the minority stock. The Ford family now holds 58 per cent.

Committed Suicide.

LONDON, July 11.—Mrs. Arthur Eliot, who was found shot to death in her home on Wednesday, had committed suicide while of unsound mind. This verdict was reached today at the coroner's inquest into her death.

WIDOW SLAYER TELLS STORY OF HARDSHIPS

CHICAGO, July 11.—Mrs. V. Trippmacher, 60 years old, formerly of New Orleans, on the witness stand today in her trial on the charge of murdering Paul Vollard, a gold miner, told a story of savage blows through 15 years of wedlock. She is to be sentenced in Illinois after examination, the state indicated, and her fate may come from the jury before tomorrow night.

She was born in Belgium and came to the United States when she was 15 years of age. She testified. She was married to Francis Trippmacher, she said, 45 years ago. But seven years ago, she said, they moved to Florida. Misfortune continued to follow them, and her husband became ill and died seven years after their marriage.

There was a small son to care for, and she had lived her child's life on an income of children's dollars, private secretary and businessman's work and as a servant.

She still possessed a trusted knapsack, a dented painted metal box, bearing Washington and 22 bars, inscribed by John Trippmacher. Dipping into the contents, she said she took it to purchasers, then, entering into a contract with Vollard for Yukon claims.

She accused Vollard of share profiteering and after lawsuits had ensued in making an adjustment she went to Vollard's office on May 1, on the day of the shooting, and demanded a settlement. He refused, she said, and she refused. "You don't, she said she replied. And then there is some more of the story which she could not remember, which was the last."

Form Clearing Corporation.

NEW YORK, July 11.—Our New York stock exchange clearing house is to be reorganized as a clearing corporation, which would eliminate the formation of a clearing corporation which would eliminate many of the risks now assumed by the clearing house and substitute in addition to nothing but the clearing house.
