PREPARE WELCOME FOR RETURN OF PERSHING

Congress and War Department Make Plans for Reception of Man Who Directed Americans in France.

TO BE PERMANENT GENERAL

No Opposition Is Expected to Program to Make Present Rank Permanent—Will Return Soon

WASHINGTON, July 27.—Preparations for the welcome of General Pershing on his return home are being made in both congress and the war department, but the plans of neither are yet complete. The congressional program, however, as already drafted calls for the gift of a sword, a vote of thanks and the perpetuation of the rank of general on the commander of the American expeditionary forces. War department plans have not yet been completed and are awaiting receipt of information as to the time of General Pershing's return.

Preliminary house military committee discussion already has indicated that there will be no opposition to the proposal to give Pershing the permanent rank of general.

Congressional rewards to army officers for distinguished service in war are divided into three classes: (1) The thanks of congress; (2) brevet rank; (3) increased rank on the active or on the retired list.

From 1799 to 1903 the thanks of congress were extended to 23 officers for services in the war of 1812, the Mexican war and the civil war. In 1903 the thanks of congress have been extended only to four army officers—those for distinguished service in constructing the Panama canal.

The rank of general has been given to few officers among them Grant, Sherman and Sheridan. On the death of General Sheridan the rank ceased to exist and was not revived until the world war, when temporarily given to Pershing and Peyton C. March as chief of staff.

SELL FLOUR AND NOT WHEAT, SAYS SENATOR

Oklahoma Farmers Losing Thousands Every Year by Not Co-Operating in Establishing Mills.

World's Washington Bureau,
Post Building.

WASHINGTON, July 27.—Oklahoma and Texas Panhandle wheat growers cannot expect permanent relief from profiteering buyers until they own their mills and elevators and are thus in a position to sell flour instead of wheat, Sen. A. J. Gronna of North Dakota, chairman of the senate agriculture committee, today wrote to John A. Whitehurst, president of the Oklahoma state board of agriculture.

Whitehurst had written to Senator Gronna complaining of profiteering by grain dealers and wheat buyers on a large scale. Whitehurst said that investigation by federal agents in co-operation with representatives of the state department of agriculture discloses that in numerous instances profit that should should accrue to the farmer is being sacrificed to the dealer in order to dispose of the product. Cases have been discovered where dealers are paying less than the federal guaranteed prices. Whitehurst also asked the cancellation of the federal grade system and return to the old basis.

Gronna said the question of the grade system was in the province of the bureau of markets department of agriculture and was formulated by charges of Brand, who is retiring as head of this bureau, and that it is not known what the attitude of his successor will be on the matter.

Gronna, who is one of the largest wheat growers in North Dakota, however, said the grade system is all wrong, as it does not take into consideration the flour qualities of the wheat, but only its physical appearance. He said that the grade system in 1916 cost wheat growers in North Dakota alone $55,000,000.

At his office today Gronna cut open and analyzed wheat grains of the various grades to show that No. 1 quality of wheat often possessed less milling quality than wheat of lower grades. Gronna said he did not doubt the report that profiteering buyers are bilking Oklahoma and Texas wheat raisers and said he knew of no way to forever end it except for farmers to combine, build mills and elevators and sell the flour themselves.

Six Months Infant Dies.

Mary Katherine Edwards, infant, died Sunday morning at 10:45 o'clock. The funeral services conducted by the Rev. Anderson of the First Baptist church, will be held at 7:30 o'clock this afternoon at the home, 1620 East Nineteenth. Burial will be at Rose Hill. The body was at the Robert McIlhiney undertaking parlors.

Hickey Funeral Today.

Isaac Hickey, G. A. R. veteran, who died Saturday, will be buried this afternoon at Rose Hill cemetery. The funeral services will be held at 2:30 o'clock this morning. Fifth and Frisco, conducted by the Rev. J. A. Abel. Members of the G. A. R. will act as pallbearers. Robert McIlhiney, undertaker, will conduct the funeral.

While Parents Select Casket for Baby House Is Visited by Thieves

While Mr. and Mrs. A. W. Edwards, 1621 East Nineteenth street, were at the undertakers last night selecting a casket for their little daughter, Mary, who died yesterday, thieves broke into the house, carrying away $450 worth of jewelry, clothing and furnishings. The burglars drove away in a wagon, which officers Foor and Hess traced to a vacant lot nearby where it had been abandoned and the goods removed. They were unable to find any trace of the men.

Newspaper Reporter Killed.

SAVANNAH, Ga., July 27.—Frank L. Hoyt, a local newspaper reporter, and formerly a lieutenant in the with-then service, was struck in the head by the propellor of an airplane here today and died a few hours later. Mr. Hoyt was a native of Washington, Ga.

Osage Gas Royalties More Than the Original Costs

FONCA CITY, Okla., July 28.—The story of how natural gas royalties were increased in the Osage in dollars' property, in Osage county, is one of the greatest mysteries of the present time when the power of gas is being so widely discussed. For the royalties are now in excess of what the price of the gas itself was originally. At one time in the Osage the oil and gas royalties were the same, but now the gas royalties equal 2½ cents per thousand cubic feet and are increasing of the gasoline extracted from the gas.

The Osage, in operation with the adoption of the Allotment Lease & Zone Co., which is managed by Frank Phillips, one of the chief officers of the gas company in the Osage, first found it worth while and organized it for some time under the name of one of its subsidiaries, the Allotment Pipe Line Company. Later, however, the leases were sold to the Empire Gas & Fuel Co. for a reported price of $1,000,000.

A Heavy Gas Producer.

The Osage country is the mid-continent field's heaviest natural gas producer, at the present time, with indications that it will hold that distinction for many years to come because of the federal regulations and limitations that were inaugurated to conserve this gas supply as that of no other district has ever been conserved. The crude period, during which the government holds the mineral rights of the Osages in common for them, extends to 1921, and an effort is now being made to have this period extended to 1959, principally for the continued protection of the Indians and the permanent conservation of the gas, guaranteeing the Osage to be the longest time gas producing area perhaps in the United States.

In seeking to have the trust period extended to 1959 it is contended that the holders of gas leases will then understand that the federal regulations will continue in force to that date, thus permitting the producers to put in "booster" stations and other gas saving facilities, an expenditure they would not care to make unless it would cover a long term of years. Even the smallest amounts of gas would thus be conserved for Oklahoma.

Holders of Leases.

The vast importance of the Osage is perhaps not generally understood. At the present time it is producing 35,000 barrels of oil daily and 500,000,000 cubic feet of gas, the open flow of all gas wells in the portion of the Kansas-Oklahoma district is there any greater development for in addition to 182 drilling rigs now at work in the Osage, there are also 152 rigs and locations where drilling has not yet started. In this respect the Osage leads all the rest of Oklahoma.

Holders of extensive gas leases in the Osage country are required to spend $100,000 annually on each big acreage lease. This provides continual development and also guarantees additional royalty money for the Indians. At the outset, a number of years ago, the gas leases were obtained without a bonus, but recently there has been keen rivalry among the big concerns. When E. W. Marland, head of the Kay County Gas company of Ponca City recently secured a lease on 120,000 acres adjoining a lease on 120,000 acres held by the Marland interests, he had to pay a bonus of $10,000 on the first 40 acres, or $250 per acre. It is reported he paid $1,000,000 for the entire lease.

Marland, for the Kay County Gas company, is now the holder of more gas acreage in the county than any other individual or company, a total of 180,000 acres. The Prairie Oil & Gas Co. is reported to have 150,000 acres, the Indian Territory Illuminating Oil Company, 80,000 acres, Barnsdall Oil Company, 80,000 acres, the gas output of which goes to the Quapaw Gas Company, of Carthage, Mo. The Empire Gas & Fuel Co. has 100,000 acres, the Graham-Chandler Company, 100,000 acres, Charles Page of Tulsa, 60,000 acres, Charles Ozark, 100,000 acres, the Cities Service Co., 100,000 acres, the Cleveland Natural Gas Company, 100,000 acres, the Oklahoma Natural Gas Company, 100,000 acres. The remaining acreage is held in smaller tracts.

Entire County Leased.

Osage county, which adjoins Ponca City on the east, practically is covered with gas and oil of a lease for gas. Federal regulations limit the acreage that an individual or company can lease to 640 acres, and now there are scarcely any of the qualified oil lease holders, owning 640 acres. During 1918 there were 624 wells drilled in the Osage country, of which 498 were oil producers, 34 gassers and 171 dusters. The total oil production in the Osage for 1918 was 10,674,812 barrels, with the total dry gas production was 74,793,476,000 cubic feet, while the casinghead gas production totaled 7,953,100,000 cubic feet. These gas figures do not include the gas used by the drilling rigs, of which it is estimated there were 100 drilling daily in the Osage during last year.

On the Osage Indian rolls entitled to royalties are 2,230 persons, and during 1918 these drew $4,500 per capita, or a total of $10,035,000. At the present time, or during this week, the Osages are drawing $7.10 per capita from oil and gas royalties, making a total of $2,000 per capita for the first seven months of 1919, or $4,575,000. On the present production of oil and gas in the Osage and basing the figures on a minimum price of $1.25 per barrel for oil, and allowing 7 cents royalty on gas, the daily income of the Osages would amount to $18,25.

Save Gas for Oklahoma.

For a number of years there has been a campaign in progress to save the Osage natural gas for Oklahoma. Thus far, however, a very portion of the production has been piped outside the state, principally to Missouri and Kansas towns. Approximately all the output of the Quapaw gas company and the Empire Gas & Fuel Co. is sent outside the state, being sold at a fancy price in Joplin, Pittsburg, Topeka, Kansas City and many other towns. Joplin and other cities are now paying 60 cents for gas and Kansas City is paying so.

Under an agreement with the Kay County Gas company, with headquarters at Ponca City, and provided the agreement is finally consummated, all the gas produced on the Marland leases in the Osage will be conserved and kept at home for Oklahoma localities. The Marland interests have already completed their first well on their western Osage leases, a 12,000,000 gas producer, and an appropriation of $200,000 has been made to lay an eight inch pipe line to Ponca City, which will thus become the chief distributing point for the Osage gas of this company. This places Ponca City in an enviable position for a permanent supply of gas so long as gas is produced in the state.

Helium, the lighter than air and non inflammable gas which is now used so successfully in flying balloons and dirigibles, is found in the Osage gas areas to such an extent as to make it profitable to conserve it, according to a report made by federal investigators during the war period, and in all probability this will become an added industry in the Osage country.

AUSTRIAN BOLSHEVIKI MINISTER QUITS JOB

VIENNA, Saturday, July 26.—Dr. Otto Bauer, Austrian foreign minister, resigned the foreign portfolio today. He retained, however, the post of minister of socialization in the cabinet. The foreign ministry will be taken over by Dr. Karl Renner, the chancellor, in addition to the chancellorship.

A number of reasons are advanced for Doctor Bauer's resignation. In the first place under his administration, there was a failure to secure union between Austria and Germany, and likewise failure to obtain the aid of Italy in advancing Austria's desire towards this end. The attempt to gain protection by Italy against the Czechoslovak aspirations of the Jugo Slavs also came to naught, as did efforts to obtain partial renunciation by Italy of her claims in the southern Tyrol. There is also charged against the foreign office a failure to gain French good will for the Austrian republic.

Representatives of the allied powers as well as Austrians of the well to do society, are said to have been attempting for months past to bring about Doctor Bauer's resignation because of his supposed bolshevik affiliations.

AUSTRIAN DELEGATES ASK FOR EXTENSION OF TIME

BERNE GERMAIN IN EXILE, July 27.—Dr. Karl Renner, Austrian chancellor and head of the Austrian peace delegation, accompanied by Dr. Bernard Schmitz, another member of the delegation, arrived here today from Paris. Reference was made to the Austrian representatives from Vienna.

Dr. Renner at once began an attack, formulated a request for an extension of the time allotted Austria to sign the peace treaty, and a protest against the terms of Austria's treaty with the allies, which, he said, the Austrians were originally asked to sign within about a month's time.

A Few New Wrinkles.

Miss Dilling, who claims to be twenty years of age, I guess she could give a WOMAN a few points about age.

Miss Vinnie, that I'm a bad one, you don't know the half of it. Ask Dorothy Dalton.

SEARCH ARMY PRISONERS BUT FIND NO FIREARMS

LEAVENWORTH, Kan., July 27.—Search of all the 2,200 prisoners in the army disciplinary barracks at Fort Leavenworth, who have been on strike since last Tuesday morning, was completed today and revealed only pocket knives and playing cards. No firearms or explosives of any sort were found. It was announced tonight by Col. Rockwell, Rice commandant. The search was conducted by prison officials backed by 2,000 troops sent here from nearby army camps. Cells and other prison structures, as well as the prisoners themselves, were searched thoroughly.

The striking prisoners, who have been on a restricted diet and confined to their cells for several days, will be marched back to work Monday afternoon or Tuesday morning, it was said here last tonight, adding that he anticipated no trouble then.

General Labor Shortage.

WASHINGTON, July 27.—A shortage of agricultural labor as well as common labor in the western and northwestern states and a surplus of men of professional and business training and of clerks were noted by the employment service in the United States in the annual report of the division of operations of the federal employment service, made public today.

Rail President Dies.

CANDIA SUBURB, Ala., July 27.—W. M. Brown, vice president of the Southern Railway, died here today after an illness of three weeks. He was 60 years of age.
