New Pipeline to Tulsa

The Producers and Refiners corporation has announced the building of a new pipe line connecting their refinery in West Tulsa, formerly known as the Pan American, with the Beggs field. It will be four inches in diameter and will add greatly to the importance of Tulsa as a refining center. This company is having a lot of trouble with its lines from Burkburnett to Lawton on account of the railroad changes, too and this is also delaying the building of Ionage. It will not be long before there will be more news to report in regard to the new pipe line which Major Hopkins is building and then Tulsa will have two additional pipe lines from the south into this refining center.

Tax Non-Residents Under State Law.

OKLAHOMA CITY, July 29.—Non-resident owners of Oklahoma's mineral resources are subject to state income tax laws.

Victory for Oklahoma against C. B. Shaffer, Chicago mine owner of extensive oil interest in Creek, $40,000 income from Oklahoma Attorney General S. P. Freeling following the decision of a special federal court at Omaha.

Three federal judges, Stone and Vahlenberg, Kansas City, and Woodrouff, Omaha, were appointed to sit in the state's case against Shaffer. They found the state's tax warrant for $78,849 on Shaffer's income for 1917 was valid.

Shaffer, whose home is in Chicago, resisting payment of the income tax in Oklahoma on the ground he was not a resident of Oklahoma. His appeals from adverse decisions led the case before the United States supreme court where it had been dismissed because since the action was begun a new state auditor had taken office. The decision announced today was the result of renewed efforts by the state to collect unpaid taxes from Shaffer.

Yale District.

The Magnolia Petroleum company No. 1 Williams, Cushing, in the northeast of the southeast of the southwest of [illegible] is drilling at 700 feet.

The same company No. 2 [illegible] in the southwest of southeast of the southwest of [illegible] is spudding.

The same company No. 1 Thorpe in the southwest of the southeast of the southwest of [illegible] is drilling at 1,285 feet.

The same company No. 1 [illegible] in the southeast of the southeast of the southwest of [illegible] is drilling at 1,250 feet.

The Magnolia Petroleum company No. 1 Miller in the southeast of the southeast of the southwest of [illegible] is drilling at 1,250 feet.

The Magnolia Petroleum company No. 1 Robinson in the southeast of the southeast of the southwest of [illegible] is running five-inch casing at 2,200 feet.

The Roxana Petroleum company No. 5 Ford in the southeast of the southeast of [illegible] is drilling at 1,065 feet.

The Magnolia Petroleum company No. 1 Miller in the center of the east line of the southeast of the northwest of [illegible] is spudding.

The Roxana Petroleum company No. 2 Skeen in the northeast of the southeast of the southeast of [illegible] is drilling at 1,290 feet.

The Gary Oil corporation No. 1 Garr in the southwest of the northeast of the southwest of [illegible] is drilling at 1,030 feet.

The Magnolia Petroleum company No. 4 Stranger in the northeast of the southeast of the southwest of [illegible] gas Skinner sand 3,115 to 3,130 feet and dry Bartlesville sand from 3,153 to 3,160 with a show of oil. They got another sand from 3,240 to 3,242 with a hole full of water. They will plug back to 3,230 feet and shoot the sand.

At Cushing

The Home Oil & Gas Co. No. 1 Leatherdale in the northeast corner of [illegible] is drilling at 1,250 feet.

The March Oil company No. 1 Thompson in the southeast of the southeast of the southwest of [illegible] is drilling at 2,140 feet.

The Roxana Petroleum company No. 1 Hinds in the southwest corner of [illegible] is drilling at 2,170 feet and will likely abandon on account of the Wesley Oil company's well just east of town.

The same company No. 6 Tucker in the southwest of the southeast of the southwest of [illegible] is drilling too.

The Carter Oil company No. 2 Fee in the southeast of the southwest of [illegible] is drilling at 2,000 feet.

The Magnolia Petroleum company No. 4 Strong in the southwest of the southeast of the southeast of [illegible] is drilling at 1,875 feet. No. 3 in the southeast corner is drilling at 2,100 feet.

The Blue Katherine Oil company No. 1 Lewis in the southeast of the southwest of the southwest of [illegible] is drilling at 2,190 feet.

The Home Drilling company No. 1 in the southeast of the southeast of the northeast of the northwest of [illegible] is drilling at 2,150 feet.

The Mecca Oil & Gas Co. No. 1 Mecca in the southeast corner of [illegible] is drilling. This is to be drilled to the lime.

The Roxana Petroleum company No. 1 Drummond in the southeast of the southeast of the southeast of [illegible] is drilling at 1,200 feet.

The Gulf Oil & Gas Co. No. 45 Crowell in the northeast of the northwest of [illegible] is underreaming. It is now coming at 720 feet. The hole is now down to 2,420 feet.

The Sinclair Oil & Gas Co. No. 15 Mecca in the southeast of the northeast of the northwest of the northwest is finishing for tools at 420 feet.

The Sinclair Oil & Gas Co. No. 45 Crowell in the northeast of the northwest of [illegible] is underreaming. It is now coming at 720 feet. The hole is now down to 2,420 feet.

The New England Oil company No. 1 Hinrichs in the southwest of the northeast of [illegible] is averaging 55 barrels daily.

The Magnolia Petroleum company No. 1 Robinson in the south east of the northeast of southeast of [illegible] is running five-inch casing at 2,200 feet.

The Roxana Petroleum company No. 5 Ford in the southwest of the southeast of [illegible] is drilling at 1,065 feet.

The Magnolia Petroleum company No. 4 Miller in the center of the east line of the southeast of the northwest of [illegible] is spudding.

The Roxana Petroleum company No. 2 Skeen in the northeast of the southeast of the southeast of [illegible] is drilling at 1,290 feet.

The Gary Oil corporation No. 1 Garr in the southwest of the northeast of the southwest of [illegible] is drilling at 1,030 feet.

The Magnolia Petroleum company No. 4 Stranger in the northeast of the southeast of the southwest of [illegible] gas Skinner sand 3,115 to 3,130 feet and dry Bartlesville sand from 3,153 to 3,160 with a show of oil. They got another sand from 3,240 to 3,242 with a hole full of water. They will plug back to 3,230 feet and shoot the sand.
