With the Oil Men

Joe B. Randall of St. Louis, Mo., is in the city for a few days visiting in the oil field. Mr. Randall was formerly with the chief engineer, Fred Army and also later with the army of occupation in Rotterdam, Holland, but says that he is very glad that he is in the good old U. S. A. once more. Mr. Randall had charge of all the engineer supplies for the first Army and handled the allotment in a mighty fine way and received his promotion in the field to lieutenant-colonel, going to Paris as a major with a machine shop as engineer. He says that Tulsa is a mighty fine looking city and company favorably with St. Louis, in fact he believes that it has a little more pep than St. Louis.

Vern V. Whiting, of Pawhuska, Okla., is in the city looking after business interests. Mr. Whiting was formerly editor of the Pawhuska Capital, but has entered the oil game and is looking mighty prosperous.

Hon. Preston A. Shinn, district judge of Osage and Bartlesville counties, is in Tulsa looking after business interests.

A. T. Burke, prominent oil man, and wife left yesterday for Buffalo, N. Y., for a vacation and will enjoy the cool breezes of the lake for several weeks.

Fred Heberling of Ponca City is in the city for a few days.

STOCKS MAKE GAINS IN HOPEFUL MARKET

Dealing Less Active but More Orderly; Prospect of General Rail Strike Now Thought Remote.

NEW YORK, Aug. 6.—The many substantial gains made by today's less active but orderly stock market were regarded as an outward expression of the more cheerful mood of financial interests, no less than the better sentiment which prevailed in speculative circles.

Opinions respecting the gravity of the railroad labor situation were considerably modified as the result of a statement attributed to one of the labor leaders that the prospects of a general strike are remote.

Wall street seemed hopeful that conferences held during the day between administration officials and representatives of the railroad brotherhood would be productive of a definite and satisfactory outcome and reflected this feeling by its consistent support of transportation shares.

Greater ease of money, call loans falling to 3 per cent after opening at 6 to 6½ and increased activity at the steel mills despite the temporary halt caused by the railway shopmen's strike, included the other encouraging developments.

Gross advances among rails ranged from 1 to 4 points but in the various industrials and specialties also shippings and food issues gains ran from ½ to 1½ points. Sales amounted to 1,350,000 shares.

Bonds including Liberty issues were irregular, the foreign group showing no definite trend. Total sales (par value) aggregated $9,750,000.

PRICES FOR CUBAN SUGAR WILL RAISE

Outlook is for Higher Figure than That Now Established by Government is Announcement.

HAVANA, Aug. 5.—That the price of Cuban sugar for the 1919-20 crop will be higher than the present figure established by the United States equalization board seems inevitable from the present trend of events in Cuba.

One of the possibilities of the near future seems to be that there will be some method of controlling the sale of sugar, either by a combination of planters and mill owners, who will appoint a special committee authorized to handle the selling end, or through Government control to be brought about through direct legislation by congress.

The parliamentary committees of both political parties have begun the discussion of a measure said to have the support of the president under which absolute control of the sale of next year's crop would be placed in the hands of the government. The proposed measure prohibits the individual sale of sugar excepting under license by a presidential commission.

One prominent planter said today he had received a bid from prominent sugar connected with English capital for 10,000 tons of sugar for delivery in January at 7 cents a pound. Cash payment on the spot was offered he added.

This statement was taken in some quarters today as confirmation of the recent reports that British interests were offering higher prices for sugar than American buyers.

75-YEAR-OLD RHEUMATIC THROWS AWAY HIS CRUTCHES

"I am now 75 years of age, and for a number of years have suffered with rheumatism, eczema and a severe itching. I was compelled to walk on crutches. I obtained no relief until I began to take Number 40 For The Blood. Have taken eight bottles and my rheumatism and the itching eczema is all gone. On Christmas day I laid away my crutches and get around pretty well without them. You have my permission to use this letter to advertise Number 40, as I feel that I have received great benefit, and will continue teh treatment, believing I will receive more, and I wish to recommend it to other like sufferers to do as I have done and try Number 40 and get relief. With great pleasure I subscribe myself. Yours very truly, Isaac Ludwig, Delphos, Ohio, March 17, 1917." Number 40 is demanded in gouty conditions, mal-nutrition, poisoning, auto-intoxication, constipation, chronic rheumatism and catarrh, liver complaint and all diseases arising from impure blood. CHANCE TO LOSE OIL CO.

DO YOU WANT A CHANCE TO MAKE 50 TO 1?

JAS. E. FERGUSON

Ex-Governor of Texas

Texas oil is better than Klondyke gold. Both are uncertain. The man who tells you otherwise is a liar or a fool. Most likely he is both.

I am organizing the Chance to Lose Oil Company with $200,000 stock as an association for the purpose of drilling two or more test wells on 2,000 acres which will be leased to the Company for the usual one-eighth royalty and $75,000 stock. Shares $10.00 each.

This land is 22 miles East of Houston, Texas.

While this land is unproved, it is only 6 miles northwest of Barbers Hill where a 500 barrel well has been recently discovered. The famous Humble field that has produced a hundred million dollars in oil is just 17 miles to the northwest. The Rich Hound Creek field is just 16 miles north.

The Dayton field is just 7 miles north. The Hull and Batson fields are about 25 miles east. The big gushers of the West Columbia field are 35 miles to the southwest. It will be seen that this land is surrounded by proven fields.

If I knew for sure that there was oil on this land I would keep it all and you would not be reading this advertisement. Therefore do not invest any more in this or any other deal than you can afford to lose.

If we strike good oil on this large acreage the property will be worth 10 million dollars and a hundred dollar investment will be worth $5,000 or 50 to 1.

Forty stockholders will have an interest in every well drilled.

Actual drilling will begin in about 60 days and when $100,000 is subscribed and paid.

Mr. Ed Hanlon, Oil, E. H. Crumbs, and Capt. W. H. Duncan, business men with oil experience of Houston and Mt. Enterprise, will be the directors of the company and manage the business.

Judge S. H. Brashear, formerly district judge and mayor of Houston, is counsel for the company.

There will be no commissions paid to stock salesmen or anybody else, and all moneys received will be used in actual drilling operation, except the actual cost of advertising and some expense of forming the company.

Remember this is an even thing, you get a chance to make 50 to 1.

Liberal money taken at par value. References: any bank in Texas that will tell the truth. Write me at Temple, Texas.
