RETURN OF ROADS TO OWNERS ASKED

Chairman of Rail Committee of U. S. Chamber of Commerce Appears Before Congress.

EMPLOYES' PLAN ASSAILED

Plumb Proposal is Bitterly Attacked —Plan of U. S. Chamber Is Outlined Before Committee.

WASHINGTON, Aug. 18.—Urging return of the railroads of the country to private operation as soon as remedial legislation can be enacted, George A. Post of New York, chairman of the railroad committee of the chamber of commerce of the United States today presented the chamber's railroads plans to house interstate commerce committee. There is manifest throughout the country a "strong, even overwhelming sentiment against continuance of federal control and operation," said Mr. Post, "due to the unfavorable impression made upon the public mind by the operation of the railroads under federal control."

The program for government ownership advocated by the railroad brotherhoods was attacked by Mr. Post.

"Groups of business men differ in the details of plans for the railroads," he said, "but in one thing they will be found in firm agreement. Government ownership must not prevail."

Having the indorsement of the business men of the country through a referendum vote the chamber's plan for the disposition of the railroads was presented by Mr. Post as follows:

1.—Corporate ownership and operation with comprehensive regulation.

2.—Return of the railroads to corporate operation as soon as remedial legislation can be enacted.

3.—Consolidation of lines in a limited number of strong competing systems.

4.—Railroad companies to become federalized, the states to retain taxing and police powers over the properties.

5.—Federal regulation of capital expenditures and security issues.

6.—Federal regulation of intrastate rates affecting interstate commerce.

7.—Statutory rule of rate making by the interstate commerce commission.

8.—Creation of a federal transportation board.

Wakefield's BLACKBERRY BALSAM

Wakefield's Blackberry Balsam has been the surest and safest remedy for Diarrhoea, Dysentery, Cholera Infantum and Cholera Morbus for 72 years. While it is quick and positive in its action, it is unlike other remedies in that it is harmless and does not constipate. It simply checks the trouble and puts the stomach and bowels in their natural regular condition. Of the millions of bottles that have been sold, never has a case been reported to the manufacturer where a cure was not effected when directions were followed, even after other remedies had failed. Every home should have a bottle or more on hand ready for sudden attacks. Full size bottle 40c everywhere.—Advt.

Police Dope Says Tulsa White Violators of Law Worse Than Chinese

The July report of the Tulsa police department submitted to the board of commissioners yesterday shows a total of 855 arrests, 127 of which were made on investigation. The largest number of arrests made for violations of a single ordinance was on the charge of drunkenness, 211 having been arrested on that charge.

Of the total number arrested for ordinance violations during the month, 491 were white men, 35 white women, 115 negro men, 23 negro women, 5 Indians, 19 Mexicans, 8 Greeks and one Chinese. Of the number arrested and held on investigation nine were turned over to the federal government, 49 to the city, 23 to the county, 5 to other cities, 7 to Humane Agent Welch and 18 released.

The police department through fines imposed in the police court and through other sources, turned over to the city treasurer $5,254.69 for the month.

The bureau of identification report for the month of July, submitted by Joe Dugan, showed 91 sets of finger prints made during the month on which 31 arrests were made. The report also showed that through the bureau's work a negro who had robbed a garage at Claremore was arrested and held to the district court.

During the month auto thieves stole 48 cars, 23 of which were recovered by the police. No reward was asked or received for the cars recovered.

MAYOR SAYS POLICE BOARD WILL NOT SOLVE PROBLEMS

Police boards, as suggested last week by someone as a solution of the present difficulty in the police department, is not regarded by Mayor Hubbard as a solution of the problem at all. The difficulty, he explained, is one of finances and not one of administration and no number of boards will make the amount of money available for the department go any further than it will now.

The chief obstacle to an efficient police department at this time is to get men who are willing to work for salaries around $110 a month. A police board, he said, would not offer any relief for the shortage of men so inclined. The commissioners are satisfied with conditions in the police department under the circumstances. There is nothing that can be done until the budgets are approved and this cannot be done for some time yet as valuations have not been approved by the state equalization board and probably will not be until sometime in October. In the meantime the city is powerless to offer more to the policemen than it is giving now.

Don't Experiment With Catarrh; It Often Leads to Serious Trouble

You Will Never Be Cured by Local Treatment With Sprays

Catarrh is a condition of the blood and can not be cured by local applications of sprays and douches, this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victim, and making it more difficult for even the proper treatment to accomplish results.

Though Catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more aggravated and finally reaches down into the lungs, and everyone recognizes the alarming condition that results when the lungs are affected. Thus Catarrh may be the forerunner of that most dreaded and hopeless of all diseases, consumption.

No local treatment affords permanent relief. Experience has taught that S. S. S. is the one remedy which attacks the disease at its source, the blood, and produces satisfactory results in even the worst cases. Catarrh sufferers are urged to give S. S. S. a thorough trial. It is sold by all druggists. You are invited to write to the Medical Department for expert advice as to how to treat your own case. Address Swift Specific Co., 124 Swift Laboratory, Atlanta, Ga.—Advt.
