IN THE OIL FIELDS

Office: 6241 W. H. PECK Residence: 2442

Marion County, Kansas.

(CONTINUED FROM PRECEDING PAGE)

11-22-4 has timbers on the ground.

The Kinney Refining company No. 1 Hodges in the northwest of southwest of northwest of 14-22-4 is drilling at 1,195 feet.

Economist Investment company No. 4 Barron, in the southwest of northwest of 15-22-4 got top of sand at 2,810, and at one foot in has hole full of oil and is now pulling his pipe. No. 2 in the southeast of southeast of northwest is drilling at 1,800 feet. No. 5 in the southwest of southeast is drilling at 820 feet.

M. Ward and others No. 1 Burton in the southwest of southeast of northeast of 15-22-4 has rig up.

The Carter Oil company No. 2 Lewis in the northwest of northeast of northwest of 15-22-4 is drilling at 1,210 feet.

Foster & Pierce No. 1 Clark in the southeast of southeast of 15-22-4 is underreaming at 2,000 feet.

The same parties No. 1 Burton, in the northeast of southwest of northwest of 15-22-4 is spudding.

The Buffalo Production company No. 1 Clark in the center of east line of northeast of southeast of 15-22-4 is shut down at 1,650 feet.

The same company No. 1 Jolliffe in the northeast of 16-22-4 is drilling at 1,400 feet.

Waldron and others No. 1 Jolliffe in the southeast of southeast of southwest of 16-22-4 is drilling at 1,635 feet.

West and others No. 1 Jolliffe in the southeast of northwest of 16-22-4 is drilling at 1,200 feet.

Derby and others No. 1 Jolliffe in the northeast of southeast of southeast of 16-22-4 is drilling at 600 feet.

Foster and Pierce No. 1 Jones in the center of east line of northeast of northeast of 17-22-4 has rig up.

Minnihan and others No. 1 Hall in the southeast of southwest of 22-22-4 is rigging up.

National Refining company No. 1 Hodges in the southwest of southeast of 34-22-4 is drilling at 1,850 feet, having missed the shallow sand.

The Kansolex Refining company No. 1 Jolliffe in the northeast of southwest of northwest of 6-22-5 is dry and abandoned at 2,560 feet.

Butler County, Kansas.

The same company No. 1 Neiman in the northeast of southwest of 26-26-3 has rig up.

Floyd and Ketch No. 1 Surf in the southeast of southeast of 26-24-3 is underreaming at 2,710 feet.

Keystone Oil company No. 1 Davis in the northeast of southeast of 13-26-4 is dry and abandoned at 2,776 feet.

The Ramsey Petroleum company No. 1 Ramsey in the southwest of southwest of southeast of 8-24-5 has pipe on the ground.

The Unity Oil company No. 1 Foley in the northwest of southeast of 11-24-5 has rig up.

The Ramsey Petroleum company No. 1 Williams in the southeast of northwest of 33-24-5 has rig up.

The Midwest Oil company No. 1 Benson in the northeast of northwest of northeast of 23-24-6 is shut down at 2,500 feet.

The Gypsy Oil company No. 1 Bigler block No. 4 in the southwest of northeast of southeast of 24-26-5 has rig up.

The Gypsy Oil company No. 3 Barlett block No. 2 in the southeast of northeast of northwest of 18-25-6 has rig up.

The Central States Oil company No. 1 Taliaferro in the southeast of 11-25-7 has rig up.

The Nebraska States Oil company No. 1 Raymond in the southeast of southeast of 4-26-4 has rig up.

The Iowa State Oil company No. 1 Rice in the northeast of southwest of southeast of 17-26-5 has rig up.

The Dennure Syndicate No. 2 Dennure in the center of east line of southeast of northeast of 1-26-6 is fishing at 325 feet.

Liggett and others No. 1 Hughes in the northwest of northeast of southeast of 9-26-8 is drilling at 1,400 feet.

Cardeman's Oil company No. 4 Blankenship in the southwest of southeast of northeast of 9-26-8 is drilling at 300 feet.

Mossey and others No. 1 Blankenship in the southeast of southeast of northwest of 9-26-8 is drilling at 350 feet.

Rodgers and others No. 1 Hughes in the northeast of southeast of southwest of 9-26-8 is boiling at 600 feet.

The Magnolia Petroleum company No. 1 Holmes in the northeast of northwest of 14-27-4 is drilling at 2,000 feet.

Yeager and others No. 1 Rutherford in the northeast of southeast of northwest of 14-27-4 is shut down at 2,000 feet.

The Carter Oil company No. 1 Williams in the southwest of 36-27-4 is fishing at 2,820 feet.

Smith and Hill No. 1 Miller in the northeast of southeast of southeast of 7-27-5 has rig up.

Bess Mawson Oil company No. 1 Wallace in the southeast of southeast of southeast of 7-27-6 has rig up.

The National Refining company No. 1 Wallace in the northeast of 12-28-4 is drilling at 1,800 feet.

The United Petroleum company No. 1 Harrah in the southeast of southeast of southeast of 34-28-4 is fishing at 1,400 feet.

Vanamon and Davidson No. 1 Brooks in the southwest of 35-28-4 is shut down at 425 feet.

C. B. Shaffer No. 1 Burnham in the northwest of southwest of southwest of 6-28-6 is shut down at 1,700 feet.

Rich Bloom and others No. 1 Brewer in the northwest of northeast of northeast of 23-28-7 is fishing at 2,760 feet.

Harmon and others No. 1 Warner in the northwest of southwest of southeast of 13-28-3 has rig up.

The Empire Gas & Fuel Co. No. 1 Richardson in the center of southeast of northeast of 23-29-3 is drilling at 2,180 feet.

The same company No. 1 M. White in the center of southeast of northwest of 24-29-3 is shut down at 1,450 feet.

The same company No. 1 Gillam in the center of northeast of southwest of 24-29-3 is shut down at 2,200 feet.

Henedum, Davidson and others No. 1 Warner in the southeast of northeast of 3-29-4 is fishing at 1,100 feet.

The Chinese American oil company No. 1 Guthrie in the southeast of southwest of 24-29-4 is shut down at 800 feet.

F. A. Wahan and others No. 1 Wallace in the southeast of 11-29-5 is rigging up.

Johnson and others No. 1 Price in the southeast of southwest of 12-29-5 has material on the ground.

Salter and Sudder No. 1 Ford in the northeast of northeast of 13-29-5 got the sand at 2,822, to 2,843 feet and is cleaning out after a shot.

Iowa Petroleum company No. 1 J. W. Fox in the northeast of southwest of northwest of 13-29-5 has rig up.

Sands Oil company No. 1 Bill Warner in the northeast of northwest of 23-29-5 is fishing at 2,220 feet.

Steel and others No. 1 Warner in the northwest of southwest of northeast of 23-29-5 is drilling at 2,300 feet.

S. and S. Oil company No. 1 in the southwest of northwest of 7-29-6 has rig up.

The National Oil company No. 2 Haver in the northwest of southwest of 30-29-6 has rig up.

Brown Ranch Oil company No. 1 Craft in the southwest of northwest of northwest of 16-29-7 is spudding.

The Texas-Chester Oil company No. 1 Ferrell in the northwest of 4-29-8 is shut down at 2,850 feet.

At Garber.

The Sinclair No. 4 Hartley in the northwest of 18-22-4w is making 300 barrels at 1,543 feet.

The Atlantic Petroleum corporation No. 8 Wishard in the northeast of the southwest of the southeast of 12-22-4w is making 100 barrels at 1,341 feet.

The Sinclair No. 9 Walker in the northeast of the northeast of 13-22-4w is making 260 barrels at 1,571 feet.

The H. H. Chapman No. 20 Beggs in the center of the northeast of the southwest of 24-22-4w is drilling at 1,580 feet.

The Sinclair No. 17 Walker in the southeast of the northeast of the southeast of 24-22-4w is making 40 barrels at 2,168 feet.

The Empire Gas & Fuel No. 16 Hobson in the northeast of the northwest of the northwest of 25-22-4w is making 210 barrels at 1,888 feet.

At Parks.

The Lone Star Gas company No. 1 Killingsworth in the southwest of the northeast of the southwest of 1-2s-5w is shut down at 405 feet.

The Texas company No. 1 Shirley in the northwest corner of the northeast of 1-2s-5w is a rig on the ground.

The Cosden No. 1 Hooper in the southwest of the southeast of the northwest of 1-2s-5w is a rig on the ground.

The Magnolia No. 1 Webb in the southeast of the southwest of the southeast of 3-2s-5w is drilling at 565 feet.

The 2-70 Oil company No. 1 Fee in the southeast of the southeast of the southeast of 5-2s-5w is drilling at 310 feet.

The Magnolia No. 1 Martin in the southwest of the southwest of the northeast of 11-2s-5w is drilling at 1,910 feet.

The Comanche No. 2 Wilson in the southeast of the northwest of the northeast of 13-2s-5w is drilling at 1,300 feet.

The Lone Star Gas company No. 1 Ish in the southwest of the southeast of the southeast of 2-2s-5w is drilling at 1,740 feet.

The Magnolia No. 1 Dobbs in the southeast of the northeast of the northeast of 7-2s-5w is drilling at 1,200 feet.

The Comanche Petroleum No. 1 Wilson in the northeast of the northeast of 19-2s-5w is drilling at 2,310 feet.

The Magnolia No. 1 Brown in the northwest of the southeast of the northwest of 19-2s-5w is setting 6⅝-inch casing at 1,325 feet.

The Bradenbaugh and others No. 1 Townsend in the northwest of the southeast of the northwest of 20-2s-5w is shut down at 2,500 feet.

The Comanche No. 3 Eubanks in the northeast of the northeast of 30-2s-5w is having 10-inch pipe trouble at 2,066 feet.

At Comanche, Uvalde County, Texas.

Beaudoin and Treis No. 1 Jenkins is a location.

The Bell Oil & Gas Co. No. 1 Kincaid ranch north of Knippa is a location.

The same company No. 1 Wolcott ranch in the Moore survey has spudded in.

Bloom and others No. 3 Pulliam in the Dorrell Lewis survey is drilling at 680 feet.

The Century Oil & Gas Co. No. 1 Houston ranch is fishing at 200 feet.

At Cleveland

The Minnehoma No. 1 Skinner in the northwest of the northwest of the southeast of 13-21-7 is dry and abandoned at 2,485 feet.

The same company No. 1 Skinner in the northwest of the northeast of the southeast of 13-21-7 is making 20 barrels at 2,480 feet.

At Shrewder.

The Russell Petroleum company No. 1 Langford in the extreme southwest of 25-4n-24w is shut down at 915 feet.

Montgomery County, Kansas

The Jesse H. Graham No. 3 Savage in the northeast of the southwest of lots 7, 8 and 9 in 18-34-17 is making 10 barrels a day.

Cloud County, Kansas

Howerton and others No. 1 Byrnes in the northwest of northeast of northeast of 30-8-1w is shut down at 2,200 feet.

Comanche County, Kansas.

Shaw and others No. 1 Shaw in the northeast of 11-33-16 has material on ground.

At Olton

The Prairie Oil & Gas Co. No. 1 Grayson in the southeast corner of the northwest of 12-19-7 is making 10 barrels at 2,723 feet.

Zapata County, Texas.

The Texas company No. 5 Jennings is drilling at 2,300 feet.

The Rio Grande Petroleum company No. 1 Carthegena ranch is a location.

Pawnee County, Kansas.

Pawnee Oil company No. 1 Tucker in the southeast of northeast of 14-23-17w has rig up.

Reno County, Kansas.

The Reno County Oil company No. 1 Hochenberger in the southeast of northeast of 11-24-4w has rig up.

Sedgwick County, Kansas.

Brooks and others No. 1 Winfrey in the southwest of 28-23-2 is fishing at 1,835 feet.

Wichita Oil and Gas company No. 1 Talbot in the northeast of southwest of 1-28-2 is underreaming at 2,500 feet.

Shawnee County, Kansas.

Wapsko Oil company No. 1 Hey-Weg in the southeast of 28-15-15 is fishing at 1,800 feet.

Jackson County, Kansas.

Buffalo Oil company No. 1 Cook in the northeast of 32-7-13 has rig up.

Jewell County, Kansas.

Red Crown oil company No. 1 Lang in the southeast of 2-2-9w has rig up.

Kingman County, Kansas

Hale and Allington No. 1 Wilfred in the southwest of 6-31-22w is drilling at 2,270 feet.

Cunningham Oil and Gas company No. 1 Isaman in the southeast of northwest of 24-31-10w is drilling at 2,930 feet.

Kingman Murdock Oil company No. 1 Blankenship in the center of east line of southwest of 2-28-6w is cleaning out at 2,126 feet.

Rhowa County, Kansas.

Pratt Oil and Gas company No. 1 Harlow in the southeast of 25-26-17w is shut down at 4,300 feet.

Sumner County, Kansas.

The Riverdale Oil company No. 1 Haigh in the center of southwest of northwest of 26-31-2e is drilling at 605 feet.

Travis County, Texas.

Ewell Nolle and others No. 1 Collins are cleaning back out of an old hole at about 1,400 feet deep.

At Goldsby.

The J. L. Autman No. 1 Ritch plant in the southeast corner of the southwest of 25-7-16w is shut down at 2,500 feet.

The Sterling Petroleum No. 1 in the southwest of 23-4n-19w is a location.

The Texas Review

By Staff Correspondent.

FORT WORTH, Texas, Aug. 23.—We are out of the market for arrangement with one of the big pipe line users of the second largest pipe, the and production company in the state last week. Said what developing is done from here will be done on a straight one-eighth royalty basis, if the gas materially to it.

This expression is one of the leaders of the industry can be interpreted in two ways. It may mean that they feel that there is enough fresh money here to keep their refining plants and pipe lines going for the next two or three years, or they are tired of being forced to pay big bonuses for acreage in competition with wild-eyed fellows, and are content to buy the oil as the other fellow brings it up from the ground, feeling that they can control the price with their pipe line and refining makers.

At any rate this is the first definite expression that has been made by the big combinations, and as a result Seminole in Burkburnett and Desdemona has already had a 40 per cent drop from the high level of June and the first part of July.

The Desdemona pool was definitely extended about two miles southwest in the bringing in of the Daniel No. 1 on the Lewis survey. This well has been one of the many ones drilled away from the town, which has left the oil men busy watching the gauges. At two feet in the sand it was making over 200 barrels when it was shut down for storage and pipe line connections.

Completions last week in the North Texas field numbered 231, with 38 dry holes. Of this number over 100 were in Ranger, Stephens and Comanche county, the congestion at Burkburnett holding many good wells on the sand.

Drilling is being pushed as rapidly as ever throughout the state even in the Burkburnett field, in anticipation of the coming of pipe line facilities. No new areas have been opened up recently with the exception of the Young county development of the Texas company. This well cost the company about $150,000 to drill and while it is rated by oil men from 3,000 to 6,000 barrels, those in a position to know, say that there is nothing like that amount of oil in the hole.

The Roxanna company, subsidiary of the Royal Dutch, and the Newcastle Oil company, have about 50,000 acres in Young county on what is among the best part of the structure. One test has been made, but the well was lost through a cave-in. Another is being drilled by the Roxanna offsetting this, and the Newcastle well is reported below 3,000 feet.

The Texas company heads the list of drillers with over 100 wells going. The Texas-Pacific Coal & Oil and the Prairie Oil & Gas are next with between 100 and 200 each. The Gulf Production company and the Magnolia follow, and the Humble Oil & Refining now got the Sinclair interests for fourth place.

It is estimated that close to $1,000,000,000 will be spent in drilling in this field this year, and 40 per cent of this is going into wildcat territory, where statistics show there is one chance in every 24 of getting the pay. Materials are higher than ever before in the history of the industry and wages have run the price of drilling from $1.50 a foot a year ago to $2 today.

The Pierce Oil corporation, though one of the first companies in the Texas field, having been in the Lone Star State, place the Standard Oil company's troubles here years ago, has been one of the slowest to get going in the line of production.

Last week on its Satterfield acreage in Stephens county, it drilled in a good well, which is reported at 500 barrels, only a few feet in the time. Twelve other wells are being drilled on this acreage and it is likely that within the next 30 days this will be one of the biggest producing tracts in the field.

San Angelo is the first of the thousands of wildcats being sunk here in every county in the state to get a real slap through abandonment. The Ricardson well in Sterling county, on the George Richardson ranch, has been abandoned at 3,865 feet where is encountered the oil man's omnipresent enemy, salt water.

In true wildcatter's style, before the blow-off came, acreage in the immediate vicinity leaped from $4 and $5 an acre to $35 for "close-up" offers. There aim was the real display of petroleum. Just what the insiders had to do with this is not known, but the feeling against the promoters of the propositions is running high, and it is likely that Sterling county will not be a fertile field for lease speculators for the immediate future.

As a general thing, the amendment of the Sterling well has not caused a slackening in the activity there, however, but work is being pushed just the same, and there are still hopes of finding oil in the county.

With the North Texas field hitting its high water mark in production last week, the record of the pool goes merrily on, setting marks that will be hard for new fields to equal.

Pipe line runs for the week ending August 16, averaged 234,150 barrels daily, and the potential production in Burkburnett alone would bring this way over the 300,000 barrel mark, if the facilities for getting the oil on the market were ample.

Burkburnett is certainly the wonder pool of the field in more ways than one. In every other field, the big companies have from 40 to 50 per cent of the production, but in

25c SOON
GIANT
THE END IS NEAR. We started as a wildcat and we're rapidly becoming the safest kind of an investment. The tremendous gas well with as the Hapgood and Bat Masterson, with 5,000,000 to 30,000,000 feet daily flow and wet with gasoline, have roared in right beside us and have proved to prove our contention that the Panhandle of Texas is a mighty oil field. We are right on the line of the southwestward extension of the great Ranger and Burkburnett oil pools.
WONDERFUL OPPORTUNITY
BUY GIANT NOW. The unusual original offer is still open for a few days. You can buy at 10c a share now and get the 100% stock dividend. Then our 25c share free for every share you buy. The least you can buy is $1 worth. We won't sell more than $100 worth in any one name.
WHICH WILL YOU PAY? A DIME OR A QUARTER?
You are the chooser. Why pay a quarter for the next week for a share you can buy this week at a dime and get 100% bonus? Delay is costly. You know the millions that have been made and are being made in Texas. You're entitled to your share. Get it now.

Four Weekly Issues of the
Texas Oil Bulletin
FREE UPON REQUEST
Texas is now producing oil of the value of from fifteen to twenty million dollars per month and new gushers are coming in every day. Many men and women have become millionaires through Texas oil production during the past few months. Thousands have made big fortunes. Tens of thousands have made enormous profits from small investments.
Texas oil fields have proven to be America's richest treasure vaults. Those familiar with the facts and conditions, from rich New York bankers to the drillers of the wells, are investing heavily in substantial Texas oil securities and reaping amazing profits. Hundreds of millions of dollars will be made in Texas oil during the coming few months.
The TEXAS OIL BULLETIN, which is issued weekly, is written by men who know the oil business thoroughly. It contains reliable news of all the oil fields of Texas and of the substantial companies operating therein. Every person in America who has money for investment, or who wishes to participate in the great oil wealth of Texas, should read this publication regularly. It is particularly valuable to those who already own Texas oil stocks or contemplate making such purchases.
We will mail this paper to you regularly as issued for four weeks ABSOLUTELY FREE UPON REQUEST. Write for it today and ask for any information you may desire regarding any oil company or oil field of Texas or the Southwest. Address
