WORKERS AT STEEL PLANTS RETURNING

Unions in Strike Districts Admit That Members Are Deserting Their Ranks

LEADERS GETTING BUSY

Efforts Made to Hold Men Together but Operations Speed Up in Many Shops

CHICAGO, Oct. 7.—Despite efforts of strike leaders to prevent further defections from their ranks in the Chicago area more workers continue to come back to their jobs each day. At Indiana Harbor, Ind., the Tubular Steel corporation and the Mark Manufacturing company resumed operations today for the first time since the beginning of the strike with over half of their regular forces.

The Indiana Steel company and the American Wire and Tin Plate company at Gary, Ind., continued to operate the former at about 40 per cent of capacity and the latter at about 75 per cent of capacity.

SHARON, Pa., Oct. 7.—Furnaces in this district were admitted for the first time that there have been departures from the strike ranks. The American Sheet and Tin Plate company, which resumed last week, is now operating in part, while other plants are said to be rapidly becoming manned. Picketing at the Sharon Steel Hoop company has ceased and it is expected that plant will operate two per cent in a few days.

NEW CASTLE, Pa., Oct. 7.—Officials of the Carnegie Steel company here today claimed a new weekly production record for the plant, for the week ending yesterday 1,030 tons were turned out, whereas the previous weekly average record has been 1,000. All plants in this district, officials say, are operating near 100 per cent and all signs of a strike are rapidly disappearing.

YOUNGSTOWN, Oct. 7.—Attention in the Youngstown steel district today centered on the Ohio works of the Carnegie company which, mill officials assert, men are reporting daily.

HARRISBURG, Oct. 7.—More men went back to work at the Steelton plant of the Bethlehem Steel company that any one day since the strike against the company was launched, according to statements made at the offices of the company at Steelton. Every department is in operation and production is rapidly getting back to the normal in several branches.

STEUBENVILLE, Oct. 7.—Two plants in this district will likely resume operations Monday, it was learned today. They are the Wierton Steel company and the Mingo plant of the Carnegie Steel company. Employes of both plants are said to have signified their willingness to return.

DONORA, Pa., Oct. 7.—It is estimated that among 300 men employed at the three plants of the American Steel and Wire company, have returned to their places during the past three days.

ENGLAND AND AMERICA HOLD CUP RACE IN 1920

NEW YORK, Oct. 7.—Great Britain and the United States probably will meet in the next race in 1920 for the American cup.

Announcement was made at the New York Yacht club today that a meeting of the board of directors will be held within the next two weeks to consider Sir Thomas Lipton's latest challenge, made through the Royal Ulster Yacht club of Great Britain. It was stated that in all probability the challenge would be accepted and a race arranged for next year.

Sir Thomas named the Shamrock IV as his entry. The Resolute probably will represent the United States.

A hair drying comb has been invented that is featured by a steel rod that is heated over a gas or alcohol flame and then inserted into the comb's tubular back.

Foster Would Bring Revolution With a General Strike

[illegible]

SAYS GAS MORE HUMANE THAN SHOT IN WARFARE

WASHINGTON, Oct. 7.—Contending that it is more humane than shot or shrapnel in warfare, Gen. William L. Sibert, chief of the chemical warfare division of the army, stated today before the house military affairs committee that provision be made in army reorganization plans for the retention of this division as a permanent arm of the military service.

Statistics of the war, he said, show that about 1 per cent of casualties from shot and shrapnel died, but 5 per cent from gas was only 1½ per cent, said General Sibert. "The value of gas in war is incalculable. If you have preserved the secret of it and the enemy has no defense against it, you may win the battle—even the war—with it."

GIFTS RECEIVED BY PRESIDENT LISTED

Executive and Mrs. Wilson Give Itemized Account of Presents Received by Them in Europe.

WASHINGTON, Oct. 7.—An itemized list of the presents received by President and Mrs. Wilson while in Europe was made public by Secretary Tumulty in a statement issued yesterday. The statement, it was announced, was made "at the request of the president and Mrs. Wilson."

In Canada a silver casket, presented by the Canadian parliament, was received. When on the western trip the president received a golden casket for the treasury of Czechoslovakia, a Bookwalter of Illinois and the state of Nebraska, Texas and Utah. This is in regard to gifts received by the president and Mrs. Wilson while they were in Europe.

Secretary Tumulty indicated the basis of the various stories recently in the matter when he said that of these gifts at least a million dollars worth, Mr. Wilson said, he had been informed that the presidents had brought back to this country presents from crowned heads and foreign governments, amounting in several million dollars.

"Here are the facts:

"Outside of a few trifling souvenirs of small gifts, such as a pen, a walking stick, etc., and certain articles found to be the property of foreign governments, or of a character of war materials and munitions, which are set off in his honor, the following are the only important gifts received by the president in Europe:

"In England, Photograph of king and queen of England.

"A book, reading 'To Woodrow Wilson.'

"The freedom of the city of London, presented in a gold casket in the lord mayor's of Mansion House.

"In Italy, A water colour picture of bronze cast, presented by the queen of Italy.

"A bronze figure presented at the capitol in Rome as a gift from the people.

"A figure of Pope Victoria, sent to the Vatican at Genoa, either by a school or by the officers of Genoa.

"A set of books from the citizens of Genoa.

"A Mosaic, presented by the pope to France. A mosaic frame presented by a group of students.

"The president also received numerous honorary degrees from 17 of the countries of Europe and many resolutions of respect and gratitude.

"Regarding the claims in a commercial publication against the president for receiving gifts from foreign rulers or states, the president after consulting the secretary of state was prepared to say that these presents had belonged in the personal category, no process to return had before he sailed on his western trip.

"In addition to the gifts received by the president the following gifts were presented to Mrs. Wilson while she was in Europe:

"In France, A piece of Gobelin tapestry with the French flags, presented in Hotel de Ville by the city of Paris.

"Laces, hand embroidered linens, one hand made and dress fabrics, in a case presented through Madame Poincaré and Madame Pichon, by the women citizens of France.

"In Belgium, A beautiful bowl by Cardinal Mercier.

"A jewelled fan of the Prince Belgique. This gift, which had, in the opinion of the committee, a political aspect, was returned to the king in another form.

"In Italy, A representation of the Wolf and Romulus and Remus, in gold, presented by the people through private subscription.

"A piece of lace in leather case presented in Palace Quirinale on behalf of the contessa.

"A small representation in silver of a shrine found in the ruins of Pompeii.

"In closing this statement I am acting upon the express direction of the president," said Mr. Tumulty.

As an automobile flag in a Chicago invented in England is supported by a single wheel, the other end of the frame being attached to the rear carriage of a car.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Adv.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is sign you have been eating too much meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sluggish and irritated. When your kidneys get clog ed up and you must relieve them like you relieve your bowels, removing all the body's poisonous waste else you have backache, sick headache, dizzy spells, your stomach sours, tongue is coated, and when the weather is cold and damp you may suffer with rheumatic twinges. The urine is cloudy, full of sediment, channels often are sore, water scalds, and you are obliged to seek relief twice or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a fine water for regular meat eaters. It is inexpensive, cannot injure, and makes a delightful, effervescent lithia water drink.—Adv.

SEES EARLY LIFTING OF PROHIBITION BAN

To Be Removed Before End of Year Says Senator Penrose, One of Republican Senate Leaders.

WASHINGTON, Oct. 7.—War-time prohibition will be lifted before the end of the year.

Definite assurances of this were offered this afternoon by Senator Penrose, Pennsylvania, one of the senate finance committee and other republican leaders in charge of the senate's legislative program.

Determined efforts are being made by them to get the peace treaty ratified with reservations before the end of the month. Some of them predicted that ratification would come "sooner than anybody now anticipates" within 10 days or two weeks, certainly not later than November 1.

With ratification would come the lifting of the war-time prohibition ban, according to information they had received from sources close to the white house, it was stated.

Secretary of the Treasury Glass today denied a report that he had asked President Wilson to lift war time prohibition so that the government could collect the taxes on liquor sold in bond.

REJECT ALL BIDS TO BUY INDUSTRIAL CITY OF NITRO

WASHINGTON, Oct. 7.—The war department is announced today the rejection of all bids submitted for purchase of the nitrate plant, which it was operated by the war department for the manufacture of explosives during the war. The proposals were too low.

Sail Right In To Your Meals

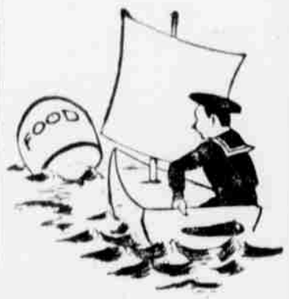
When You Get Acquainted With Stuart's Dyspepsia Tablets, There Will Be No Perils From Gas, Sour Risings and Other Stormy Experiences of Indigestion.

How often you meet people who say: "I eat that would be my finish." But they can eat onions, fried fish, mince pie, cheese and such terrors of the dyspeptic unmolested the minute they take a Stuart's Dyspepsia Tablet.

This is rule out all the tasty and savory foods for fear of indigestion, gas and a sour stomach, is both needless and depressing.

These tablets are composed of diastase and comfrey in such proportions as to digest food and thus relieve the stomach of an excess burden, particularly if the stomach has been overworked. It is a safe plan to follow each meal with a Stuart's Dyspepsia Tablet. Then you may eat what you like, wherever you are and not be troubled by dyspepsia.

Stuart's Dyspepsia Tablets may be found in all drug stores throughout the United States and Canada.—Adv.



With Stuart's Dyspepsia Tablets a Dyspeptic Sails Right in to the Good Things to Eat.

The Best Health-Insurance Is a Clean Colon

THERE ARE TWO WAYS of insuring yourself against disease. One is to pay big premiums to an insurance company which will pay you so much a week when you get sick. And if you get sick, most of this money will have to go to the doctor who tries to make you well again.

THE BEST WAY is to keep the disease-resisting forces of the body so well organized and equipped as to guarantee health. Then you can enjoy life right along, and make it pay you premiums instead of paying premiums on a policy.

This can be done only by keeping the colon clean and free from clogging. For the most eminent medical authorities tell us that about 90% of the sickness we have is directly or indirectly due to constipation.

Nujol is the best health insurance "policy" we know, because it keeps the colon clear and clean without drenching or weakening any of the other organs. It is the enemy of constipation which has no unpleasant or dangerous "after-effects".

Nujol is not a drug. Every particle of it is that goes into the body comes out of the body, not on its journey it softens any mass that may be impacted in the colon and lubricates the way so as to make it easy for nature to move the obstruction and properly get rid of it.

Nujol next interferes with digestion or any functions of any organ. It is not digested by those millions of little "mouths" in the intestine which take nourishment from the food passed along by the stomach. Nujol goes on to keep things moving in an orderly, comfortable way. And it does this without any pain—does it equally well for babies, children, adults and aged folk.

Try Nujol. Get a bottle from your druggist today.

For valuable health booklet—"Thirty Feet of Danger" free, write Nujol Laboratories, Standard Oil Co. (New Jersey) 50 Broadway, New York.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Refuse imitations. Nujol is not safe from substitutes.
