Calomel loses you a day! You know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

Take "Dodson's Liver Tone" Instead!

When you feel bilious, sluggish, constipated and all knocked out don't believe you need a dose of dangerous calomel. Just remember that your druggist can sell you a 50c bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up madly, and not to salivate.

Don't take calomel. It makes you sick the next day. Clean your system with Dodson's Liver Tone instead and you will feel great. Give it to the children, too, it is entirely harmless and tastes good.
