Heavy Loss on Exchange.

NEW YORK, April 21.—Quoted values crumbled in today's feverishly active stock market, the list closing in demoralization. Nash leaders showed extreme losses of 5 to almost 15 points.

Apart from the increasing scarcity of time funds, there were no developments in the money market to explain the decline, which far exceeded in volume and scope any similar movement since early in the year.

Shares which recently derived their chief support from professional sources, sustained greatest depreciation.

There were rumors that the banks were again curtailing loans on speculative collateral. No confirmation of these reports was obtainable, but it was evident that further contraction of credits was in progress.

A factor of more than sentimental importance in the day's setback was the further insertion of Liberty bonds to lower prices yet recorded on heavy offerings, none of those prime war flotations fell to levels where they represented an income return of almost 7 per cent.

Conspicuously weak stocks included General Motors at an extreme loss of 15½ (Marmon 0 off), Baldwin Locomotive 10 (lifted 1½ points and various other companies equipment, steel and oil issues fluctuated at net losses of 5 to 10 points. Sales amounted to 2,000,000 shares, over a million of the total occurring in the last hour with the ticker 29 minutes behind in recording the day's business.

Allouez, including Standard rails and industrials followed the course of government issues losing 1 to 2 per cent. Total sales par value aggregated $20,250,000.

Old U. S. 2s lost ½ point and Panama 3s ¾ points on call, others being unchanged.
