Crude Oil Products

Refiners report following prices:

65-65 Gasoline	21¼c
65-68 Gasoline	21¼c
68-72 Naptha	23c
Kerosene	12c
Gas Oil	10c
Fuel Oil	7½c

Organization of Oil Companies

Fewer new oil companies were started during May with an authorized capital of $50,000 or greater than during any previous month of the year and the aggregate indicated investment was less than for any month with the exception of February, says the New York Journal of Commerce. One hundred and sixty such concerns were organized with an aggregate authorized capital of $200,350,000. This compares with 199 companies incorporated during April with an authorized capital of $216,129,700 and with 199 companies, representing an indicated investment of $202,395,000, in May a year ago. May was the first month in which the 1920 record fell below that for the corresponding month of 1919.

During the first five months of the current year 967 oil companies have been chartered against 610 companies during January and May, 1919. The total indicated investment to date this year is $1,382,390,700, which compares with $472,966,000 in the first five months of 1919.

In this connection it must be noted however, that whereas a year ago activity in the oil industry as reflected in the organization of new enterprises was in the ascendant there is nothing pointing toward such a trend this year. May represented a marked increase over any of the earlier months of 1919, in contrast to which the total for May this year is next to the smallest for any of the five months.

The monthly indicated flow of capital into the petroleum industry will have to be considerably increased over the average to date in 1920 if the year's showing is to equal that for 1919.—Port Worth

In the Beggs Field

The Texas company has a 100-barrel producer in its Lunsford farm test located in the northeast corner of 21-14-11. The sand was topped at 2,931 feet and they are reported to be but two feet in.

The White Oil corporation and the Savoy Oil company have a rig up in the soutneast of the northwest of 35-14-11.

The White Oil corporation No. 2 on the V. D. Clayton farm in the northeast of 16-15-11 is drilling at 2,146 feet.

Robinson & Letcher have made a location for their No. 5 on the Coleman farm located in the east half of the southwest of 36-15-11.

Marion County, Kansas

The Empire Allison test in the southwest of the southwest of 13-21-4, Marion county, Kan., has the sand from 2,432 to 2,433 feet. The well swabbed 60 barrels in 24 hours but is showing some water. Owners say that they intend drilling a little deeper.

The White Oil corporation is drilling at 1,925 feet in the southwest of the southeast of 21-21-4e. No. 2 is down 1,525 feet; No. 3 is a rig. No. 4 is drilling at 1,620. No. 5 is rigging up.

Another One for the Roxana

The Roxana Petroleum company No. 6 well on the Prentice farm, located in the northeast corner of the southwest of the northeast of 2-19-7, is making 260 barrels at a total depth of 2,731 feet. This makes the sixth big producer on this lease. No. 9 in the same section is drilling at 2,535 feet. No. 7 is down 2,618 feet, and both should be completed within the next few days.

Another Big Duncan Well

A 700 barrel producer was brought in yesterday by the Chicago Oil company in its No. 3 well located in the northwest corner of the northeast of the northeast of the northwest quarter of 4-2s-8w. Sand was found from 1,688 to 1,693 feet. This well is an interesting addition to the new Empire pool south of Duncan.

Big Producer in North Stephens County

The Henry Riley and others test on the Johnson farm in north Stephens county, is reported to be flowing 60 barrels per hour in the 2,245 to 2,257-foot pay. This is an interesting wildcat and the first big well in this field.

Henryetta District.

Alexander Dingwall is drilling at 925 feet in the northeast corner of the northwest of the northeast of 7-10-12, on the Bird Creek allotment. This is an offset to the 10,000,000 gasser recently brought in by the Atlantic Oil Producing company.

W. C. Newman has a 500-barrel well at but two feet in the 2,820-foot pay in his Barnett farm test located in the northeast corner of 19-11-11, midway between Okdmah and Henryetta, in Okfuskee county. Top of sand was found at 2,826 feet. This well is some distance away from production and unless all signs fail will be a big producer when completed.

Kingwood has a rig up for his No. 2 well on the Montray farm in 21-11-11. The Suppes test on the Holmes farm in 21-11-11 is a rig, and Lyon has a rig up for R. Barnett No. 2 in 25-11-11.

The Barbara Oil company has a 4,000,000 gasser in its No. 1 M. Barnett located in 2-10-11. Two gas sands have been encountered, at from 845 to 867, and at 985 to 1,013 feet. They are now drilling at 1,580 feet.

The Kingwood Oil company is rigging up on a machine on his L. A. Johnson farm test in the northeast of the southwest of the northeast of 2-10-11. M. P. Evans is rigging up this week on his Jobelfahny allotment No. 2 in 15-10-11.

J. J. Dyner has a rig on the ground for a test on the H. Tucker farm in 15-11-11.

Kingwood No. 1 Holmes in 16-11-11 is a rig.

W. C. Newman No. 1 Tecumsa allotment in 18-11-11 is drilling at 2,850 feet. The same company No. Barnett, located in section 19 is showing for a gasser at 1,940 to 1,950. They are now setting the 8-inch and will go to the deeper pay. Newman No. 4 Wolf, located in 20-11-11 is drilling at 300 feet.

The Henry and Chicago Oil companies have a rig up for a test on the B. Mcintosh farm in the southeast of the northwest of the northwest of 12-11-10.

J. A. Moorman No. 2 on the Hopwood in 11-11-11, is reported to be making 5,000,000 gas and spraying oil from the 2,469-foot sand.

The Central National Oil company No. 3 Carter in 15-11-11 is showing for about 300 barrels at 2,497 feet. No. 4 on this tract is a rig and No. 5 is a rig on the ground.

The Okeh Oil company No. 1 Taylor in the southeast of the northeast of the northwest of 15-11-11 is a rig up.

North of Bristow.

The Prairie Oil & Gas Co. has a rig up on the Edwards farm in the southeast corner of the west half of the southwest of 8-16-9.

The Savoy Oil company is drilling at 500 feet on its test in the northwest corner of the southeast of 17-16-9 on the Benjamin Grayson farm.

The Prairie Oil & Gas Co. is drilling at 2,300 feet on its test on the Kizzie Dixon farm in the northeast corner of the southwest of the southwest of 18-16-9.

H. F. Wilcox has a location in the northwest corner of the northwest of 24-16-9 on the Jesse Charles farm.

The Elro Oil company is shut down at the top of the sand at 2,600 feet on the James Barnett farm, located in the southwest corner of the east half of the southwest of 8-16-9.

Jones Brothers are drilling at 2,500 feet on the Mary McKay farm in the northwest corner of the east half of the northwest of 17-16-9.

The Carter Oil company is drilling at 2,300 feet on the Ben Durant lease in the northwest of the northeast of 18-16-9.

The White Oil corporatoin No. 1 on the Hugh McWilliams farm in the northeast of 23-15-10, is drilling at 2,300 feet. No. 2 on the same lease is down 945 feet.

Creek County.

Alexander Dingwall No. 3 in the northeast corner of 9-15-10 is drilling at 1,150 feet. No. 4, in the southeast corner of same lease is a rig on the ground, while No. 5 in the southwest corner is a location.

Same party reached the top of the sand at 2,225 and has drilled 45 feet into shale in the southeast corner of the southwest of the northwest of 8-18-10. Good showing of oil which will probably shoot into a small well is reported.

Same party has a well that flowed 110 barrels in 45 minutes Monday night through 100 feet of cavings. This is located in the center of the north line of the northwest of the southeast of 9-15-10.

The Dingwall well has the top of the sand in No. 2 on the Quinn farm at the center of the east line in the northeast of the northeast of 27-19-10, and has a showing for a nice well.

The White Oil Corporation test on the Clay D. Fewell farm in the southwest of the northwest of the northeast of 23-15-10, is a hole full of water. Sand was touched at 2,080 to 2,090 feet, when the water broke through. Hole was plugged at 2,190 feet.

From Sipe Springs.

Special to The World.

SIPE SPRINGS, Texas, June 8. Mills Bennett and others have a showing for one of the best wells in the field in their No. 1 Turnbow. They have only gone into the sand three feet and after bailing the well dry allowed it to stand for two hours and then took 28 bailers of oil from the hole, which is at the rate of 110 barrels for 24 hours. The sand was encountered at 397 feet and it is believed the well is good for 50 to 75 barrels. The Odonal Oil company completed its Lee No. 2 at 325 feet for a 15-barrel well. The Iowa Bakers company turnbow No. 1 is showing for a good well in the top of the sand at 455 feet and is shut down for casing.

In the Cushing Field.

The White Oil corporation No. 1 Thompson in the southwest of 29-18-8 is underreaming the 8-inch at 2,210 feet. No. 2 is drilling at 1,570 feet and No. 3 at 1,600 feet. Same company F. J. Frye No. 1 located in the northwest of 33-18-5 is drilling at 140 feet. Same firm W. E. Garden No. 1, located in the southeast of 32-18-5 is drilling at 875 feet.

Alexander Dingwall test in the northwest corner of the northeast of the northeast of the 28-18-5, J. F. Eltzman farm, is underreaming at 1,810 feet, total depth is 1,960 feet.

Same parties well in the northwest corner of the southeast of the northeast of 22-18-5 on the Anna Eltzman farm, is underreaming at 1,785 feet.

At Okmulgee.

Alexander Dingwall No. 2 in the southwest corner of the northwest of the southwest of 16-15-12, is drilling at 1,100 feet.

Same parties have a well in the northwest corner of the northwest of the northwest of 10-14-12, on the Berryhill allotment which is good for 25 barrels on the pump. Total depth is 2,210 feet.

The Georgia oil company's No. 2 well on the Rawley farm in the southeast corner of the northwest of the southeast of 22-13-11, is making about 3,000,000 feet of gas at 1,260 feet.

North of Stone Bluff.

Robinson & Letcher is spudding for its No. 3 on the Bird farm in the east half of the northwest of 26-17-15. No. 2 on this lease has been completed and is good for 20 barrels at 1,950 feet.

Same parties are drilling at 1,715 feet on the Tim Marshall lease in the northeast of 22-17-15.

Franklin County, Kan.

Lambert Oil & Gas Co. Elizabeth Tullos in the southeast northeast of 27-17-21 is making 50 barrels at around 500 feet.

With the Oil Men

A. J. M. Van der Gracht, president of the Roxana Petroleum company, accompanied by J. W. Bates, general superintendent of the company, made an aeroplane trip to Texas to inspect the oil fields there, returning by the way of Healdton, Jennings and Yale. Mr. Van der Gracht returned to St. Louis Tuesday night.

F. B. Ranger, prominent oil operator, who has been making his headquarters at Los Angeles, Cal., the past nine years, is in the city for a few days visiting his son, R. N. Ranger of the J. Alexander Dingwall Oil company.

The Sequoyah Oil company is moving from their present quarters on the subfloor of the Cosden building and will occupy the new Nixon building on Cincinnati between Second and Third streets.

Jack Ryan of the General Refining company left last night for the convention at Chicago, in response to an urgent call from Mrs. Ryan, who is working hard trying to put over the nomination of a dark horse.

The Charles F. Martin Oil service will move the first of the month from their present offices on the subfloor of the Cosden building to the Atco building at Sixth and Main.

E. S. Hammond, manager and vice president of the Mid-West & Gulf Oil corporation, left Tuesday for Atlanta, Ga., on a short business trip.

E. L. Robinson, who is in New Martinsville, W. Va., to attend the funeral of his brother, is expected home in a few days.

F. R. Letcher and wife and son Fred, jr., expect to leave for the north lake resorts the early part of July.

J. E. Tolliver, president of the Lambert-Tolliver Oil & Gas Co. is in Tulsa on business for a couple of days.

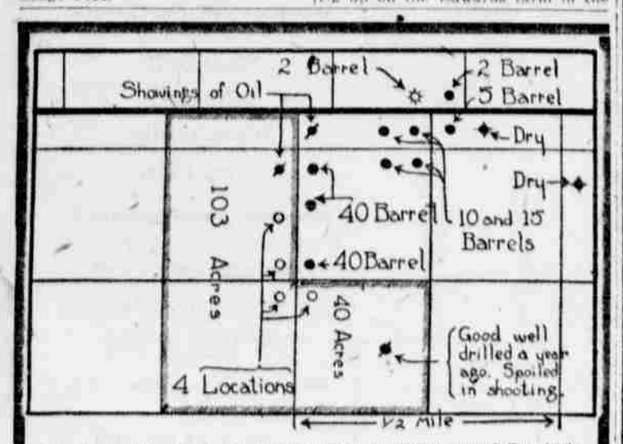
OIL AND GAS
Leases, Supplies, Production, Etc.

Wanted
Tool joint turner and general oil field mechanic capable of taking charge of small shop in Tampico oil fields. Please apply at once by letter to Amerada Petroleum corporation, 241 Kennedy Bldg., Tulsa, Okla., giving experience and salary wanted.—Advt.

Sale, 16-h. p. Acme gas engine and separate power, first class condition; $600. Manufactured by Jones Engr. Co., Toledo, Ohio. Call B. H. Mathewson, National Supply, Osage 261.

Wanted—Leases for drilling along Verdigris river, Waggoner, Rogers counties; submit full details. Phone Cedar 644, 223-E, care World.—Adv.

Wanted—National or Parkersburg drilling machine. P. O. Box 309, Osage 6432.



Here is a chance to get into the oil business on about a ground floor basis. You can see by consulting the above pool map that if this is an oil field at all, it must cross over our 143 acres.

This lease is located exactly six miles east of the famous Stone Bluff pool that produced THREE THOUSAND BARREL wells. One 40-acre lease in the Stone Bluff pool paid for drilling seven wells and paid dividends of $268,731.98 in five months, at a time when oil was $1.85 per barrel.

We have four offset wells that should be drilled right now, offsetting oil wells. It looks as if most of this lease would be good.

Wells are 1,600 feet deep with 75 feet of good sand, which is liable to produce some big wells.

WE WILL DRILL TWO WELLS COMPLETE AND CONNECT THEM TO THE TANK FOR $1,200 FOR A 1-16 INTEREST IN THE TWO WELLS, and THE 143-ACRE LEASE. After the completion of the first two wells the buyer shall pay his share of the expense for future development.

This is as sure a thing as there is in the oil business, as the wells already drilled get much better as they come toward our lease, and the best wells offset our lines. We will split the gamble and sell five interests only. FIRST COME, FIRST SERVED.

Present owners are practical oil operators and thoroughly reliable and drilling will start at once.

Lease shown by appointment, or if you do not live in Tulsa appoint a practical oil man to inspect the lease for you.

Address P. O. Box 88, Tulsa, Okla.

HORSE AUCTION

The Richfield Stock Farm company of Central Kansas are disposing of all their farm holdnigs and have a surplus of horses and mares that we will offer at

PUBLIC AUCTION
At Sapulpa, Oklahoma
On Saturday, June 12

Among those which will be sold will be found some of the very best animals that grow, ranging in ages from 4 to 8 years, and in sizes from 1,300 to 1,800 pounds. All are well broke.

These animals consist of matched teams such as dapple grays, blacks, bays and roans. The geldings are a fine assortment and are suitable for public work, or where heavy hauling is needed. There is also in the lot three High Class Combination Horses, Gaited.

We were encouraged to bring this stock here by one of your foremost citizens whose motive was none other than the interest of the farmers.

Your attention is called to the statement of Wayne Denamore, noted authority on agricultural matters, as follows, first of all farm work:

"General agriculture requires a flexibility of power such as is furnished by horses. The economy of home-raised power and fuel is indisputable. Fertility and maintenance of the farm and self perpetuation double the interest returned to the farmer on his investment in the horse.

We conclude, Mr. Farmer, that we have taken very great care in selecting good blood and breeding in order to get the bone substance and conformation. Your attention has been called to this. It is a well known fact that the importance of good brood mares is the foundation of our future horse power. It is decided economy to the farmer, especially in commercializing the production of high grade mules which at present is in such great demand that prices range from $300 to $500 per head.

Each of these mares will do an ordinary year's work plus the production of a big, heavy-boned mule colt. This stock will be sold under an ABSOLUTE GUARANTEE and must be just as represented, and to be paid for in one year under contract.

The Sale Will Start
Saturday, June 12th, at 1 p. m.

Under the supervision of Col. J. O. Hereford, auctioneer. This stock will be sold regardless of price and regardless of weather conditions. Further announcements will be made at the sale. You will find it profitable and instructive and you are cordially invited to attend the sale.

O. B. PICKETT, Clerk.
