WORLD MARKET PAGE

STOCK TURNOVER LARGEST IN WEEKS

Inquiry for Rails Strong; Steel and A. G. W. I. All Register Gains.

BOND MARKET IS FIRM

Financiers Stress Further Need of People Conserving Resources for Future.

NEW YORK, Sept. 20.—The week on the stock exchange began with a resumption of the recent comprehensive inquiry for railroad and oil shares at irregularly higher quotations, various miscellaneous issues also strengthening.

Net gains of 1 to 5½ points were registered by such stocks as Crucible Steel, Atlantic Gulf, Writing Paper pfd., American Tobacco and preferred, Mexican Petroleum. Rails fell back on profit taking in the final hour and some of the specialties, notably leathers, lost ground on rumors of prospective dividend reductions. Sales amounted to about 1,080,000 shares, the largest turnover in many weeks.

Events over the week-end, including the enormous clearing house expansion of loans, imposed occasional restraints on the bullish operations of pools.

Better freight conditions were reported by railroad officials at western and southwestern terminals but these were tempered by advices from the same sections suggesting greater caution in purchases of general merchandise.

Financial interests again stressed the need of conserving credits, but this attitude had no perceptible influence upon call money which ruled at 7 per cent. Very little money was offered, however, except for the shorter periods.

Conditions bearing upon international exchange remained unaltered; save for another moderate rally in British rates. Paris remittances also improved slightly and more gold was received to meet the French obligation in the Anglo French loan.

Domestic bonds, including rails and Liberty issues were firm but international moved contrarily. French municipals made further gains, but the new French 5's and United Kingdoms eased. Total sales, par value, aggregated $12,375,000. Old U. S. bonds unchanged on call.

Independent Oil Stocks.

The closing bid and asked prices of independent stocks on the New York curb market Monday, as reported by Houston, Fible & Co., were as follows:

Liberty Bonds.

NEW YORK, Sept. 20.—Liberty bonds close: 3's, 100.04, first 4s, $92.40 bid; seconds 4s $94.20; first 4¼s, $86; second 4¼s, $92.44 bid; third 4¼s, $93.48; fourth 4¼s, $93.64; Victory 3¾s, $99.86; Victory 4¾s, $99.94.

$500 A Year Income

We control a 200-acre proven tract, only few hundred feet from property on which wells are coming in for 100 barrels and better, and in direct line between famous Rentoul Pool and Bristow shallow field, in Franklin County, Ohio.

Expect to begin drilling in thirty days. There are two producing sands—possibly more. Wells can be completed in two weeks' time, and we will drill one or more a month.

WE BELIEVE WE WILL BRING IN A 100-BBL. WELL TO START WITH, have room for 45 or more on the tract, and every interest holder is 50 per cent owner in all acreage and all wells drilled.

EACH $100 interest in Syndicate No. 1 will pay $500 a year income on basis of 100 barrels production. $100 buys one fully paid, non-assessable 240th interest in our Syndicate, capitalized for only $24,000.

A few small interests remain. Write or wire today, making reservations. This is call for quick action. Checks should be made payable to Syndicate No. 1. Money is held in trust. Interest assignment mailed immediately upon receipt of remittance.

Syndicate No. 1
P. O. Box 629, Tulsa, Okla.

LARGE RECEIPTS WEAKENS GRAIN

Wheat Experiences Reaction of Selling, but Soon Rallies.

CHICAGO, Sept. 20.—All grain and provisions weakened in price today as a result of big receipts of corn and reported unlikelihood of frost. Wheat closed steady at the same as Saturday's finish to ⅛ cent lower with December $2.39 3-4 to $2.40 and March $2.24 3-4. Corn closed unchanged to 1 1-8 cents down, oats off 1-8 to 1 cent and provisions at a setback and varying from 2½ cents to 2 cents.

A good deal of selling pressure on wheat was evident during the first half of the day, but after a moderate downturn in values fair support developed and the market rallied. Houses with seaboard connections were said to have been good buyers of future deliveries after the early downturn in the market. Corn dropped to the lowest prices yet for deferred deliveries. Reactions were ascribed to profit taking by shorts. Opinion was general that for a considerable period there would be no cold weather.

Oats were governed by the action of corn. Provisions gave way with grain.

World's Oil Output

The total crude oil output of the world in 1919 constitutes a record amounting to 557,491,239 barrels. The following are the figures for the different countries in 1919, with those for 1918 for comparison:

	1919.	1918.
United States	377,719,000	355,927,718
Mexico	87,359,136	63,828,327
Russia	31,284,000	40,456,188
Dutch East Indies	15,780,000	13,281,936
Rumania	6,352,929	8,750,235
India	8,453,800	8,000,000
Persia	8,320,000	7,200,000
Galicia (Poland)	5,255,300	5,591,620
Peru	2,560,000	2,536,102
Japan and Formosa	2,138,500	2,449,060
Trinidad	2,780,000	2,082,068
Egypt	2,548,000	2,079,150
Scotland	2,018,000	2,032,000
Argentina	1,504,500	1,321,815
Germany	925,420	711,260
Canada	220,000	504,741
Venezuela	245,386	100,080
Italy	38,254	35,953
Other Countries (about)	25,000*	20,000

The total output in 1918 was 516,801,354 barrels.

J. R. Bridgeford & Co.

PRODUCE

Chicago Butter and Eggs.

CHICAGO, Sept. 20.—Butter higher; receipts 9,429 tubs.

Eggs higher; receipts 3,645 cases; firsts 82½@85½c; storage packed firsts 74@74½c; standards, 84.

Poultry alive lower; fowls, general run 29c; springs, 34c; turkeys, 42c.

Chicago Potatoes.

CHICAGO, Sept. 20.—Potatoes weak; receipts 79 cars. Minnesota and Wisconsin round white sacked and bulk $1@1.15; Minnesota early ohios, sacked and bulk $2.45.

Kansas City Produce.

KANSAS CITY, Sept. 20.—Butter 1c higher; creameries 48c.

Eggs unchanged; seconds 42c.

Poultry unchanged; hens 24@27c; springs, 32c.

Potatoes unchanged.

Cottonseed Oil Declines.

NEW YORK, Sept. 20.—Cottonseed oil broke 25 to 35 points early for the active positions through selling by western longs but later steadied and rallied on buying by cotton houses and covering. Nearby months closed 10 to 23 points net higher and late positions closed 22 to 27 points net higher and other late positions closed 7 to 21 net higher. Sales 15,000 barrels. Spots 10c higher. Prime summer yellow, nominal $11.90@12.40; crude $12.75@13.50; nominal $13.50 March $14.50; prime winter yellow and summer white, nominal.

In the Oil Fields

Oswego Lime Producer in the Osage.

Waite Phillips and Dick Mason brought in a 100 barrel producer yesterday in the Oswego lime, in their test in the northwest corner of the southeast of 4-24-12. The lime was topped at 1,096 feet and the production is considered somewhat unusual for this locality.

Waite Phillips is drilling in No. 5 Henry Thompson in 22-14-11, Pharsalia pool, today. This well, which extends the west edge of the pool several locations is showing for a big producer in the Wilcox sand. Number 3 on this lease which has been fishing for the tools for several months, is 200 feet of the same sand, and as the tools are being recovered today, is expected to become interesting within the next few days.

At Maramec.

That something of interest is likely to develop very shortly at Maramec, is easily understood, by a perusal of the following wells that are drilling near the original well that started so much excitement several weeks ago.

The original Lake Maramec well in the northeast corner of the northeast of the southwest of 4-20-6, is swabbing 100 barrels. No. 2 well on the Adler farm, in the southwest of 4, is a rig.

The Atlantic Petroleum corporation No. 1, in the southeast corner of the northwest of 4-20-6, is drilling at 3,182 feet, and No. 2, at the center of the south line of the northwest of that section is drilling at 2,150 feet.

The Jones well, in block 1, Maramec townsite, is casing on top of the Cleveland sand with the 8 5-8, at 2,420 feet.

The Oceanic Petroleum company, drilling in block 10, on the townsite, is cased with the 12 1-2-inch at 706 feet.

The White Oil corporation is drilling just north of the townsite, has set the 10-inch at 1,470 feet.

The Rockstool No. 1, in the northeast corner of the northwest of the southwest of 1-20-8, is cased with the 8 1-4, at 1,320 feet.

The Roxana Petroleum corporation, drilling in the northwest corner of the northwest of the southeast of 4-20-8, has set the 10-inch casing at 1,829 feet, and is now drilling at 2,025 feet.

J. H. Markham, jr., drilling in the southwest corner of the northeast of 4-20-6, has cased with the 8 1-4 at 1,690 feet.

The Parks Brothers, Carter Oil company and Atlantic Petroleum corporation are tubing their well and will put it on the pump.

In addition to the above, the following is reported:

The White Oil corporation is spudding in the No. 1 Bailey, in the southeast of 8-20-6.

The Carter Oil company's test on the Bailey farm, in the southeast of 8-20-6, is drilling at 1,56 feet.

The Shaffer Oil & Refining Co. is drilling at 1,485 feet on No. 1 Cammon, in the southeast of 8-20-6.

The same company's No. 2, on this farm, is undercreaming at 1,250 feet.

The Pierce Oil corporation has a rig up for No. 1, on the Corp Baker farm, in the northwest of 16-20-6.

Burtram's No. 1 Bloomer, in the southwest of 16-20-6, is drilling at 1,260 feet.

Westerly's No. 1 White, located in the southwest of 20-20-6, is drilling at 1,680 feet.

Josey is undercreaming at 1,125 feet on No. 1 Bloomers, in the northwest of 28-20-6. Mr. Josey's No. 1 Rhodes, in the northwest of 28-20-6, is drilling at 1,145 feet.

The Tablequah Oil company's No. 2 Vosler, in the northeast of 32-20-6, is drilling at 1,860 feet.

Hall and others have a rig up for a test on the Meadows farm, in the southwest of 13-20-7.

The Kanola Oil company's No. 1 Meadows, in the southwest of 13-20-7, is a rig.

The Gilliland Oil company's No. 1 on the Land farm, in the southeast of 13-20-7, is a rig.

The Pearce Oil & Gas Co's. No. 1 on the Cohne farm, in the northeast of 24-20-7, is a rig, while No. 1 Cato, in the southwest of 27-20-7, is drilling at 765 feet.

Aliber and others are drilling at 2,175 feet on No. 1 Alderman, in the southwest of 28-20-7.

Billingsley has a rig up for a test on the Alderman farm, in the southwest of 28-20-7.

The Maryland interests are drilling at 1,845 feet on the Land farm, in the northeast of 33-20-7.

The Carter Oil company is down 700 feet on No. 1 Vasey, in the southeast of 12-20-7.

A. H. Morton is drilling at 2,747 feet on No. 5 Reigel, in the northwest of 34-20-7. No. 6 Reigel is drilling at 425 feet and No. 11 Armstrong, in the southwest of 34, is running the 8-inch casing at 2,549 feet.

The shallow interests are shut down at 1,740 feet on No. 1 Chemster, in the northwest of 36-21-7.

Important Location.

George H. Lowerre jr., is starting an effort to the Empire's Roach well, which was drilled in 30-29-16. The new location will be one location south and two west of the Empire well, and will be in 31-29-16.

Mr. Lowerre is recently back from New York, where he has been enjoying some of the fruits of his good ventures between the west extension of the Delaware pool and the Dewey field, where he brought in 100 barrel producers.

Will Try to Beat the Record.

Calvin O. Smith left last night for Kansas City, by the air route, starting at 4:45 p. m., with an engagement ahead of him at Kansas City at 6:30. The present record is held by Ed perry who made the trip in one hour and 37 minutes. The chances are that if Mr. Smith is doing the driving all records will be broken, without a doubt in the world.

There is a rumor afloat that somebody has invented an automobile that can instantly be made into a flying machine, and that this is going to be on exhibition at Denver at the coming meeting of the Independent oil men's association, if it proves to be a success.—Oh, boy!

In the Jennings Pool.

The Prairie Oil & Gas Co. had the top of the sand at 2,623 feet and is now drilling at 2,658 feet on No. 12 Ingraham, in the southwest of 2-19-7. No. 24 on this farm is drilling at 2,200 feet and No. 17 is down 300 feet.

The Carter Oil company has a rig up on Page farm for No. 3, in the northwest of 8-19-6.

McCray is running the 6inch casing at 2,425 feet on No. 8 Barty, located in the southeast of 2-19-7.

Hugh King has a rig up for No. 2 Barty, in the southeast of 2-19-7.

The Sapulpa Petroleum company is drilling at 250 feet on No. 2 Caesar, in the northeast of 25-19-7. No. 5 Timothy, in the same quarter section is drilling at 2,000 feet; while its No. 4 Hand in the southwest of 25-19-7 is

The Eastern Petroleum corporation's No. 1 Fusson, in the northeast of 26-19-7, is good for 100 barrels in the 2,518 to 2,526 foot pay, and they have decided to go on to the deeper sand.

Attend the organization meeting of the Harding-Coolidge club at Municipal Auditorium, Fourth and Cincinnati, at 8 o'clock tonight.—Advt.

Norwegian engineers plan to consolidate several waterfalls to produce 200,000 horsepower at a single hydroelectric plant.

Finance Your Future
Many shrewd investors are taking advantage of present conditions to acquire the better grade of listed stocks and bonds, and will hold them for permanent profit. The Kriebel Systematic Saving Plan enables you to multiply your investment five times over, yet you do not tie yourself up in an iron-clad contract from which you cannot withdraw.
One of our investors writes: "To me, the one big advantage of the Kriebel Systematic Saving Plan is that it provides tangible ways and means by which I can finance my future. It calls for regular payments, the key to saving and getting ahead, and yet the amounts can be so arranged as to meet the requirements of any pocket book." Over 87% of Kriebel investors complete their contracts.
"The Principles of Profitable Investing" is a book that will help you to a better understanding of the great subject of investing. We will gladly send you a copy free.

A Goodyear Blue Streak Belt For Lowest Ultimate Cost

No other industry sets so little store by first costs and stakes so much on final results as the oil industry does. No doubt this is one of the reasons for the general appreciation by oil well drillers of the long-run economy demonstrated by Goodyear Blue Streak Belts.

These belts are built to yield a more efficient service over a longer period of time. They are outdoor workers, proof against dust and moisture. They do not shrink. They stretch less than other belts do. They are powerful and trouble-free in operation.

They have the character demanded of belting in this exacting service. So constructed as to apportion the load among their plies, they withstand the strain of the alternately rising and falling tools without separating at the plies. They sustain with unfailing strength the heavy stresses of such emergency duty as tool fishing and casing pulling.

They carry the power with the even, sure transmission guaranteed by their slipless grip on the pulleys. Your tools get the full power of the engine, and your engine gets the benefit of easy, free-swinging belt action when a Goodyear Blue Streak Belt is on the job.

Specified by the G. T. M.—Goodyear Technical Man—a Goodyear Blue Streak delivers all the efficiency and economy built into it. The G. T. M. knows belting, and he also knows oil field conditions. Have him analyze your drilling conditions, and he will recommend the particular width and ply of Goodyear Blue Streak Belt that will give you the best belting service at the lowest ultimate cost.

Write to The Goodyear Tire & Rubber Company, Akron, Ohio, or Los Angeles, California, for the G. T. M.'s services and for a copy of the Goodyear Mechanical Goods Encyclopedia for the Oil Field
