CAR LINE COMBINE URGED FOR TULSA

Corporation Commissioner Suggests Consolidation for Two Trolleys

EXTENSIONS MAPPED

Hearing to Decide Improvement Necessary Scheduled for Capital on Feb. 7.

All proposed improvements and extensions in the lines of Tulsa's street railway system are indicated on maps received Monday afternoon by the chamber of commerce from Campbell Russell, chairman of the state corporation commission. These maps were prepared by A. I. Thompson, chief engineer for the corporation commission, who spent a week here recently investigating transportation lines and service.

The outstanding change anticipated by the corporation commission and shown on the maps is a consolidation of the Tulsa Street Railway company and the Oklahoma Union Railway company. Duplication of service to any part of the city is done away with by the proposed alterations, and in some cases, if the plans are consummated, short sections of track will be torn up.

Would Change Kendall.

According to the plans outlined by Thompson, and favored by the corporation commission, the Kendall line would run out Tenth street, changing to Seventh street near the east end of the line. The present Kendall line that runs out First street to Lewis avenue and thence to Seventh and Grant would run from First and Lewis northeast. Present trackage from First and Lewis to Seventh and Grant would be torn out.

Specific improvements and extensions as shown on the maps are as follows:

Kendall line: Extended east two blocks from present terminal; double-tracking along Seventh west to Grant avenue; new line of double track south three blocks on Grant; west on Tenth street, 10 blocks with new double-track, intersecting the O. U. R. line at St. Louis avenue; thence double-tracked west on Tenth street to Elgin, near the ball park; thence west on Tenth with new double-track to Main street, connecting with the present Main street line at Tenth and Main.

Extend Main Line.

Main street line: Double-tracking from Seventeenth on the south to Hill street on the north. This contemplates an extension of three blocks from the present terminal on North Cheyenne at Marshall.

Fifth street line: Double-tracking from Frisco to Lawton.

Third street line: Double-tracking from Elwood to Lawton.

Miscellaneous improvements planned are:

Single track line from Tenth street to Fifteenth street on Norfolk; thence east on Fifteenth to Wheeling.

Double-tracking present Kendall line on gap from Peoria to Rockford.

Double-tracking North Peoria line from First street to Frisco tracks.

New double track from First and Lewis north two blocks to Archer, thence east eight blocks to Delaware.

Abandonment of line between First and Lewis and Seventh and Grant.

Abandonment of the O. U. R. line from Archer to First on Lawton, also the Tulsa Street Railway line from Archer to Owen Park, using virtually all of the O. U. R. line as the permanent Owen park line.

Building of a loop by the Oklahoma Union Railway company from Fourth and Elgin, where interurban cars are turned around with a "Y," north on Elgin to First street, thence west to Elwood to connect with line.

Decision February 7.

A hearing upon these proposed changes is to be held by the corporation commission on February 7, according to a letter which accompanied the maps. In the meantime the chamber of commerce and others interested in the transportation problems of Tulsa are asked to consider the maps and information and advise the commission whether they are approved or disapproved "as the commission is well aware that the citizens of Tulsa are entitled to better street car service."

Pursuant to this request, a meeting is to be held in the chamber of commerce rooms in the municipal building at 4 o'clock Tuesday afternoon, attended by both the special transportation committee and the city planning committee. The special committee, appointed shortly before the street car hearing was held here several weeks ago by Corporation Commissioner Russell, is composed of C. F. Hopkins, A. L. Farmer, Mark E. Carr, G. R. McCullough, Clarence B. Douglas and E. N. Adams. The city planning committee is composed of A. L. Farmer, Alfred Aaronson, J. M. Gillette, Philip Kates, George Winkler, C. E. Buchner and J. M. Hall.

No attempt is being made at present to plan on proposed changes in schedules. Engineer Thompson expressed his opinion before returning to Oklahoma City after his investigation here that there must be necessary changes in lines before schedules can be given serious consideration.

T. S. R. President Coming.

Thompson asserts in his report that the cars purchased by the Tulsa Street Railway company from the Philadelphia Rapid Transit company—six in number—are dilapidated, and that the motors are especially in poor condition. Morris McGrath, superintendent of the street railway company said Monday afternoon that these cars will need no apology as soon as they are overhauled and put into service.

"In the main, Thompson's report is very fair," McGrath commented. "He states, however that we have only 22 cars in service when in fact we are using 26. He suggests that a line be run from Orcutt lake to First and Peoria. This is a change I do not believe is advisable. It would necessitate the use of transfers for Orcutt lake patrons, and in a city the size of Tulsa there should be little or no use for transfers."

Questioned as to whether there are prospects for a consolidation of the Tulsa Street Railway company and the Oklahoma Union Railway company's city lines, McGrath said there was no definite information. He did say that C. H. Bosler, president of the Tulsa Street Railway company, will come to Tulsa in about two weeks, following the street railway convention in Chicago, and that at that time there will probably be a conference with officials of the Oklahoma Union.

ASKS DAMAGES OF $10,000

Woman Injured When Car Hits Earth Embankment.

Arzona Dale, injured when an automobile in which she was riding as a passenger struck an earth embankment across the road in the town of Sperry, October 20, 1920, brought suit in which damages of $10,000 are asked in district court Monday against F. W. McNeil, a contractor.

The petitioner claims the driver of the automobile was using all possible care in the operation of the car at the time of the accident but that due to the dust, the embankment was not visible and that when the car struck the obstruction the petitioner was painfully and permanently injured.

THE THEATERS

ORPHEUM—Orpheum News and Topics of the Day. Vaudeville: Dolan Herbert in "European Eccentrics," pantomime; Billie Hibbitt and Edith Mellor, comedians, in "Two Ladies' Men," George and Mae le Fevre, dancers, in "12 o'Clock at the Masque Ball"; Marie Hanson, singing specialty, in "Shadows from Spotlight"; Rose Ali with Rate Pelham and Jim Reed in a comedy act; Harry Van Fossen, Kentucky comedian; Leila Sedora and Roy Nagle, comedians, in "The Butterfly and the Cat." Music by Orpheum orchestra.

WONDERLAND—"White Youth," five-reel drama with Edith Roberts; "The Flaming Disk," two-reel serial, with Elmo Lincoln, musical comedy.

AMERICA'S ILL IS SELFISHNESS

Liberality in U. S. Will Restore Country, E. D. Mouzon, Bishop, Says

Selfishness is the worm that is eating industriously at the heart of America—it is the answer to the question "What's the matter with this country?" Bishop E. D. Mouzon, formerly of Dallas but now of Tulsa, declared at the weekly luncheon of the Kiwanis club at Hotel Tulsa Monday noon.

During the war, he asserted, there was a wonderful spirit of self-sacrifice apparent on every side. The American people stood shoulder to shoulder upon every vital issue, animated by the thought that they could not live for themselves alone. That was a period of collective service and self-sacrifice.

He drew a clear mental picture of conditions as they exist today, contrasting them with the situation that prevailed two to four years ago. People of America today are self-centered, self-seeking and animated with self-interest, the bishop declared. They are rushing madly in pursuit of pleasure and gain; they are thinking only of themselves, filled with a spirit of individualism. The former spirit of self-sacrifice and service is not apparent.

As soon as selfishness and individualism are replaced by benevolence and liberality, America will recover quickly from the abnormal state that now prevails, Bishop Mouzon explained.

"I am now a citizen of Tulsa," he said. "I did not move here to request others to serve me or my aims; I do not demand your friendship. I am here to offer my services to others, and to tender them my friendship with the hope that by so doing I may be of service to the community."

The bishop was presented with an honorary certificate of membership in the Kiwanis club by Alber. C. Hunt, president.

Governor of Maine Dies

AUGUSTA, Maine, Jan. 31.—Governor Parkhurst, of Maine, whose election in September was the beginning of the countrywide republican landslide, died at the executive mansion here today following a short illness of diphtheric sore throat.

File Third Robbery Charge Against Man Caught in the Act

Tony Williams, held in the county jail under two charges of robbery, pleaded not guilty to the third charge at his arraignment Monday before Justice H. J. Gray. He was committed to jail under bond of $1,000 for preliminary hearing February 8.

Chester Martindale, the complainant, was the victim held up by Williams on the night of January 22 and it was at the time the robbery was in progress that I. W. Sims, special police officer, Arrested Williams. Sims had been sent out to investigate the robbery of two other men on that night, when he discovered Williams in the act of robbing Martindale.

SUES ON CONTRACT

Gasoline Company Says Contractors Failed to Complete Plant on Date Specified.

Damages of $15,000 for alleged failure of the Cleage and company, contracting firm, to complete a casinghead gasoline plant at Keysinne on or before September 1, 1920, were asked in a suit filed in district court Monday by the Orfi Gasoline Products company.

The gasoline company claims an agreement was entered into by the plaintiff and defendant June 14 1920, whereby the contracting firm was to build the plant and have it in operation by September 1. Acting on this agreement, it is claimed in the petition, the gasoline company contracted for a supply of casinghead gas. For the loss of profit, failure of the defendant firm to complete the plant until 118 days after the contract date, damages totaling $15,000 are asked.

300 NEW STUDENTS ENTER TULSA HIGH

Second Semester Begins Today With Heaviest Roster on Record.

Two hundred and ten Freshmen who came in from the ward schools have enrolled at Central high school and with the entrance of students from other high schools, made a total of nearly 300 new students who begin the work of the new semester today with the 1,500 students already enrolled, the total of 1,800 pupils being the heaviest enrollment in the school's history. The entire day yesterday was devoted to matriculation and the regular schedule of class work is begun today.

The classes in typewriting are most popular, Merle C. Prunty, principal, said yesterday and the demand for instruction in this work is so great that preference has to be given to students who finish this year; beginners will have later opportunity to enter classes. There is also an unprecedented demand for instruction in Spanish, Prunty said, and although there are already two classes, it may be necessary to form another. Spanish has its popularity at the expense of French and Latin for which there is not so great a demand.
