TULSA IS LEADING WAY TO NORMALCY

Record Improvements and Home Building Begun Since January 1

PERMITS $3,764,285

County and City Paving With Other Projects Brings Total to $6,323,000

There is nothing superficial about Tulsa's efforts toward a return to normalcy, and considering the vigor that characterizes these efforts these efforts are already being shown, according to a letter sent to the Manufacturers' Record this week by E. T. Tucker of the Western Natural Gas company, 219-A North Main street.

In his letter Tucker outlines the building permits, the number of buildings under construction and the types thereof; the paving and sewers that are and have recently been under contract; and the hard surfaced highways that are being built by the county. All this has come to pass, Tucker states, despite the 40 per cent cut in crude oil and the decline in prices of farm products. Tulsa and all Oklahoma, he states, have buckled down to travel the road to prosperity.

The letter follows:

This city is endeavoring to do its part toward the resumption of general business activity following last year's financial stringency. More than $6,000,000 is now being expended in buildings, paving and sewer construction on contracts let since the first of the present year.

The building permits by months are:

Year	Month	No.	Cost
1921	January	128	$ 736,460
1921	February	131	614,150
1921	March	266	770,610
1921	April	229	612,175
1921	To May 25	186	1,030,950
Total		880	$3,764,285

An interesting fact is that 792 permits were for residences and that their average cost was $3,940. Many of these have been completed, the rest being under construction.

This city has let 53 paving and sewer contracts since January 1, most of these being under construction, with a few completed. In lineal feet the paving amounts to 71,537 feet, or 244,128 square yards (including its corresponding amount of storm sewers.) In other words, 198 city blocks, or more than 13 miles of asphalt pavement, costing $2,229,324, have been contracted here during the past four and one-half months. Sanitary sewer contracts let during the same period aggregate 61,204 lineal feet, or 11½ miles, costing $323,831.

The county has under construction 108 miles of concrete roads, probably one-third completed, to be finished by the end of the current year. This system of hard surface roads connects each town in Tulsa county with every other town in the county as well as meeting similar roads to be built by surrounding counties.

Although the price of crude oil has declined to less than 40 per cent of its prices a year ago, and farm crops have suffered the same decline here as elsewhere, our people are going right ahead in full knowledge that hard work will do for us at this time what it has always done in the past.

There may be no easy road to prosperity, but it is as sure and plain as the road to the mill, and the people of Tulsa and all Oklahoma in general have buckled down to travel that road. There are but few persons out of employment and their numbers are growing less and less each day.

We appreciate what the Manufacturers' Record is doing for the upbuilding of the country and we wish for you a decent share of whatever prosperity may be floating around in your vicinity.

TWELVE GET NAME HANDLES

Baptist University Closes Successful Term.

Special to The World.

SHAWNEE, May 27.—The Oklahoma Baptist university closed one of its most successful seasons here this week, graduating twelve with the bachelor of arts degree and conferring the doctor of laws degree of Dr. W. W. Phelan, dean of the department of education of the University of Oklahoma.

Starting in Shawnee seven years ago, the university had but one building. At the close of this semester, the Baptists of the state have erected four buildings and are preparing for the erection of a fifth.

Dr. J. A. Tolman, president of the school announced at the annual commencement that many new departments for the school were being considered and that the institution would endeavor to become a real university within a few years.

STILLS ON SCHOOL LEASE

Four Moonshiners Gathered in by Kay County Officers.

Special to The World.

PONCA CITY, May 27.—Converting a state school lease building into an illicit whisky manufacturing plant has been successfully pulled off in the northwestern portion of Kay county, and as a result county officers have made the arrests of Lorenzo Smith, Alma Page, Chester Brown and Jack Gardner. Smith has pleaded guilty and is alleged to have implicated all the others. He told the officers, too, of another still they were operating east of the Arkansas river, in northeastern Kay, and the officers located it also.

Smith was only recently released from the county jail, where he had served a sentence for stealing a load of oats. In the school lease house, northeast of Dilworth, the officers confiscated a still and over five gallons of corn whisky.

BAPTIST PREACHERS CONFER

Northeastern Association Opens Three-Day Session

Special to The World.

ALTON, May 27.—The fifth Sunday meeting of the Northeastern Baptist association opened last night in this city, and continues through Friday, Saturday and Sunday.

Rev. T. D. New of Commerce will conduct all of the devotional services, and Rev. A. Roscoe Luton will report the Southern Baptist convention which recently met in Chattanooga, Tenn. The following pastors are also on the program for sermons and discussions: C. Stubblefield, and S. M. Tucker, Miami; J. W. Hodges, Charles Wesley and R. D. Sheldon, Vinita; Elmer Reynolds, Ketchum; G. C. Verhulihan, Grove, and Isaac McKeiver, Picher.

The officers of the association are: R. D. Sheldon, moderator; Roy T. Wills, corresponding secretary; Mrs. J. S. Hancock, president W. M. U.; Clara McKnight, missionary to the miners, and Charles Wesley, general missionary.

Had Looted Dry Goods Store.

Special to The World.

CENTRALIA, May 27.—Frank Akers and Roy Thomas of North Canadian, who were recently arrested on a charge of stealing dry goods from a store in Picher, and in whose possession some of the loot was found, had their preliminary hearing at Miami this week, and were held for trial at the next term of district court. Bond was fixed at $1,000 each.

Judge Rutherford, who lectures here Monday night at 8 o'clock in Convention hall, on the subject "Millions Now Living Will Never Die," is president of the Watch Tower Bible & Tract society. This religious organization has its main office in Brooklyn, New York and branch offices in almost all the countries of Europe, as well as in Palestine. Judge Rutherford has made a number of tours in Great Britain during the past ten years, lecturing on Biblical and scientific subjects. He returned a few weeks ago on the "Aquitania" from an extended visit to Europe, Egypt and Palestine. To a press representative he said:

"The election of Mr. Harding may keep the United States out of the league of nations and therefore result beneficially to the country. The league of nations will fail to accomplish any real good to humanity. Its organization and failure were long ago foretold by Jehovah's prophets, who refer to the league as an abomination in God's sight. The nation that keeps out of the alliance will do well. The United States has been specially favored heretofore by the Lord and by keeping out of the league of nations now she may be spared much trouble.

"I am just from Palestine. The Jews are rebuilding that country in fulfillment of Divine prophecy. They are forming colonies, building houses and roads, planting trees and vineyards, making for themselves a permanent home. A strong opposition party has been organized against them. The object of this association is to prevent the Jews from possessing Palestine as a homeland. This, the Scriptures indicate, will lead to what is described as Jacob's trouble, during which God will plainly manifest His favor to the Jews as He did in the days of old when He fought their battles for them and won them, of course. Christians will be more pleasing to the Lord if they would aid the Jews in rebuilding Palestine, because it is God's due time for them to return and have the land. The Lord's purposes concerning them are certain of accomplishment. I hope to see the rich Jews of America aid their brethren in Palestine. All Christians should have the keenest interest in the re-establishment of the Jews in their homeland."

A number of local citizens have invited Judge Rutherford to deliver his lecture in this city. He insists that he can prove and will prove that the present distress of nations and unrest of the people throughout the world are but the forerunners of the establishment of a better order of things, during which the peoples of earth will receive Divine instructions as to how they can live on earth forever in a state of happiness and contentment.
