# REALTORS RETURN FROM CONVENTION

## Chicago Had Largest Gathering Business Men Ever Held in U. S.

## TULSANS OPTIMISTIC

### Find This City in Better Condition Than Others; See Big Future for Tulsa

The largest convention of business men ever held in the United States. Such was the recent convention of realty boards held last week in Chicago, spoken of in the Chicago press. There were nearly 5,000 registered delegates.

The Tulsa delegation has returned. Some of the realtors arrived Saturday and the remainder came in early Sunday morning.

**Return Tulsa Boosters.**

"The convention certainly put pep into all of us," said Merritt J. Glass, president of the local exchange, Monday. "We found conditions in Tulsa are so much better than in most of the other cities over the country that we are going ahead and boost for the city harder than ever. We return greater boosters than ever."

John H. Miller, state president and former president of the Tulsa exchange, is also more than ever a booster for Tulsa. He says that since visiting the larger cities of the north the realtors can now talk up Tulsa as a desirable home city more than ever.

**Looking for Place to Light.**

"People are wanting to get out of the large cities and are looking for some place to light," said Miller. "We have every talking point in the world to make for our city. All you have to do to sell Tulsa real estate is to get them here and show them. The foundations have been laid here for a great city and all we have to do is to build upon it."

The convention itself was boosted by Clark Whiteside, who said he attended regularly all the sessions. He said that the addresses themselves, especially that of Hoover, was well worth going to Chicago to hear.

The delegates were all pleased that San Francisco landed the next convention. Steps will be taken at once to insure the attendance of every member of the Tulsa exchange without cost to them through the sale of property owned by the board.

## PROTEST PRINT CONTRACT

### Grove Sun Gets Injunction Against Award to Chieftain.

Special to The World.

GROVE, July 18.—With only two newspapers published in Delaware county, it would seem that the county printing could be handled without friction, but such has not been the case. The county commissioners recently let the contract for the county printing to the Chieftain Publishing company of Jay. This included not only the printing of office stationery and legal blanks, but also the publication in the Delaware County Chieftain of such notices as are required by law to be published in a newspaper.

This action, it is claimed, was taken upon the advice of the county attorney, despite the fact that the Chieftain was only a few weeks old, and the law requires that a newspaper, in order to print the publication of legal notices, must have been published for 52 consecutive issues.

In view of these facts, O. E. Bulles, of the Grove Sun, a newspaper which has been published for 21 years, secured an injunction restraining the county commissioners from allowing such claims as may accrue from the publication of notices in the Delaware County Chieftain. It is stated that an effort will be made to appeal the case.

## FAR EMMERGENCY PATROLS

### Ponca City Will Forestall "Tulsa Affairs" in That City.

Special to The World.

PONCA CITY, July 18.—Five American Legion patrols, with 20 men each, are being organized here by the local post, to act as an emergency corps should a crisis ever materialize. The organization is being affected in connection with City Manager Hugh Johnston, the post being represented by a special committee.

The intention is never to let a "Tulsa affair" or anything of the nature ever get started in Ponca City, declare the legion members. The Popca post is now sixth in numerical strength in the state, with 231 members. Only 18 members separate them from third place, and this is the goal.

## HELIANTHUS FOR CHICKENS

### Agriculture in Greer County Going Along Swimmingly.

Special to The World.

MANGUM, July 18.—The farmers of Greer county have practically all of their wheat cut and threshed. The crop will average about 15 bushels per acre. There are plenty of cars available for moving the crop and same is being rapidly put on the market. The price charged for threshing averages about 15 cents per bushel. Cotton is looking good, however some of it is late. Feed stuff is growing nicely, but is needing rain to some extent. The melon crop promises to be a good one and a fair acreage has been planted. Corn is doing well. Truck of all kinds will make a good yield.

A great many of the farmers are planting sunflowers for chicken feed. They state sunflowers will make more chicken feed to the acre than anything they know of. The farmers are furnishing cream to the various creameries throughout the state, advised that they are now receiving about 34 cents per pound for same. Eggs are selling around 15 cents per dozen delivered to the stores.

### Brother of Theda Bara.

Special to The World.

PONCA CITY, July 18.—Marque Bara, a brother of Theda Bara of movie fame, has resigned his position in the mid-continent oil field with the Mid-Co Oil company and is leaving this week for the east, his home being in New York city. Bara has been with the Mid-Co refinery at Arkansas City and with the company at Tulsa and other places in this district.

### Mayor to Take Vacation.

Special to The World.

PONCA CITY, July 18.—Mayor Harry Cragin today announced a lay-off from all business for the next six months because of the necessity of rebuilding his health, and at the same time made known his resignation as general manager of the American Lumber company, of which James J. McGraw is the head. Cragin leaves at once for a Michigan sanitarium to start his healing back and during his absence City Commissioner L. K. Monk will be acting mayor.

### Billings Goes to Missouri.

Special to The World.

ENID, July 18.—Walton Billings, who was ordered to leave Enid, and stand not on the order of his going, by a number of masked men last week, after they had punished him severely for alleged cruelty to his family, left for Excelsior Springs, Mo., turning his business over to his mother.

Even With Your Own Cow—

—you could not obtain so pure and safe a milk supply, could not possibly hope for the economy and convenience afforded simply by placing an order with your grocer for the Pure White Dairy Co.'s.
