CABINET MEMBER MAY OPEN MEET

Press Congress of the World Receives Notice of Harding

HONOLULU, Hawaii, July 23.—President Warren G. Harding, himself a newspaper man, may send a member of his cabinet to Honolulu next October to deliver the opening address at the sessions of the Press Congress of the World.

Information to this effect has been received by Governor Wallace R. Farrington, chairman of the Hawaii executive committee of the congress, from Mr. Walter Williams, president of the congress and dean of the school of journalism of the University of Missouri. Although Mr. Williams advices are as yet unofficial, it is planned to have a committee of representative journalists call at the white house soon and present the request to the president.

The state department has already sent to all countries with which the United States maintains diplomatic relations an official invitation to be represented at the press congress.

Doctor Williams, in a telegram to Governor Farrington advised that according to the present outlook the congress will be attended by between 400 and 500 representative journalists, and that many of them will bring their wives or other members of their families. The majority of the American delegation will probably be from the Mississippi valley states.

A special train from Chicago, and possibly from New York, to the Pacific coast, for the accommodation of the delegates, is now practically assured and a number of excursions on route are being arranged. The all-year tourist rate for the delegates has been decided upon by the transcontinental railroads, although this may be modified. Negotiations for chartering a special steamer to bring the delegates to Hawaii are progressing favorably, Doctor Williams says. He adds that intense interest in the congress is being shown both in the United States and in foreign countries, and that an excellent business program is in course of preparation, he adds.

The British Empire Press Union will send as its delegates Col. Edward Frederick Lawson, assistant managing director of the London Telegraph, and nephew and heir of Viscount Burnham, proprietor of the Telegraph.

At Honolulu plans for the entertainment of the delegates are going ahead rapidly, and people of all nationalities are co-operating to make the program one of the finest ever arranged in the islands.

Impose on Families of "Yanks" Who Died

NEW YORK, July 23.—The most heartless form of profiteering that yet has come to light, in which the families of dead American soldiers were the victims, has just been unearthed and the American military authorities are taking steps to end it.

It was announced at Governor's Island today that undertakers will no longer be allowed to employ soldiers of the Twenty-Second infantry to serve in firing squads at military funerals. This action followed the disclosure that the undertakers were impressing upon the families of the dead American soldiers that firing squads must be a part of the burial ceremony. Severe prices were then charged and a portion of it was turned over to the soldiers of the firing squad. In the future the American Legion will furnish soldiers for firing squads at the funerals of war veterans.

Posses Search for Man Who Is Lost in Desert

PHOENIX, Ariz., July 23.—Sheriff's posses on horseback started this morning on a search of the desert for J. J. Knight of Dallas, Texas, whose automobile was found stuck in the sand of the dry bed of the Hassayampa river, 60 miles northwest of Phoenix Sunday. A search of the vicinity where the car was found, resulted in the finding of charred fragments of papers which had belonged to Knight. No trace of Knight has been found, however, since he left Buckeye, 30 miles west of here Friday night. Knight was travelling alone, according to information at the sheriff's office here.

Grain Marketing Is Becoming More Acute

By Associated Press State Wire.

OKLAHOMA CITY, July 23.—The Oklahoma grain marketing situation, already serious because of lack of railroad cars, became more acute today when the state corporation commission was informed of a wheat embargo at Galveston affecting the Missouri, Kansas & Texas, the International and Great Northern and the southern Pacific railroads.

According to the notice all wheat received on these lines will be subject to delay. All elevators loading grain on the carriers affected for shipment to Galveston are informed that bills of lading will not be issued today or hereafter until further notice.

Members of the corporation commission attribute the embargo to a shortage of ships at the gulf port.

Police Surround House Expecting Gun Battle

CHICAGO, July 23.—A gun battle between police and "Terry" Drugan, alias "The Rat," and Frank Lake, wanted for the murder of "Big Steve" Wiesewsky, was expected here this afternoon when shotgun squads were rushed to surround a house where the alleged slayers were said to have been cornered.

Enough evidence to send Drugan and Lake to the gallows has been obtained, according to the police.

The murder of "Big Steve" was the result of a "moonshiers fued" between members of the notorious "Valley gang," police believe.

With more than 174,240,000 acres of national forests in its care the United States government is replanting denuded areas at a rate of 7,000 acres a year, one nursery having a capacity of 3,000,000 trees annually.

Stalled in Air He Descends to A Small Island

SAN FRANCISCO, July 23.—His motor stalled 15,000 feet in the air, Raymond G. Fisher, forest service pilot, landed his plane on a tiny islet in Crater Lake, Ore., sent a wireless message for repairs and finally sailed away between precipices 1,000 feet high.

Fisher saw only the island as an available landing spot Thursday when his engine failed. The lake, set in the basin of an old crater and supposed to be the deepest lake on the continent, could be approached only through the rock walls, a quarter of a mile high. Fisher made it, set up his wireless and asked for a set of spark plugs.

Another plane arriving overhead was signaled away because there was no room on the islet for two moving planes. The relief plane attaching the spark plugs to parachutes and swooping down close, dropped enough on the island that Fisher could find four that night by torchlight.

Shortly after making repairs Fisher had winged his way out of the lake and was safely on route to Medford, Ore., his base.

Report Big Fire in Beaumont Oil Field

BEAUMONT, Texas, July 23.—More than $1,000,000 in oil is reported to have already been lost in a fire, and four huge tanks are still burning at Lucas, seven miles from Beaumont. The fire originated Friday night when lightning struck one of the huge wooden tanks containing 300,000 barrels of crude oil and when the tank boiled over, burning fuel spread to other tanks.

Find Rate Reduction for Sugar Unjustified

WASHINGTON, July 23.—The interstate commerce commission today found not justified proposed reductions in the carload minimum weight of sugar from points in Colorado, Idaho, Kansas, Nebraska and Utah to points in Arkansas, Iowa, Kansas, Louisiana, Missouri, New Mexico and Oklahoma. The railroads had proposed to reduce from 60,000 to 32,000 pounds the carload minimum weight from producing points in American beet sugar territory. The commission today ordered cancellation of the proposed changes and dismissed the proceeding brought by the carriers. Principal sugar refining interests of the west protested against the change in weight limits.

Quantities of Good Old Stuff Landed Monthly

ATLANTIC CITY, N. J., July 23.—Twelve thousand cases of Irish and Scotch whisky are being landed monthly on the Jersey coast in the vicinity of this resort according to information obtained today from government authorities. Four speedy auxiliary schooners, equipped with 50-horsepower engines, enable the smuggler to outrun the average government craft which might try to pursue them.

The entire enterprise, according to the smugglers themselves, is directed by a syndicate of wealthy New Yorkers, Philadelphians and residents of Atlantic City.

The liquor is purchased in the Bahamas at $16 a case and sold offshore here at $24 to a syndicate of bootleggers. The crew of the vessels receive $2 for every case delivered. Eighteen thousand dollars is the average profit for the owners of the ship on one cruise.

A substance resembling brown coal discovered in Guatamala has been found to be ochre that produces a good quality of paint.

LEGAL

(Published in The Tulsa Daily World, July 23, 24, and 25, 1921. World Publishing Company, publishers.)

NOTICE TO BIDDERS.

The Board of Education of the City of Tulsa and State of Oklahoma, will receive sealed bids at their office in the Central High School Building of said city, up until 12 o'clock Tuesday, July 26th, 1921, for the erection and completion of the several school buildings, as follows:

One two-room frame building at Kendall.
One two-room brick building at Berryhill.
One one-room frame building at Whittier.
One one-room frame building at Emerson.
One one-room frame building at Springdale.
One one-room frame building at Lowell.

All to be in accordance with the plans and specifications which can be obtained at the office of GEORGE WINKLER, ARCHITECT, 414-15 Petroleum Building, Tulsa, Oklahoma. Each bid must be accompanied with a certified check in the amount of at least 5 per cent of the bid.

Said board reserves the right to reject any and all bids.

Signed: DR. N. W. MAYGINNESS, President
(Signed) GEORGE MacCURDY, Secretary.

Policemen in Tears as Rioting Mob Is Scattered to Winds

NEW YORK, July 23.—Tear gas bombs broke up a "riot" at Fort Trotten yesterday, staged by two companies of the New York police department's "riot battalion" in a demonstration to prove the ease with which a mob may be dispersed without revolvers or night sticks. After 18 bombs had been thrown the policemen, with tears rolling down their cheeks and gasping for breath, beat a hasty retreat.

The "feat" was witnessed by army and police officials, who agreed this proposed method of quelling disorder would be a success. A similar feat was made recently in Philadelphia.

CARD OF THANKS 1

(CORRECTED)
DEORDE EICHING HART
And a brief space Mr. George Sterling Hart, died at the home 801 North Main street on July 19, 1921. Mr. Hart was born in Fort Worth, Texas 54 years ago. Some time he has been associated in partnership with the firm of Hart-Hart Co., realtors. All of Mr. Hart's early life was spent in Texas. He was born in Tarrant county, now in January 24, 1867. After finishing his college course, Mr. Hart taught school for a number of years. Later he engaged in the hardware business and followed this line of work until he came to Tulsa in 1916. Mr. Hart married Miss Ione Hunter, September 12, 1887 and this happy companionship was interrupted in the death of Mrs. Hart only three years ago. Mr. Hart was a man with an unusual amount of home life and those who knew him best perhaps, were those who witnessed this devotion day after day. He was a quiet man of dignity, very generous and very kind of heart. His charities were very numerous but always unannounced. He was especially attentive to every call for child welfare work. At the time of his death, Mr. Hart was a member of the First Christian church of Tulsa. His life active almost to the last hour, came to a close as peacefully as the summer day ends. Rev. Meade Dull, pastor of the Christian church held services at the home and interment was made in Rose Hill cemetery July 12, 1921.

I WISH to thank the neighbors and friends for their kindness during the illness and death of Mr. G. E. Hart.
MRS. MATTIE PORTER.
