POOLS ENCOUNTER STIFF OPPOSITION

Profit Taking and Bearish Sentiment Cause Stock Reversals

NEW YORK, Jan. 26.—Pools encountered opposition today in their further efforts to advance prices of speculative issues. Profit-taking and bearish pressure combined to effect reversals of 2 to 5 points, the reaction incidentally uncovered many "stop loss" orders.

Leaders of the industrial and special groups, such as Davison Chemical, Gulf States Steel and the various motor, oil, equipment, sugar and miscellaneous issues, fluctuated widely and closed for the most part at losses of 1 to 4 points, while rails were full and mainly lower.

Much of the heavy selling in the final hour followed the announcement that the Consolidated Gas company has postponed dividend action pending the outcome of litigation now before the United States supreme court. The stock closed at a loss of 3 3-4 points. Total sales amounted to 835,000 shares.

Call loans were firmer, opening at 4-12 per cent, rising gradually to 6 per cent in the last hour and closing at 5 1-2. Money on time, especially for commercial purposes, was in fair supply.

Uncertainties in the European situation gave another setback to German marks. The British rate was firm but most allied and other continental bills receded moderately.

The noteworthy feature of the enlarged dealings in government bonds was the rise of Victory 4 3-4's to the new high record of 100.30. Liberty issues were firm to strong. In the French group, recent losses among municipals were recorded. Total sales, par value, aggregated $17,275,000.

PRICE OF WHEAT AVERAGES LOWER

Enlarged Movement of Argentina's Crop Big Factor

CHICAGO, Jan. 26.—Enlarged movement of the new wheat crop in Argentina had a tendency to make the price of wheat average a little lower today. Closing quotations were unsettled, at 1-4c net decline to 1-8c advance, with May $1.14 to $1.15 and July $1.02 to $1.02 1-8. Corn finished 1-8 to 1-4@3-8c defn and oats off 1-8@1-4 to 1-4c. Provisions were unchanged to 25c lower.

The wheat market here gave evidence from the outset that buyers were at a disadvantage. Lack of demand was very noticeable at times, so much so that a reduction of $6,000,000 bushels in estimates of the Canadian wheat crop failed entirely to have any apparent effect on the market. Word that 50,000 barrels of flour had been sold for export from the United States led afterward, however, to something of a rally. Upturns in price were not well maintained as the session drew to an end.

Values of corn and oats worked downward a little in line with wheat.

Free selling of lard by carriers and packers gave a downward slant to the provision market, despite an advance in the price of hogs.

Cotton Seed Oil.

NEW YORK, Jan. 26.—Cotton seed oil was lower under scattered liquidation on the bearish action of lard and cotton. No pressure developed, however, as crude markets were stubbornly firm. Closing bids were two to nine points net lower. Sales, 15,200 barrels. Prime crude, 7.35c to 7.50c; prime summer yellow spot 8.75c to 9.25c. March 8.93c; May, 9.15; July, 9.41c bid.

Hogs—Receipts 700; fairly active at 10@15c higher, packer top $8.35, bulk $8.20@8.35.
