CLUBS MUSIC WOMENS WORK

A Thought

There is a little thought of spring-time in the air—
I heard a robin sing its tuneful note
A violet sprang up in the wood its sweet eye
And whispered "Spring-time dear, wake up you we."
And springtime answered with her peculiar breath,
"My time you know, is measured by month's date"
Is it not more pleasant to anticipate early Spring
Than wishing and go forgotten, on rainy day"
I stood and help but think when they fall gone
Each on his home, to wait Love's ardent call
That I too had rather have Life's springtime now,
Than meet Life's springtime In Life's waning Fall.

AD SOLICITOR SCARED AWAY

Name of Local Printer Used to Get Money of Victims.

Special to The World.

HENRYETTA, March 15.—As a result of a recently passed city ordinance all transient advertising solicitors will be required to take out a permit and to give bond for the faithful performance of their contracts before attempting to do business. This ordinance is the result of the many fraudulent advertising schemes being worked over the state.

Only within the week a smooth talker, after obtaining prices from a local printer on a farm directory, used this printer's name in soliciting business and succeeded in collecting about $20, when one of his intended victims demanded the indorsement of the Retail Merchants' association and the fellow took flight.

Heifetz Plays Tonight.

In looking over press comments regarding the violinist work being done now by the Russian violinist, Jascha Heifetz, who will appear here again tonight, the following excerpts taken are, of interest: "Such perfect communion between a musical instrument and a human being I have never heard," remarks a critic in the Toronto Saturday Night, reviewing a violin recital by the Mr. Heifetz. "Heifetz is already acclaimed by the minds of those who heard him. So many critics have expressed the same thought, that there can be hardly be a question of it. It is Heifetz's supreme art. He was beyond violin playing," says the Chicago Journal, and crossed the line of the impossible. We of the twentieth century have witnessed a miracle, for nothing like Heifetz playing has been heard in Anybody's recollection."

HE KILLED WHEN CORNERED

Tried to Evade Aggressors but Was Forced to Defend Himself.

TAHLEQUAH, March 14.—Ed Carter, perpetrator of the latest Cherokee county killing, will have his preliminary hearing within a short time. Carter lives near Caney creek in the Washington neighborhood and shot and fatally wounded John Burgess early Saturday morning.

Carter, it is said, had been harassed and nagged by Burgess and his son for a long while, and encountered the Burgesses on the morning of the shooting some little distance from his home. The two men are said to have menaced Carter with axes and finally he found himself caught in a V-shaped place where a wire fence cornered. Carter was not able to get through or over the wire and when the two men, one with a double-bitted axe and the other with a pole axe, bore down upon him, he drew his revolver and began firing. John Burgess was struck by a bullet and fell and the other thereupon desisted.

Carter telephoned to the sheriff at Tahlequah that he was coming in to surrender and the officer met him at Welling. Soon after their arrival in town a message announced that Burgess had died of his wound. The trouble arose over a "line fence" some time ago.

DYE STOCKINGS OR SWEATER IN "DIAMOND DYES"

"Diamond Dyes" add years of wear to worn, faded, skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—Advertisement.

Why Stay Fat? You Can Reduce

The answer of most fat people is that it is too hard, too troublesome and too dangerous to force the weight down. Marmola Prescription Tablets overcome all these difficulties. They are absolutely harmless, entail no dieting or exercise, and have the added advantage of cheapness. A case is sold at one dollar by all druggists the world over, or send the price direct to the Marmola Co., 4613 Woodward Ave., Detroit, Mich. Now that you know this you have no excuse for being fat, for you can reduce steadily and easily without going through long siege of tiresome exercise and starvation diet or fear of bad effects.—Advertisement.

FARMERS SMILE AT RAIN

Everything Favorable Now for Spring Plowing and Planting.

Special to The World.

BLACKWELL, March 15.—Kay county and the whole of northern Oklahoma witnessed the heaviest rain of the season Monday. It began raining about 9 o'clock and continued all day and into the night. It is estimated that more than one inch of rain has fallen over the county, which will put an excellent season for spring plowing and planting.

There will be an extra large crop of corn and other feed crops planted this year, which, together with the fruit crop that is now almost assured, will cause the farmers to have a full barn and cellar for another year.

On a recently patented key chain a number of small rings of different colors to aid in the selection of most frequently used keys.

TO REOPEN WHITE EAGLE

Poncas Petition Burke to Re-Establish Their Tribal School.

Special to The World.

PONCA CITY, March 15.—The tribal council of the Ponca Indians has designated a committee, composed of Secretary Louis McDonald, Mike Roy and George Primeaux to request the local chamber of commerce to draw a petition to Charles Burke, commissioner of Indian affairs, asking for the re-establishment of their tribal school at White-eagle, five miles south of Ponca City.

The school was closed about three years ago upon the order of Cato Sells, then Indian commissioner, whose idea was to force the Indian children into the white rural schools. This has not proven a success and now the Poncas want their Whiteagle school restored. They declare it is necessary in order that their children may be trained in the lower grades for entrance to Chilocco and other higher grade Indian schools or colleges.

After it has been under water for 17 years a pump in a Montana silver mine was cleaned and put in service again as though it had stopped for only a few hours.
