WORLD MARKET PAGE

STOCKS, STEADY, FINISH STRONG

Liquidation for Profits Caused Uncertainty Early in Day

NEW YORK, April 5.—Stocks were little more than steady at the outset of today's session, firm but dull during the intermediate period and active and strong in the final hour, under the impetus of a broad inquiry from Standard rails and equipments, which covered urgently.

Private buying for points was engaged in the mercantile line of the exchange, although several of the important specialties also registered new movements of the year, notably [illegible]

Coal rose 2 3, the initial demand [illegible] New York Gas & Electric Light Valley, Reading and Chesapeake & Ohio scoring advances of a point or more. The rise in these issues was noteworthy from the fact that early losses touched 6 points, leading authorities of operations in steel claims because of the coal strike.

Oils were dominant features of the late trading, especially secondary issues, but motors, sugars, copperas, rubbers and shippings continued to reflect a large professional drawing.

Equipments came forward with the rails and steels were carried upward by the movement, especially United States and Crucible. These with American and Baldwin Locomotives, Cast Iron Pipe, Westinghouse, General Electric, Studebaker, Chandler, Utah Copper and American Smelting constituted the chief issues of strength, closing at gains of 1 to almost 3 points. Sales amounted to 1,150,000 shares.

Money conditions eased, all the day's call loans being made at 4 1-2 per cent, with fresh offerings of 30 to 90 day funds. Brokers reported fewer long time loans, however, for which the recent 4 3-4 per cent rate prevailed.

Although another cut in the British bank rate was predicted, sterling exchange reacted from yesterday's rally and all the allied remittances were lower. German marks were firmer and the Dutch rate strengthened, but Spanish bills showed distinct weakness.

Liberty issues again were the foremost features of the bond market today. The 3 1-2s at 99.28 and the second 4 1-4s at 99.08 established new high records, others of that series closing at gains.

In general trading in government offerings as well as rails and industrials slowed down. Exceptions were made by Seaboard Air Line, St. Louis & San Francisco, Southern Pacific and Minneapolis & St. Louis issues, these showing marked strength.

The reactionary course of Mexicans contributed largely to the uncertain tone of the foreign group, although United Kingdoms, French municipal and Swiss and Japanese governments were firm to strong. Mexicans recovered later and Brazil 8s rose 1 1-2. Sugar and copper bonds reflected the better prices for stocks of those descriptions. Total sales, par value, $19,631,000.

Standard Oil.

Cotton

NEW ORLEANS, April 5.—A much better opinion of the crop situation caused a gradual sag in the price of cotton today, following an upturn of 4 to 7 points around the opening. Statistics which showed increased sales of fertilizers and private telegrams to brokerage houses here stating that young cotton was being chopped in some portions of southern Georgia, carried the market to its lowest, where it stood at net declines of 17 to 19 points. The close was at practically this lowest. May traded as low as 16.31 cents and October as low as 16.61 cents.

Early advances were due to better rains than expected, but the market soon reacted because the weather map indicated less rain over the cotton belt while the forecast called for dry weather in all states of the western belt. Following the weekly crop review by the government, selling increased in a very moderate way.

Figures on fertilizers by Hester placed total sales during March in eight cotton states at 819,446 tons against 715,953 during the same month last year, bringing the grand total for eight months of the season up to 1,561,242 tons against 1,372,321 during the same period last year.

WHEAT DECLINES ON CHICAGO MART

Shipments From Omaha Do Great Deal to Bring Prices Lower

CHICAGO, April 5.—Prospective liberal shipments of wheat to Chicago from Omaha and other primary markets did a good deal today to bring about a material decline in wheat prices here. The close was unsettled, 1-4 to 2 3-4c lower with May $1.29 7-8 to $1.30 and July $1.18 1-8 to 1-4. Corn finished 1-8 to 1-2 ¢ 5-8c down, oats unchanged to 1-8 ¢ 1-4c off and provisions at 15c to $1 advance.

With reports current that 79 carloads of wheat were coming to Chicago from Omaha and with additional shipments in view from Kansas City and elsewhere, it was generally assumed by the wheat traders that deliver on May contracts in Chicago would be much larger than had heretofore seemed probable. Throughout the session, the effect was to increase selling pressure on May and eventually to weaken July and September, although at first the late months showed gains on account of some uncertainty over crop conditions in parts of the winter wheat territory.

Slowness of export demand for wheat was a subject of much comment.

Despite wet weather, corn and oats averaged lower in price with wheat.

Higher quotations on hogs gave an upturn to the provision market.

Kansas City Cash Grain.

KANSAS CITY, April 5.—Wheat—Cash, No. 2 hard $1.12@1.45, No. 2 red $1.20@1.27.

Corn—No. 2 white 42@42½c, No. 2 yellow 42½@43½c, No. 2 yellow 43c.
