Movement of Few Leaders Relieve Monotony of Market

NEW YORK, July 15.—The monotony of today's short and perfunctory session of the stock market was relieved by the divergent movements of a few leaders in the equipment and oil divisions.

Extreme advances of one to five points were made by Baldwin, American and Lima Locomotives, Pressed Steel Car, Railway Steel Springs, Gillette, New York Airbrake and a few affiliated issues, while domestic oils and several of the Mexican group were under constant selling pressure.

Weakness of oils followed advices from Mid-Continent and Pacific coast points announcing decreases in crude products on account of overproduction. The oils seemed especially vulnerable.

Trading in rails was nominal and without material changes, save in several of the junior issues. American Woolen, International Paper, Corn Products, Beechnut Packing, Sears Roebuck and American smelting contributed variously to the market's constructive side, but final prices were mixed. Sales amounted to 300,000 shares.

Foreign exchanges were better, in most instances rising to the week's highest levels. Demand sterling got above $4.44, allied rates gained 4 to 10 points and the German mark also rallied, though not to its recent best.

Today's short bond market session was devoid of especial features, dealings being at low ebb, with a steady to firm undertone.

Liberties held much of yesterday's general advance and changes among rails, industrials and utilities were narrow, though mainly towards higher levels. The only issue in the domestic and foreign groups to show marked strength was U. S. Steel 5s which rose over a point. A reaction of 1 point in Consolidated Gas 7s, probably represented profit taking sales. Total sales, par value, aggregated $9,631,000.

Cotton

NEW ORLEANS, July 15.—Both sides owned up in the cotton market today and no decided trend developed, the trading months winding up points over or 3 under, compared with the last quotations of yesterday. October closed at 21.92 cents after trading as high as 22.06 cents and as low as 21.81 cents.

After recessions of 8 to 10 points among the opening, under liquidation of long contracts, shorts commenced to cover and they furnished enough demand to put the market 10 to 12 points above the last prices of yesterday. More liquidation from longs followed and prices fell off to net declines of 10 to 14 points. A steadier feeling prevailed later in the day.

Some of the liquidation on the long side was caused by an unfavorable view of labor conditions in this country and much of the short covering was due to apprehension of showery weather in some sections of the belt would result in increased complaints of boll weevil ravages.

SHORT COVERING RALLIES WHEAT

Market Displays Firm Undertone for Greater Part of Session

CHICAGO, July 15.—Short covering toward the finish caused a little rally in wheat today. In fact, the market displayed a firm undertone for the greater part of the short session. At the finish wheat wasember $1.14 7-8 to 1-4, and December $1.16 1-8 to 1-4, corn unchanged unchanged to 1-2c higher, with Sep- to 1-8c lower, oats 1-8 to 1-2c up and provisions 7 1-2 to 22 1-2c off.

Apprehension of a rapid development of black rust in the spring wheat territory as the result of higher temperatures and laying by commission houses were largely responsible for a higher average for wheat. Strength of the market at Liverpool also was reflected here, while the government report that chinch bugs in Missouri are causing more damage to wheat at this time than at any time within 25 years was another strengthening factor. Hedging pressure increased and with the resumption of threshing in the southwest the trade is anticipating a material enlargement in the movement the latter part of the month.

Corn and oats held within narrow limits with corn showing a firm undertone chiefly because of scattered buying by cash houses, presumably against further sales to the seaboard for export. Oats were dull and the trade chiefly of a local character.

Provisions were dull and somewhat easier under scattered selling, which more than offset the strength in hogs and the firmness in exchange.

Metal Market

NEW YORK, July 15.—The steel market is in a very firm position with prices well maintained and in some cases slightly higher. The demand continues active but both buyers and sellers are nervous over the question of delivery in connection with the coal and rail strikes. Pig iron is quieter for forward shipment as buyers anticipate lower prices when labor conditions are settled. In copper, the improved tone recently noted has been maintained, but domestic demand has not improved although export business has been more active. This has led to an advance in the prices quoted by the copper export association to about 14.25 cents for electrolytic, c. i. f. Hamburg. As there is little resale metal offering, producers are holding well up to the 14-cent basis at New York. Prices for finished copper and brass products have reflected the firmer ruling of unwrought metal and advances of about 1-8 to 1-2 cents have been reported.

Tin is easier, due to a slow demand and the large June deliveries and consumers, because of coal and rail strikes, are not inclined to book for ahead. Lead is also easy on account of liberal offerings of outside lots.

Zinc strong and holds higher, as it is estimated that stocks are only sufficient for about twenty requirements.

Antimony quiet but steady.

REV. MURRAY CHOSEN

Kendall Alumni Requests Synod of Oklahoma to Appoint Him One of Tulsa University Trustees.

Rev. Thomas Murray of Bristow will become the first official representative of the alumni of Henry Kendall college upon the board of trustees of the institution if the synod of Oklahoma, governing body of the Presbyterian church in the state, accepts at its fall convention a request from the alumni body that a graduate of the school be added to the board each year for a period of four years, beginning in 1922, and that the first trustee so named be Reverend Murray. No prophecy as to the synod's attitude can yet be hazarded, as not all the synod's

Rev. Thomas Murray.

members know of the alumni' request.

Reverend Murray received his bachelor of arts degree from the university in 1916 and then took post graduate work in the Princeton university Theological seminary, where he made a fine record, his scholarship being of a high order. He preached in the east and then was called to the Presbyterian church at Bristow. His church furnished more money to the current expenses fund of the university last year than any other in the state except the First Presbyterian church of Tulsa.

Mrs. Murray is also a university of Tulsa graduate, having received her degree in 1915 as Miss Lelia Robertson of Hulbert. Her family furnished Kendall college four graduates, Wattie, Ab, Duce Robertson and herself. The youngest boy, Conrad, is a graduate of the academy and will be a junior at the university next year.

NOTICE TO BIDDERS

Sealed bids will be received by the undersigned until 12 o'clock noon of the 4th day of August, 1922, for the erection of the first story of west extension to Indian Consistory, McAlester, Okla.

Plans may be seen at the office of the undersigned and at the office of Thompson & Harding, architects, 304 Southern Trust Building, Little Rock, Arkansas, and may be obtained on application.

Separate bids will be received on plumbing, heating and electric wiring.

All bids shall be on forms furnished by the architects, shall be addressed to W. J. Kindrick, secretary, McAlester, Okla., and shall be accompanied with certified check in the sum of five hundred dollars ($500.00) drawn on a solvent banking institution within the state of Oklahoma and conditioned that the bidder will if contract be awarded him within fifteen days thereafter, furnish approved bond as required by the specifications and enter into contract for said work as per the terms of the specifications.

Failure to do so will operate to forfeit the check to the owner.

Done by order of the Building Committee.

W. J. KINDRICK, Secretary.
