BUYING OF RAILS FEATURES STOCKS

Strength of Issues Ascribed to Settlement of Strike

NEW YORK, Sept. 14.—Etensive investment buying of high-grade rail shares, many of which showed gains of 1 to 2 points, was the outstanding development in today's stock market session.

Despite Wall street's professed indifference to labor disturbances, the strength of these issues was generally ascribed to the reaching of a partial settlement between striking shopmen and individual railroads.

Opening prices were generally firm, but a reaction set in, especially in the industrial group, following a sharp break in United States rubber first preferred, which dropped nearly 11 points before buying set in. The subsequent rapid recovery, which wiped out two-thirds of the loss indicated that the decline was of professional origin. Liquidation of 1,000 shares by small insurance companies accelerated the reaction, which unsettled the entire list.

Buying at Atchison by outside interests turned the course of the market upward again, this stock touching $1.68½, a new high price for the year.

New highs for the year also were made by Pennsylvania at 48, New Orleans, Texas and Mexico at 77 and Rock Island at 50. Union Pacific, Southern Pacific, Canadian Pacific and New York Central also made marked progress.

United States Steel common gained nearly a point on announcement of an increase of $3 a ton in the price of rails and some of the independent steels, notably Bethlehem B and Republic, did even better.

Some excellent gains were again recorded by domestic oils lately associated with merger rumors, despite the announcement of the Standard Oil company of New Jersey that it was not negotiating for any of the companies mentioned in that connection. Cosden climbed 2½ points; Houston 1 3-8 and Texas Gulf Sulphur 1 7-8. Mexican Petroleum seesawed during most of the session, closing at a slight fractional gain.

Columbia Gas & Electric, with a gain of 5 points to a new high, led the advance in public utilities, other strong spots in which were North America, American Waterworks 6 per cent preferred, People's Gas and Pacific Gas & Electric, the advance ranging from 1 to nearly 4 points. American Car broke 3 points, but the other equipments held firm at recent high levels.

Total sales were approximately 1,100,000 shares.

Withdrawal of $46,500,000 for government account from local banks caused a moderate flurry in money rates. Call loans opened at 4, rose to 4½ at midday and to 5 in the latter part of the session, where they held till closing. Time funds were unchanged from recent quotations and mercantile paper was bought by local and interior banks at prevailing rates.

A firmer tone prevailed in foreign exchange rates, offerings of grain and cotton bills against export shipments being materially reduced. Both sterling and francs opened weak, but recovered substantially later. Weakness also was apparent in some of the South American issues.

New York Stocks, as Reported by Houston Fible & Co., First National Bank Building.

Cotton

NEW ORLEANS, Sept. 14.—It was more or less of a trading market in cotton today, swings carrying the price both above and below the level of yesterday's close, but the net changes on the close were insignificant, the trading position showing advances of 3 to 6 points. October closed at 21.05c. Considerable hedge selling was felt but this was offset, especially in the second half of the session, by fear of the weather disturbance reported in the gulf near the Mexican coast. This was the main reason why the market closed at small net gains.

Prices were at the advance on the opening and the initial advance carried the market to its highest levels, 26 to 32 points above yesterday's final prices. Enough selling was made, however, to wipe out the gains and put the market to small net losses. Much liquidation came from longs and around the middle of the morning the market was at its lowest, showing declines under yesterday's close of 12 to 17 points. October fell to 20.83c as compared with 21.31c at the highest levels in the early trading.

The census bureau report, placing consumption of American mills during August at 527,404 bales was considered highly favorable but it caused little buying. A private bureau report condition was also considered bullish, but its effect was slight, mainly because of persistent hedge selling. This report placed the percentage of condition for the mid-month at 53.2 per cent indicating a yield of but 9,900,000 bales.

RAIL PEACE PACT DECLINES WHEAT

Traders Assume Resumption of Work Will Move More Grain

CHICAGO, Sept. 14.—In response to the strike settlement affecting many railroads, wheat today went to the lowest prices yet this season, with December delivery down below $1 a bushel for the first time in 1922. Closing quotations were unsettled at ⅝c to 1¼c net decline, December 99⅝c to 99⅞c and May $1.04⅝ to $1.04¾. Corn lost ⅝@⅞c to ⅞c, oats finished a shade off to ⅛c up and provisions varying from 7 cents decline to 5 cents advance.

As a rule, wheat traders assumed that resumption of work in railroad shops would bring about a material increase of the movement of grain, although it might be some weeks before the results looked for were wholly achieved. A sharp break in foreign exchange rates together with a downturn in prices for wheat at Liverpool had a bearish influence here. It was also pointed out that whereas primary receipts to date are 40,000,000 bushels smaller than was the case a year ago, the visible supply is only 11,000 bushels smaller, and that the world's available supply shows an increase of 5,847,000 bushels.

Under $1 for December, commission house support for the wheat market was better than bear speculators had expected. Besides, export demand was fair, with sales of about 500,000 bushels at the seaboard and 600,000 bushels taken here.

Corn and oats averaged lower with wheat. September oats, however, went to 12 cents premium over December as a result of spreading operations.

Provisions like grains were inclined to sag.

(Published in the Tulsa Daily World, September 11, 12, 13, 14 and 15, 1922. World Publishing Co., publisher.)

NOTICE TO CONTRACTORS
SPAVINAW WATER PROJECT.

Sealed proposals for the construction of the major portion of the Spavinaw Water Supply Project for the City of Tulsa, Oklahoma, will be received by the Water Commission of the City of Tulsa, and may be filed at the office of the City Auditor, City Hall, Tulsa, Oklahoma, until 3 p. m. Monday, September 25th, 1922, and will be opened and publicly read immediately thereafter at a regular meeting of the Water Commission of the City of Tulsa, at 3 p. m. Monday, September 25, 1922. Proposals will be received on the following contracts:

Contract No. 1 Telephone Line.
Contract No. 2 Clearing Site of Spavinaw Lake.
Contract No. 3, Spavinaw Dam.
Contract No. 4 48 in. Reinforced Concrete Pipe.
Contract No. 5 Tunnel and Approaches.
Contract No. 6 84 in. Reinforced Concrete Pipe.
Contract No. 7 Mohawk Reservoir.
Contract No. 8 Furnishing Cast Iron or Steel Pipe and Specials.
Contract No. 9 Furnishing Gate Valves.
Contract No. 10 Laying Cast Iron or Steel Pipe.
Contract No. 11 High Pressure Reservoir.

After the reading of the bids on these contracts they will be immediately considered, but in no event will any award of contracts be awarded earlier than forty-eight (48) hours thereafter.

The principal quantities are approximately as follows:

DAM: Concrete, 79,000 cubic yards. Earth embankment 182,000 cubic yards.

PIPE: 24 miles of 60 in. and 25 miles of 84 in. pre-cast reinforced concrete pipe.

Earth Excavation in trench, 210,000 cubic yards.

Rock Excavation in trench, 26,000 cubic yards.

TUNNEL: 7,050 ft. 84 in. tunnel. 3,950 ft. 84 in. monolithic concrete conduit.

MOHAWK RESERVOIR: 350,000 cubic yards earth embankment.

REINFORCED CONCRETE HIGH PRESSURE RESERVOIR: 10,000,000 gal. capacity. 1,000 ft. 24 in. Cast Iron or Steel Pipe; 6,000 ft. 20 in. Cast Iron or Steel Pipe; 8,000 ft. 20 in. Cast Iron Pipe, Specials and Valves.

Each proposal must be accompanied by a certified check on any reputable bank or trust company, payable without recourse to the City of Tulsa, Oklahoma, for five per cent (5%) of the amount of the bid.

All proposals must be made on blank forms furnished by the City of Tulsa and in accordance with the "Requirements for Bidding and Instructions to Bidders."

Proposals may be tendered on one or more contracts or on all of the contracts, but any proposal must include all items under the contract or contracts for which bid is tendered.

Plans, Specifications and Requirements for Bidding and Instruction to Bidders are on file at the Office of the Water Commission at the City Hall and may be seen at the office of Trammell and Holway, Engineers on the Spavinaw Water Supply Project, 229 Kennedy Building, Tulsa, Oklahoma, or at the office of Dabney H. Maury, Consulting Engineer for the said Project, 1445 Monadnock Block, Chicago, Illinois. Complete proposal and specifications will be furnished by the Engineers, upon the deposit of $50 by check payable to Trammell and Holway. Upon return of the plans and specifications in good condition within a reasonable time after the awarding of the contracts, $30 will be refunded. Proportionate deposit and refund may be arranged for if bidder desires only parts of the plans.

The Water Commission reserves the right to reject any bid or bids, or all bids, and to waive any informalities.

WATER COMMISSIONERS OF THE CITY OF TULSA.
A. J. RUDD Chairman.
G. B. M'CULLOUGH.
C. S. AVERY.
H. L. STEVENS.
A. L. FARMER.

LEGAL

NOTICE TO CONTRACTORS

The Board of Education of the City of Tulsa, and State of Oklahoma will receive sealed bids at their office in the Central High School building, in the City of Tulsa, Okla., up until 12 o'clock noon, Tuesday, September 26, 1922, for the furnishing of all materials and the performance of all labor in the erection, installation and completion of two Jenness Unit school buildings and the finishing and completion of the Central Grade School, in the City of Tulsa, Okla. All to be located as called for by the blank form of bid as furnished by the architect.

All to be in accordance with the plans and specifications which can be obtained at the offices of Dodge Winkler, architect, 414-415 Palace building, Tulsa, Okla.

All bids must be accompanied by a certified check in the amount of at least 5% of the amount of such bid as a guarantee that the bidder will execute a contract satisfactory to the Board of Education and their attorney, and that he will furnish bonds as required by them and the laws of the State of Okla.

The Board of Education reserves the right to reject any or all bids.

W. A. MARQUIS, President.

J. J. DE SHANE, Secretary.
