EUROPEAN NEWS BY THE CABLE

The French Frontier Line Difficulty.

Reception of American Officers by the Russian Court.

ATTEMPT ON THE LIFE OF THE CZAR.

War Between Prussia and France Probable.

News From Europe

OVER THE ATLANTIC CABLE.

NEW YORK, August 17.—The morning papers have the following special dispatches via the Atlantic cable:

FRANCE.

Napoleon Receives the Prussian Ambassador.

PARIS, August 15.—The Emperor Napoleon received the Prussian Ambassador today as an audience in the Tuileries. The Minister delivered to his majesty the reply of the King of Prussia to the French note announcing an extension of the frontier of the Empire to the Rhine. The State paper declares that the demand is inadmissable and that Prussia will not accede to it. Napoleon replied that he had made the demand in order to satisfy the public opinion in France on the subject of the rectification of the frontier. He deemed it a just demand, but at the same time acknowledged the fairness of the argument used by the Prussian Cabinet in the reply of refusal. He said that the relations existing at present between France and Prussia should not be disturbed in any case and hoped Prussia would not overstep the line.

RUSSIA.

Reception of American Officers.

ST. PETERSBURG, August 15.—The officers of the United States Squadron were received by the Emperor and Court to-day, at the Imperial Palace of the Peterhof. Twenty of them dined with the Governor at the Pavlofski Palace. The royal gardens were magnificently illuminated, and the popular place, who turned out in very large numbers were admitted. The Russian bands played American national airs. The American officers visited the Emperor's Palace and all the public buildings yesterday.

Attempt on the Life of the Czar.

The investigation into the circumstances attending the late attempt on the life of the Czar Alexander has terminated. Several accomplices of the would-be regicide have made confessions which go to show that the object of the conspiracy was to effect a general revolution in the Empire. There exists, it appears, in Russia two secret societies hostile to the government, one being named the "Association of Organization," and the other "Dell." They had their headquarters in Moscow, and acted in communication with the European Revolutionary Commission. Several Poles who supplied the assassin belonged to these societies.

PRUSSIA.

The Differences Between Prussia and Germany.

BERLIN, August 15.—The danger to the duration of the peace now existing in Germany is caused not by any political differences on the part of Prussia, but by questions of a territorial nature, especially those arising from the adjustment of the federal property acquired by war.

War.

A war between Prussia and France is probable.

Safe Passage of the "Red White and Blue."

HAVRE, Aug. 15.—A small ship, named the "Red White and Blue," which left New York on the 9th of July with two men and a dog on board, passed here to-day bound to London. All were well. The names of the men on board are Capt. Wm. Hudson and his mate, Fitch. (Hastings is a small port in the English channel about 33 miles from Brighton.)

Arrived.

The steamship Kangaroo, Capt. Manning, which left New York on the 24 inst., arrived at Liverpool on the 15th.

Mexican News.

NEW YORK, August 17.—The Herald's Mexican correspondent reiterates the recent statement from that quarter of an approaching crisis, which threatens the downfall of the Maximilian Empire.

Martial law has been declared in a number of States.

It has been discovered that the late conspiracy in Vera Cruz contemplated the seizure of all military and civil offices belonging to the Empire in the city and custom house. A forced loan was to be levied on all French merchants, and the principal leaders of the conspiracy were then to make their escape. About 100 soldiers were bribed, mostly of the Egyptian Corps, and the liberal parties outside the city were duly informed of the intention, and were to cooperate; but the whole thing was discovered by means of a captured dispatch. The principals were arrested, and the bribed soldiers relieved.

Acapulco is about to be abandoned by the French.

From New York.

Cholera.

NEW YORK, August 17.—There were 11 new cases and 10 deaths from cholera reported in this city yesterday. In Brooklyn 12 cases and 4 deaths were reported. The continued pleasantness of the weather caused a decline in the number of cases. On Governor's Island one death occurred, but it was not known whether it was from cholera or not. The reports from Hart's Island were favorable.

The Late Robbery.

Some new developments came to light yesterday in regard to the late Lord bond robbery in Exchange Place. Two men named Howard and Pettlegill, who are believed to have been the main manipulators in the transaction, were arrested on the 15th inst. Ennis, who was arrested and escaped, performed the diplomatic part of the work, being assigned to the task of interesting Mr. Lord and attracting his attention while the others abstracted the bonds. A fourth party is still at large who acted as receiver of the stolen goods. Further disclosures are being made public every day.

General News.

Destructive Fire.

PITTSBURGH, August 16.—A destructive fire at East Birmingham, near Pittsburgh, this morning, originated in the rear of Schell's hotel on Carson street, above Harmony, and communicating to the adjoining house, destroyed eight buildings, including the Welsh Church. The buildings were mostly occupied as dwellings. Loss $20,000, mostly insured in different Pennsylvania companies.

A Fenian Scare.

NEW YORK, August 17.—The Herald's Ottawa dispatch says that the Fenian scare is reviving in Canada. It is known that a great Fenian pic-nic is to take place in a few weeks on Grand Island, Niagara River, at which there will be 15,000 Irishmen armed and equiped, with the intention of making a descent on Canadian territory. General Dick Taylor is the reported leader of the expedition. In view of this knowledge the Canadians are making active preparations for defense. Gun boats are being sent to the scene of expected hostilities, the volunteers are being thoroughly drilled, and a camp of 5,000 is to be established opposite Grand Island. The officials of the Government are counseling together at Ottawa, and keeping their counsels profoundly secret. Strange characters have been observed prowling about the streets of Toronto and other towns, who are known to be Fenian emissaries.

Cholera in Cincinnati.

CINCINNATI, August 17.—Sixty-Seventy deaths from cholera were reported yesterday.

Scientific Convention.

BUFFALO, August 17.—In the Scientific Convention this morning no new members were proposed and confirmed. In section A, Physical Science, Prof. Tilman completed reading the paper on chemical nomenclature. Prof. Saffood of the Chicago Observatory, gave an interesting account of Dearborn Observatory, in Chicago. Professor Barnard gave a history of the Great Glass in Dearborn Observatory.

The Races.

The fourth and last day of the regular races this afternoon will be two trots, both mile heats. A fine attendance is anticipated, though the interest somewhat subsided after the trot yesterday. To-morrow will be the trot in saddle by Dexter and Patchen. A large amount has been realized from tickets and entrance money, being more than double the expenses, including the large premiums.

Proclamation

ST. LOUIS, August 17.—Gov. Fletcher has issued a proclamation bearing upon the present and prospective condition of the State in which he says: "The combined power of the National and State government will be used to enforce obedience to the laws of the nation or State until such laws are modified or repealed in a constitutional manner or declared void by competent court; that the present Constitution is the supreme law of the State; that the registration law will be enforced and elections conducted in conformity therewith; that the annual enrollment of the militia will be made according to law and irrespective of political status or opinion, that no arrest be made except as authorized by law, but when civil process cannot be executed with the assistance of ordinary posse officers, will call for the aid of the militia. No armed or organized men will be allowed to appear at the polls or peaceful assemblages. By order of the Governor or Department Commander all citizens are urged to aid the constituted authorities in the maintenance of good order.

Convention.

PHILADELPHIA, August 17.—Seventy of the best Speakers who are to attend the Convention of loyal Southerners in this city on the 3d of September, have made appointments for addresses in various parts of the country. This will give an opportunity to hear direct from Southern Union men. A Convention of the loyalists of Western North Carolina has been called to meet in Lexington to elect delegates to this Convention.

EXTRAORDINARY.

100 DOLLARS PREMIUM!

SEMINAL WEAKNESS, OR SPERMATORRHŒA, GLEET, &C.,

—AND—

Impotency Cured,

(WHEN ALL OTHER TREATMENT FAILS.)

DR. A. GIBSON,

Formerly of New York City, will pay one hundred dollars for the proof that he will not cure the above forms of disease. He will pay the same sum for the proof that any other Physician in the United States treats more successfully or cures more frequently.

After many years of laborious study and experience Dr. Gibson is now able to announce to the unfortunate, that he has perfected a system of treatment by

SPEEDY AND PERMANENT CURE

of the above, and also all contagious diseases of the Reproductive Organs, with all bad effects arising therefrom, including Secret

DEBILITY OR NERVOUS PROSTRATION,

a disease caused by impotency, this city, more of whom have been sacrificed to the fatal effects of quackery, empirics, who profess to treat all private maladies with success, and without receiving the least benefit, or even relief, from their treatment.

Dr. Gibson does not boast that he is a member of some College in London or Paris, as perhaps about half the quacks do, but he does claim the honorable, and who hold out great inducements, come to his patients. But what he does claim is that he is the only physician in this city, that gives his entire attention to those who are weak, unfortunate in sexual debility and impotency, and that he has perfected a system of treatment which challenges any Physician of London or Paris, if any patient undertakes to cancel for the full cure of any patient undertaken, or forfeit the full price paid for the same, with medical and surgical aiding from medical consultation.

Dr. Gibson does not charge for his new treatment the price he advertises over all others pretendered, but, on the contrary, in fact in the most liberal manner possible; he does not require the cash down, nor is any deposit or any other formality insisted upon, no restriction in diet or business is required; first, because of his superior and certain in all cases. He stands perfectly alone, by his public or private practice in the United States, and demonstrates the immense superiority of his new treatment over any other now known in the world, in point of promptness, permanency, stillness, safety and convenience to the patient.

Dr. Gibson is permanently located in Cleveland, and has during the past seven years performed many cures of diseases which had for years resisted all other modes of treatment. References can be given to individuals of the first responsibility in Cleveland, Boston, New York and other cities, in regard to skill and fidelity to all professional transactions. Dyspepsia, Rheumatism, Scrofula, all diseases of the Urinary Organs, and all Chronic Diseases of Males and Females treated with superior success.

Consultation free, and strictly private of the country on receipt of fee, fifteen.

HEAR THE PEOPLE'S VOICE.

The undersigned, hearing that DR. DODD'S FEVER CURE OR SWEATING DROPS is to be extensively offered for sale throughout the country, desire to give our testimony to its great value. We have used this medicine in our families, some of us for 10 and 12 years, and are accustomed to depend upon it whenever any one is attacked with any of the many symptoms of a cold. We know that for Suppressed and Irregularities, to which so many Ladies are subject in this climate, it is a timely relief.—Pleurisy, Rheumatism, Soreness of Muscles, Inflammation of the Lungs, Bronchitis, Sore Throat, &c., yield to its power, and is efficacious whenever the dry, feverish patient needs something to induce nature to throw them out. We recommend it as an honest, reliable family medicine.
