DAILY HERALD.

Single Copies of the Herald, 5 Cents

Herald Steam Printing House.

The HERALD Steam Printing House is not surpassed by any job printing office on the Pacific Coast, outside of San Francisco, in facilities for doing job work. Low prices, good work and execution may be relied upon at this office.

Special Notice.

Hereafter notices of companies, societies, churches, etc, will only be inserted in the HERALD as paid advertisements. We reserve for places of worship a gratuitous directory, which will appear every Sunday morning.

The HERALD office is connected with the telephone system of Los Angeles city and county. Orders for advertisements or job work may be sent through this medium to number 156.

The HERALD is the official paper of the city of Los Angeles. The city delinquent tax lists and all other municipal notices appear only in its columns.

Mr. B. N. Rowe is the Santa Ana agent of the HERALD.

The Presidential Situation to Date.

The revision of the count in 33 counties in New York shows a plurality for Cleveland of 1280 votes—a net loss to Blaine of four votes. The Associated Press dispatches say that in the remaining 27 counties no serious discrepancies have been discovered. While the declaration of the official result may be delayed it will undoubtedly be for Cleveland, and it will probably embody an advance on the figures heretofore telegraphed.

"WHY should the spirit of mortal be proud?" The same Republicans who looked upon Blaine as invincible are now seeking a place in which to hide their diminished heads. With clipped combs and drooping pin feathers, they are now hoping for the opportune caving in of some mountain to cover up their abused faith.

IN addition to the County Recorder and the County Treasurer, the Democrats have succeeded in electing two of the five Supervisors, in the persons of the Messrs. Hinds and Ross. These gentlemen are both good citizens, of established character, thoroughly acquainted with our local affairs, and their presence in the board is of itself a guarantee that the affairs of the county will be faithfully administered.

CONSTITUTIONAL Amendments Nos. 1, 2 and 3 have received an overwhelming majority of the popular vote. When it comes to the issuance of the county bonds, however, to build a Court House and Jail, we encounter an entirely different style of thing. For the bonds the meagre vote of 984 has been recorded; while, against the bonds, the colossal figure of 5293 has been registered. It really looks as if we shall have to wait a long time for a new Court House. Meanwhile, we shall be obliged to move out of the old Court House pd. q. under the terms of the sale to Chino Phillips.

IN our local columns appears the full vote of Los Angeles county at the late election. It will be seen that we have polled 10,857 votes, although in the city alone fully one thousand votes were crowded out from lack of polling facilities. Considering the large population which was ineligible to vote, under the rigid California registration laws, we are inclined to think that, at the gubernatorial election two years from to-day, we shall record easily fifteen thousand votes in this county. The finest movement of population known in Southern California for years is now under way in the counties of San Bernardino, San Diego and Los Angeles.

LOS ANGELES Democrats will be delighted to learn that two brands have been rescued from the burning in the persons of County Recorder Miles and County Treasurer Broaded. The success of these popular and sterling Democrats goes a great way towards making amends for local disasters. Their presence in the Court House will relieve that building, to a certain extent, from the odium which will soon attach to it under the upsetting and supercilious *regime* which is about to set in. We risk nothing in predicting that two years' occupancy of the county offices by the Republicans elect of the late election will go further in unpopularizing the Republican party than did the two and twenty years of their Democratic predecessors. We suggest that the readers of the HERALD would do well to make a note of this prophecy. They will find that it will be verified.

THERE are still a number of infatuated cranks who think that the war is still under way, although, as a matter of fact, it ended in April 1865, nearly twenty years ago. In addition to the fools who think the war is still raging, there is a large class of knaves who would like to revive it. These are the people who talk about guns and cannons and the other etceteras which enter into the pomp, pride and circumstance of war, something glorious, but always lamentable when they are incidents of an internecine conflict. The people of the United States are sick of anything pointing towards civil strife. The Bobadil or the Don Quixote who should seek to rally his fellow citizens to war's alarums nowadays would find himself without followers in this year of grace 1884. Grover Cleveland, having been fairly elected President of the United States, will be peacefully inaugurated, and that is all there is to this fuss and feathers agitation.

THERE is something indescribably cowardly and treacherous in the way in which some Republican papers are meeting the situation brought about by the election of Cleveland and Hendricks. We were informed, to begin with, that on receipt of the probably correct information that the Democratic ticket was elected the Georgia Legislature adjourned; and that, forthwith, the rebel flag was run up over the State House at Atlanta. We know this to be a measly, dirty lie. Probably, at great expense, some Republican miscreant was hired to exhibit the late Rebel flag somewhere in Georgia, and the event was immediately telegraphed broad-cast over the United States. We have reason to know that in Los Angeles itself some enterprising Republicans are busy in getting up the Rebel flag. We doubt, however, whether their well meant efforts will avail anything to the benefit of their party. This poor Radical Republican joke has lost its efficacy.

AMONGST the elements responsible for the defeat of James G. Blaine may be mentioned the defection of the Independent Republicans, as represented by George William Curtis, and the defection of the Stalwarts, as personified in Roscoe Conkling. This last is the only instance in which Conkling and his "man milliner," George William Curtis, have united to bring about the same political result. This result, to Democratic eyes, is simply beatific. It means the triumphant election of Grover Cleveland to the Presidency of the United States. As an incident of the changed methods and manners intervening between the fraudulent epoch of 1876 and the righteous epoch of 1884, the employment of Roscoe Conkling as the leading Democratic counsel to see justice done is most significant. That this most puissant of Republicans will eventuate as a highly sonorous advocate of the right no man may doubt. It is to his eternal honor that he showed a most contemptuous repudiation of the methods which made Hayes President; and of the Fraudulent Hayes when, by an unparalleled prostitution of democratic-republican traditions, the Fremont cheeseman was made the *de facto* President of the United States. The telegrams of congratulation to President Cleveland of Jay Gould and Vanderbilt—the two chief bottle washers of the Blaine campaign—show that the capitalists of the United States recognize the new era, and are prepared to stand by it. The Republican party, as at present constituted, would go on stealing Presidencies for a thousand years to come, just as Belshazzar would have gone on giving his corrupt banquets in Babylon. But for the one *regime* as for the other the handwriting on the wall has been clearly disclosed. The "mene, tekel, upharsin" has been interpreted, once for all, by the Democratic Daniel, Grover Cleveland.

Railroad News.

The Boston *Evening Transcript* is responsible for the following news:

"The Atchison, Topeka and Santa Fe Railroad Company is about to put the last link in its great system, which, starting from two points on the Missouri river, contemplated direct connection with the City of Mexico and the Pacific Coast, points of Guaymas, San Diego and San Francisco. Everything has been accomplished save the connection with San Diego. Here Boston capital was planted to the extent of more than $3,000,000, and the California Southern Railroad built north toward the Atlantic & Pacific for a distance of 130 miles, reaching Colton and San Bernardino on the line of the Southern Pacific. Here the road was "worked up" by the Southern Pacific, and washed out by the freshets of last winter. The money for the repairs, however, was all pledged and the work of construction resumed.

"The Atchison & Topeka will now take the property into its charge upon an arrangement mutually advantageous. The California Southern bondholders will take income bonds for their present lien, and allow a first mortgage at the rate of $10,000 a mile to go upon the property. The Atchison Company will extend the line sixty miles north to a connection with the Atlantic & Pacific in California, taking its pay in first mortgage bonds at par upon the whole 200 miles, at the rate of $10,000 per mile and one-half the stock of the company. Any surplus of bonds will remain in the treasury of the California Southern Company."

For All.

One thousand pairs of pure, all-wool blankets, to be sold at mill prices next week, at Coulter's new store, corner of Spring and Second streets, Hollenbeck Block. This is certainly a rare chance for hotels, housekeepers, lodging houses, campers and travelers to get the very best at lowest prices. Don't fail to attend this sale.

Bargains.

Go to Coulter's new store in the Hollenbeck Block for gent's furnishing goods. Great bargains are offered

The White Sewing Machine

Stop and examine the White Sewing Machine before purchasing any other. The schuttle is self threading. The needle is self setting. It runs almost noiselessly, and the large space under the arm makes it superior in every respect to any other machine in the market. Several other leading machines constantly on hand. Machines sold on the installment plan. Liberal allowance in exchange for old machines. Reasonable time is allowed for trial before the first payment is required. You can save from ten to twenty dollars can vasser's commission by buying your machines at the Sewing Machine Headquarters, 3 Spring street, Nadeau Block Los Angeles, Cal. A Good Investment.

My friend, if in your wanderings in the pursuit of happiness you chance to spend a few minutes in the purchase of a luxury that will conduce to both health and pleasure, count the time well spent, and the article that will return the largest percentage of both is Tansill's Punch 5c. cigar, at the P. O. Cigar Store.

Stylish.

If our lady friends wish to see something stylish in the way of clocks, ulsters, circulars, Jerseys, coats and shawls, we would advise them to visit the mammoth new store of B. F. Coulter on the corner of Spring and Second streets, Hollenbeck Block, where they will find something to suit everybody and at any price. A very fine stock just opened.

Business Men of Los Angeles.

Many States in the Union at present are competing with California for European immigration, but the fertility of our soil, and particularly the climate of the Southern part of the State, are great things in our favor. The most enterprising business men of Los Angeles come from all parts of the Union, among the foremost of which must be mentioned the Pacific Restaurant, opposite the Postoffice.

One More Enterprise

THE FIRST JEWELRY MANUFACTORY IN SOUTHERN CALIFORNIA,

—OPENED BY THE—

LOS ANGELES JEWELRY STORE,

No. 24 North Main Street.

L. M. Wagner. C. F. Mohrig.

Factory 16 Requena St., Los Angeles, Cal.

We call the attention of Country Jewelers in Southern California to the fact that we have opened a Jewelry Manufactory in Los Angeles, California, where we execute everything in first-class style that skill of hand and machinery can do, at the lowest possible price. All orders are promptly filled when ordered. We should be pleased to receive any kind of an order from the city or abroad. Our specialty is the manufacturing of fine Quartz Goods, Diamond Settings and Gold Chains. People will find it to their interest to call on us, as we mean exactly what we say—nothing misrepresented in our line. We will give country jewelers the benefit of our silver-plated ware as cheap as they can get it in the city of San Francisco, as we buy direct from the manufacturer and give you as large a discount as any one We buy for cash and sell for cash low down, in everybody's reach. Try our prices on silverware—you will be astonished how low they are.

—NEXT COMES THE ASSAYING OF GOLD, SILVER AND QUARTZ NUGGETS.—

We advance any amount of money on ORE OF GOLD OR SILVER sent to us for Assaying, and don't you forget it. You get all your ore is worth in value of U. S. gold coin. The head of this enterprise is our reliable Jeweler, Mr. Wagner, who came to this city nearly three years ago, commencing in small style but advancing step by step, and is now one of our prominent Jewelers and Manufacturers and Managers in Southern California. He only accomplished this through honesty, industry and fair dealings with his customers. All who know Mr. Wagner will find him correct in all his business transactions. He is an old experienced hand for the last thirty years in the Watch and Jewelry business. The partner in this late enterprise is C F. Mohrig, an old, honest manufacturer and resident of San Francisco, for the last 25 years, and has made up his mind to live the balance of his life in Los Angeles. You will find him trustworthy in all transactions and dealings.

Our line in Gold and Silver Watches is as large as any in the city. You will find a fine assorted stock in jewelry of all kinds, and as low as it can be sold. We don't say that we will sell at cost. We can't do that, as we have to meet our expenses. We call the attention of our lady and gentleman customers to the fact that in the future time and orders given to us will have prompt attention. Don't forget the Los Angeles Jewelry Store, as this is the only place in Southern California where Manufacturing and Assaying is done.

We are respectfully yours,

WAGNER & MOHRIG,

J. B. WAGNER, General Manager.

Gold fillings from the smallest to entire crowns, made with gold guaranteed to stand the test of time and use. Artificial Teeth inserted on rubber, celluloid, gutta percha, silver and gold. Gold for health and durability is preferable.

PAINLESS EXTRACTION.

DR. SMITH has recently invented and constructed an improved apparatus that will, in one second, make the most aching teeth and the most painful gums as insensible as a stone. This makes teeth extracting in all cases—children and adults—absolutely painless and harmless. jy25td
