Mr. Car Owner

When you buy a STORAGE BATTERY DON'T GET "BUNCOED" into buying some cheap imitation battery with positive plates filled with terra-cotta mixed paste instead of Pure Peroxide of Lead—Another trick of the imitator—they make their battery cases of cheap pine instead of OAK. They fill their battery tops with paving tar instead of Hard Rubber.

There's always a smooth tongue that will "spill" to unload some unreliable poor quality battery on you.

To avoid this—ALWAYS DEMAND THE GENUINE "WILLARD" STORAGE BATTERY—for 9 out of every 10 electrically equipped cars are WILLARD EQUIPPED.

Remember we guarantee and have men capable of battery attention—not ordinary "tinkerers".

PANHANDLE FAIR SITUATION SERIOUS

ASSOCIATION, AT MEETING, ANNOUNCES IT IS POSITIVELY AT ROPE'S END.

Immediate steps must be taken toward preparations for the 1917 Panhandle State Fair or it will lose many big exhibits, even if it held at all.

This fact developed at the meeting of the Fair Association yesterday afternoon. No fair can be held in Amarillo in 1917 unless $20,000 or $60,000 is put into new buildings.

The association at its meeting yesterday received the application of a Dallas firm for space in the Textile building next year. A personal representative of the firm who saw the members of the Fair association said that his firm would positively put in an exhibit of $20,000 worth of goods.

The exhibit which the Dallas firm is to exhibit if it can secure the space represents more money value than all of the exhibits shown in the textile building last year.

The Hereford Breeders' prize, which it has been expected would be three times as large as last year, are also being held up pending news of what the Fair Association is going to do.

The plans for the 1917 fair have been held up pending the decision of the general committee looking to the transfer of the fair to the city and the selection of buildings suitable for the purpose.

Following its meeting last night the Fair Association issued a statement in which it declared that the association has gone as far as it can under the conditions, and that the future of the exposition is up to the city of Amarillo.

Making a total of 2000 saloons and 119 breweries that cannot sell intoxicants. There are 2000 less people going to the bad. Are we glad?
