PRESSURE FELT ON STOCK LIST

Declines Are Registered in the Standard Issues as Well as War Stocks.

New York, Feb. 8.—Stocks were subject to further liquidation today, standard rails and high class industrials showing extreme declines of 1 to 3 points with more severe recessions in speculative issues. Sales were estimated at 650,000 shares.

Moderate unsettlement was shown by the market at today's opening, overnight developments, particularly Germany's submarine activities, inducing fresh selling. For the most part early recessions did not tend beyond fractions. Noteworthy exceptions were Bethlehem Steel new stock which fell 3½ points with a loss of 1½ for the common and two points for Texas Company, International Papers and Allis-Chalmers. United States Steel and equipments were disposed to improve. The entire list reacted later, however, on heaviness of shippings.

The setback in shippings was concurrent with another advance in insurance rates and was followed by a further reversal in rails, high grade issues yielding to lowest levels of the present movement. Canadian Pacific lost all its early recovery but strengthened again later. Bethlehem Steel added 2½ points to its initial loss and the old stock fell 16 points with an extreme decline of over 2 points in United States Steel. Coppers and specialties of practically all descriptions were down two to four points. Lower prices were registered at noon, some issues then verging upon weakness. International bonds were lower, United Kingdoms establishing new minimums. Government bonds also receded.

Midday declines were checked later, the declaration of an extra dividend on Union Pacific causing a covering movement. Union Pacific rose more than two points from its lowest, Canadian Pacific 3 and specialties 1 to 2 points.

On the cessation of selling in the later dealings recoveries of 2 to 4 points were made. The closing was heavy.

MARKET NERVOUS PRICES IRREGULAR

The Trading is Largely Professional and Whole List Closes Weak.

Nervousness in today's market made for irregularity and trading was largely professional. From a weak opening the market showed strength towards the middle of the session and then lost ground again at the close. Steels made two and three point gains only to lose them at the close. Crucible and United States Steel were most active issues. Coppers followed the general market trend and rails continued weak.

Anaconda opened at 75⅛, was high at 76, low at 74 and closed at 74⅞. Butte & Superior opened at 45¼, was high at that figure, low at 44 and closed at 44⅞. North Butte was quoted at 20½. East Butte at 13¾. Tuolumne at 1⅝. Davis-Daly at 5⅝ and Butte & London at 19.

News and comment received today over wires of the Paine-Webber company say in part:

Paine letter—"The market seems to be in control of the professional traders. They bid up prices, get no following and then sell out on each other. Commission house business is light. War or no war is the sole topic of interest and in the meantime the market is drifting. We favor buying the steels and war stocks, as they will greatly benefit by any extensive preparations in the United States."

Logan & Bryan—"The uncertainty of the international situation is reflected in all lines of business. A nervous and unsettled market is only natural and caution and conservatism are being exercised everywhere and highfinancing is being held up until more is known regarding government preparedness financing."

Advices received over wires of the Heilbronner company say in part:

Hutton stock letter—"Look for a very nervous market over the sinking without warning of the California. On good setback steels, coppers and rails should be picked up on a scale. Rumors will be prevalent and in the unsettled state of public mind more or less selling will occur from time to time."

Dick—"The really feeble part of the market are the railroads, and the weaker in this group are the good properties—those that have hitherto been considered absolutely ultra investments. Some of it is German selling, some of it forced selling and some of it is being sold by people through fear. If it is true as is stated in the morning papers that our ambassador is being detained in Germany it further accentuates our rupture with Germany. What looks like a combination has been on in Central Leather and Crucible Steel. After their sharp recovery it is perfectly natural we should have profit taking. For that reason the market is able to accept with equanimity shocks which would have prostrated it in past times."

SPECIAL STOCK REPORT

There are five stocks right now within reach of everybody that from information in my possession offer the best opportunity for big profit taking, namely: Tarbox. If there is a stock on the market at 25c that will equal this I don't know it. You can secure this of me at 9½c net. Helena Scratch Gravel, a fine shipping property with 3½ feet clean shipping $50 net ore, is cheap at 25c. I can supply at only 7½c. Utica, with 860 oz. silver ore, a good shipper, dividend payer in March according to report. This stock should reach 35 to 50c within 90 days; now 15½c. Sloean Star, another big shipper, now 23c; both going up steadily. Latter two the best buys on Spokane market in my opinion. In oils the P. P. P. Mexican Tampico oil fields at 10c offers the biggest chance to lay up a fortune for the future for yourself of anything I have ever come in contact in 12 years experience. Your opportunity to secure any of this 10c stock is getting nearer and nearer the close. Only 9,000 left out of 100,000. Shows you how good others regard this investment. Tuolumne and Davis-Daly are the buys in Butte. I offer you 7,000 Beaver Offs at 1¼ net; 1,500 Greybull Mont. 2¾ net. J. Chauvin, broker, 112 W. Granite.
