Support Your Own.

"It should be the object of every citizen to support home manufactures—that is, patronize the mechanics and business men of the town in which you reside. It is the only true basis of success, and when departed from, the cause of the slow growth of a town will not be difficult to solve. Our own mechanics and business men should always come in first for home patronage. The effect of such a course would be beneficially felt by all. It is true that in some cases we must pay a trifle more than similar articles can be purchased for abroad; but even in doing this we shall feel the good effects upon ourselves: because it will be keeping the circulating medium in our midst—make all branches of business flourish—give employment to our own mechanics instead of those abroad, in cities—increase the prosperity of the place, and make us feel independent of all others."

We clip the foregoing from an exchange paper. Although the ideas are not new, they are not the less valuable. The doctrine is a sound one; the advice is good, and can not be too often repeated or too strictly followed—for there are always croakers in every village who are constantly prating about the cheapness of articles in other places.

We once heard of a man who went into hatter's shop in his neighborhood one morning: "Make me a good hat," said he, "and put my name in it, with this motto, "Our country before any country in the world, our State before any State in the Union, our county before any county in the State, and our town before any town in the county"—for 'them's my sentiments exactly?" and such should be the creed of every man who wishes his own business and that of those around him to prosper.

The custom of patronizing the city weeklies in preference to country papers, is more extensively disastrous in its consequences than is generally supposed. Many of these papers are made up of the matter of dailies, and contain much of no interest to the country readers, from whose contributions they are exclusively sustained, while those in his own neighborhood are suffered to languish and die for want of support. Although there are many good city weeklies, yet there are some whose immense circulation is obtained by a system of self-laudation, reciprocal puffing, and other kinds of humbuggery, such as "the largest circulation in the world!" the "cheapest and best paper ever heard of!!" "News always three days in advance of the telegraph!!!" &c., &c.—and these gull-traps are always well baited, [and often believed.]

If the money forwarded to the cities annually for weekly papers were bestowed upon the country press, every county in the State might boast its paper equal, in price and quality, to the best now furnished in the cities, and hundreds of thousands of dollars, which now go into the hands of stock-jobbers and marble palace builders, would circulate among the farmers, mechanics, laborers, and merchants of the country.

Aside from this, as a matter of local pride and convenience, it is for the interest of every man to support his own county printer, as well as other handicraftsmen. But we have not room to argue the point farther, nor does it seem necessary. The truth of the remark will be obvious to every reflecting mind.—*Wyoming Co Whig.*

CIRCULAR

To Clergymen, Postmasters, Teachers of Sabbath Schools, Students, Book Agents, and Heads of Families.

AGENTS wanted in every section of the United States to sell

Sears' Pictorial Family Annual,

an illustrated work, comprising a fine series of embellishments, with interesting descriptions, in one handsome large octavo of about four hundred pages, elegantly bound in gilt, and lettered in the most modern style of book making.

PRICE ONLY TWO DOLLARS.

This splendid volume comprises within itself a Complete Library of Useful and Entertaining Knowledge condensed in form, familiar in style, copious in information, embracing an extensive range of subjects. The engravings (over two hundred in number) are strictly illustrative, being representations of actual Scenery, Costumes, Manners, Monuments, &c., &c.

On examination, the above work will be pronounced by every intelligent person under whose observation it may come, as one of the most suitable presents for a father to present to his family, as regards both the quality and number of its embellishments, and the pure character of its contents. In preparing every article for its pages, the greatest caution has been used to admit nothing but of an improving and instructive character.

To men of enterprise and tact, this work alone offers an opportunity for profitable employment seldom met with. There is not a town in the Union where a right honest, and well disposed person can fail selling from fifty to two hundred volumes, according to the population.

All persons wishing sample copies, to examine, or procure subscribers with, can receive one of more, substantially bound in paper covers—(the only kind we are allowed to forward under the Post Office law)—the postage not exceeding thirty cents on each volume so forwarded, on the receipt of *One Dollar*. In this way no matter where a person resides, if only within the reach of a post-office, he can obtain a copy of the Family Annual.

Agents wanted in every town and county in the Union, to sell "Sears' New and Popular Pictorial Works;" universally acknowledged to be the best and cheapest ever published as they certainly are the most saleable. Any active agent may clear $500 or $1000 a year. A cash capital of at least $35 or $50 will be necessary. Full particulars of the principles and profits of the agency will be given on application either personally or by letter. The postage must in all cases be paid. Please to address,

HASTINGS' *Compound Syrup of Naptha*—a positive cure for Consumption, Decline, Asthma, and all diseases of the chest and lungs—a single bottle will prove its efficacy.

The proprietor not only recommends his NAPTHA SYRUP, but warrants it to cure! He warrants it to act upon the chyle, and purify it; he warrants it to remove all impediments which retard the free circulation of the blood; he warrants it to open the internal and external pores of the body and eject all the obnoxious particles which have accumulated in the system; he warrants it as a never-failing remedy in hectic fever, night sweats, dyspepsia, liver complaint, pain in the chest, and asthma; and he warrants it to arrest the formation of tubercles in the lungs, and to heal those already formed, so that persons in consumption may take it with the most positive confidence of a cure, for its great seat of action is the *lungs*, which it penetrates in all directions, purifying them of everything obnoxious in its progress, and which, if applied according to directions, it can not fail to leave in a perfectly healthy condition.

CONSUMPTION

DR. FITCH'S Lectures on the Prevention and Cure of *Consumption.*

This popular work for sale in Lewisburg by S. F. Lyndall—J. Houghton—and at this office. Price, 75 cents.

TRICKS OF QUACKS.

LET EVERYBODY READ THIS CAREFULLY.—There is a Sarsaparilla for sale in the different towns called S. P. Townsend's Sarsaparilla. It is advertised as the ORIGINAL, GENUINE, and all that. This Townsend is no doctor and never was; but was formerly a worker on railroads, canals, and the like—yet he assumes the title of Doctor for the purpose of gaining credit for what he puts forth. He says he has attended two medical schools, and practiced for fifteen years!!! Now the truth is, he never practiced medicine a day in his life! Such selfish, wicked misrepresentation looks bad to the character and veracity of the man. I wish most sincerely, he had never made those statements of himself or of me. When will men learn to be honest and truthful in all their dealings and intercourse with their fellow men! He applied to one Reel Clapp to assist him in manufacturing his mixture, making the large sums he would make, as an inducement to embark in the business. These men have been troubling and libelling me in all possible forms, in order to impress the public with the belief that the Old Doctor's Sarsaparilla was not the genuine, or Original *Sarsaparilla*, made from the *Old Doctor's Original Receipt.* The S. P. Townsend says I have sold the use of my name for $7 a week. I will give him $500 if he will produce one single military proof of this. His statements of Thompson, Skillman & Co., are nothing but a tissue of falsehoods, simply made to deceive the public and keep the truth down in regard to his *souring, fermenting compound.* This is to caution the public to purchase Sarsaparilla of Old Dr. JACOB Townsend's Sarsaparilla, having on it the Old Doctor's likeness, his *family Coat of Arms*, and his signature across the Coat of Arms.

JACOB TOWNSEND

Old Dr. Jacob Townsend,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr. Townsend is now about 70 years of age, and has long been known as the *AUTHOR and DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA."* Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It has restored the sale of many, nevertheless, as those persons who have been healed of sore diseases, and saved from death, proclaimed its wonderful

HEALING POWER.

The GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is cried throughout the length and breadth of the land, especially as it is found in spite of detraction, to be the best.

Unlike young S. P. Townsend's, it improves with age, and never changes its composition; because it is prepared on *scientific principles* by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparation, for use, produce *fermentation* and souring, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in the chemical science. Moreover, these *volatile principles*, which, if left in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything else; then can then strain the liquid or vapid extract, sweeten it with sugar molasses, and then call it "SARSAPARILLA EXTRACT or SYRUP." But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the fixed properties of the Sarsaparilla root are first removed, everything capable of becoming acid or fermenting is extracted, and the medicinal virtues of the medical virtues is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

Cure of Innumerable Diseases.

Hence the thousands who write their testimonials on every side in its favor by men, women, and children. We find it doing wonders in the cure of

CONSUMPTION, DYSPEPSIA, and LIVER COMPLAINT, and in RHEUMATISM, SCROFULA, FILES, COSTIVENESS, CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy to all complaints arising from *Indigestion*, from *debility of the System*, from unequal circulation, deterioration of blood to the body, palpitation of the heart, cold feet and hands, cold chills, hot flashes over the body. It has not its equal in *Confirmed Coughs*; and promotes easy expectoration and gentle perspiration, relaxing structures of the lungs, throat and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fever Ailment or Whites, Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregularity of the menses*, and in fact, in all cases it is effectual in curing all the ills of *Kidney Diseases.*

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of

Nervous Diseases and Debility.

and thus prevents or relieves several varieties of other maladies, as *Spinal Irritation, Neuralgia, St. Vitus' Dance, Stammering, Epileptic Fits, Convulsions, &c.*

It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion, removes the bowels of torpor and constipation, allays inflammation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally all over the body, and the invaluable perspiration, relaxes strictures and tightness, removes all obstructions, and invigorates the entire nervous system. Is not this the

The Medicine you pre-eminently need?

But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S,

because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION, and

NEVER SPOILS,

while the other DOES, souring, fermenting, and blowing *the bottles containing it into fragments!* The sour, acid liquid exploding, and damaging other goods! Now see this horrible compound be poisonous to the system?—*What put acid into a system already diseased with acid?* What causes Dyspepsia but acid? Do we not all know that what food sours in our stomachs, what mischief it produces—flatulence, heartburn, palpitation of the heart, liver complaint, diarrhoea, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all affections internal and external? It is nothing under heaven but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour and acid fluid which
