DULL AND PROFESSIONAL.

Sugar Active and Fluctuates Widely.

CONDITIONS OF THE WEEK

List, as a Rule Showed Substantial Losses.

Report of the Condition of the New York Banks—Live Stock Markets—The Metals Quiet and Inactive—Monthly Statement of the Director of the Mint—The Currency.

New York, Aug. 1.—Today's stock market was dull and professional, the only stock that reached even comparative activity being sugar. That stock also displayed the wildest fluctuations. The only developments that could be considered to exert a considerable influence on prices were reports of a spread in the area of rate cutting in the southwest and the bank statement. The last mentioned exhibit was unfavorably regarded by the room traders, it being claimed to show evidence of hoarding money. Well informed bankers declared that the contention was unjustified. The opening prices were generally higher on purchases for both accounts. The market soon became irregular and finally on realizations and liquidations in the low priced shares, prices receded all along the line. The downward movement was accelerated by offerings of heavy blocks of sugar, depressing its price 2½ from the early high point. The closing was at the lowest points, at general fractional losses.

Conditions affecting the values of the stock exchange securities have not materially changed during the week. The street still attaches peculiar interest to the tone of the limited market for American securities in London, and at least upon one occasion the price at that center was generally believed to have been manipulated on orders from this side. European and domestic investors and speculators have had their attention distracted from topics of recent paramount interest to consideration of a wide increase in the area of railroad rate cutting, sharp reductions having been made in both passenger and freight rates. The more savage cutting had previously been confined to the west and south, leaving the southwest comparatively undisturbed, but in the past day or two the roads in that section have also become embroiled. The dealings have continued chiefly under the control of the professionals, and at times the operations in sugar have entirely dwarfed the trading in the general list. The market during the early part of the week displayed acute weakness under persistent bear attacks, assisted by various untoward developments. The continued offerings for foreign accounts, the rate disturbances referred to, less satisfactory crop advices and discouraging traffic reports were effective in depressing the railway shares. Considerable stress was laid upon the failure to float the New York City and Brooklyn bonds, and the increasing firmness of the money market. Time accommodations ruled high and the reactionary tendency of general trade was reflected in higher rates for commercial paper and a lessened inquiry. The treasury situation received less attention owing to an appreciation of the magnitude of the preparations made by capitalists to maintain the financial equilibrium. In the industrials sugar went momentarily to par.

The list, as a rule, showed substantial losses as a result of the week's operations, the sales were 959,400 shares.

The bond market ruled dull, but generally higher; the feature of the trade was continued foreign selling and decided heaviness in the high priced issues. The sales were $4,031,000.

Government bonds were a shade lower early in the week, but stiffened to about last week's closing. The sales were $240,350.

Silver certificates were dull and irregular, closing ¼ per cent lower. The sales were $157,000.

Money on call, steady at 2@2½ per cent; last loan, 2½ per cent; closed, 2½ per cent.

Prime mercantile paper, 6@7 per cent.

Sterling exchange firmer, with actual business in bankers' bills at 4.89@4.89½ for demand and 4.88 for sixty days.

Posted rates, 4.88@4.88½ and 4.89.

Commercial bills, 4.87¼.

THE TREASURY.

Washington, Aug. 1.—Today's statement of the condition of the treasury shows: Available cash balance, $256,158,472; gold reserve, $110,715,745.

EXPORTS AND IMPORTS.

New York, Aug. 1.—The exports of specie from the port of New York for the week amounted to $117,000 in gold and $1,191,850 in silver.

The imports were: Gold, $121,737; silver, $26,604; dry goods, $2,380,656; general merchandise, $6,215,000.

BANKS' CASH RESERVE.

New York, Aug. 1.—The New York Financier says:

The cash reserve of the New York clearing house banks for the week ending August 1 was $138,982,100. The banks therefore have lost since July 18, $9,280,700 cash. In the same length of time their loans have decreased $10,000,000, and deposits have fallen off $20,977,100. This will serve to show the effect of the heavy changes which have been reported since the middle of July.

The current statement ought not to be interpreted, however, in its continued heavy decreases, especially in deposits, as reflecting causes which are incident to a panic or a season of gloomy uncertainty. Loans are contracted for $4,704,000, which is of itself not a favorable feature, and total deposits have fallen off $8,344,200. A discrepancy of between three and four million thus appears for which no explanation is offered. But on the other hand it is known that withdrawals of deposits for payments in the treasury as is usually the case at the end of a month like July, have been heavy and part of the discrepancy at least is thus accounted for.

Washington, Aug. 1.—The monthly statement of the comptroller of the currency shows that during July the total circulation of national bank notes was $225,942,455, an increase for the month of $29,495. The circulation, based on United States bonds, was $206,103,100, an increase for the month of $564,570.

THE TREASURY.

Washington, Aug. 1.—The comparative statement of government receipts and expenditures issued by the treasury department shows the total of receipts from all sources during July to have been $29,039,209; expenditures, $42,088,458, leaving a deficiency for the month and fiscal year thus far of $13,059,249.

The internal revenue receipts during the month were $14,302,532, an increase of $1,404,117 over the first month of the last fiscal year. On the other hand the customs receipts which were $12,157,330, showed a falling off of $1,919,654, compared with July of last year. The miscellaneous receipts, which were $2,569,346, show an increase of $479,038 over the month for the last fiscal year. All but two items of the expenditures and interest charges, show a decided increase over July, 1895, the heaviest being under the head of civil and miscellaneous expenditures, which were $12,343,900, as against $10,047,550 on the corresponding month a year ago. Parts of the comparatively large deficiency is also accounted for by the increase of expenditures on account of the navy from $2,380,485 in July, 1895, to $3,756,250 last month. There is a slight increase of about a quarter of a million each for pensions and Indians over July of last year.

CHICAGO GENERAL MARKET.

Chicago, Aug. 1.—It was a rather dull day in wheat, the market exhibiting but little life and fluctuations were within a ⅜c. range. The feeling manifested was rather easy and final figures showed a loss of ¼c. The steadiness early was attributed largely to the wet weather in most of the winter wheat states. Country acceptances were again small and insignificant and St. Louis strong and higher and imparted some strength. Argentine shipments were larger than last week, but still small. The small trade and the absence of foreign advices owing to the bank holidays in England was rather against the price, and then local arrivals exceeded the estimates. Northwestern receipts, too, showed a moderate increase. Crop reports were not very favorable from the northwest. The local out inspection was moderate and seaboard clearings fair. The closing Paris market was unchanged for wheat and flour ten centimes higher. Berlin was unchanged, as was also Antwerp.

There was not much of a trade in corn, the market keeping within the ½c. limit, with transactions principally between room operators.

Oats were stronger early, but weakened later. The close, however, was about the same.

Provisions were very firm considering the weakness of the grain markets.

One of the most deeply interesting and truly educative books ever written is "The People's Common Sense Medical Adviser," by Dr. R. V. Pierce, Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. This splendid volume of 1,008 pages, includes ninety pages on the subject of diseases peculiar to women, with directions for home-treatment, rendering unnecessary the embarrassing "examinations," and generally useless "local treatment," so dreaded by modest women. The book contains the most comprehensive explanation of human physiology and the rational principles of hygiene ever published. Illustrated with over 300 engravings—a complete medical library in one volume. No other medical book in the English language ever had such an enormous sale. 680,000 copies were sold at $1.50 each. Dr. Pierce is now distributing a new free edition of half a million copies. A copy will be sent absolutely free to anyone who will send to the World's Dispensary Medical Association, Buffalo, N. Y., 21 one-cent stamps to pay cost of mailing only. The present edition is in all respects the same as that sold at $1.50 except only that it is bound in strong manilla paper covers instead of cloth.

INTERRUPTED BICYCLE PROPOSAL.

She was young and fair, and that was evidently the reason why he brought out her bicycle with such promptness. She was wearing a suit of such perfection that it marked her as an amateur, and the druggist in the corner, glancing out of the window, asked his clerk an apparently irrelevant question concerning the supply of arnica in stock.

"Oh, I—I'm so frightened, Mr. Goldie," she quavered. "Do you really think I can ever learn?"

"Of course you can, Miss Daisy; just feel perfectly confident in me and—"

"Oh, but I always do that Mr. Goldie. Oh—h, bad I better try today?"

"Well, er, just as you think." He glanced at the thermometer. "If you think it too warm today, Miss Annie said—"

"Oh, not a bit. I—I like warm weather. By the way, don't you think dear Annie a very grasping sort of a girl?"

"Most girls are grasping when they are learning to ride, Miss Daisy."

He led the wheel into the street and carefully assisted her to mount, upon which several window blinds in nearby residences began to move as if suddenly endowed with life.

"Now, all you have to do is to keep your feet on the pedals and don't hesitate to lean on me, Miss Daisy. Why, bravo!" as the wheel moved evenly down the street.

"Am I doing quite right?" she asked.

"Wonderfully, Miss Daisy. Why, to think that this is your first attempt to ride. I've never seen such—"

"Oh, I'm afraid you flatter me, Mr. Goldie. Of course I've never tried to ride before, and I just know I'm awfully awkward. Oh, here comes poor, dear Annie with her little brother helping her to ride. Perhaps it would be kindness not to notice her."

"Perhaps so. Why, what a remarkable girl you are, Miss Daisy; I—I feel that a girl who can master a wheel on her first attempt would make a—. Don't hesitate to lean on me, Miss Daisy!"

"Oh, no, Mr. Goldie, you were saying?"

"Ah, yes, that a girl who can ride the first time she mounts a wheel would make—"

"Look out there, Daisy," cried the girl who was wobbling down the street with the aid of a precocious looking small brother, "be careful in turning that corner; remember what a hard fall you got that way last week at the riding school."

"You were saying, Mr. Goldie," said the pretty girl, without heeding the interruption, "that I would make a—"

"I was saying, Miss Falsely," replied the young man, and there were icicles in his voice, "that I am sure you would make a capital actress! By the way, as you don't seem to need my assistance, I think I shall go and help Miss Annie a bit."—Chicago Times-Herald.
