HARPER CANNOT LIVE

President of Chicago University Affected With Cancer—Gloom in the School.

Chicago, Feb. 18.—"I have received my death sentence. It is my firm conviction that I will not survive this operation, for I know I am afflicted with cancer."

This, in effect, the Daily News today says, is what Dr. William R. Harper, president of the University of Chicago, uttered in the presence of some of his friends in discussing the operation set for next Wednesday. He does not expect ever to take up the active presidency again. Friends and relatives of the educator have been notified to this effect.

John D. Rockefeller, founder of the university, is expected to arrive in Chicago soon, and Professor Robert F. Harper, brother of the president, is expected to reach New York Sunday night or Monday from Europe.

Gloom overspreads the university, for nearly everyone realizes the seriousness of Dr. Harper's illness.

Dean Harry Pratt Judson will be acting president as soon as Dr. Harper relinquishes work preparatory to undergoing the operation, and will continue in that position until Dr. Harper returns or a successor is appointed.

Three separate and thorough examinations of the matter removed at the time Dr. Harper was operated on for appendicitis have been made by physicians and surgeons studying his case, and the unanimous decision, it is said, is that he has a cancer. It is for this reason that Dr. McBurney of New York, one of the greatest specialists in this line in the United States, was called into the case and was asked to perform the operation.

CANNON DISCHARGED

Louisiana Purchase Exposition Commission Appoints S. T. Whitaker as Secretary.

The connection of Brigadier General John Q. Cannon with the Louisiana Purchase commission was severed at a meeting of the commission held yesterday by the adoption of a motion declaring the office of secretary vacant. When this was done S. T. Whitaker, former director general of the Utah exhibit at St. Louis, was chosen to fill the vacancy.

Governor John C. Cutler, in discussing the ousting of General Cannon and the appointment of Mr. Whitaker, said: "General Cannon failed to attend today's meeting and a previous meeting, and as the board is in need of a secretary a vacancy was declared and Mr. Whitaker was appointed to fill it. The members of the board have no information as to where General Cannon is. All I know personally about his being missing is that he has not attended some of our meetings and what I have read in the newspapers."

FLOODS IN ARIZONA.

Bridges Washed Out and Traffic Demoralized.

El Paso, Tex., Feb. 18.—Floods and washouts have again demoralized traffic in southern Arizona. The bridge at Clifton, Ariz., on the Arizona & New Mexico railroad, is reported out and considerable other damage has been done. Trains are still stalled as a result of snow and floods, especially those of the Rock Island and Santa Fe in New Mexico. A washout has caused a freight wreck at Tucumcari on the Rock Island, while another washout on the Southern Pacific at Lordsburg, has tied up trains from California. Snow still covers the ground.

ARGUMENT ON DEMURRER.

Accused California Senators Have Not Pleaded.

Sacramento, Cal., Feb. 18.—State Senators E. J. Emmons of Kern county, Eli Wright of Santa Clara county and Harry Bunkers and Frank French of San Francisco, accused of having accepted bribes from Joseph S. Jordan in connection with the investigation of building and loan associations, appeared in Superior Judge Hart's court today for arraignment on the indictments returned by the grand jury last week.

None of the defendants entered pleas to the indictments, the consideration of demurrers interposing. The attorneys for the defense asked for further time, and continuances until Thursday were granted. Arguments on the demurrers were then begun.

Attorney Morehouse concluded his argument on the demurrer against the Bunker indictment this afternoon and the case was continued until 10 o'clock Monday morning, when District Attorney Seymour will make his reply.

SIX MINERS KILLED AND FOURTEEN INJURED

Pottsville, Pa., Feb. 18.—Six men were killed and fourteen injured at the Lytle colliery today. The men were being lowered into the mine in a gunboat, when the latter jumped the track and knocked out several props. This caused a fall of top rock, and six of the men in the gunboat were crashed to death. Ten of the injured are not in serious condition and were able to walk up the slope.

Know the Value of Pyramid Pile Cure

"Gratitude alone prompts me to testify to the efficacy of Pyramid Pile Cure. Last March I bought a dollar package at the drug store, which cured me of bleeding piles, and I was a sufferer from them for eight years; but I had not been troubled with them since, until last September, when I gave birth to a baby girl, and after that I had a very severe case of protruding piles, which a trained nurse said was the worst case she ever saw, and my doctor told me to get Pyramid Pile Cure again, which I did, and was completely cured in three days. I have not had piles of any kind since, and it is all owing to this wonderful remedy. My nurse took a box, which I was glad to be able to give her, for I know she will be able to help lots of suffering people whom I could never see or know.

"I recommend 'Pyramids' wherever I know of any one suffering as I did. It gives me great pleasure to be able to say I am entirely cured, which my doctor says is true. I say God Bless Pyramid Pile Cure." From a former great sufferer, Mrs. F. Ancott, 1206 Unity St., Frankford, Philadelphia, Pa.

This remedy, which is sold by druggists generally, in fifty-cent and dollar packages, is in a suppository form, is applied directly to the parts affected and performs its work quietly and painlessly. Its value is evidenced by the testimony given above, and we urge all sufferers to buy a package now and give it a trial tonight. Accept no substitutes, and remember that there is no remedy "just as good." A little book on the Cause and Cure of piles is published by the Pyramid Drug Co., Marshall, Mich., and will be sent free to any address.

FAMOUS LECTURER COMING

Rev. Charles Steizle of St. Louis to Speak in Ogden This Week.

Rev. Charles Steizle, noted as an author and a student of economic problems, is to lecture in Ogden Wednesday, Thursday and Friday of this week. Mr. Steizle has been set apart by the general board of the Presbyterian church to study the labor question, and to study it with a view of harmonizing the differences between employer and employed—between capital and labor.

His coming to Ogden is the fruit of efforts in that direction by Rev. J. E. Carver, who, on Monday night, presented the matter to the Trades and Labor assembly, and that organization at once entered into the movement to get him to stop over in Ogden. Mr. Steizle rose to prominence in St. Louis soon after his admission to the ministry of the Presbyterian church. Previous to that time he had been a machinist and he located in the very heart of the factory district of the Missouri city.

By persistence and energy, coupled with broad sympathies and an engaging personality, he soon advanced to the forefront, and his Sunday school was soon the largest west of the Missouri river. He gained the confidence alike of laboring men and their employers, and wrote several books on economic subjects. He was soon commissioned by the governing board of the church of which he was a member to study the labor problems, and has continued to do since that time. His subject Wednesday evening will be, "What the Church Owes to the Workingman and the Union." The lecture will be at the Presbyterian church, and will be entirely free of charge.

INSPECT STATE SCHOOLS.

Senate Committee Pays Visit to Institutions in Ogden.

Seven members of the state senate, comprising a subcommittee from the committee of public institutions, and another from the committee of appropriations, were in Ogden yesterday inspecting the state school for the deaf and the state industrial school. The following senators were in attendance: President Love, Larson, Barber, Clegg, Johnson, McKay and Hollingsworth. The out-of-town members arrived at 3:30 in the afternoon and were taken at once to the state school for the deaf, accompanied by Senator Hollingsworth, Superintendent F. M. Driggs and John Watson, member of the board of trustees. At the state school they were served with luncheon and then inspected every department of the school work, the pupils going through the regular school exercises. They also inspected the stock, the orchard and other school property, and had a consultation with the three members of the board of trustees, who were present, John Watson, Mrs. E. F. Corey and Fred W. Chambers.

They then went out to the state industrial school, where they inspected that institution and were served with a supper in the evening. They also consulted with the trustees, A. P. Wright and N. C. Flygare. The different members of the delegation were exceedingly cordial and enthusiastic in their praise of the condition of both schools, and judging by conversation favorable reports will be made. The state school for the deaf has asked for an appropriation through its trustees of $62,000, and the industrial school for one of $60,000.

Suit Over Sheep Deal.

E. O. Piles yesterday filed an action against Thomas Ballantyne and Joseph Cartenson, claiming $6,950. The complaint sets forth that the plaintiff leased to the defendants a flock of sheep for a number of years, and that the lease expired Oct. 14, 1904. It is alleged that the defendants did not properly care for the sheep, and that they returned to him 754 ewes and seventeen bucks, instead of 1,812 ewes and thirty-seven bucks. On this account he asks for $5,621. On a second cause of action he claims $1,392 on account of alleged failure to pay the lease money.

THE ANT.

Facts About One of Nature's Most Industrious Creatures.

When spring comes with all its wealth of opening buds and new flowers, the ant is preparing for a season of profitable industry.

It comes out of its winter quarters and locates a new home where it can store away, during the summer months, the sustenance for the long winter days.

Just as industrious as the ant—but in a different way, are the countless—infinitesimal germs which burrow into the scalp and eat away at the roots of the hair.

As they burrow away Dandruff forms, and if the germs are not all killed, Baldness results.

Newbro's Herpicide is the only known remedy which kills the germs.
