ROADS SELECT NEW QUARTERS

D. & R. G. Has Taken Corner Location in New Railroad Exchange.

OTHER LINES TAKE LEASES

OFFICES MOST COMPLETE WEST OF MISSOURI RIVER.

Announcement was made yesterday by Colonel Benton, general agent of the Denver & Rio Grande at Salt Lake, that offices have been secured by the company in the new Railroad Exchange building, work on which was commenced a few weeks ago.

The new offices will be on the ground floor with the entrance at the corner of Third South and Main streets. The floor space will be sixty-eight feet on Third South by forty-eight feet on Main street. This will be large enough to contain every department of the local offices, together with private offices of Colonel Benton. The offices will be the finest west of the Missouri river, it is said.

It is possible that a lease will be taken on the second floor for the cashier's offices of the Utah Fuel company, until such time as the new depot is built.

Below the Denver and Rio Grande offices on Main street will be the new quarters of the Burlington. East of the main entrance on Third South street will be the Colorado Midland offices. The Illinois Central will probably take the space just below the Burlington offices on Main street.

PARK CITY BRANCH CLEAR

Traffic Resumed, but Heber Branch Is Still Badly Blocked.

The Park City branch of the Denver & Rio Grande was reopened for traffic yesterday at noon. The last of the snow was cleared away yesterday morning, and as soon as some trifling damage to the rails had been set right the service was resumed.

The Heber branch of the road is still blocked. Several hundred men are steadily at work and the clearing of the road is being rushed as rapidly as possible. The damage to the roadbed and tracks in places is considerable, however. Local officials hope to have everything in shape again by Saturday.

O. S. L. CUTS RATES.

Will Amount to $20 to $30 a Car Between Utah and Idaho Points.

A substantial cut in rates between Idaho and Utah points was announced yesterday by the Oregon Short Line. Beginning Feb. 1, the third and fourth class rates between Salt Lake, Ogden, Twin Falls and Boise will be reduced between 7 and 9 cents per 100 pounds. Figured by the carload lot, this means a general reduction of about $20 and on some classes of freight $25 and $30. This is in line with the recent cuts in rates between Utah and Colorado common points.

Railroad Notes.

E. R. Hunt, general agent of the Denver & Rio Grande at Butte, is in the city today on business.

General Passenger Agent D. E. Burley of the Oregon Short Line returned from a trip to Chicago yesterday.

A number of ballast and other cars for use in the construction work on the Western Pacific arrived in the city yesterday. These will be moved to the front as they are needed.

The rumor is current in railroad circles that the Rio Grande will begin the work of double-tracking its main line from Pueblo to Canyon City within a short time. Contracts for the work are being prepared for letting.

W. A. Whitney, superintendent of transportation of the Denver & Rio Grande, with headquarters at Denver, Colo., is in the city in connection with the present freight congestion. Under his supervision it is believed that a few days more will see the end of the trouble.

An extension of four miles has been accomplished on the Bamberger railroad during the past few weeks. The road now extends beyond the town of Layton for that distance and the work of further extending it is being prosecuted steadily with the aid of a steam shovel to cut through the sand ridge. A force of men is also busy at Lagoon on the improvements for the coming season.

WOULD CHEAPEN LUCERN.

Grain Dealers Decide on Lower Prices This Spring.

While there was no change made in prices at the weekly meeting of the grain dealers yesterday it was argued that oats really should advance and lucern hay drop in price.

Lowering the price of lucern was the principal question discussed at the meeting. The grain dealers can buy this hay at a cheaper price now, but owing to damage done by the recent stormy weather each car contains an amount of damaged hay which has to be sold for almost nothing.

The matter of freight demurrage, which has been before the association for the past three weeks, was not settled at yesterday's meeting, as no report had yet been received from the committee appointed to confer with a committee of officials from the traffic departments of the various railroads

NEW TOWNSHIP IS OPEN.

March 11 Date Set for Entries Under Public Land Laws.

E. D. R. Thompson, receiver of the local land office, announced Thursday that the plat for township 13 north, range 16 west, Salt Lake meridian, had been received at his office from the United States surveyor general for Utah and that the plat would be filed March 11 and thrown open to entry under the public land laws, except sections 1 to 5, inclusive, and 8 to 17 inclusive.

These sections will be subject to homestead entry in cases where such homestead is based upon an actual and bona fide settlement on the land prior to Nov. 6, 1906, which was the date that these sections were withdrawn by the order of the president creating the Raft River forest reserve.

Will solve the problem when a coffee drinker is ailing.

RAINS AFFECT PRODUCE MARKET

Roads So Bad Farmers Cannot Haul Eggs and Vegetables to Town.

CELERY GETTING SCARCE

FEW FISH ON ACCOUNT OF COAST STORMS.

The local market has received a temporary setback on account of the recent heavy rains, which have so affected the roads through the county that farmers have been unable to haul sufficient eggs and produce to meet the demands of the market.

The market is depending wholly upon home eggs now, as there are no more shipments coming in from the east. Hotels and other large consumers of this necessary product have found it difficult to get enough for their use.

The vegetable market is experiencing a similar difficulty, but with the continued fair weather it is expected that the trouble will soon be remedied.

The fish market for the past several days has experienced a scarcity in all varieties but halibut and salmon. This scarcity is due to storms along the coasts and delayed trains.

Prices have varied considerably in vegetables and fruit during the week. Oranges are now selling at from $2.25 to $3.25 a case wholesale, and from 20 to 50 cents a dozen retail. Apples are cheaper, the retail price being 40 and 50 cents a peck. Celery is scarce and it is expected that in a few weeks it will go out of market. Prices range from 75 cents to $1.25 a dozen wholesale and the retail price is 10 and 15 cents a bunch.

This applies to goods in original packages, unopened, and not tampered with. Certain unscrupulous persons are making false statements about these remedies.

"I have been troubled with a terrible headache for the last ten years; the doctors could do me no good. I saw Dr. Miles' Anti-Pain Pills advertised in the Sunday magazine, so I thought I would try a sample. I did so, and they helped me wonderfully. I had headache so badly I could hardly see to work, so I sent to the drug store and got a box. In a couple of hours I was all right. It was the first medicine to do me any good."

Boulevard Bill Introduced in the Senate by Smoot.

(Special to The Herald.)

Washington, Dec. 7.—Senator Smoot today introduced a bill drafted by the war department to empower the secretary of war to authorize the Salt Lake City council to construct and maintain a boulevard through the Fort Douglas military reservation. The bill was accompanied by a report from the post commander at Fort Douglas approving the proposed legislation, with a stipulation that the work shall be done in a creditable manner and to satisfy the post commander, and also that the road shall not be used for heavy draft purposes.

Senator Clark of Montana today succeeded in securing the adoption of his measure to open Blackfoot reservation as an amendment to the Indian appropriation bill.

C. D. McEachron was today nominated by the president as postmaster at Lewiston, Ida.

The Power of the Press

An instance that shows the confidence of the readers of this paper in what appears in its columns and also that it has a most substantial family circulation, came to the notice of one of our representatives while in conversation with a well known up-town druggist. A short time ago there was published in the news section a home recipe for the quick cure of coughs and colds. It was furnished by a physician of prominence in the Philadelphia Clinic and was as follows: "Mix two ounces of glycerine, one half ounce Concentrated oil of pine and a half pint of good whisky; shake thoroughly and use in tablespoon doses every four hours in the case is acute, and if not use in teaspoon doses."

The druggist stated that this produced a very unusual demand for Concentrated oil of pine and that this demand has continued and increased. This certainly speaks well for both the value of the recipe and the circulation of the paper.

The pine product referred to is comparatively new, but was welcomed by physicians and druggists on account of its being soluble, a quality long desired in an oil of pine. This "Concentrated" oil of pine is put up only in one way and that is in half ounce vials, inclosed in round screwtop cases which protect it from heat and light so that it does not weaken with age.

Walker's second all Salt Lake City Charity Sale.

5 per cent of Friday's sales go to the Canyon Crest Ranch Association.

The Canyon Crest Ranch is a practically new institution, having been organized only last April, but steady growth and marvelous results have marked the progress thus far. As a home for the boy who has lost his natural guardians it stands pre-eminent. A place where boys may receive instruction in practical farming and develop strong healthy minds and bodies in the happy pursuit of their work.

Boys showing unusual talent or ability are given opportunities for development in good schools and colleges. The ranch contains six hundred acres of land, one hundred of which have ample water supply for irrigation.

Situated at the mouth of the canyon two and a half miles east of Bountiful and nine miles northeast of Salt Lake, it is conveniently located for marketing products.

Friday shoppers will materially aid in furnishing a blacksmith and carpenter shop, also two more cottages to house the boys.

The boys will exhibit and sell butter, eggs, cheese, buttermilk, etc., products from their ranch, Friday at the store.

PRISON TEAM RUNS AWAY

Wild Race of Horses From Penitentiary Causes Panic on Main Street.

Two penitentiary horses hitched to a prison supply wagon made a desperate dash for two blocks down Main street yesterday afternoon, causing a panic among the pedestrians and drivers along the crowded thoroughfare.

The team was hitched by a weight in front of the Z. C. M. I., while the driver, Jesse McMillan, a trusty at the penitentiary, was inside getting supplies. The spirited horses suddenly started at a mad gallop down Main street. At the first leap the hitching strap broke. Sergeant Janney and Patrolmen Sullivan and Davidson urged people out of the way of the frightened animals as they came speeding down the street.

At Third South and Main the runaway team collided with a bakery delivery wagon on which was standing near the corner. The wheels of the two wagons locked and the runaway horses were thrown to the pavement. They received only a few bruises. The wagons were disentangled after half an hour's work, so tightly had they become wedged together.

UNIVERSITY HOP TONIGHT.

Annual Promenade Promises to Be Big Society Event.

The third annual promenade of the University of Utah will take place this evening in the gymnasoum. This is the social event of the year at the university. The decorations promise to surpass anything seen at the school this season

All the fraternities and societies will have booths at which they will receive. The engineering and medical societies have also erected booths. From all indications there will be one of the largest crowds that ever attended a social function at the university. The promenade will be led by Governor and Mrs. John C. Cutler. They will be followed by the patrons and faculty members, and the members of the legislature. The members of the different classes of the school will follow in order of their seniority. The promenade starts at 9:30 o'clock and dancing will continue until 2 o'clock in the morning. The affair will be under the patronage of Governor and Mrs. John C. Cutler, Senator and Mrs. S. H. Love, Dr. and Mrs. C. G. Plummer, President and Mrs James T. Kingsbury, Professor George A. Eaton, Dr. and Mrs. J. F. Merrill, and Dean and Mrs. Byron Cummings.
