AIR THICK WITH RUMORS

CURRENCY MEASURE CONFIDENTLY EXPECTED.

New York, Feb. 8.—The stock market had an active hour after the opening today, during which prices were held above the level of yesterday's recovery. Apparently distribution was going on at that level and the market lapsed into extreme dullness and hesitating fluctuations thereafter. The effect was to revive doubts over the speculative outlook. Most of the material of the day's speculation was in the form of rumors and most of these emanated from Washington. There were large buying orders at the same time executed by houses with important Washington connections. The effect was to produce an impression that important developments were to be forthcoming there bearing on financial and stock market conditions.

There were plenty of rumors to supply details, but authoritative information was lacking. Confidence is felt in the financial district that moderate measures of currency reform have been undertaken at Washington under auspices that give good promise of success. It is believed that provision for the routine deposit of surplus revenue of the government, including customs receipts, in national banks will be made and the limit of monthly retirement of bank note circulation expanded to twelve or fifteen millions instead of three millions as at present. The removal of this limitation is expected to lead to freer note issues by the banks where they are restrained now from the difficulty of retiring the notes when they come back from their circulation.

The impression got abroad in the financial district that assurance has been received in some way of a likelihood that the interstate commerce commission would not be opposed to an advance in freight rates if prices were equalized. There was a rumor also of an intended alteration in the government process against the Standard Oil company which is regarded as a sort of test case of the attitude to be taken toward the great corporations in general. The uncertainty in the stock market movement was probably the outgrowth of the rather unsubstantial material on which it is thus seen it was based. The market felt the effect also of the reduction of the short interest by reason of the covering of shorts yesterday.

A hardening of the call money rate late in the day also weighed somewhat on the market. This was supposed to be due to the marketing of provisions, or paying the subscriptions to last week's New York City bond issue of $30,000,000. The preliminary estimates of the week's currency movements also indicated a weakened banking position. Reports were current of further note issues by railroads, either placed or in contemplation. The rate of interest which these notes are made to bear at the price they bring indicates that the market is still inaccessible to capital issues of a more permanent form at prices which corporations could afford to accept. The dropping tendency of the market more than wiped out the early gains and held to the closing, which was easy.

Bonds were irregular. Total sales, par value, $1,634,000.

U. S. bonds were unchanged on call.

GRAIN AND PROVISIONS.

Chicago, Feb. 8.—Trading in the wheat pit was active and the market was somewhat unsettled. At the opening some weakness was manifested because of a decline at Minneapolis, and because of liberal shipments from Argentina. After the first hour the market became firm. The strength in the local market was a reflection of further advances in Europe which were believed to foreshadow important developments in the way of foreign buying. During the last hour the market again eased off on selling caused by the weakness of coarse grains. The close was easy. May opened a shade lower to a shade higher at 80@80⅛, sold off to 79¾, advanced to 80⅝, closing a shade lower at 80.

Corn was inclined to be weak. It was reported that nearly 8,000 cars of corn are standing on railroad tracks in and around Chicago waiting to be unloaded or transferred for eastern shipments. This report caused free selling by longs. Shorts were the principal buyers. The market closed weak with prices near the lowest. May opened ⅛@¼ cents lower at 47⅛@47¼, sold off to 46¾, and closed ⅞@1 cents down at 46⅞.

Trading in oats was less active than during the last few days and the tone of the market was rather weak. May opened ⅛ cent lower at 40⅞ to 41, sold off to 40⅝, and closed at ⅜ cents off at 40⅝.

Provisions were firm and fairly active. Shorts covered freely and packers were moderate buyers. Offerings early in the day were light, but later local holders seemed inclined to sell. A five cent advance in the price of live hogs was the chief bulish feature. At the close May pork was up 10@12½ cents at 17.85@17.87½. Lard was up 10 cents at 10.07½. Ribs were 7½ cents higher at 9.75.

SEVERE STORMS HURT BUSINESS

Delay in Making Deliveries on Old Orders Increased to Quite an Extent.

PRICES SOMEWHAT HIGHER

CAR SHORTAGE STILL KEENLY FELT.

New York, Feb. 8.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Severe storms restricted new business in many sections of the country during the past week and increased the delay in making deliveries on old orders. Commodity prices advanced as a rule. Jobbers report a good demand for spring delivery.

Packers have sold hides suitable for sole leather through March salting at full quotations, despite the fact that the takeoff this month and next is the poorest quality of the year.

More speculative interest has developed in the wheat market, encouraged by cabled reports of heavy home needs for Russian wheat in relieving the famine and increased inquiry by exporters.

Corn was firmly held above last year's quotations despite a movement that indorsed large crops estimates but foreign demand was poor.

Bradstreet's Report.

Bradstreet's tomorrow will say: The first effects of the past week's widespread winter weather was to bull trade at most markets, to quiet spring demand, retard collections, and in sections accentuate the already congested railway situation.

The bull movement in wheat and other grains strengthened further this week, and prices are up an average of 2c per bushel at all markets. The car shortage is being keenly felt at western milling centers, and Minneapolis flour production is down to a low point, owing to light supplies. European advices have been more bullish. Russian dealers are reported to be buying wheat here and in Canada.

Congestion in manufacture and marketing of Cuban sugar is reflected in further easing of raw prices, which are off 8 points, while refined is 15 points lower in sympathy.

Business failures in the United States for the week ending February 7 number 198 against 211 last week, 204 in the like week of 1906, 207 in 1905, 202 in 1904 and 217 in 1903.

Failures in Canada for the week number 18 as against 26 last week and 27 in this week a year ago.

Bank clearings in the United States for the week ending with February 7 aggregate $3,327,589,255, 12.8 per cent over last week, but 4 per cent below the same week last year. Excluding New York City the total is $1,157,264,687, 7 per cent above last week and 7.5 per cent over last year.

Canadian clearings for the week aggregate $31,015,141, a gain of 18.8 per cent over last week, and of 8.1 per cent over this week a year ago.

Wheat, including flour, exports from the United States and Canada for the week ending February 1 aggregated 3,319,930 bushels against 2,102,216 last week; 3,241,929 this week last year; 987,775 in 1905, and 4,800,457 in 1902. For the past thirty-two weeks of the fiscal year the exports are 113,383,474 bushels against 86,969,486 in 1905-06, 41,049,918 in 1904-05, and 171,410,188 in 1901-02.

Corn exports for the week are 2,407,069 bushels against 2,157,677 last week, 3,669,750 a year ago, and 2,448,456 in 1905. For the fiscal year to date the exports are 35,636,797 bushels against 72,088,795 in 1905-06 and 35,492,101 in 1904-05.

Metal Markets.

New York, Feb. 8—The London tin market was lower again today with spot closing at £191 and futures at £190 7s 6d. Locally the market was weak with spot quoted at $42.15@42.20.

Copper was unchanged with spot quoted at £106 15s and futures at £107 15s. Locally the market was quiet and unchanged with lake quoted at $25.00@25.25; electrolytic at $24.75@25.00, and casting at $24.25@24.75.

Sixty Years' Experience of an Old Nurse.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best female physicians and nurses in the United States, and has been used for sixty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures diarrhoea, griping in the bowels and wind colic. By giving health to the child it rests the mother. Price, 75 cents a bottle.

What the People Say About
FISHER BEER

THE BUSINESS MAN—"When tired and worn out from overwork, either physical or mental, I often step in somewhere and get a glass of Fisher beer. It never fails to immediately revive me and I feel stronger and better the remainder of the day for having drank it."

THE HOUSEWIFE—"We always keep Fisher beer on hand and frequently have it on the table at meal times. It fills a gap that nothing else seems to satisfy. Every member of the family enjoys it and we are all healthier for having used it. When company comes we usually serve Fisher beer, and it is always appreciated by our friends."

THE LABORER—"I don't know what I would do without my drink of Fisher beer to go with my noon lunch. I wouldn't enjoy the lunch without it, and the beer always braces me up for the afternoon's work."

THE DOCTOR—"Fisher beer not only nourishes the body, but has the influence of aiding the digestive apparatus to digest other things taken as food. For a long time I have prescribed it and have found its use of the greatest advantage."

Fisher beer is on sale by leading dealers and is supplied by the case by
