BIG COAL MINE TO OPEN IN 30 DAYS

Property of Independent Company Near Helper Being Rapidly Developed.

ANTICIPATE HEAVY OUTPUT

PROSPECTIVE SHIPPING BASIS OF 2,500 TONS DAILY.

Within the next thirty days coal will begin arriving in Salt Lake from the new mines of the Independent Coal company, three and a half miles from Helper, Utah, a mine that promises to be one of the big producers of the inter-mountain country.

This is the information secured early this week by a representative of The Herald on a trip to Helper, and the announcement that shipping will commence early in September from the mine is probably as important a development as the local coal situation has known this summer.

Only one mine is being opened by the Independent company at present in the new field, but this is being developed on the prospective shipping basis of 2,500 tons a day, with all machinery installed.

Railroad Completed.

The three and a half mile spur track from the Denver & Rio Grande road, constructed by the company from Helper to the new mine, is entirely completed and is now in operation. A big force of men is at work on the line, and development work is being pushed with the greatest rapidity. The first shipment of coal from the new mine will reach Salt Lake in all probability not later than the first of September. The output will probably run about 1,000 tons daily for several months, as it will be impossible to get all the machinery installed early this fall. By midwinter, however, the mine, it is expected, will be running over 2,000 tons daily.

Local officials of the company and others interested in the new property, when asked concerning developments last night, had very little to say, stating they were not ready to officially announce their prospects. At Helper, however, and at the mine itself authoritative statements were made that coal will begin coming by Sept. 1 at the latest.

The Independent company unquestionably has one of the most valuable coal properties in the state, and the opening of the field will come as a boon for Salt Lake at this particular time, when such a corporation as the Oregon Short Line has found it necessary to secure coal from Australia for use in Utah and other inter-mountain states.

Coal men yesterday expressed the greatest satisfaction over the announcement that the Independent company will have coal on the local market soon. It has given the situation a much brighter aspect. Then, too, the Utah Gas & Coke company has issued circular letters to all local coal dealers advising them of the prospective output of coke they will put on the market in the next few weeks.

From the Kemmerer district yesterday came the information that the output of the mines in this field for July this year was 15,000 tons greater than the output for July a year ago.

E. A. WALL IN ANOTHER SUIT

Secures Restraining Order to Prevent Being Ousted From Mining Property.

E. A. Wall began action in the district court yesterday to compel W. J. Harvey, Edward Balback, jr., L. M. Lawson, Mathiida Heyden, Junius F. Wells and the administrators of the estate of Edward Balbach, sr., to compel them to allow him to exercise an alleged option on the Kemplare lode mining claim in the West Mountain district.

Wall says that he leased the property in 1902 with an option to purchase. He has since operated it under lease, which expired August 1. The contract provided for a renewal of purchase, Wall says, and on July 15 he asked to be allowed to buy and subsequently offered $50,000 for the property. This was not accepted and the suit is brought to compel either its acceptance or an arbitration as to the price.

It is asserted that Junius F. Wells has threatened to oust Wall from the property and a restraining order was issued by Judge Armstrong preventing such action until the present suit is determined.

BENEFIT FOR DICK.

Comrades Arrange for Outing of Newsboys at Saltair.

Arrangements are under way for a benefit for Dick Bicknell, the crippled newsboy, who daily wheels his chair about the streets of the city offering daily papers for sale. The outing will be held at Saltair. There will be sports and athletic contests of many kinds, for which tempting prizes have been secured. The money accruing from the enterprise will be given to Dick, who has been helpless for many years. Not long ago the boys chipped in and bought Dick a chair that may be propelled by means of handles. It cost a good deal, but there is nothing that costs too much for the newsboy when one of his comrades needs it.

Our Growth

This company shows a steadily increasing patronage, due to its strength, conservatism and general policy. It has added ten per cent to its resources in the past ninety days. If you have in mind the opening of a new account, either savings or checking, we cordially invite you to become a depositor.

RETIRING LINE FOR DETECTIVE

George Raleigh Severs Connection With Police Force After Long Service.

FOLLOWS HIS ASSOCIATES

DECLARES POLITICS IS CAUSE OF RESIGNATION.

George R. Raleigh last evening resigned his position as chief of detectives of the Salt Lake police department. The resignation is to take effect immediately. The resignation of Raleigh came as a natural consequence after the resignation of Chief of Police George Sheets. Raleigh and Sheets were charged jointly with conspiring in the robbery of the McWhirters.

Since the beginning of the Sheets case there has been a demand for the resignation of Sheets and Raleigh. The demand, of course, was directed more at Sheets than at Raleigh, but after Sheets had resigned Raleigh's scalp was sought vigorously.

In an interview last evening Mr. Raleigh said his resignation was not asked by any one in authority to do so; but he had been attacked so often by the partisan press that he thought it better to resign and get out of the whole fight, which, he said, was purely a political one. Raleigh reiterates his innocence in the McWhirter affair or any other alleged graft.

Is Under Charge.

Under the conspiracy charge, which is identical with the one which Judge Armstrong dismissed in the Sheets case, Raleigh was held to the district court by Judge Bishop on May 27. The evidence against Raleigh is somewhat indirect, the prosecution maintaining that his relations were such as to make him a party to any crime in which the chief was implicated. Parrent testified that he had showed Raleigh just how he and Bell had operated in fleecing their victims. The case is now pending in the district court.

Raleigh's resignation was written yesterday afternoon. It was merely a formal withdrawal from the police force. It was accepted by Acting Chief of Police Burbidge and later in the day the former chief of detectives turned in his star and keys and went home.

Long in Service.

George R. Raleigh was first appointed to a place on the police force in January, 1890. He served as jailer, patrolman and court baliff until the fall of 1896, when he was made detective and worked with George Sheets, who was then a detective. In August, 1898, together with a large number of other police officers, he was let out by Chief of Police Arthur Pratt. In 1902 he was reappointed as detective by Chief of Police Samuel Paul and in January, 1906, he was made chief of detectives by Chief of Police George Sheets.

A successor to Mr. Raleigh will probably not be appointed until a new chief of police is chosen by the council.

WIFE SUES ERRANT ERIK

Mrs. Carlson Says Husband Is Inclined to Visit Resorts With Other Women.

The misdeeds of Erik Gustave Carlson are set forth in a divorce complaint filed against him yesterday by his wife, Mrs. E. Elizabeth Carlson.

Association with other women staying away from home all night and cursing his wife when she complained against his conduct are among the charges made against him. When she chided him once about his paying attentions to promiscuous acquaintances, he is alleged to have told her:

"You may have the same privilege."

At other times he ignored her completely and allowed her to see him start off with other women for the resorts.

By reason of this conduct Mrs. Carlson says she has suffered great mental distress. Erik Gustave is described as a "strong, vigorous young man, capable of earning $65 a month."

There are three minor children and the plaintiff asks for $25 a month alimony, $40 attorney's fees and the custody of the children. They were married October 18, 1900.

THEFTS IN NUMBER.

Six Burglaries Reported in Single Day.

Numerous burglars have infested the city the past few days. Six burglaries were reported to the police yesterday morning. The residence of W. T. Mitchell, at 215 West Fourth North street, was broken into while the family were at the circus, and two gold watches, worth $250, an Elks' charm, and a watch fob, worth $150, were stolen.

At Fifth North and Center streets, the home of Harry Manning was entered by thieves, who left without stealing anything.

From the residence of H. Osbourne, 335 Center street, a gold watch was taken.

L. Christensen of 364 Center street reported that a gold watch had been stolen from his residence.

From the residence of Jacob F. Gates, of 672 North First West street, a gold watch and $5 in cash were taken by burglars.

A private safe may be rented in the fire and burglar-proof vaults of the Salt Lake Security & Trust Co., 32-34 Main street, $3.50 per year.

BADGER CLUB BANQUET.

Former Residents of Wisconsin Will Hold Reception.

The Badger club, which is an organization composed of persons who formerly were residents of Wisconsin, met last evening in the office of E. D. R. Thompson.

The entertainment committee announced that it will meet Thursday to decide upon the arrangements for a banquet and reception. The committee consists of F. C. Richmond, Percy M. Cropper, Mrs. E. A. Leatherwood, Mrs. Kate Malone and Miss Katherine McGovern.

The society elected H. V. Van Pelt historian. The club has now about 150 members enrolled, and hopes soon to have registered all of the Badgers in the city, who number approximately 300.

DIES AT FORT DOUGLAS.

Infant Daughter of Captain and Mrs. Palmer Succumbs Suddenly.

Mary, the 18-months-old daughter of Captain and Mrs. Guy Palmer, died yesterday morning of whooping cough. The little one had been ill with the disease, but it was not thought to be serious until it caused the choking spell which resulted in death.

Mrs. Palmer is now at Fort Douglas with her children, and Captain Palmer is with his regiment, the Thirteenth infantry, in the Philippines. The funeral will take place today, and services will be conducted at the grave only. The burial will be in the Hooper lot at the City cemetery.

Wandamere has the best dance floor, boats, shoot the chutes and moving pictures in Utah.

CAME WEST SEEKING HEALTH; FAMILY NEAR STARVATION

Suffering with tuberculosis and unable to work, with a young wife, a baby and two other small children, and only $8 between them all and starvation, Shedrick Mowery, 358 West Eighth South street, applied to the county commissioners yesterday for aid.

He said that because of his ill health he had been unable to work, and that for the past six months his family had been on the verge of starvation. He asked if he could not be sent with his family to Omaha, where he has relatives. Mowery came west a year ago to seek health and fortune.

"Just get my wife and children a ticket," he told Commissioner Clinton, "and I will ride the rods back to Omaha and save my fare."

After investigating the case, Clinton offered to send the family back at the expense of the county, and Mowery was so overcome with joy at the prospects that he broke down and cried. When he recovered his composure he tendered Clinton his last $8, saying that it would help pay for the tickets.

"How will you eat on the train?" he was asked.

"I will beg some crackers and milk, or do something like that," replied the sick man.

The family left last evening for the old home.

SALT LAKE STORK IS OVERWORKED

Record for July is 213 Babes, as Against 161 for Previous Month.

July Vital Statistics.

Births	213
Deaths	88
Marriage licenses	115
Contagious diseases	62

The stork put in an exceedingly busy month during July, as he brought 213 youngsters to Salt Lake, as against his record of 161 for June. The figures given above are taken from the regular monthly report of the department of health, made public by Dr. M. R. Stewart, health commissioner.

The number of deaths is three above the June record.

An interesting comparison can be made from the tabulated causes of death during the respective months. During June spinal meningitis headed the list of fatal diseases, claiming seven victims. During July cancer was the most deadly, claiming seven, and meningitis killed four.

The number of deaths from external causes in July were six, showing a decrease of nine over the June record. Of this number three were accidental, one person was drowned and two came to their end by "other external violence." There were no suicides, while in June five persons ended their lives in that manner.

As usual the male population suffered the heaviest in the mortality list, 49 men and 39 women dying during the month. The birth statistics also are favorable to the gentler sex, as of the 213 births 103 were males and 110 females.

The report of William G. Margetts, sanitary inspector, shows that 443 complaints were received and 2,673 inspections made. Thirty-five horses and 127 dogs were destroyed at the crematory, in addition to 327 loads of garbage.

Walter Frazier, food inspector, condemned 2,537 pounds of food, which is an increase of 890 pounds over the June record.

In the list of contagious disease, diphtheria was the most prevalent, there being sixteen cases of that disease. Scarlet fever comes next, with 12, and typhoid fever next, with 11.

ORPHEUM'S NEW SEASON.

Sale for Next Week Starts Today at Box Office.

The Orpheum box office opens this morning at 10 o'clock for the advance sale for the opening show of the third season, which begins Monday night, Aug. 12, with the following bill of vaudeville: The Great Bernar, Emil Hoch & Co., Jack Wilson Trio, Anita Bartling, Bert and Bertha Grant, Bowen, Walters and Crooker, and the Kinodrome.

Industry is the watchword at the Orpheum theatre these days. On the stage a crew of carpenters and scenic artists are working on new sets of scenery and when the house opens Monday night there will be, in addition to the repaired and repolished old sights of last season, four entirely new stage settings. In the auditorium of the house the old carpets have been taken up, and new, heavy Brussels ones are being relaid in their places, and the draperies are being cleaned and rehung.

The rear wall has also been repainted so that the general appearance is one that will please the eye. New electric fans are being installed in every convenient nook, so that during the warm weather the patrons will experience no inconvenience from the heat.

In the entrance lobby, as well as in the retiring rooms, new rich-colored heavy red carpets are being laid, and the decorations are being cleaned and retinted, and all will be in readiness by Monday night, when the doors open for the third season of advanced vaudeville at the Orpheum.

ACCUSED OF GAMBLING.

Six Men Alleged to Have Violated Law Regarding Poker Playing.

Six men were arrested at No. 74 East Second South street at 2 o'clock this morning, charged with violating the anti-gambling law. The men are F. W. McNicol, W. W. Harrison, H. S. Borton, Hspsmato, a Japanese; Lee Field and J. Redmond. Redmond is the complainant. He says he lost a dollar in a crooked game and he wants the law invoked on those who took from him his money. McNicol is the bartender. He is accused of having operated the game. McNichol was held under $100 bail and the others under $25.

Young man with three years' hospital experience wishes private nursing. Address 465 Ninth East. Independent 'phone 2576.

There's an indescribable sensation of refreshment in the consistent use of

Schramm's Theatrical Cold Cream

It is soothing, too, and healing to the most aggravated case of sunburn which few escape who lead an outdoor life in the summer.

If you are motor mad, it is absolutely essential.

In pound packages it costs 75 cents, but you can buy smaller amounts at 50 and 25 cents.

SCHRAMMS
"WHERE THE CARS STOP."

LOCAL BRIEFS

"DAVE" O'NEAL HERE.—Dave O'Neal, a mill man, who has charge of a shift at the Newhouse mines and smelters at Newhouse, is visiting in this city.

PROF. EATON TO RETURN.—George A. Eaton, principal of the Salt Lake High school, has fully recovered his health and will be able to return to his work when school opens, Sept. 2.

ATTACHMENT SUIT.—The Western Loan & Savings company has filed an attachment suit against the Hamilton Fire Insurance company to recover $2,000 alleged to be due on three policies.

FAREWELL ENTERTAINMENT.—A farewell entertainment in honor of Axtel Neilson, who is about to depart on a mission to his native land, will be given Friday evening, Aug. 9, 1907, in the Ninth ward annex.

TEACHERS' EXAMINATION.—An examination for county teachers throughout the state will be held at the various county seats today. The Salt Lake county examinations will be held at 1900 State street and at Sandy.

GOES TO BALTIMORE.—F. H. Ferndall, former superintendent of the Canyon Crest ranch, will return to his old home in Baltimore, where he will assume his former position as superintendent of the Baltimore House of Refuge.

SUPT. NELSON RECOVERING.—A. C. Nelson, state superintendent of public instruction, recently operated on at the Latter-day Saints' hospital, is steadily improving and, it is expected, will be able to be about again in a short time.

BIG FRUIT CROP.—D. M. Landreth, vice president and general manager of the Utah Irrigation & Power company of this city, will realize $25,000 from fruit from his Palisade, Colo., fruit farms this season, the principal revenue coming from peaches.

MUSIC REHEARSAL.—This evening at 8 o'clock in the First Methodist church a large Young People's Christian Union chorus will rehearse music to be used in the big meeting with Dr. Torrey, the world-renowned evangelist, in the same church next Tuesday evening.

SIX HILLS INCORPORATED.—The Hill Trout company has filed articles of incorporation with the county clerk. The company purposes to raise, buy and sell fish of every kind. The capital stock is $25,000, with shares at $10 each. The stockholders are William N. Hill, William H. Hill, M. N. Hill, A. M. Hill, J. H. Hill, J. F. Hill, all of Mill Creek.

MAY BE STRIKE AT BINGHAM

Miners Meet and Decide to Demand an Increase in Wages—Also Union Recognition.

Rumors of an impending strike of the miners at Bingham are rife. It is reported that the local union of miners met last Tuesday night and decided to demand an increase of fifty cents in the wage scale and recognition of the union. Formal demands have not yet been submitted to the employers. Another meeting is scheduled for tomorrow night at which the miners are expected to determine on the time to be given the employers to act on the demands. After the meeting formal notice of the demands of the miners is expected.

Owing to the decline in the price of copper, which has been sharp of late, it is believed that the employers will hesitate to grant the miners an increase. Unless a compromise can be effected a strike of the miners seems probable.

COUNCILMEN INSPECT LINE

Officials of Street Railway Take City Fathers Over West Side.

Parley L. Williams, general counsel of the Utah Light & Railway company, and General Manager Joseph S. Wells escorted a half dozen members of the city council over the west side lines of the company yesterday.

The councilmen were shown exactly what the company wants to do on the west side this summer under the old and prospective new franchises. The trip completed the inspection of the lines about the city by the members of the council.

WILL BUILD SANITARIUM.

A. Fred Wey and James Breen Close Option on Beck's Hot Springs.

The option on Beck's Hot Springs, north of Salt Lake, taken several weeks ago by A. Fred Wey and James Breen, the latter of Montana, was taken up yesterday and $60,000 was paid the Zion's Savings Bank & Trust company for the property.

Mr. Wey announces that preparations will be made at once for constructing a large pool at the springs and for a hotel and sanitarium.

BRONCHIAL COUGHS

Breathe Hyomei's Healing Air and All Irrigation Will Be Quickly Cured.

The most irritating and annoying form of cough is that termed bronchial. People subject to bronchial troubles whenever there is a change in the weather or they are exposed to a draft will "catch" a bronchial cough, which is very disagreeable, irritating and annoying.

Bronchial troubles cannot be cured by stomach dosing. The medicated air of Hy-o-mei is the only treatment that reaches the affected parts and gives relief and cure. It destroys all the disease germs that are present in the nose, throat and lungs, soothes and relieves the irritated mucous membrane in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of the mucous membrane lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mei.

If there is any doubt in your mind as to the power of Hy-o-mei to cure bronchial troubles so that the system will resist coughs and colds, the unusual way in which it is sold by F. C. Schramm should dispel that doubt. He agrees to refund the money to any purchaser of Hy-o-mei who is not perfectly satisfied with the results following the use of the remedy. He takes all the risk, and if the remedy does not help you it does not cost a penny, while if it cures, the expense is nominal, for a complete Hy-o-mei outfit is sold at only $1.00.

For sale by F. C. Schramm, corner First South and Main streets, "Where the cars stop."

CITY FINANCES IN DISAPPEARING ACT

General Funds Reduced to $22,935 on July 31, Says Treasurer.

BIG INROADS FOR MONTH

PITTANCE REMAINS WITH NO ACCOUNT OF OVERDRAFT.

City Treasurer's Balances Compared.

Fund.	July 31.	June 30.	May 31.
General	$ 22,935.42	$ 81,637.30	$102,072.70
Special	116,362.50	92,873.03	85,388.52
Bond	292,134.61	328,799.80	351,219.03
Waterworks	8,614.56	22,177.74	17,139.99
Meter deposits	8,417.30	8,403.55	8,389.40
Sinking	35,182.39	35,182.39	35,182.39
Library	1,947.86	2,850.43	3,599.35
Totals	$485,595.04	$571,932.24	$592,932.24

The above table tells better than words can the condition of the city treasury after 17 months of "American" "reform" methods.

In the general funds of the city, comprising the contingent and several other minor funds, there is at present but $22,935.42 in cash. On May 31 there was $102,072.70 in these funds, showing a decrease of approximately $80,000 in the cash on hand during the past two months.

It must be understood that the treasurer's statement does not show the overdraft, as that official is only asked to account for the funds in his possession and has nothing to do with figuring in outstanding warrants. That is the auditor's job, and he showed that with $81,637.30 in the general funds, July 30, those funds were overdrawn $263,000 because many outstanding warrants have not been presented for payment.

The $22,000 in cash is all the actual money the city has to run on until the fall taxes come in. The amounts in the other funds shown can only be used for special purposes and cannot be used to help pay general running expenses. The bond fund will ultimately all go to P. J. Moran and J. P. Kennedy, the contractors who are putting in the new water and sewer systems. Then it will not come within $200,000 of meeting the obligation of the city in this direction and the additional amount will ultimately have to come out of the contingent fund of 1908, which already is badly crippled, as it must be called upon to pay the 1907 indebtedness, which will amount to nearly $300,000—more than the entire revenue expected from this fund.

The table of statistics given above were given out by Frank Swenson, city treasurer.

COOLER TODAY—MAYBE.

Dr. Hyatt Still Talking "Lows" and "Highs."

The hot weather flag was run up over the weather office yesterday, but it did not flap in the breeze because there was no breeze to stir it. The same old high pressure is busy at work in this vicinity, and will remain in evidence for the rest of the week at least, according to Dr. Hyatt, with a good chance for the present warm weather mark to be broken.

The low barometric pressure continued over the Rocky mountain plateau and upper lake region yesterday, causing thunderstorms and showers in Utah, New Mexica, Missouri and the Ohio valley, with a very heavy fall at St. Louis. Precipitation was also reported along the Gulf and Atlantic coasts. High pressure was reported over the upper Mississippi valley, attended by fair weather.

Abilene, Tex., nearly managed to break into the 100 class yesterday, but stopped 2 degrees shy. Phoenix and Yuma were the only places where 100 or over was recorded, but the list of 90 or more was greatly increased over a week ago, when cool weather prevailed. Boise was 94, Denver 92, Dodge and El Paso 94, Grand Junction 92, Little Rock was also 94, with Kansas City 2 degrees cooler. North Platte was in the 94 class, Oklahoma 92, Omaha 92, St. Louis 92 and Montgomery 91, were a few other warm spots. There were many other cities that just managed to get within the 90 mark. The continued high pressure over this section should cause generally fair weather Thursday, and slightly cooler. The maximum recorded in Salt Lake yesterday was 93, and the minimum 72 degrees.

HOLLIS OLSON INCORRIGIBLE.

Hollis Olson, the Murray boy who was sent to the Ogden industrial school by Judge Gowans of the juvenile court because he preferred to go there rather than report to the probation officers, was not charged with stealing a bicycle, as stated in The Herald, but was simply accused of being incorrigible and refusing to do the bidding of the court.

FRENCH PROPOSALS WIN.

The Hague, Aug. 7.—The French proposals to prohibit the crews of warships from being paid prize money was discussed today before the committee on the Geneva convention, and carried by 16 votes to 4. Fourteen delegates abstained from voting, and twelve were absent. Joseph Choate of the American delegation pointed out in this connection that the laws of the United States already prohibited the paying of prize money. Another proposal made by France that the owners of captured merchantmen should be indemnified was passed. Fourteen delegates abstained from voting on this measure and twelve were absent.

FRED

Wey announces that he and his associates will expend something like half a million dollars in making a modern sanitarium and beautiful resort at Beck's Hot Springs.

This is another step forward for Salt Lake City. There is no question that the medicinal qualities of the waters are as excellent as those of any famous hot springs in the United States. Then there are the waters of the Great Salt lake to give added attractions. Salt Lake has scarcely begun to develop her resources. To appreciate this city, you should take a trip to other places and compare conditions. There is more solid, substantial foundation for growth here than in any other western city.

And the growth is in progress.

Get in and share the profits. Buy real estate, and as the city grows, the value of your real estate will grow.

We have all kinds of investment and speculative property, and the prices are right.

We are associated with another great step forward. The launching of the FEDERAL HEIGHTS project marks an epoch. This will be the finest residence section of Salt Lake City, and we are agents. Go out to the east end of Brigham street, and see what vast improvements are going on. The prices are low, too.

We have the money to loan, at low rates, if you have good real estate security.

Try our "JUST LIKE RENT" plan, and own your home. It's so easy you'll be wondering why you didn't do it before.

DRUGGISTS MEET NEXT WEEK

Sessions of State Association to Be Held at Commercial Club Tuesday and Wednesday.

Salt Lake druggists are preparing to entertain between 100 and 150 members of the state association of druggists at the annual convention of the latter here next Tuesday and Wednesday, at the Commercial club.

The members of the local association met yesterday at the club and decided upon the program for the convention. President S. W. Badcon of Ogden will preside. New officers will be elected Wednesday afternoon. It is expected the business of the convention this year will be largely technical. Tuesday afternoon the visiting druggists will be taken to Saltair and Wednesday night a banquet will be held at the Commercial club.

METAL WORKERS' OUTING.

Baby Show Will Be Feature of Picnic at Lagoon.

A grand baby show will be the feature of the outing of metal workers to be given at Lagoon on Saturday, Aug. 17. The metal workers are a home-loving and a home-building people, and consequently the entries in the baby show will unquestionably be large in number and surpassingly handsome.

In addition to the baby show there will be all sorts of sports—foot racing, sack racing, tub racing, three-legged racing, one-legged racing—in fact, all kinds of and varieties of racing. A novel event will be the kangaroo court. There will be a tug-of-war and a baseball game.

The picnic will be given under the auspices of the following trades craft: Machinists, blacksmiths, boilermakers, carmen's, boilermakers' helpers and moulders.

METEOROLOGICAL REPORT.

Yesterday's Record at the Local Office of the Weather Bureau.

Maximum temperature, 93 degrees; minimum temperature, 72 degrees; mean temperature, 82 degrees, which is 5 degrees above normal. Accumulated deficiency of temperature since the first of the month, 23 degrees; accumulated excess of temperature since Jan. 1, 201 degrees. Relative humidity, 17 at 6 p. m. Total precipitation from 6 p. m. to 6 p. m., .01 inch; accumulated excess of precipitation since the first of the month, .05 inch; accumulated excess of precipitation since Jan. 1, 3.19 inches.

S. D. Evans,
Undertaker and embalmer, removed to new location, 48 South State street.

BERRIES NEARLY GONE.

Produce Market Shows Effect of Brisk Demand.

Market Row is on the fag end of the season as far as berries are concerned. The berry supply, although sufficient for the demand, is showing the effects of a steady summer drain, and while a fairly good quality is presented, it is not up to the standard of a few weeks ago. Strawberries have practically disappeared, but raspberries, red and black, are on the market selling at 15 cents a box. Some grades can be had for three boxes for a quarter.

Gooseberries, currants and other fruits suitable for canning have been going rapidly, the Salt Lake housewives feeling that now is the time for their winter preserves. The peach season is near at hand and tomatoes will soon be plentiful.

Onions, cabbages, cauliflower and other garden produce are selling at the same prices that ruled last week.
