The various projected enterprises and the prospects of a general resumption of work has had the effect of stimulating business to a slight degree.

When James Ivers went home at noon today he found his wife lying on the floor prostrated with paralysis, one side being completely paralyzed. She is somewhat improved this evening.—Park Record.

Siker, who murdered Morano in Parley's canyon, the account of which was published in last week's Times, was captured in Park City last Sunday morning and taken to Salt Lake.

Stockmen on the Bear river complain that nearly all the cattle that feed on this range go blind in one eye. What causes this is a mystery, and why but one eye per critter is affected is stranger still. Nevertheless, such is the case.

An Arabian skirt showed at Clift's hall Tuesday afternoon and evening. The troupe was composed of one man, wife and daughter. The admission fee was 25 cents, and those who attended were raped in for about 24 cents.

The dance given at the Pavilion Tuesday night by the Republican toilers was a successful party in every way. About forty couples attended and a good time was had. Too refreshments were pronounced excellent. Dancing was kept up until 3 p. m.

The quiet, warm days of autumn are here, and we are now enjoying the prettiest weather of the year. The nights are warm and pleasant, and the year is waning amongst the scenes of brilliant autumn leaves and undescribed quietness.—Mt. Pleasant Pyramid. [Undisturbed quietness here.]

Another specimen of coal that cannot be excelled in quality was brought to this office by W. F. Smith. It is from a new drift in the Cullen Springs mine in Green creek, now being worked by W. W. Cluff for the Utah Company. It was encountered in the new works, but after running through a "roll" in the mine. A "roll" or what is sometimes encountered in a mine in following the vein and is a solid rock, or the same as a "horse," frequently encountered in a gold or silver mine. This "roll" was about twenty feet thick, and is located in the lower level drift running west. A

[illegible] coal has been taken directly through it, the specimen above referred to being taken out just on the opposite side of this body of rock. It is now on exhibition in Tax Times window.

Following is the ore shipments from the Marktimes sampler for the past week: Anchor concentrates, 405,170; Silver King concentrates, 25,000; Various concentrates, 25,570. Total pounds, 455,740.—Record.

Dun's Review says that in Salt Lake retail sales are generally larger than last year, but only in groceries and provisions compare favorably with normal years, in dry goods, millinery, clothing and furnishing lines 20 per cent less, in hardware 20 per cent, and in furniture and house furnishing goods 30 per cent. The business done is upon a safer basis.

The Green creek school starts up on Monday next. Owing to the large number of people attending the Brick school, it was found necessary to open the Rock school one week earlier than was intended, and accordingly the Rock school was opened up last Monday. All the schools are progressing nicely, with a very large attendance. The Brick school still has nearly 100 on the rolls.

If your local paper has troubles on your own a little in performing its mission, don't get your back up and abuse the editor, but step and take a long breath, and think for a season, and see if you can't remember some of its favors and kindnesses it has shown you in the past. Then reflect that it may not be long before you may want a favor again.—Brigham Bugler.

A couple of the young friends of Ray King surprised him at the residence of Mr. and Mrs. F. M. Pinner last Friday night. Games, etc., were indulged in, refreshments served, and a very pleasant evening passed by the young folks. Those present were Maude Hudson, Ella Huffaker, Mattie Salmon, Mary Williams, Annie West, Howard Beard, George Williams, George Edgington, Brigham Roberts, Ray King, Frank Pinner.

The last contribution to the vegetable exhibit in our window is Mr. William J. Brown of Hoytsville. This morning he brought in a cross between that lately startled us with surprise. One beet in the collection weighed seven and a half pounds, and one carrot weighed three and a half pounds. They were raised on his farm in Hoytsville, and would take a prize anywhere. If the interest keeps up we will have a little county fair all our own at the Tax Times office.

One of the handsomest pieces of machinery that will be on exhibition at the Territorial fair is the miniature engine constructed by Mr. Andrew Sneddon of Coalville. It is perfect in every detail. G. Y. Bullock took it in to Salt Lake Wednesday to place it among the exhibits at the fair. This model demonstrates the fact that Mr. Sneddon is a mechanic of extraordinary ability. The engine was constructed by Mr. Sneddon between his 16th and 19th year.

A couple of strange looking people passed through Coalville on horseback last Saturday. One was dressed as a woman, but it is thought this was only a disguise, as several say they caught glimpses of a man's pants under the wrapper of the rider; besides, the fact of this particular individual are described as being of huge proportions for a woman. A bundle of blankets was strapped as behind each rider, and the horses looked jaded and bore evidence of a long hard ride. They went through the city in a hurry, headed towards Echo.

Two pictures have this week been on exhibition in the Co-op window. They are from the brush of Mr. George Beard, and by all critics are pronounced perfect gems. One is a drawing of Jenny's lake and the other a sketch of Jackson's lake, both in Jackson's Hole, Wyoming. The distance, relief, pine trees and finish are excellent, and the wonderful Teton peaks look up in the distance so clearly that one almost imagines he is gazing at a real instead of a painted scene. It will be remembered that these wonderful peaks are innumerable, and we understand the government has offered a reward to any man placing a flag on the peaks. Game is abundance abound in this region to satisfy the vast crowd. These pictures were taken to Salt Lake Wednesday and will be on exhibition at the Territorial fair. They are beauties and we hope to see Mr. Beard return with a blue ribbon attached to each.

The frequent references that have been made in Tax Times of the fine specimens of vegetables and fruit brought in, has awakened quite an interest among our growers, which is just the object we had in view in making reference to the exhibits. It demonstrates the fact that, once started, a county fair would be an unqualified success. Last week we made mention of some fine potatoes which were grown by William Boyer of Upton, and asked who could beat them. This notice caught the eye of Robert Rippon of Coalville, who this week brought in sixteen of the finest potatoes the writer has ever seen. We did not believe the specimens brought by Mr. Boyer could be excelled, but must admit that those Mr. Rippon sent in are entitled to the blue ribbon. They were large, smooth and solid, and would average one pound and a half each. The entire exhibit was taken from one short row in his garden. Next.

Nothing Strange

Intelligent people, who realize the important part the blood holds in keeping the body in a normal condition, find nothing strange in the number of diseases Hood's Sarsaparilla is able to cure. So many troubles result from impure blood, the best way to treat them is through the blood. Hood's Sarsaparilla purifies the blood.

Hood's Pills are the best after-dinner pills, assist digestion, prevent constipation.

Ten dollars was remitted on the taxes of James Robinson, Sr.

Nineteen street lamps and six extra globes were ordered purchased and placed in the most serviceable places.

The matter of repairing a certain bridge across the road in Spring Hollow was referred to the committee on streets, alleys and bridges.

The amount of $5 was appropriated to the city recorder as a stationery contingent fund.

Adjourned. Benediction by Councilman Clark.

The County Fair.

Upton, Oct. 2, 1884.

Editor Times:—In your issue of September 26th reference is made to the prospects of Summit county and the importance of holding a yearly fair for the exhibition of products of the county. This is a move in the right direction, and Summit county is well prepared to meet the necessity of a county fair. The great results to be derived from exhibits of this county's productions should not be overlooked. It should be the aim of the people of Summit county to bring together its productions and place them on exhibition in the county fair. This enterprise would give emphasis and force to home production, such as live stock, horticulture, mine productions, education, painting, women's work, and many other branches of home industry that would be placed on exhibition. Such a move will create a just ambition to excel.

It is a known fact that coal in Summit county is of the best quality, mineral products need be the manufacture of glass, and fruits and vegetables, etc., should be placed on exhibition before the public. The people of Summit county should not shun [illegible] and G. Wilde [illegible] opportunity pass by.

It was said years ago [illegible] were could not be raised on the Weber river. Look at the beautiful fruit raised in Echo by Mrs. George Gilbert and placed in Tax Times office on exhibition.

This matter should receive the earnest consideration of the people of Summit county. Your correspondent believes it is a necessity to have annually a fair for the exhibit of home productions.

JOHN CLARK.

Cattle Bought or Sold on Commission.

We will make our last shipment of cattle this season to Omaha on October 15, 1884. Our object is to furnish a market for all kinds of fat cattle. Our experience last fall in shipping the largest number of cattle at one time brought better returns, especially on cows, bulls and stags than any other shipment from Summit county. Jesse Parkinson of Peoa will look after our business at the south end, F. H. Wright of Coalville the center and Robert Young of Wanship the south end of the county. We guarantee correct and prompt returns. For commission rates see

JESSE PARKINSON,
ROBERT YOUNG,
F. H. WRIGHT.

Thoroughly Comfortable.

Passengers destined to the prominent cities of the Missouri River should patronize the Chicago, Utah Pacific and Northwestern Line. Magnificent Pullman and Wagner sleeping cars, elegant Pullman and Northwestern dining cars, free reclining chair cars, handsome day coaches and comfortable Pullman colonist sleepers.

PERSONAL.

Hyrum Hale is laid up with a felon on his hand.

Officer Stagg of Echo was up on a brief visit to-day.

Mr. Arthur Brown of Wanship was a visitor in Coalville to-day.

William Williams is suffering from a severe attack of typhoid fever.

Mr. Ferns, one of Park City's successful merchants, was in Coalville Monday.

Mrs. G. F. Olney of Echo is visiting with her parents, Mr. and Mrs. Lusty, in Coalville this week.

George Beard and G. Y. Bullock went up to Salt Lake Wednesday to attend the fair and conference.

Dr. E. M. Fulshaw was in town several days this week. He did considerable dental work while here.

Mr. John Brown of Hoytsville was in Coalville Tuesday seeking information as to the exact city lines.

Hon. Alma Eldredge returned Monday from a week's trip in the Uinta country, where he has been making political speeches.

James F. Bromley of Echo came up Tuesday. Mr. Bromley expects to send about 400 fine wethers to the eastern market in a few days.

Mr. Samuel Fletcher and two sons of Rock Springs, well known in Coalville, were out on a visit this week. They went to Salt Lake on business.

Sheriff Harrington was in Coalville Monday. He just returned from a trip to Salt Lake where he went to take Marsh, one of the prisoners who was in jail here, before the grand jury. The prisoner is charged with horse stealing.

J. T. Hudson returned the last of last week from his trip to Omaha with his cattle. Mr. Hudson took about 3000 worth of stock back with him, and we understand did fairly well with them.

Territorial Inspector of mines J. R. Rawlings came in yesterday on a short visit of inspection of some of the coal mines. When Mr. Rawlings made his official visit here about a month ago, he left orders for certain necessary improvements to be made, and his presence here at this time is to satisfy himself that the orders have been complied with.
