LOCAL BREVITIES.

Dance in the I. O. O. F. Hall to-night.

Ward conference next Sunday. Everybody invited.

House cleaning, seed planting and bicycles are the order of the day.

There is more activity in clearing up pre-mores this season than for years.

The weather clerk has resigned, and his successor is starting off with a good record.

The goods of the Hopkin Mercantile Co., Echo, will be sold at Sheriffs sale to-morrow.

Born, Friday last, to the wife of Orson Arnold, a boy. Mother and child doing well. This makes her No. 6.

Verily, Coalville is fast becoming a metropolitan town. The festive scissors grinder has made his appearance.

The report of the sad event of Fredrick Hudson, one of our best young men, has cast a gloom over the entire settlement, says Bp. John Clark of Upton.

J. L. Mitchell of the Cash Bargain Store has added bicycles to his stock. He is agent for the "Century," a high grade wheel, and has some new on hand. They are beauties.

The little six-year-old son of Thomas Beer fell off a wagon yesterday and the front wheel passed over his chest. The little fellow does not appear to have been injured, which borders on the miraculous.

The Board of County Commissioners, together with the Assessor met with the State Board of Equalization at Park City Wednesday for the purpose of equalizing taxes. They finished their work Thursday.

It is currently rumored that the Park City bands are negotiating for the City Park and Pavilion in Coalville, to be used once a month for concerts, picnics and dances, on which occasions excursion trains will come down from Park City.

Thomas Wright, Jr., who has been working at Park City in the mines for some time, was brought down to Coalville Tuesday very ill with pneumonia. He was taken to his father's home in Spring Hollow, where he now is, and we are pleased to note that he is much improved in health. He will not again return to Park City, but will go out on the Yellow creek ranch with his family as soon as he is in good health again.

The New West school with their teacher, Miss F. E. Baker, took their baskets filled with eatables and spent Thursday afternoon very pleasantly under the big ledge of rocks.

George Edgington has changed the complexion of his house and front fence by painting it pea green. It improves its appearance materially. The house has also been repaired and thoroughly renovated.

The official colors of the Pioneer Jubilee will be sage green, yellow and red the sage green being typical of the sage brush so plentiful in Utah, the yellow of the sunflower, and the red of the foothill blossom known as the Indian's paint brush.

Mrs. Jane Griffiths, an old and much respected citizen of Snyderville, died at her home at 11 o'clock Sunday. The lady was not exactly a pioneer, but came very near being on that list. She was born at Salt Lake a few months after the pioneers pitched their tents there.

Watermaster Campbell has posted notices informing all owners of water ditches to clean them out on or before April 20th. We hope the order will be obeyed in every instance, and that not a ditch will be left uncleaned to breed miasma in the community.

Born, in Park City, Sunday, to the wife of Reig Snyder a daughter. In consequence of this, Attorney Bismarck Snyder of Coalville has changed his will and added another clause thereto. Bismarck proposes to distribute his accumulations equally among his nephews and nieces.

Messrs. McGinnis and Weber of Ogden were in Coalville Monday in attendance at a meeting of the directors of the Pennsylvania Mining Company. They decided to buy up a number of shares of the capital stock in order to push development work and purchase machinery. The mines are located in Beaver Creek.

Mrs. Elijah Swainston gave a very pleasant birthday party to a few friends Wednesday night, who were right royally entertained. Mrs. Swainston was 38 years of age on that date. Social conversation, games, music, and excellent refreshments made up a program that was thoroughly enjoyed by the company. It was 1 o'clock when the guests reluctantly took their departure, wishing Mrs. S. many more such anniversaries.

Improvements.

THE TIMES is more than glad to note the improvements that are well under way in and about Coalville. The new walk to the courthouse is nearly finished, and is a creditable piece of work.

Messrs. Algood, Hancock and Rees have nearly completed their substantial Lethbridge and walk across the Weber, which by the way, is nearly large enough for a wagon bridge, and built to stay.

Gomer Thomas has almost completed the work of grading the knoll off the courthouse hill, the ditches are being put in repair, poll tax work is under way, and altogether, a great deal is being accomplished.

Recovered the Horses.

A week ago THE TIMES mentioned the fact that Sheriff Lindsey of Summit and Sheriff Abbott of Davis county passed through Coalville Sunday, but that we could not then state their mission.

We have since learned that they were after some four sets of harness that had been stolen from Bp. Secrist of Farmington.

The harness had been shipped from Ogden to Coalville as household goods and consigned to parties who are unknown here, and supposed to be fictitious names. The property was replevined and returned to the owner at once.

A Pleasant Surprise.

On the evening of April 12th Father Hayes, who resides at the narrows, Chalk Creek, was the recipient of a very pleasant surprise at his home, the occasion being the anniversary of his 80th birthday. After many tokens of respect were tendered, Father Hayes responded with a short speech of thanks for the honor. A well prepared repast was enjoyed by all present and the balance of the evening was spent in songs, recitations and dancing, in which the older people took a very active part. Those present besides the family were Mr. and Mrs. Staples, Mr. and Mrs. Mortlo, Mr and Mrs. Ellinsworth, Mr. and Mrs. Wilson, Mr. and Mrs. Steele, Mr. and Mrs. Clark and a host of young people. After a very enjoyable time the parties returned to their several homes early in the morning. J. C.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is the best medicine in the world for bowel complaints. It acts quickly and can always be depended upon. When reduced with water it is pleasant to take. Try it, and like many others you will recommend it to your friends. For sale at 25 and 50 cents per bottle by John Boyden & son.

S. B. L.

The monthly meeting of the S. B. L. was held at the residence of Mr. and Mrs. Wm. Parmley Wednesday evening and was decidedly a successful affair. Every number on the program was handled with skill and credit, and not a single obstacle arose to even ruffle the surface of an evening of perfect enjoyment.

The refreshments were excellent and served in the usual graceful style by the ladies of the club. Mr. and Mrs. Parmley proved to be delightful entertainers, and the club and their guests were sorry when the time to depart arrived.

Interest in literary work has increased with the membership of the club, and a more successful ladies' club has not been organized in the state.

At the appointed time the president, Mrs. John Callis, announced in turn the following numbers, which, as before stated, were splendidly rendered:

Review of Irish history by T. L. Allen.

Selection, "Little Tim," by Mrs. Lena Thackeray.

Instrumental music, by Mrs. J. T. Holton.

Address, "Growth of Liberty in England," by John Callis.

Reading, "My Wife," R. J. Burdett, author, by Mrs. C. I. Wheaton.

Duet, "Larboard Watch," John Callis and F. M. Pinnes.

Those present as guests, besides the honorary members were Mr. and Mrs. E. Brown of Park City and Mr. and Mrs. J. H. Salmon.

These Lectures

The principal attractions in Coalville this week were the lecture delivered by Mrs. Van Fleckelstein Mountford at the Stake House Monday and Tuesday evenings. A large stage had been constructed for her accomodation, and the house had been tastily decorated.

Monday night her subject was "Village Life in Palestine," and besides possessing talent, a powerful and well trained voice, she is gifted with unusual dramatic ability. The costumes and illustrations were very fine, and she made clear many points in the Bible that a great many have heretofore been unable to understand. The subject embraced a large number of biblical points and illustrations.

On Tuesday night her subject was "City Life in Jerusalem," and like the former lecture, was interesting, instructive and highly appreciated.

To sum up Mrs. Mountford as a lecturer, we would say, in her own language, she has been well "salted, salted and swaddled."

Although the house was well filled on both occasions, and a special train run from Park City Tuesday, we understand no profits were realized here, owing to the heavy expense necessary to carry out her program.

She left Wednesday morning for Provo, and will shortly take her departure for England.

The Telephone

At last it begins to look as if we were to have the telephone line to Park City, and that in a very short time.

On Monday J. E. Greene and F. H. Wright started out as a final effort to all that could be done in the matter, and were so successful in getting promises of work, that on Wednesday a letter was dispatched to the company asking them to send out a man on the (Friday) to direct the work of putting up the poles and stringing the wire.

Satisfactory progress cannot be made unless a force of at least twelve men are at work, and it is estimated the poles will be in position as far as Wanship within five days and from there will be immediately taken up and carried on along the line to Kamas, where connection will be made.

This will give us a most excellent service, as the route embraces all the towns up the river, having a connection with Park City.

It is hoped that such a service should be in operation, and all will rejoice when it is in working order.

The citizens who have worked so hard to establish the line are deserving of all praise and credit for their efforts.

A Good Work

Tuesday the members of the City Council examined the wagon bridge across Chalk Creek at the foot of the Courthouse hill, and found it in a most unsatisfactory and dangerous condition. One of the stringers was found to be rotted off, and the bridge had already settled considerably, whereupon the committee on streets alleys and bridges took immediate action and have made arrangements for its repair. John McCarthy was awarded the contract, which specifies that the bridge is to be raised one foot, new stringers put in, and the bridge made safe and strong. The approaches will also receive attention, as will all the bridges and streets of the city.

This is as it should be. When our city officials find a work that is necessary to be done we are glad to see them take right hold of it, for delays are dangerous as well as expensive.

SHERIFF'S SALE.
