## LOCAL BREVITIES.

Mrs. W. W. Cluff and husband returned Tuesday from a visit to Provo.

Everybody should attend the dance in the pavilion this evening. It is for a good cause.

Attorney H. S. Townsend, of Park City, spent a few hours in Coalville yesterday attending to legal business.

Hiram W. Gray, of the law firm of Booth, Lee & Gray of Salt Lake, was in Coalville Tuesday on legal business.

Train No. 1 will stop at Hoyt for excursion for Jubilee passengers July 20th to 24th inclusive, and returning will stop July 21st to 26th.

John R. Hollan is returned last Tuesday from Baker City, Oregon, where he has been for the past three months; he reports times as very dull up there.

George F. Olson left Coalville last Saturday morning for Diamondville Wyoming to accept a position with one of the leading mercantile firms of that place.

The next time the water is turned off from the Stake House let be anyone else than the proper person some one will get themselves into trouble, as they will.

Last evening at the Stake House, Prof. Karl G. Maeser of Provo, organized a primary religious class of about thirty members. This organization is the primary department of the Coalville Sunday Schools.

City Marshal Wilkins returned Wednesday from a week visit with relatives and friends in Provo, he reports having had a very pleasant visit, but says that Provo is very dull for the season of the year.

The volunteer fire department will hold its regular meeting next Tuesday evening. All members are requested to be present, as there is considerable important business to be transacted.

Last Saturday afternoon the Hoyter baseball team came up and played a match game with a picked aggregation of men and boys from this city. After nine long innings had been played the score book showed Hoyter to have 42 and Coalville 7 runs. The game was played down in the long grass by the river, owing to the fact that our baseball grounds were not yet completed and were not in a condition to be played upon.

Sabbath school will be held as usual at the Congregational church next Sunday and thereafter at 2:30 p. m. All are invited.

Miss Lillian Cluff returned Sunday evening from Ogden where she has been attending the Sacred Heart Academy during the past winter.

The dance given in the Hodson Pavilion last Friday evening which not as much of a financial success as might be desired, was very much enjoyed by all who attended.

Hyrum Bale and Robert Wilson were arrested Tuesday evening on lighting. They were given a hearing Wednesday morning; they both pleaded guilty and were each sentenced to pay a fine of five dollars and costs, which they paid.

The Peoples Mercantile Company is letting the Wilkins building on Main street overhauled, and will hereafter use it for a hardware department. It is the intention of this company in the future to carry a full line of all kinds of hardware.

County Clerk Boyden reports that quite a number of the sheep men are coming to his office and setting their sheep brands. The criminal proceedings instituted against some of them by the county attorney seem to have been productive of good results.

Charles Heath, head book keeper at the First National Bank of Park City, was in Coalville all day Saturday. Mr. Heath drove to Echo in the evening and met his wife, who returned on the midnight train from an extended visit to relatives and friends in Iowa, and together they journeyed to Ogden and Salt Lake.

History tells us that once upon a time George Washington chopped down his mother's cherry tree and because he was untruthful and confessed when confronted with the evidence of his offence, he was not punished. There are certain people in Coalville who didn't cut down any person's cherry tree, but nevertheless they got themselves into trouble over one.

A party consisting of F. M. Pinney, Carl Allison, John Farnsworth, Dr. Vieck and C. R. Hancock left Coalville last Saturday afternoon for a ten days trip to the Duchesne county on a hunting and fishing expedition; they took all kinds of ammunition and delicacies both wet and dry; with them, and we predict that the market will be flooded with fish and bear immediately upon their return home.

James Devine, Chief of the Salt Lake Fire Department, came up to Coalville last Monday evening and returned Tuesday morning. He was consulting with some of our farmers with a view to purchasing supplies, such as hay, grain etc., for the Salt Lake Department, from them. It is rumored that while here he made application for a position with our local department, but there was no room for him.

Brigham Benson of Salt Lake county was arrested by Sheriff Lindsay last Monday upon a complaint of the county attorney for pasturing sheep without first having procured a license. He pleaded not guilty and was tried before Justice of the Peace Smith on Tuesday who found him guilty and sentenced him to pay a fine of one hundred dollars and costs. An appeal was then taken by the defendant to the District Court.

Last Monday a school meeting was held at the brick schoolhouse, which was not very largely attended, owing perhaps, to the fact that it was held at 10 o'clock in the morning; those present listened to the report of the board of trustees and voted to pay from a contribution of fifty dollars each for their services during the past year. After the meeting, an election of a trustee to succeed Byron Wilkins, whose term had expired, was held; at this election the polls opened at 12 o'clock noon, and closed at 4 p. m., and resulted in the election of Thomas Beach, he having received fifty-four votes to thirty-four for Byron Wilkins. The writer was not present at this election to any good extent, but we are informed it was strictly non-partisan, and we think on an examination of the personnel of the school board as it now stands we would satisfy any and all abortion stickers present at this last.

The Supreme Court of Idaho rendered a decision last week in which it holds that the bill passed by the recent legislature of that State to be vocating the principal reason assigned for the decision seems to be that the journal of the senate, the house in which the bill originated, fails to show that the bill was read three times upon its final passage before that body after it had been returned by the house with amendments, and that for that reason the constitutional provision requiring bills to be read three times before their final passage, was violated. In the opinion the court holds that the fact that the journal fails to show that this constitutional provision was followed, is a conclusive evidence that it was not. This decision is very important as it not only renders this particular law invalid, but will result in the overthrowing of almost every law passed by the last legislature. It also tends to illustrate the slipshod manner in which members of some legislatures usually perform their duties, and we are of the opinion that several of our own laws would not stand should our court adopt the reasoning used in the decision of this case.

During Jubilee week the Union Central railway will run trains between Park City and Salt Lake on the following schedule, regular afternoon train from Park City on July 20th, at 4 p. m. On the 20-21-22 and 23, 8 a. m. and 4:30 p. m. after 23rd, regular morning train at 8 a. m. On the above dates trains will leave Kimballs' Station at 7:30 a. m. and 4:15 p. m. Passengers can get tickets for the round trip from Conductors at the same rate as from Park City, $1.50 for adults—$1 for children. All tickets will be good returning July 26th.

County Commissioners McDonough and Carruth held a two days session last week as a Board of Equalization; during the session they raised the taxes of several delinquents, reduced the valuation placed upon the property of several residents of the county, and in a few instances raised the valuation which had been placed upon property by the assessor. They held a short session as a Board of Commissioners on Saturday evening, allowed a few bills, passed the usual battery which is printed elsewhere in The Times at length, and adjourned until July 26th. Mr. Mc Donough, Attorney Shaw's and Assessor Miller drove home to Park City early Saturday morning.

Silver Spray Lodge No. 2 D. of H., A. O. U. W., will give an excursion from Park City to the Coalville City Park on Wednesday, the 28th inst. It is the intention of the committee in charge to bring the Park City Orchestra with them and give a dance in the pavilion in the afternoon and evening; the day's sports will consist of foot-races, a baseball game, and swing and talking contests. The citizens of Coalville are cordially invited to come and bring their picnic. Everything else will be free, including the dance at the pavilion. An invitation has been extended to the members of this order in Evanston and Heber City, and it is thought a large delegation from each place will take advantage of the cheap rates offered by the railroad company and attend.

Salt Lake City is rapidly establishing a reputation as a city of thugs, pickpockets and all-round toughs. What with street robberies, street car holdups, wholesale murder and suicides in addition to the crime which was already rife in that community, it is altogether unsafe for unarmed persons to go upon the streets after night. The Tribune, commenting on this deplorable state of affairs editorially, asks that the police force of the city be materially increased, and also suggests that a number of the police force of several other cities be imported here, as they would be more likely to know these toughs when they meet them on the street, having already had more or less experience with them. Tribune suggestion is food for reflection, a repetition of Sunday morning's performance may be looked for at any time.

Don't this year shoot with smokeless or poison it with timewater, but old reliable Dr. Witt's Little Early Risers, the famous little pills for constipation, biliousness and stomach and liver troubles. They are purely vegetable. John Boyden & Son.

### Sad Accident.

Last Monday evening, little Johnnie Buchanan, son of Archie Buchanan, met with a very painful accident which resulted in a considerable fracture of the elbow; the accident was caused through a horse which he was riding becoming frightened, throwing him off and stepping on his arm while he was down. Dr. Homer was called and soon had the unfortunate lad resting as comfortably as could be expected. This is the same boy who last year met with an accident to his foot and suffered a great deal with blood poison as a result. He is certainly meeting with his share of this world's troubles.

Some for me, some for, twenty and some for fifty years have suffered from piles and have been quickly and permanently cured by using DeWitt's Witch Hazel Salve. John Boyden & Son.

### Pain not a needed

Say, young fellow, before you get mad, make up your mind that you will have a home of your own; that there will be a picket fence around it; that you will not permit your wife to stuff a pillow or old rags into broken windows, never by the pale moon that you will keep away from saloons. Promise your dear one that she shall be your banker and that half your salary will be hers. Resolve to own land and to spend your spare time at home. Look after the nickles. They will grow into dollars. Make home attractive. Get rich when you can, subscribe for your home paper, and when you die the editor will give you a send-off that will make all the neighbors turn green with envy.—Salina Press.

Mr. Jesse Turner, proprietor of the Barnes House, Dayton, W. V., and one of the most widely known men of this state and noted for exemplary after three years of suffering. He says: "I have not sufficient command of language to convey any idea of what I suffered; my shipmates told me that nothing could be done for me and my friends were fully convinced that nothing but death would relieve me of my suffering. In June, 1895, Mr. Evans, then salesman for the Wheeling Drug Co., recommended Chamberlain's Pain Balm. At this time my feet and legs were swollen to more than double their normal size and seemed to me my leg would burst, but soon after I began using the Pain Balm the swelling began to decrease, the pain to leave, and now I consider that I am entirely cured. For sale by John Boyden & Son.

A. H. Dates, with E. C. Atkins & Co., Indianapolis, Ind., writes: "I have never before given a testimonial in my life. But I will say that for three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to control simply stop pain, but cure absolutely. It is all right, and anyone who tries it will feel it so." For sale by John Boyden & Son.

Such headache can be quickly and completely overcome by using those famous little pills known as DeWitt's Little Early Risers. John Boyden & Son.
