THE COUNTY NEWS

GATHERED BY OUR ALERT CORRESPONDENTS.

The Events of the Week From Nearly Every Town in Summit County—What "The Times's" Representatives Have Found to Write About.

PEOA.

Peoa, Utah, Oct. 13, 1897.

EDITOR TIMES:

The weather has been somewhat wet during the past two weeks and has hindered the hauling and threshing of grain.

Postmaster Snapp of Oakley was in town on Tuesday attending to some legal business.

H. B. Williams has been in Coalville for over a week; he was called to that city owing to the sickness of his brother, L. W. Williams.

Mrs. Mary A. Bowen is here and is a guest of Mr. and Mrs. O. Wilkins.

It is reported that some of the grain is sprouting in the stacks owing to the damp condition it was hauled and so much rain since.

The price of wheat is coming down; there was a fall of five cents per bushel this week, the price now offered being sixty-five cents.

Word has been received here that no more round mining timber is wanted at the mines at Park City. This will work a hardship on those who have considerable timber on hand and who have laid out their means to those who got it out for them.

Your correspondent regrets that owing to the rush of other business he was not able to get his letter off in time for last issue of your interesting and valuable paper.

A. M. Lyons and the Miles brothers are hauling railroad ties to Grass Creek for the Lauberts, of Kansas. These ties are to be used in the extension of the railroad in Grass Creek.

Senator Hoauden's famous colored Tenabadoers will give an entertainment here on Friday evening. This troupe are from California, are genuine colored people and are first class performers it is said.

The 22nd Quorum of Seventies will hold their quarterly conference in Wanship on Sunday, October 24th. It is expected that one or more of the First Council of Seventies will be in attendance. It is requested that all the members of the quorum attend this conference as matters of interest will be brought before the meeting.

On Thursday of last week Miss Sarah J. Wilkins and Abraham M. Lyons were married at the residence of the bride's parents. The bride is the charming daughter of Mr. and Mrs. Oscar Wilkins; the groom is the son of Mr. and Mrs. O. F. Lyons. After the ceremony all partook of the supper, which was provided for the occasion after which the evening was spent in singing, reeling, dancing and social conversation. There were a large number of invited guests at the wedding and all seemed best upon having a pleasant time. The wedding presents were many and were both useful and ornamental. The young couple start out in life with the best wishes of all that happiness and success in life may be theirs.

Very little is said here in relation to President Woodruff's remarks concerning political matters during the last conference. The general impression is that he was right; that there was a necessity of uniting on good men to fill the offices within the gift of the people. It is not even surmised that the venerable gentleman desired to break up the two great political parties or that he desired, in the least, to bring about the old conditions that at one time confronted one and all in this goodly land. It is a well known fact that taxes has increased wonderfully in late years, and it no wonder that a desire is felt, and expressed, for a change for the better. Last year I advocated the uniting on a citizens' ticket for our precinct officers and the result has shown the wisdom of it. I believe that in cities and towns throughout the state this could be done to great advantage; but when it comes to county or state officers then the two great parties should battle for the success and election of members of their own parties; each of whom have hundreds of good, honest and capable men—aye women—to whom could be trusted the affairs of the county, state and nation. All the excitement which has been manifest is most foolish and one would think, after reading some of the papers, that the editors had gone daft; or afraid of their own shadow; see trouble where there is none nor will be. It is a wonder they are not afraid to be out after dark, poor fellows! The citizens of this state are honest and can be trusted. Mark my word for it.

O. K. E. VIEW.

OAKLEY.

Oakley, Utah, Oct. 14, 1897.

EDITOR TIMES:

The late rains have damaged the grain to some extent.

Threshing has been stopped on account of rain and wet grain.

S. S. Snapp made a trip to Salt Lake on business. While there he met with an old friend from Kansas that he had not seen for many years.

The Francis are kept busy hauling after their ores as the young lumber is blooming a great many. Twelve have died in the last few days.

It is reported that there is a family in this neighborhood that cannot find a name good enough for their little boy. As it is the first after they have lived together a score or more years, they should think my name good enough. One wants to call him Bryan and the other says McKinley. Why not combine the name and call him William Mc.

One of T. W. Frazier's boys, Arthur, fell off of the wagon and the wheel ran over his head, almost cutting one ear off.

If this rainy weather continues much longer this town will lose five per cent of their cattle, as we have lost a small per cent already. S.

ROCKPORT.

Rockport, Utah, Oct. 14, 1897.

EDITOR TIMES:

After a few days of fine weather we are having more rain. Some of the farmers have grain in the field.

A new case of typhoid fever has broken out at the house of Mrs. Sarah Gibbons. Alice being the victim.

Mr. and Mrs. William Stockridge and daughter, Susie, have returned home after few days' visit with relatives and friends in Salt Lake and Utah counties.

Mrs. Elizabeth Vernon wishes to tender her thanks to Mr. Thomas Beech through THE TIMES, for a nice bouquet of flowers presented to her by him, on her seventieth birthday.

Those who attended conference from Rockport were Mr. John Hortin and daughter, Hazel, William and John Staker. Mrs. Alice Malin and daughter Sheena, Mrs. Sarah E. Vernon and Mr. Henry Seamons. D. S.

Moments are useless if trifled away; they are dangerously wasted if consumed by delay in cases where One Minute Cough Cure would bring immediate relief. John Boyden & Son.

HOYTSVILLE.

Hoytsville, Utah, Oct. 13, 1897.

EDITOR TIMES:

The little infant of T. Snyder is quite sick.

The potato crop here is very light for some unaccountable reason.

The ladies of our town are getting up a dance here for Friday evening, the 22nd inst., for the benefit of J. J. Bowen who is now on a mission in Kentucky. It should be well patronized.

A better set of bread steps should be placed in front of the school house entrance, before a serious accident happens. Several of the little ones have already fallen in coming down.

MISSIONARY LETTERS.

From C. R. Jones.

Denver, Colo., Oct., 9, 1897.

EDITOR COALVILLE TIMES:

For a long time I have had a desire to write a few lines to your paper, but circumstances and time have prevented me from doing so until to-day, and now that I have opportunity to write, I trust you will give me a little space in your paper.

Not having seen one number of your paper since my arrival here, it makes me feel as though I did not know any of the news. I trust that from now on I will be able to receive your paper regularly, for it contains more home news than any of the others, and there is nothing that makes one who is in the position I am feel better than most news from home. One cannot appreciate the value of friends and a home paper until he is out among strangers among the world.

Since my arrival here I have enjoyed myself very much, and am able now to take all things as they come without feeling as gloomy as at first. The first three weeks of my time was spent in Denver, where some Silly Saints reside. I was then appointed to labor with Elder Joseph H. Grant, Jr., of Woodruff Creek, and we were given Weld county for our field. After our arrival in the county we came to one for the county seat, expecting to be able to make an opening there, but were not successful. The people did not care to take care of us, and we could not get a place to hold meetings. We left town, and our next stopping place was a small town called Window, where we were able to hold two meetings and found a number of friends, one especially who treated us the best he knew how. We remained in that county nearly six weeks, and quite a number of meetings and made many friends. We also think that a few souls were saved, and that in God's own due time they will grow and be ready for harvest. In opening up a new field we do not expect to go in and convert everybody, but we go and preach the Gospel to them as we believe it, trusting in God to cause that the words we speak will sink deep into the hearts of those who hear them. Traveling as we do, "without purse or scrip," as Christ sent His apostles out, we meet with many people who, when they see two young men claiming to be ministers of the Gospel, wonder how it is possible for such young men to be ministers But when they hear us preach they wonder and marvel, for we do not get up before the people with prepared sermons, depending upon our own knowledge, but we depend entirely upon the spirit of God to put words into our mouths that are most suitable for the occasion.

This mission is prospering very rapidly, many are investigating the principles of the Gospel, and we look forward to the time when a great work will be done here.

All the Elders of the North Colorado Conference and four from the Central Conference came in last Saturday to witness the great Carnival which was held on the 5th, 6th and 7th, and all had a good time. To-day, they all leave for different fields in the neighborhood of Denver and will remain out for a week, after which all will return to Denver to attend conference which will be held on Saturday and Sunday, the 16th and 17th. After conference we will all go out to different fields to remain all winter. I expect to return to Weld county again.

Missionary life is not what many people, who have never been on a mission, think it is. Many obstacles are thrown in our path, and it is with difficulty some times that we can get people to even listen to us. But there is a God in Heaven who will hear and answer our prayers, and if we are faithful all turns out in our favor. It is a pleasure to go among the people and exchange ideas. So far I have enjoyed my labors very much, and have got pretty well into the spirit of the work. Sometimes we meet people who are willing to do all they can for us and take pleasure in administering to our wants.

Time will not permit me to write more at this time, but I hope that the few lines which I have written will be read by my many dear friends at home, and that many of them accept it as an invitation to write to me, for it is a comfort to read letters from dear ones at home. I hope in the future to be able to write a letter either to your paper, so that the people may know how I am getting along. C. R. JONES.

EDITOR TIMES:

If in your column there is space room for a short article from one of your laborers, I will give a brief sketch of my experiences as a missionary in the L. D. S. Church.

Although my experience and travels have been limited, I have seen many interesting things, some of which I will mention.

Beginning at the time of my departure from your midst, which was to me some regret, and is another the greatest of pleasures when I realized in part the nature of my calling, I note the date of departure, August 7, 1897; the day I left Salt Lake City.

The first night I saw very little, as it was dark and the sights were invisible. Next day, passing up the Grand Canyon through which flows the Colorado river, leaping over precipices and skipping bridges, with rocky walls and wild grandeur, I saw scenes beautiful beyond description. In passing out of this canyon we find the mountains gradually diminishing, and a hilly formation appears; and after passing this the country seems to be comparatively level for hundreds of miles. All that could be seen had an agricultural aspect, the standing grains and hay seeming limitless.

After passing through this and the many cities on our route, we arrived at Washington, where it was my good fortune to visit many of the places of interest among them the Capitol building and Washington's Monument. I passed through all the rooms of the building, which are the most elegantly furnished I have ever seen. There are magnificent paintings of the most prominent battles, the great generals, and all that is of interest relative to the wars; some of these paintings cost $10,000 each.

The Washington monument is a grand thing to ascend. When up on its highest floor the people below look like mites moving around. It is 500 feet high and 50 feet in diameter.

I next proceeded to Brooklyn. Standing on the bridge, especially in the evening when the cities and river are illuminated by electric lights, one witnesses a scene grand to behold. Hundreds of vessels and boats going in every direction, all brilliantly lighted, make a pretty sight. No hills can be seen, and it seems to me the sun rises in the west. This is a great change from Utah views.

The people do not take to us kindly, and many refuse to hear "Mormonism," and because they do not know as they are prejudiced against us; but this will in time be overcome.

I am enjoying my experience very much and hope to be successful in my work. I send greeting and well wishes to all. My address at present is Cohocton, N. Y. Yours truly,

JOHN M. CAZENWOOD.
