WOMAN A HEROINE

Woman is a heroine, says the Herald, and her remarkable endurance and ability to withstand the most trying medical experiments attributes the law class in the Natural Mystery of her sex, which so often causes her to endure the greatest trials, and suffer in silence, rather than consult even her Family Physician, hoping to excuse herself to necessary questioning and possible examination.

A LIFE STUDY

Remembering the fact, early in his practice, Dr. Lahrett has, by years of study and experimentation, evolved an entirely new method of treatment for all diseases peculiar to women, which he has met with astonishing success. At his Branch Offices, managed by skilled physicians under his personal supervision, are now having the every large city of Europe.

By his superior methods such patient receives, absolutely free of charge, full and skillful advice especially adapted to her case, also medicine all embarrassment or inconvenience, and as Dr. La Bord's remedies are put up in the form of small, dainty wafers, they are easily carried and taken at any time or place without attracting attention. This insures regularity in treatment, which is most important to a cure, and generally improves health and liquid wonders.

Dr. La Bord's remedies always contain a little proportion of alcohol, whiskey or other liquors, so you never thus once spoiling. Dr. Lahrett's Wafers are a "dry medicine" and are positively free from intoxicants or narcotic drugs of any kind.

MODERN METHODS

Dr. Lahrett's greatest success has been attained by the use of his CARDINAL WAFERS. This is not a Patent Medicine, but a scientific preparation of "Cardinal," or "CARDINAL" is commonly known as Black Hearthstone, and other well known herbs, which have been known to physicians for centuries, as "CARDINAL" is recognized and prescribed by the leading medical men of the world as the best known specific for Female troubles. It makes children easy and SAVES DOCTOR'S BILLS.

A VALUABLE FEATURE

"CARDINAL" is a powerful uterine tonic, and acts in harmony with all reliable medicines. It has been made well, strong and happy in a comparatively short time, for little a wonderful, blessed. That will and only does this, and, as thousands can testify, has long suffered, but was cured the only known remedy that can be absolutely relied upon to prevent that painful experience of almost every woman, and suffering, needlessly endured by so many of our women.

A new operator has been assigned to Castle Rock. His wife and family will join him in a few days, thereby increasing the population of this little burg.

The writer in passing through the canyon below Hessler last Saturday noticed that the new piece of road that was made down the canyon was going to washout. This is a shame and a disgrace to someone, I know not whom. This short piece of the lower counties should be completed, and that, too, without delay.

H. Y. A. ITEMS.

When the sad news of Prest. Snow's death reached the Academy school was closed until after his interment.

The Academy is realizing a season of unusual prosperity at present, there being already 345 students registered and adding to that the throng of new students who came with the close of the conference vacation, but yet unregistered, it makes a record unequaled by any other school in the State.

To make more room for the increasing numbers of high school students who are still pouring in, the large rack containing the newspapers of onts and adjoining states, has been moved into the hall, where it is still better patronized. The Times is second to none of the local papers, which is evidenced by its good demand among those from other parts, as well as by the Summit county students.

New Time Table.

For some years past the patrons of the Echo & Park City branch of the Union Pacific have been getting poor accommodations, but on the 16th of this month a time table went into effect which now gives us the most abominable service ever dealt out by any railroad company. The Park City train now runs on the following time:

Leaves Park City at 8 o'clock in the afternoon and reaches Coalville at 8:34; arrives at Echo at 6:30, where it sleeps all night and starts back to Park City at 6:30 a. m.; arrives at Coalville 7:04; and Park City at 8:45.

Here are some of the results: Passengers going to Ogden and Salt Lake must, if they take the train here, lay over in Echo until 2:30 in the night, or if they do not care to take the night train, must stop there until 12:30 the next day. Passengers from Ogden and Salt Lake to Coalville will arrive in Echo at 9:20 a. m. and remain there until the next morning at 6:30 or else they can walk up. All our western mail will reach Echo at 9:20 a. m. and lay there until 6:30 the following day. Our mail service was none too good here before, but this more caps everything. All daily papers will be one day old when they reach Coalville.

It seems that the railroad officials do not care anything for the accommodation of the public, especially when they are the only road in the country. We hope they will take a tumble to themselves in the very near future and give us better service.
