Factories grow or diminish in the same proportion as their markets increase or decrease. Clarksburg factories are partly dependent for sustenance on the local markets. Local patronage will make our factories grow, and active industries go hand in hand with large payrolls.

Buy in Clarksburg For Quality

It's quality that counts. In all the affairs of life it's quality that counts. The men at the head of the world's greatest institutions today, the men in charge of vast enterprises, the men who lead in thought and action are men of quality.

When Adam picked and put on his first fig leaf, the men's clothing business was born. The first ready made clothing was a fig leaf. Probably Adam wasn't satisfied with the first fig leaf and thought he'd try another. Bye and bye he found one that suited him, cut, material, fit and quality. Adam was shrewd, he looked around. Now, sir, if you are not fully satisfied with the clothing you are wearing, suppose you look around. Suppose you come here. Our patrons are always satisfied—we make them so by giving them the best clothing to be had on earth for the money.

With the few items listed below, you can get some idea of the range of prices. This is an invitation we cordially invite you to accept.

GET AFTER THESE DOLLARS.

Clarksburg should get all of the trade in our trade era. We don't worry about our neighboring town's business. We have enough to do to take care of our own. But we should get all our own. How about these dollars that are slipping away from us? How about the dollars that are slipping through our fingers? We have the goods. We have the values. Our prices are right. And yet there is a lot of money slipping away from us constantly. The best way to get after this money is to tell the truth about the man or the system that is taking it away. Join the "buy in Clarksburg" campaign.

HOME BUYING AN EVIDENCE OF FAITH IN OUR OWN PEOPLE

And Will Be an Inducement to Men to Manufacture Here Things We Need.

Clarksburg is all enthusiasm over the buy in Clarksburg movement.

Merchants, manufacturers and citizens all agree that it is one of the most important movements for the full development of the city that has been launched here in years. The Clarksburg Business Men's League has endorsed it, and men, women and children have written articles giving their expressions and views of the good that can be accomplished by home loyalty.

Many articles are manufactured in Clarksburg, and the largest majority of them are things that are in daily use in hte homes of Clarksburg. A large portion of the output of these factories is consumed in this immediate territory, being either sold direct or through our merchants to the consumers. One of the main purposes of the Telegram's buy in Clarksburg campaign is to stimulate interest in the use of home-made products so that the factories here can increase their output, give employment to more people and by the natural process of growth build up the whole city.

Suppose one wishes to build a house in Clarksburg. He can get practically everything that goes into the construction of the building from local mills. This applies not only to the ordinary house but to the mansions of the wealthy. Some of the best lumber to be found anywhere in the country is manufactured in Clarksburg mills, and there are several mills here that do the best of interior wood work. It is therefore unnecessary for any man to send out of Clarksburg for material for his house or for any mill work to go in it. Sashes, doors, blinds, mantles, columns, screens, windows, all these things are to be had right here in Clarksburg and they will be made just as well and out of just as good material as a man cares to pay for.

TRAFFIC COP

On Streets of Cleveland Turned into Electric Signalman.

The traffic policeman in Cleveland has been turned into a "signal officer." The green and red lights adopted on railroads have been installed on all Cleveland's main street corners. Electric lights facing oncoming vehicles and hid from view in the opposite direction are located on the right hand side of each street. The red light denotes "Stop"; the green light "Proceed." To clear the crossing in case of fire the officer simply throws on an emergency switch, which sounds an alarm bell and turns on red lights.

Ethel Teare, the vivacious Kalem commedienne, is featured, together with Bud Duncan, the little fellow, in a new burlesque comedy, "Diana of the Farm."

Dodge Brothers WINTER CAR

For business, for shopping, for the children on their way to school--these Winter cars will prove a blessing to every member of the family.

And their attractiveness does not end with the weatherproof quality. They are dignified and graceful in design. The appointments are in good taste and the finish inside and outside is beautiful.

The motor is 30-35 horsepower

The price of the Winter Touring Car or Roadster complete, including regular mohair top, is $950, f. o. b. Detroit.
