SANDWICHES FOR MANY THOUSANDS

Oakland Is Preparing for a Large Number of Guests.

The Entertainment Committee Doing Some Figuring on Appetites.

Chairmen Breed and Arper Issue an Invitation to Bear the Burden.

OAKLAND OFFICE SAN FRANCISCO CALL, 908 Broadway, July 8.

Thousands of people in Alameda County are now interested in sandwiches. It is estimated that on Christian Endeavor day, which is next Tuesday, not less than 30,000 sandwiches will be required for the visiting delegates, and George W. Arper, who is in charge of the lunching bureau, is just a little anxious.

At one of the meetings of the committee ex-Mayor W. R. Davis said that a look at Mr. Arper's round face was as good as a feast, but Mr. Arper believes that about half a dozen sandwiches, a pint of lemonade, tea and coffee, a few pieces of cake and some fruit will be considered a far better meal by those 7000 delegates that are expected than a look at the chairman of the committee, be he never so handsome.

An appeal was made by the committee for food. It recites the fact that thousands of guests have been invited, and they will come with rare appetites. The various churches have promised that next Tuesday morning they will deliver, bright and early, 24,000 delicate sandwiches at the appointed place, but that is not nearly sufficient. It is a well-known fact that when an immense body of people gather at a place they invariably follow the programme, and there are many people who believe that not less than 6000 or 7000 people will come here on Tuesday to be fed and entertained.

J. W. Dutton, who wrote the Christian Endeavor ode of welcome, is at work on an Alameda County ode of welcome, and his task is envied him by the entertainment committee who realize that it is far easier to manufacture welcome odes and farewell odes than to provide sandwiches and accompaniments for a large army.

The luncheon will be served on Adam's Point, near Lake Merritt. Several hundred feet of tent will be erected and there will be a constant throng of lunchers for a fewhours. The young ladies of the various churches will attend the visiting and the Christian Endeavor picnic in Oakland will certainly be famous for years.

All delegates with badges will be admitted free to the exposition, and a new track has been laid to connect the two greatest electric-road systems—the Grove-street and the Alameda lines—so that the cars can carry the guests through three cities—Oakland, Alameda and Berkeley—without alighting. This ride from Thirteenth and Franklin streets over to East Oakland, through Fruitvale, on through Alameda, across the estuary and through Oakland, thence through Lorin, out to Berkeley, past the university, and back through Temescal into Oakland, is probably one of the finest and longest electric-car rides that can be furnished in the country.

Altogether, the prospect for a glorious day for the Endeavorers in this county next Tuesday are very bright.

Chairman A. H. Breed is charged with the task of raising $2000 in cash. So far he has succeeded in raising half that amount, and the committee have taxed themselves liberally, but there is still a goodly sum needed, that should be handed in to Mr. Breed to-morrow or Saturday.

LIQUOR LICENSE QUESTION.

The Referendum Ordinance Ignored by the Board—Only the President Stands by It.

ALAMEDA, CAL., July 8.—The Board of Trustees devoted almost its entire time last evening to the consideration of the liquor license question. As a preliminary an address from the Anti-Saloon League was read calling on the Trustees to stand by their pledge to abide by the popular vote of the referendum ordinance. The people had voted in certain precincts not to have saloons, and the league asked that no licenses be granted in those precincts. On the other hand in the precincts that had voted for saloons the league had no objection to offer.

President Moore of the league made it very clear that the board had unanimously agreed to submit the question to the voters, and that the old and new members had squarely pledged themselves to carry out the will of the people.

Attorney Taylor was called on for an opinion and stated that the board was not legally bound by the result of the vote under the referendum ordinance. President Forderer said that he should stand by his pledge and refuse to vote for licenses in precincts that had voted against the saloons.

Nineteen applications were presented in a batch and received the vote of the Trustees, with the exception that Mr. Forderer refused to assent to the applications in anti-saloon precincts. The application of William Carroll for a new saloon in an anti-saloon precinct received the unanimous negative vote of the board. The application of J. Bernard brought out the objection that he allowed minors to frequent his place and violated the law in other respects. This application was deferred pending an investigation.

The anti-saloon people are very much disappointed at the outcome of the election. They had expected the Trustees to stand by their pledges and not take refuge behind the quibble that they were not legally bound by such pledge and by the referendum ordinance.

KEEPING UP THE RECORD.

Another Hurried Wedding of People From Haywards.

OAKLAND, CAL., July 8.—Miss Rosie Miller, a young lady from Monterey, came to Haywards a couple of months ago to visit some friends. As she obtained work at a steam laundry she decided to stay a while longer. A couple of days ago the announcement was made that she had wedded the son of a prosperous saloon-keeper named Silva. The father-in-law would not believe the news, but he discovered later that his son, John, while visiting San Francisco had been met by Miss Miller, and that they had been married before a Justice. Silva, it is said, is not yet of age.

A Peculiar Find.

OAKLAND, CAL., July 8.—Somebody who attended the reception of W. J. Bryan at Lincoln Park yesterday no doubt thinks he was robbed of a gold watch chain. He was not. After the meeting Officer Carson found a watch chain hanging to the button on the tail of a citizen's coat. It had evidently caught the chain in the crowd and it had been torn away from the watch without the owner knowing it. It is now at the police station.

ALAMEDA COUNTY NEWS.

TIRED OF THEM.

A Stepmother Attempts to Railroad Three Children to a Reform School.

OAKLAND, CAL., July 8.—Colonel Dimpfel of the Children's Society made a discovery to-day of a neat little plan by which a newly made stepmother hoped to send three well-behaved little children to a reform school.

Mrs. C. L. Tabb, who resides at 910 Fifth street, called at the office of the society this afternoon and told a story of having three very bad, ill-behaved children. She told the colonel that their names and ages were Mabel 12, Claretta 11 and Arthur 9 years, and her description of their actions made the colonel wonder whether it would be safe to meet them.

The two older children are now at the Temescal Home, so their conduct was investigated. To the agent's surprise the ladies in charge of the home said that the children are peaceable, obedient and tractable, and the attendants have no fault to find with him.

Colonel Dimpfel communicated the result of his investigation to Mrs. Tabb, and found that the lady had only been married eight months to her present husband and is anxious to get her step-children off her hands.

"This is one of the most disgraceful attempts I have ever known to railroad children to a reformatory," said the colonel this evening.

MRS. DELAINEY REPENTS

Sorry Now That She Listened to Tales About Her Faithful Husband.

Convinced That It Was All the Work of Enemies Bent on Their Undoing

OAKLAND OFFICE SAN FRANCISCO CALL, 908 Broadway, July 8.

Mrs. W. F. Delainey, who is at the head of one of the leading elements of colored society, has put a quietus on a grave scandal that has been agitating the race for several weeks. It had been prophesied that there would be a busy and exciting day in the divorce court when the Delainey trouble should be told, but this is avoided.

Mrs. Delainey has learned a lesson. She has discovered that when a man's enemies talk about him his wife they are not apt to stretch the truth any in the direction of favoring him. Some time ago Mrs. Delainey listened to the voices of those who were not anxious to promote her domestic happiness, and these stories seemed so authentic that she was lead to believe them.

Now it has been discovered that they were the fabrications of enemies instead of the disinterested doings of friends, and Mrs. Delainey has made a public statement of her penitence. In her statement she says: "I have found out to my own satisfaction that the charges brought to me from time to time by persons against my husband were without foundation in fact. I therefore feel that it is my duty as his wife to publicly acknowledge my error in giving credence to the false and malicious stories when they were brought to me."

NO THOUGHT OF MARRIAGE.

Miss Ola Humphrey, the Actress, Denies the Report.

OAKLAND, CAL., July 8.—Miss Ola Humphrey, who has been engaged to take the leading female part, that of Kim Soy, in the new Chinese play, "The Celestial Maiden," which goes on at the Oakland Theater Monday next, is the daughter of Thomas M. Humphrey, one of Oakland's oldest, wealthiest and most respected citizens. After graduating at Snell's Seminary she attended the Emerson School of Oratory of Boston. After finishing her studies there, where she was a member of and played many dramatic engagements with the Criterion Club and like organizations, she made several successful dramatic reading tours under bureau managements through Massachusetts, New Hampshire and Vermont.

Socially Miss Humphrey is one of the swell set of Oakland. She had as patrons of her last recital—which was an extraordinary success—the very cream of Oakland's "400."

In appearance Miss Humphrey is what one would style a handsome young lady; a very fine physique, regular features and a dignified refined appearance. Miss Humphrey is not going to marry, as has been reported, but will follow her profession.

AT THE EXPOSITION.

A Day's Collections Given to the Associated Charities.

OAKLAND, CAL., July 8.—The proceeds of the Exposition to-day were all given to the Associated Charities. To-morrow evening the programme will be:

Band selection; song, "Queen of the Earth" (Pinsuti), Alfred Wilkie; song, "Merrily I Roam" (Schleiffarth), Mrs. Martin Schultz; mandolin and guitar duet, "Le Reveil du Lion" (De Kontski), the Misses Theresa and Lily Sherwood; duet, "The Moon Has Raised Her Lamp Above," "Lily of Killarney" (Benedict), Messrs. Alfred Wilkie and Clement Rowlands; piano solo, Mrs. L. G. Sinnard; ballads, (a) "'Twas Within a Mile o' Edinboro' Town," (b) "Comin' Thro' the Rye," Mrs. Martin Schultz; ballad, "My Pretty Jane" (Bishop); mandolin and guitar duet, (walzer), "Mondnacht auf der Alster" (Petrali); the Misses Theresa and Lily Sherwood; trio, "The Mariners" (Randegger), Mrs. M. Schultz, Messrs. Wilkie and Rowlands; band selection. Mrs. L. G. Sinnard, pianist and accompanist.

Forsythe is at Tacoma.

OAKLAND, CAL., July 8.—W. G. Forsythe, who also has several other names, and who is now at Tacoma, admits that he was in Oakland two weeks ago and took his boy from its mother. He says he was advised to do so by Prosecuting Attorney Melvin, but Mr. Melvin says he merely told a man whom he did not know that he would be justified in taking a child from its mother if they were not divorced and the mother was not a proper person. Forsythe said his wife was not acting properly, but this is not the case as the young wife is a highly respectable young woman, now living with her mother.

Berkeley Brevities.

BERKELEY, CAL., July 8.—Professor H. F. Lange of the department of English at the State University arrived to-day from a month's vacation in the East.

President Martin Kellogg of the State University will not return from his vacation until about August 1.

Ground was broken to-day for the erection of the new philosophical building at the university.

Richard J. Pierce, son of Mrs. Mary Monroe, died at the residence of his step-father, Philip Monroe, on Delaware street last evening. He was in his thirty-sixth year and had lived in Berkeley for about twenty years. The funeral will take place to-morrow afternoon from the residence, under the auspices of St. Joseph's Church.

Principal Mallock and Miss Yates have been re-elected teachers at the Emeryville school for the coming year.

Young Toomy Wants a Guardian.

David J. Toomy, a minor under 20 years of age, who has an estate consisting of real and personal property, has nominated George W. Kelly as his guardian. Mr. Kelly has consented to serve.

THEY WILL HAVE ONLY DIPLOMAS

Local High School Pupils Must Pass Berkeley "Exes."

Surprise Party in Store for Many of the Prospective Freshmen.

Consternation Over the Action of the Local Board in Refusing to Accredit Scholars.

BERKELEY, CAL., July 8.—Prospective entrants to the State University from the high schools of San Francisco are all agog over a resolution recently passed by the Board of Education of that city, declaring that the "diplomas of graduates shall be their only credentials for entrance to the University of California."

To all of the embryo freshmen from across the bay this late edict means that they must pass the entire list of "exes" before receiving their matriculation cards, unless, of course, the board rescinds its action, for the professors at the university declare that the rule demanding recommendation in each of the several studies required for admission to the several colleges will not be amended to suit the whims of any one school board. To many this surprise party will mean that they will not enter Berkeley next month, and to others it will mean that they must "bone up" on their work, even to get on the list of "on trials."

Every year between 50 and 150 enter Berkeley from the high schools of San Francisco on their credentials. In fact, the contingent from across the bay is the largest, the strongest and the most influential of any delegation from anywhere in the State.

Strange to say, this action of the High School authorities has just been made, with less than a month remaining between now and the time the U. C. "exes" commence. Scores of student graduates who are spending their vacation in various sections of the State and Union will doubtless be completely overwhelmed when they return from their outings and find that instead of gliding smoothly into the gently flowing stream of young collegians they will have to pass the rocky cascades of the dreaded entrance quizzes.

So various are the courses of instruction, and so numerous and rigid are the present requirements for entrance, even on condition, that either a satisfactory examination must be passed by each student or a high recommendation received from the principal of his school.

There are now seventy-six schools and academies scattered through the State which are on the accredited list of the university. Some of these are accredited in only a few studies, while others have carte blanche to all the departments at Berkeley. To the latter class the San Francisco schools—the Lowell High, the Girls' High and the Polytechnic—governed by the Board of Education, belong.

The authorities at the university are in the deepest quandary to know the motive which prompted the board to pass such a resolution.

Professor Stringham, the senior dean, who is in charge during the absence of the president, said to-day to a CALL correspondent: "I was greatly surprised at being told of the action taken by the Board of Education, and am at a loss to understand its motive. So far as I know there has been no misunderstanding or controversy over the question of admission which would prompt them to take the stand they have assumed. To accept their diplomas out and out would be to completely revolutionize and transform our entire system of admission.

"To comply with their terms would mean that seventy-five other schools would have to be allowed the same privileges. Further than that it will be next to impossible for us to accept the mere diploma and yet keep the standard of the university at par. In taking the action they have, I do not believe that they knew just what they were doing, for the reason that we have eight separate and distinct colleges at Berkeley, each of which requires a different course of preparation.

"An applicant to come here with a little of this and a little of that in his head might get in on condition, but he would have a hard time making up the work necessary to give him full standing in the course from which he wishes to receive a degree.

"Of course the university cannot change its admission requirements to suit this one school. If they do not comply with our conditions, which are indeed reasonable, their pupils will simply have to take the examinations."

Ill of Pneumonia.

BERKELEY, CAL., July 8.—Dr. Thomas McCleave, son of Captain McCleave, of North Berkeley, and assistant to Dr. S. C. Lane of San Francisco, is lying dangerously ill at his home of an attack of pneumonia. He was stricken down while on his way to Yosemite and was forced to return home for treatment.

Called a Pastor.

BERKELEY, CAL., July 8.—The West Berkeley Presbyterian Church has issued a call to Francis H. Robinson to become its pastor. The Presbytery of Oakland will be requested to meet in special session on Thursday, July 15 to install him.

THE MURDER OF KNAUER.

A. L. Knott Arraigned Before Judge Low and the Case Continued Till Tuesday Next.

A. L. Knott, locksmith, was arraigned before Judge Low yesterday morning on the charge of murdering Joseph Knauer, a barber at 32 Third street, on Stevenson street, between Third and Fourth, Tuesday night. At the request of Attorney Caldwell, who appeared for the defendant, the case was continued till next Tuesday.

John Bech, 253½ Stevenson street, and Pasko Knego, 1127 Sutter, called at the City Prison yesterday afternoon to have a look at Knott. They were in a saloon on Stevenson street, almost opposite the scene of the shooting, at the time it took place. They heard a shot and on going to the door of the saloon they heard Knauer say "I am shot." They also saw a man leisurely walking in the direction of Fourth street with a revolver in his hand.

Knott was brought from his cell by Policemen Ryan and O'Dea, and was ranged alongside six other men. They immediately picked out Knott as the man they saw with the gun in his hand, although they would not swear positively that he was the man, because they had not seen his face Tuesday night. Knott wore the same sort of a broad-brimmed hat, the same sort of a coat and was about the same size and build.

Knott became excited and warned them to be careful as to what they would testify. He denied doing the shooting and said he had a complete alibi. The police have inquired into his alibi and say it is no good.

THE STOCK MARKET.

Prices for Comstock shares were lower yesterday under decreased trading.

Alpha is assessed 10 cents.

The Dexter mine of Tuscarora, Nev., made a recent shipment of $2425 in gold.

The Reward Gold Mining Company of Nevada County has levied an assessment of 2 cents per share, delinquent July 30.

The Rose Creek Mining Company of Tuolumne County has levied an assessment of 15 cents per share, delinquent July 28.

The Osceola Copper Mining Company of Amador County has levied an assessment of 1 cent per share, delinquent August 1.

In the Savage Mining Company's ground on the Comstock lode, they have started a south drift from the top of the upraise in the old south drift on the 500 level, and advanced the same 6 feet. The face is in quartz, giving low assays. They are still repairing the main shaft. In the company's ground on the Brunswick lode, shaft 1 was sunk 10 feet on the incline during the week; total depth, 970 feet. The bottom is in porphyry. The north drift from the station was advanced 17 feet for the week; total length, 59 feet. The face is in porphyry. A portion of this drift required timbering, which delayed the usual progress in the face.

The joint Confidence, Challenge Con. and Con. Imperial west crosscut from the surface tunnel is out 1316 feet, having been advanced 16 feet for the week. The face shows porphyry.

No ore was taken out of the Confidence mine during the past week, and no exploratory work was done.

In the Crown Point mine east crosscut 2 from the southwest drift on the seventh floor of the 800 level raise is now out 27 feet, having been extended 13 feet since last report. The face is in a mixture of porphyry and quartz of low grade.

No work was done in the joint Crown Point, Yellow Jacket and Kentuck Con. southwest drift on the "sagebrush" level of the Yellow Jacket shaft during the past week.

The Belcher mine was worked only two days during the past week, during which time the north drift from the incline on the 1200 level was cleaned out and repaired 10 feet, making its total distance of 152 feet from the incline. No ore was hoisted during the week.

No ore was hoisted from the Seg. Belcher mine during the past week, as operations were carried on for two days only.

The yield of the Verman mine for the past week amounted to seven mining cars loads of ore, the average assay value of which was $7 14 per ton. The ore was extracted from the north drift workings on the 900 level. There is no material change in the condition of the mine.

The Le Roy Mining Company of Rossland, B. C., paid a dividend amounting to $25,000 on June 30, making $425,000 paid to date.

The Market-street Railway Company's quarterly dividend of 60 cents per share is payable on the 12th.

The California street Cable Company will pay a dividend of 50 cents per share next week.

CHARGE McLEAN WITH BAD FAITH

Merchants Annoyed at His Breaking the Canal Agreement.

His Statements About Sickness Not Borne Out by His Official Reports.

The Battle Between the Two Cities Will Have to Be Fought Out Again.

OAKLAND OFFICE SAN FRANCISCO CALL, 908 Broadway, July 8.

The Board of Trade of this city is considering what steps shall be taken to prevent the opposition of Alameda from stopping work in the harbor now there is money to the amount of $220,000 actually available for the work.

A few months ago an agreement was reached between the representatives of Oakland and Alameda by which the work should be carried on in a manner agreeable to both cities. This, it was thought by the Oaklanders, ended the long controversy. This was not so, for a week ago Dr. McLean, Health Officer of Alameda, went before the Supervisors and asked their indorsement of a new plan.

Dr. McLean's chief argument was that the people of Alameda were in danger from the odors of the canal, and that some were sick and others dying.

Dr. Dunn, Oakland's health officer, inspected the district around the canal and made a report in which he testified that the district was not in an unsanitary condition.

Edson Adams, who has recently spent a fortune in wharves and bunkers and harbor developments, declares that if any attempt be made at this time to retard the harbor improvement the War Department will probably again cease work until an agreement is reached that people will regard as binding.

"If the plan proposed in the latest resolution of Dr. McLean should be adopted it would practically amount to wasting most of the $220,000 now available for improving the harbor," said Edson Adams this morning.

"Dr. McLean's figures are at fault. Before the Supervisors yesterday he said things which are contradicted by his own official report. He knows that Alameda is not an unhealthy city, and yet he told the Supervisors that people were actually dying over there.

"It is not honorable for the representatives of Alameda to go back on their agreement made some months ago. The idea of Congress is to carry out some work that will add to the material advancement of commerce. Even if the canal should be as Dr. McLean says it is, but which he reports as being different, its completion is but a secondary matter, more in the nature of a sanitary measure than a commercial project. The tidal canal will be of of no benefit to commerce for many years, while the harbor is needed to-day."

Dr. McLean asserts that he is working in good faith for the benefit of Alameda, and it looks now as if all the negotiations will have to be commenced again.
